INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of the Honeywell 401(k) Plan
Charlotte, North Carolina

Opinion

We have audited the financial statements of Honeywell 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

General

The Honeywell 401(k) Plan (the "Plan") is a defined contribution plan for certain employees of Honeywell International Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, ("ERISA") and the Internal Revenue Code ("Code"). The following represents a summary of key provisions of the Plan but does not purport to be complete and is qualified in its entirety by the terms of the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Administration

The Company's Vice President – Human Resources of Compensation and Benefits is the Plan Administrator and has full discretionary authority to manage and control the operation and administration of the Plan, including the power to interpret provisions of the Plan and to promulgate policies and procedures for the Plan's administration and to delegate administration of the Plan. The Savings Plan Investment Committee has the power and authority to enter into agreements with the trustee to provide for the investment of Plan assets and to appoint investment managers to direct such trustee, as appropriate. The trustee and custodian of the Plan is The Northern Trust Company (the "Trustee").

Administration services for the Plan are provided by Fidelity Investments Institutional Operations Company.

Contributions and Vesting

Participants are permitted to contribute from 1 percent to 30 percent of their "base pay" as defined in the Plan document during each pay period, subject to certain restrictions for "highly compensated employees", as defined in the Plan document. Participants may elect to make contributions to the Plan in any combination of before-tax, after-tax and Roth 401(k) contributions and may direct those contributions into any investment option available within the Plan. The investment options for participants consist of white-labeled, multi-managed funds that are proprietary to the Plan. The combined before-tax and Roth 401(k) contributions may not exceed $20,500 annually. In addition to regular before-tax, after-tax or Roth 401(k) contributions, eligible participants may also contribute up to $6,500 annually in catch-up contributions if they are or will attain age 50 by December 31st and are contributing at least 8 percent in before-tax contributions and/or Roth contributions to the Plan, or have contributed the maximum regular before-tax contributions to the Plan.

Depending on the rate designated for the participant's Participating Unit, as defined below, the Company makes contributions with respect to a participant's contributions up to a maximum of 8 percent of a participant's base pay. The Company does not match catch-up contributions. All of the Company's matching contributions are initially invested in the Honeywell Common Stock Fund. Vested participants may subsequently direct such matching contributions into any investment option available within the Plan.

A Participating Unit is a group of employees which has been designated as participating in the Plan. The Company may contribute on behalf of each participant between 0 percent and 87.5 percent of such participant's contribution to the Plan, depending upon the rate designated for the participant's Participating Unit.

There are two forms of Company matching contributions as follows: (i) variable Company matching contributions and (ii) non-variable Company matching contributions. Participating Units whose employees are covered by collective bargaining agreements or government contracts, the terms of which may change the Company match from time to time, receive the variable Company matching contributions, unless the collective bargaining agreement or government contract provides that the employees are eligible for the non-variable Company matching contributions.

Participating Units whose employees are not covered by collective bargaining agreements or government contracts (unless the collective bargaining agreement or government contract provides otherwise) are generally eligible for the non-variable Company matching contributions.

Participating Units covered by a non-variable match receive basic matching contributions whereby the Company matches 87.5 percent up to the first 8 percent of base pay that the participant contributes to the Plan (excluding rollover and catch-up contributions)

Employer matching contributions for the non-variable match participants are made annually in a lump sum by the end of the January following the calendar year-end. Participants must be actively employed on December 15th, disabled, or deceased to receive such match. There is no minimum service requirement to receive the annual match. Accordingly, the Statement of Net Assets Available for Benefits at December 31, 2022 and Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2022 include $208 million for company matching contributions earned in 2022 and paid by the Company to the Plan in January 2023.

Participants have a full and immediate vested interest in the portion of their accounts contributed by them and the earnings on such contributions. A participant will become 100 percent vested in any Company contributions upon completion of three years of vesting service or upon attainment of age 65 while an employee of the Company or an affiliated company. In addition, a participant's account will become 100 percent vested if the participant's termination with the Company or an affiliated company was due to any one of the following (i) retirement under the terms of a Honeywell pension plan in which the participant participates; (ii) disability (as defined under the plan provisions); (iii) death; (iv) a reduction in force or layoff (as determined by the Company); or (v) a participant's business unit is sold or divested. A participant will also become 100 percent vested in any Company contributions in the event the Company terminates or permanently discontinues contributions to the Plan.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (1) the Company's matching contribution, if applicable, and (2) investment earnings, and charged with an allocation of investment losses and administrative expenses. The allocation is based on participants' account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants
No new loans are permitted from the Plan. Interest rates for loans outstanding at December 31, 2022 and December 31, 2021 were between 3.25% and 10.5%.

Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan document to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a partial or full Plan termination, all Plan funds must be used in accordance with the terms of the Plan.

Distribution of Benefits
Upon termination of service with the Company, if a participant's vested account balance is $1,000 or less (including any rollover contributions), the entire vested amount in the participant's account can be distributed to the participant in a single payment, without his or her consent, unless the participant affirmatively elects to have the benefit rolled over to an eligible retirement plan.

If the vested amount in a participant's account is greater than $1,000 but less than $5,000 (excluding any rollover contributions), the participant's account will be automatically rolled over to a traditional IRA, unless the participant affirmatively elects to receive the amount in a single payment or have it rolled over to an eligible retirement plan.

If the participant's vested account balance exceeds $5,000 (excluding any rollover contributions), the balance in the account will remain in the Plan and shall be distributed (1) at the participant's request, (2) when the participant attains age seventy and one-half (70-½), through the payment of minimum required distributions, as defined by the Plan, or (3) upon the participant's death, whichever is earliest. When a participant dies, if his or her spouse is the beneficiary, the spouse may remain in the Plan under the same conditions as previously described for the participant. Otherwise, the entire amount in the participant's account is distributed in a single payment to the participant's beneficiary(ies).

Forfeitures
Forfeitures of the Company's contributions and earnings thereon due to terminations and withdrawals reduce contributions otherwise due from the Company. Company contributions made to the Plan were reduced by approximately $7 million due to forfeited nonvested accounts for the year ended December 31, 2022.

2. Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") using the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation
The Plan's assets are held in the Honeywell Savings and Ownership Plan Master Trust ("Master Trust") along with the assets of the Honeywell Puerto Rico Savings Plan, the Honeywell Secured Benefit Plan and the Intermec FSSP Spinoff Plan. The Plan's investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust for investment and administrative purposes. The Plan's investment is stated at fair value and is based on the beginning of year value of the Plan's interest in the Master Trust plus actual Plan contributions, any transfers of assets from other plan(s), and allocated investment income/(loss) less actual Plan distributions and expenses.

Notes Receivable from Participants
Notes receivable from participants are valued at cost plus accrued unpaid interest.

Payment of Benefits
Withdrawals and distributions to participants are recorded when paid.

Expenses
Most expenses relating to the administration of the Master Trust and managing the funds established thereunder are borne by the participating plans.

3. Interest in Honeywell Savings and Ownership Plan Master Trust

The Plan's investments are held in the Master Trust, which is commingled with the assets of the Honeywell Puerto Rico Savings Plan, the Honeywell Secured Benefit Plan and the Intermec FSSP Spinoff Plan. Each participating plan's interest in the Master Trust is divided based on the participants' investment elections. The allocation of income and expenses is based upon each plan's specific interests in the underlying plan investments, which are based upon participant-direction and Company direction of the investments.

The Master Trust and the Plan's interest in the Master Trust is comprised of the following types of investments, at fair value, as of December 31, 2022:

	2022	
	Master Trust Balances	**Plan's Interest in Master Trust Balances**

Investment Valuation and Income Recognition – Master Trust
Master Trust investments are stated at fair value. Interest income is recorded on the accrual basis, and dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/(depreciation) consists of both realized gains/(losses) on investments bought, sold and matured, as well as the change in unrealized gains/(losses) on investments held during the year.

From time to time, investment managers may use derivative financial instruments including foreign exchange forward and futures contracts. Derivative instruments are used primarily to mitigate exposure to foreign exchange rate and interest rate fluctuations as well as manage the investment composition in the portfolio. The Master Trust held no derivative instruments as of December 31, 2022 and 2021.

Determination of Fair Value
The accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value.

The Master Trust valuation methodologies for assets and liabilities measured at fair value are described below. The methods described as follows may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Valuation Hierarchy
The accounting guidance establishes a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follows:

- Level 1 — inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 — inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The following is a description of the valuation methodologies used for financial instruments measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Collective Trust Funds
Collective Trusts funds are investment vehicles utilized as or within the target date funds, equity index funds, investment grade bond fund, and global REIT fund. These funds permit daily subscriptions and redemption of units. These investments are valued using net asset values ("NAV") provided by the administrator of the underlying fund. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, divided by the number of units outstanding.

Collective Trust funds measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for Collective Trust funds are intended to permit reconciliation of the Master Trust's total investments, at fair value.

Honeywell International Inc. Common Stock, Other Common Stocks and Exchange Traded Funds
Honeywell International Inc. common stock is valued at the closing price reported on the New York Stock Exchange Composite Transaction Tape. Other common stocks and exchange traded funds are valued at the closing price reported on the principal market on which the respective securities are traded. Honeywell International Inc. common stock, other common stocks and exchange traded funds are all classified within level 1 of the valuation hierarchy.

Fixed Income Investments
Fixed income securities (other than commercial mortgage backed securities) are valued at the regular close of trading on each valuation date at the evaluated bid prices supplied by pricing vendors or brokers, if any, whose prices reflect broker/dealer supplied valuations and electronic data processing techniques. Commercial mortgage backed securities are valued using pool-specific pricing. The pool-specific pricing is provided by the pricing vendors and typically they use Interactive Data for these investments. Fixed income securities, including corporate bonds, U.S. government and federal agencies, Non-U.S. government, municipal bonds, commercial paper, bank deposits, asset-backed securities and commercial mortgage backed securities are classified within Level 2 of the valuation hierarchy. Certain of the asset-back securities contain components that are unobservable and therefore are classified within Level 3 of the valuation hierarchy.

Repurchase Agreements
The forward repurchase and reverse repurchase commitments are value based on the spread between the market value of the government security and the underlying collateral and therefore are classified within Level 2 of the valuation hierarchy.

The following tables present the Master Trust's assets measured at fair value as of December 31, 2022 and 2021, by the fair value hierarchy.

4. Party-In-Interest Transactions

The Master Trust is invested in the Company's common stock which qualifies as a party-in-interest transaction. During the year ended December 31, 2022, the Master Trust's investment in the Company's common stock included purchases of approximately $500 million, sales of approximately $752 million, realized gains of approximately $214 million (realized gains of approximately $213 million by the Plan), unrealized loss of approximately $119 million and dividend income of approximately

$83.5 million. The Master Trust invests in short term investment funds managed by the Trustee. These investments qualify as party-in-interest transactions. As described in Note 2 – "Expenses", the Plan paid certain expenses related to Plan operation and investment activity to the Trustee.

The Company is both the plan sponsor and a party to the Master Trust, therefore the Master Trust investment and the Plan's interest of $4.2 billion in the Company's common stock as of December 31 2022, qualifies as a related party transaction, along with the dividend income of $83 million earned by the Plan on this investment.

5. Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to certain risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

6. Federal Income Taxes

On January 21, 2016, the Plan received a favorable determination letter from the Internal Revenue Service indicating that the Plan satisfies the requirements of Section 401(a) of the Code and that the Plan qualifies as an Employee Stock Ownership Plan as defined in Section 4975(e)(7) of the Code. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and legal counsel believe that the Plan has been designed and is currently being operated in compliance with the applicable requirements of the Code. The Master Trust under the Plan is intended to be exempt under Section 501(a) of the Code. Accordingly, no provision for income taxes has been made.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. As of December 31, 2022 and 2021, the Plan Administrator has analyzed the tax positions by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2022 and 2021:
