INDEPENDENT AUDITOR'S REPORT

To the Management of the
Excel Truck Group 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Excel Truck Group 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Excel Truck Group 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 12 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Excel Truck Group 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Excel Truck Group 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ABC Company Employee Benefit Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ABC Company Employee Benefit Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Assets Held for Investment Purposes as of or for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion -

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

EXCEL TRUCK GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2022 AND 2021

1. INFORMATION REGARDING THE PLAN

The following brief description of the Excel Truck Group 401(k) Plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General – The Plan is a defined contribution plan covering all employees of Virginia Truck Center, Inc., Virginia Truck Center of Richmond, Inc., and Charlotte Truck Center, Inc. (the Companies) who have completed one year of service and are at least 18 years old. As of October 1, 2021, employees are eligible after completion of six months of service and are at least 18 years old. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Certified Investments – Certain information related to investments disclosed in the accompanying financial statements and ERISA – required supplemental schedule, including investments held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Transamerica Life Insurance Company (the trustee of the Plan).

Contributions – Each year, participants may contribute up to the dollar limit set by law, which is \$20,500 and \$19,500 for 2022 and 2021, respectively, of pretax and/or after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investments options offered by the Plan. The Company contributes 50% up to 6% of \$60,000 annual compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Plan Sponsor. As of February 1, 2018, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation, increasing 1% annually until a 10% maximum and their contributions invested in a designated balance fund until changed by the participant.

Participant Accounts – Each participant's account is credited with the participant's payroll contributions and the employer's matching contribution and an allocation of the Plan earnings. Participant's accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Amounts forfeited by terminating participants of the plan are used to offset employer contributions.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. The portion of the participants' individual account attributable to employer contributions is fully vested after completion of six years of service. Participants' accounts become fully vested upon attainment of the normal retirement age of 65 or in the event of death or total disability.

Notes Receivable From Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the installment loans fund. Loan terms cannot be longer than five years, except for certain housing loans. The loans are secured by the balance in the participant's account and bear interest at the prevailing local market rate. Interest rates range from 3.25% to 9.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits – Distributions to participants or their beneficiaries are generally payable at the time of normal retirement, early retirement, death or disability while in the employ of the Company or following termination of employment. Various methods are available for settlement of a participant's vested account balance including lump-sum cash settlement and periodic payments.

In certain hardship situations, as described in the plan agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

Forfeitures – At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$2,220 and \$4,998, respectively. These amounts will be used to reduce future employer contributions and pay administrative expenses. In 2022 and 2021, employer contributions were reduced by \$39,613 and \$51,000, respectively from forfeited nonvested accounts.

Expense Budget Account – At December 31, 2022 and 2021, expense budget account totaled \$54,121 and \$102,628, respectively. The significant terms of expense offset arrangements with third parties whereby expenses are netted against income. Expense offset arrangements generally consist of fees being paid to a third-party service provider (for example, recordkeeper) directly through the use of investment fee rebates made available by the Plan's separate third-party investments manager.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General – The financial statements of the Plan are prepared on the accrual basis.

Use of Estimates – The preparation of financial statements in accordance with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The pooled separate accounts with Transamerica are stated at fair value as reported to the plan by Transamerica Life Insurance Company (Transamerica), based on the quoted market prices of the underlying mutual funds. The unit value of the pooled separate account is calculated by dividing the total value of the assets of the separate account by the number of units in the separate account. For separate accounts that invest exclusively in mutual funds, the total value of the assets of the separate account is based on the net asset value (NAV), or price per share, of the underlying mutual fund. The mutual fund calculates its NAV by dividing the mutual fund's net assets by the mutual fund's outstanding number of shares. Those separate accounts investing in mutual funds or equity securities are measured using quoted prices in active markets for identical assets. Those separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. The stable value fund is valued at contract value, and is based on its beginning balance plus any deposit and credited interest, less any withdrawals, charges or expenses, a measurement which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowances for credit losses has been recorded as of December 31, 2022 and 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2022 excess contributions to the applicable participants prior to March 15, 2023.

Payment of Benefits – Benefits are recorded when paid.

Expenses – Expenses of maintaining the Plan are paid by the Plan. Fees related to the administration of notes receivable from participants and fees related to the maintenance of individually directed accounts are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events – Management evaluated subsequent events through October 11, 2023 the date the financial statements were available to be issued.

3. INVESTMENTS

During 2022 and 2021, the Plan's investments (including investments bought, sold and held during the year) appreciated/(depreciated) in value by \$(4,710,343) and \$2,772,976, respectively as follows:

	2022	2021
Fair value as determined by quoted market prices -		
Pooled Separate Accounts	\$ (4,721,947)	\$ 2,762,843
Stable Value Fund	11,604	10,133
	<u>\$ (4,710,343)</u>	<u>\$ 2,772,976</u>

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- The pooled separate accounts with Transamerica are stated at fair value as reported to the plan by Transamerica, based on the quoted market prices of the underlying mutual funds converted into as unit value of the pooled separate accounts. Separate accounts directly investing in fixed maturity securities are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities. The net asset value of the pooled separate accounts is calculated daily and distributions from net investment income and net realized gains are retained by the trust.
- The stable value fund, is valued at contract value, and is based on its beginning balance plus any deposit and credited interest, less any withdrawals, charges or expenses, a measurement which approximates fair value.

		Fair Value Measurements Using	
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
<u>December 31, 2022</u>			
Pooled Separate Accounts	\$ 21,612,201	\$ 21,612,201	
Stable Value Fund	1,228,759		\$ 1,228,759
Total	<u>\$ 22,840,960</u>	<u>\$ 21,612,201</u>	<u>\$ 1,228,759</u>
<u>December 31, 2021</u>			
Pooled Separate Accounts	\$ 24,441,803	\$ 21,974,389	\$ 2,467,414
Stable Value Fund	1,606,686		1,606,686
Total	<u>\$ 26,048,489</u>	<u>\$ 21,974,389</u>	<u>\$ 4,074,100</u>

5. STABLE VALUE FUND

Transamerica offers a stable value fund that the participant may elect to transfer all or part of its funds. The stable value fund is considered to be a fully benefit-responsive investment contract. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits. Contract value, as reported by Transamerica, is the beginning balance plus any deposit and credited interest, less any withdrawals, charges or expenses, a measurement which approximates fair value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2022 and 2021 was \$1,228,759 and \$1,606,686, respectively. This investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and with no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return. The Transamerica Stable Value Option is not a separate account investment choice – it is an investment in Transamerica’s general account. The average yield of the stable value fund based on the actual earnings and interest credited to participants yielded 0.78% and 0.75% for the years ended December 31, 2022 and 2021, respectively.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger the another plan), (2) changes to the plan’s prohibition on competing investments options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan’s ability to transact at contract value with participants are probable.

6. RELATED PARTY TRANSACTION

Certain plan investments are units of pooled separate accounts managed by Transamerica Retirement Services. Transamerica Retirement Services, is the trustee as defined by the Plan and, therefore, these transactions qualify as related party transactions. Fees paid by the Plan for administrative and trust services amounted to \$14,915 and \$12,344 for the years ended December 31, 2022 and 2021, respectively. Fees paid for advisory fees amounted to \$20,835 and \$47,026 for the years ended December 31, 2022 and 2021, respectively. Fees paid for professional fees amounted to \$11,000 and \$7,875 for the years ended December 31, 2022 and 2021, respectively.

Certain administrative functions are performed by officers or employees of the Company. These employees are also plan participants. No such officer or employee receives compensation from the plan.

7. PLAN AMENDMENT OR TERMINATION

The Board of Directors of the Company may amend or terminate the Plan at any time. In the event the Plan is terminated, each participant will be entitled to his proportionate share of the assets available for plan benefits as of the termination date.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. RECLASSIFICATION

Certain items in 2021 have been reclassified to conform with 2022 presentations.
