First State Bank of Gainesville, Texas

Ownership Plan and Trust
Gainesville, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of First State Bank 401(k) Profit Sharing and Employee Stock Ownership Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of or for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

1. Description of the Plan

The following description of the First State Bank 401(k) Profit Sharing and Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, specifically, an employee stock ownership plan with 401(k) provisions that is intended to invest primarily in Red River BanCorp, Inc. (referred to as the Plan Sponsor or Company) common stock and managed investments which are funded by contributions from both the participants and the Plan Sponsor. The Plan was adopted on December 1, 1959 and is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Administrator and overseen by the Company's Administrative Committee which reports to the Company's board of directors. The Company's Administrative Committee determines the suitability of the Plan's investments and monitors the Plan's investments performance.

Eligibility

Employees become eligible for participation on the first eligibility date that coincides with or immediately follows completion of four months of service following their respective hire date. The Plan entry date is the immediate semi-annual date (January 1 or July 1) falling on or after the eligibility requirements are met.

Contributions

Each year, participants may contribute between 4% and 50% of their pre-tax annual compensation (as defined) subject to certain maximum limitations imposed by the Internal Revenue Code ("the Code"), as defined in the Plan. Participants may elect to make pre-tax deferrals or Roth deferrals. Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Rollover contributions are allowed only if such contributions will not jeopardize the tax-exempt status of the Plan and may be made prior to meeting the eligibility requirements for participation in the Plan. The Company may make discretionary contributions or discretionary matching contributions. During 2022, Company discretionary contribution and discretionary matching contributions included in Employer contributions on the accompanying statement of changes in net assets available for benefits totaled \$581,207 and \$610,885, respectively.

Investment Options

Participants must direct contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time throughout the year via internet or direct phone access to Principal.

The Plan currently offers a pooled separate account, various collective investment trust funds ("CIT"), various mutual funds and employer securities (stocks and bonds) as investment options for participants. The Plan's Qualified Default Investment Alternative ("QDIA") for those participants, including beneficiaries, who have not provided investment directions is the Principal LifeTime Hybrid target-date retirement CIT group of funds. Contributions are automatically invested in QDIA fund until changed by the participant.

On August 18, 2022, the Company's board of directors approved a 4-for-1 Stock split to increase the authorized shares of Company common stock. Accordingly, the Plan's investment in Company common stock (Employer securities) increased from 17,083 shares to 68,332 shares on August 18, 2022 with the effect of the stock split. See Note 5 for discussion of fair value measurements of Employer securities.

FIRST STATE BANK
401(K) PROFIT SHARING AND EMPLOYEE STOCK
OWNERSHIP PLAN

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's discretionary matching contributions (100% match on the first 4% of the participant's eligible compensation), and plan earnings and charged with an allocation of plan expenses. Allocations are based on participants' investment elections and earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus earnings or losses thereon. Vesting in the Company's contributions portion of discretionary matching and profit-sharing contributions is based on years of continuous service.

Vesting in Company contributions and dividends allocated to participant accounts with respect to any dividends attributable to shares of Company common stock made prior to January 1, 2022, shall be subject to the vesting schedule set forth below:

<u>Years of Vesting Service</u>	<u>Percentage Payable</u>
Less than 2 years	0%
2 but less than 3 years	20%
3 but less than 4 years	40%
4 but less than 5 years	60%
5 but less than 6 years	80%
At least 6 years	100%

Vesting in Company contributions and dividends allocated to participant accounts with respect to any dividends attributable to shares of Company common stock made on or after January 1, 2022, shall be subject to the vesting schedule set forth below:

<u>Years of Vesting Service</u>	<u>Percentage Payable</u>
Less than 1 years	0%
1 but less than 2 years	20%
2 but less than 3 years	40%
3 but less than 4 years	60%
4 but less than 5 years	80%
At least 5 years	100%

Notes receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 as long as the borrowed amount does not exceed the lesser of: (a) one-half of the participant's vested account balance or (b) \$50,000 reduced by the participant's greatest outstanding loan balance during the 12 months preceding the date of the loan. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 8.0% which are commensurate with local prevailing rates as determined periodically by the Plan administrator. Loans are required to be repaid within 5 years of the date of the loan except in the case of certain loans to acquire a principal residence, which may be repaid over a period not to exceed 30 years. Principal and interest are repaid ratably through payroll deductions.

FIRST STATE BANK
401(K) PROFIT SHARING AND EMPLOYEE STOCK
OWNERSHIP PLAN

Forfeitures

Terminated participants may forfeit the non-vested portion of their Employer Account balance. A forfeiture will occur in the Plan Year that a terminated participant receives a distribution of the entire vested Account, or after five consecutive one-year breaks in service for terminated participants who do not receive a distribution. However, forfeited account balances of a terminated participant will be restored according to the Plan when the participant is re-hired before incurring five consecutive one-year breaks in service, and the participant repays the full amount of the distribution before the end of the five-year period that begins on the date of re-employment. Unrestored forfeitures are retained in the Plan and are used to first pay for administrative expenses then to reduce future Employer contributions payable under the Plan. At December 31, 2022 and 2021, forfeited non-vested accounts totaled \$110,740 and \$91,640, respectively. During 2022, plan administrative expenses and Company contributions were reduced by \$22,591 and \$21,969, respectively from forfeited nonvested accounts. See Note 7 for other disclosure of related party and party-in-interest transactions.

Payments of Benefits

Payments for benefits under the Plan are recorded when paid. Upon termination of service due to death, disability or retirement, participants may receive a lump sum payment equal to their vested account balance. Participants who are also active employees can request a hardship withdrawal up to their vested account balance, subject to certain conditions and restrictions.

Participants aged 59½ years or older can make withdrawals from their vested account resulting from 401(k) elective deferral contributions, matching contributions, discretionary contributions, employee stock ownership component (ESOP) discretionary matching contributions, and ESOP discretionary contributions. To comply with certain requirements of the SECURE Act of 2019 and IRS regulations, the Plan requires participants to take their first RMD in the year they reach age 72.

Participants who are also active employees can request a hardship withdrawal up to their vested account balance, subject to certain conditions and restrictions. An active participant with a financial hardship may be able to withdraw all or any part of their vested account resulting from 401(k) elective deferral contributions provided the hardship distribution is for: (1) payment of medical expenses that would be tax deductible; (2) purchase of a primary home; (3) stop eviction from primary home, or stop foreclosure on such home; (4) payment of tuition, related educational fees, and room and board expenses for up to the next 12 months of post-secondary education of the participant, spouse, children, or dependents defined in the Plan; (5) burial or funeral expenses for a deceased parent, spouse, child, or dependents defined in the Plan; and (6) expenses to repair damage to primary home that would be tax deductible. To comply with certain requirements of the SECURE Act of 2019 and IRS regulations, the Plan has waived certain aspects of the substantiation rule requirements, and the six-month elective deferrals suspension rule for hardship distributions.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company may pay the purchase price in a single cash payment or in substantially equal periodic payments over a period of five years.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In the first five years, eligible participants may diversify up to 25 percent of their post-1986 shares in the Company stock (at fair market value of the Company stock based on the most recent valuation) allocated to their individual ESOP accounts. The 25 percent allocation is cumulative for all five years and is reduced in any year by any amounts previously diversified. In the sixth year, eligible participants may elect to cumulatively diversify up to 50 percent of their ESOP account.

2. Summary of Significant Accounting Policies

Date of Management's Review and Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure through October 12, 2023, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The net depreciation in the fair value of investments consists of the realized gains and losses on investments bought and sold as well as held during the year and unrealized appreciation (depreciation) of investments. The net change in unrealized appreciation (depreciation) in the fair value of investments is determined by the change in fair value from the beginning of the year to the end of the year or change in fair value from date of the purchase to the end of the year.

Purchases and sales are recorded on a trade date basis. Interest income and dividends are recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded.

If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document. The fair value disclosures for financial instruments are not required for participant loans. Also, participant loans continue to be considered as investments for Form 5500 reporting purposes.

Administrative Expenses

Officers or employees of the Company perform certain administrative functions of the Plan. However, such officers and employees receive no compensation from the Plan. Administrative expenses are paid by the Plan.

Payment of Benefits

Benefits are recorded when paid.

Prior Period Adjustment

Certain amounts previously reported have been adjusted to conform to the current format. The adjustment of participant loans (notes receivable from participants) balance at December 31, 2021 by \$824 increased the beginning notes receivable from participants balance by \$824, and the beginning changes in net assets available for benefits by \$824.

3. Information Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by Principal Trust Company, the trustee of the Plan.

	<u>2022</u>	<u>2021</u>
General securities, at fair value:		
Collective investment trusts	\$ 10,584,566	\$ 12,549,858

Interest and dividend income on investments	<u>\$ 238,910</u>	
Interest income on notes receivable from participants	<u>\$ 13,714</u>	

4. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive guaranteed investment contract (Custodial Guaranteed Interest Contract) with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive guaranteed investment contracts. However, the guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value because contract value approximates fair value. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fair value of the investment contracts at December 31, 2022 and 2021 was \$919,498 and \$786,858, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

5. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures* establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three broad levels of the fair value hierarchy are as follows:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority.
- Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1).
- Level 3 inputs consist of unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs are not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

Mutual funds - The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

Level 2 Fair Value Measurements

Collective investment trusts - The Plan's interest in the collective investment trust is based on the fair value of the collective trust's underlying investments based on information reported by the trustee using the audited financial statements of the collective trust at year end. Investments in this fund can be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals.

Pooled separate accounts – Pooled separate accounts ("PSAs") invests in mutual funds. The fair value of a mutual fund is a publicly quoted pricing input used in determining the net asset value ("NAV") of the PSA, which is not publicly quoted but is available to current investors via the Employer website or when plan participants access their account values. The NAV is the basis for current transactions and the PSAs can be redeemed at NAV as of the measurement date. The fair value of the underlying mutual fund is based on third-party pricing vendors and utilize observable market information. PSAs typically can be redeemed on a daily basis.

Level 3 Fair Value Measurements

Guaranteed interest account - The Plan's investment contract with insurance company is an annuity contract backed by the assets in the general account of an insurance company. Due to the nature of this contract, there are not specific underlying assets assigned. Since these contracts cannot be sold, transferred, or assigned externally, there is limited market data to support valuation. Because most participant transactions are executed using contract value without adjustment, The Plan believes contract value (determined on a quarterly basis) approximates fair value.

Employer securities - The fair value of Company common stocks is measured at estimated fair market value based on the valuation of an independent third-party valuation specialist. The value per share (excluding market/liquidity constraints) is determined using a combined valuation approach which considers the fair market value per share of blocks of company common stocks owned by the Plan using the income value approach and the market value approach. The determined fair value is then discounted to account for lack of marketability/liquidity. During each of the years presented, the marketability/liquidity discount was 5%. At December 31, 2022, as a result of the 4-for-1 stock split discussed in Note 1 under the Investment Options caption, the estimated fair value for each of the 68,332 shares of Company common stock owned by the Plan was \$247 per share. At December 31, 2021, the estimated fair value of the 17,083 shares of Company common stock owned by the Plan was \$960 per share (\$240 per share adjusted for the stock split). See Note 7 for additional disclosures of parties-in-interest transactions.

6. Note Payable to Plan Sponsor

On October 26, 2021, the First State Bank 401(k) Profit Sharing and Employee Stock Ownership Trust (“the Plan or borrower”) entered into another 80-26 Loan Agreement with the Company (“Plan Sponsor or lender”) in the amount of \$600,000 for the purpose of providing liquidity to fund the Plan’s 2021 ESOP obligations to: (1) certain participants desiring to utilize the diversification provisions of Section 4.02(b) of the Plan to diversify a portion of their Accounts holding Company common stocks into other investment alternatives offered within the Plan; and, (2) certain terminated participants currently entitled to distributions from the Plan and utility of the diversification provisions of Section 4.02(b) of the Plan. The related Term Note from the Plan is executed in favor of the Plan Sponsor and is unsecured, interest-free, and intended to comply with the provisions of United States Department of Labor Prohibited Transaction Class Exemption Number 80-26, as amended. As such, the Plan is required to exclusively use the loan proceeds for the payment of ordinary operating expenses of the Plan, including the payment of benefits in accordance with the terms of the Plan. The 2021 Term Note principal balance of \$600,000 included in liabilities on the accompanying 2021 statement of net assets available for benefits was timely paid in full during 2022.

On November 10, 2022, the First State Bank 401(k) Profit Sharing and Employee Stock Ownership Trust (“the Plan or borrower”) entered into a 80-26 Loan Agreement with the Company (“Plan Sponsor or lender”) in the amount of \$1,200,000 for the purpose of providing liquidity to fund the Plan’s 2022 ESOP obligations to: (1) certain participants desiring to utilize the diversification provisions of Section 4.02(b) of the Plan to diversify a portion of their Accounts holding Company common stocks into other investment alternatives offered within the Plan; and, (2) certain terminated participants currently entitled to distributions from the Plan and utility of the diversification provisions of Section 4.02(b) of the Plan. The related Term Note from the Plan is executed in favor of the Plan Sponsor and is unsecured, interest-free, and intended to comply with the provisions of United States Department of Labor Prohibited Transaction Class Exemption Number 80-26, as amended. As such, the Plan is required to exclusively use the loan proceeds for the payment of ordinary operating expenses of the Plan, including the payment of benefits in accordance with the terms of the Plan. The 2022 Term Note’s outstanding principal balance of \$1,200,000, included in liabilities on the accompanying 2022 statement of net assets available for benefits, is due and payable in full on or before November 10, 2023.

The 80-26 loan transactions qualified as a party-in-interest transaction that are exempt from the prohibited transaction rules of ERISA. See Note 7 for additional disclosures of related party and party-in-interest transactions.

7. Related Party and Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan or any party rendering services to the Plan, the Company, and certain others.

Certain plan investments are shares or units of collective investment trusts, pooled separate accounts, mutual funds and guaranteed interest contract managed by the trustee of the Plan, Principal Trust Company (“PTC”), a member company of the Principal Financial Group (“PFG”). Therefore, PTC is a party-in-interest under ERISA and transactions with PTC qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are included in net depreciation in fair value of investments within the investment income caption on the accompanying statement of changes in net assets available for benefits, as they are paid through investment revenue sharing arrangements rather than direct payment arrangements.

Plan transactions and records are administered by Principal Life Insurance Company (“PLI”), a member company of PFG. PLI is also the Plan’s third-party contract administrator. Therefore, PLI is a party-in-interest under ERISA and transactions with PLI qualify as party-in-interest transactions. Fees paid by the Plan to PLI for contract administration and recordkeeping services are presented as administrative expenses on the accompanying statement of changes in net assets available for benefits. During 2022, the Plan paid \$86,258 in administrative expenses to PLI.

Wilshire Associates, Inc., (“WAI”), is the Plan’s third-party provider of investments advisory services. Therefore, PFA is a party-in-interest under ERISA and transactions with WAI qualify as party-in-interest transactions. Fees paid by the Plan for investment advisory services are included in net depreciation in fair value of investments within the investment income caption on the accompanying statement of changes in net assets available for benefits, as they are paid through investment revenue sharing arrangements rather than direct payment arrangements.

Woodbury Financial Services, Inc., (“WFS”), is the Plan’s third-party provider of brokerage services. Therefore, PFA is a party-in-interest under ERISA and transactions with WFS qualify as party-in-interest transactions. WFS receives indirect compensation from the investment product companies affiliated with the Plan Trustee. Indirect compensation in the amount of \$34,528 paid to WFS for brokerage services are netted in net depreciation in fair value of investments within the investment income caption on the accompanying statement of changes in net assets available for benefits, as they are paid through investment revenue sharing arrangements rather than direct payment arrangements.

Certain plan investments are shares of common stock of Red River BanCorp, Inc. (Plan Sponsor or Employer) managed by the Trust department of the Plan Sponsor. As discussed in Note 1 under the Investment Options caption, in August 2022, the Company common stocks underwent a 4-for-1 stock split. Accordingly, at December 31, 2022 and 2021, the investment in Company common stock represents 68,332 shares and 17,083 shares of Company common stock, respectively, recorded at estimated fair value based on an annual appraisal performed independently for the Plan by The Bank Advisory Group, LLC (“BAG”), a third-party valuation specialist. The Plan Sponsor, its Trust department, and BAG are parties-in-interest under ERISA and transactions with the Plan Sponsor, its Trust department, and BAG qualify as party-in-interest transactions. No fees are charged for transactions between the Plan and the Sponsor or its Trust Department. Fees incurred by the Plan for Company common stock valuation services provided by BAG are absorbed fully by the Plan Sponsor and are, therefore, neither disclosed nor included or accrued on the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

Payne & Smith, LLC is the Plan’s independent public accountant (“IPA”) as defined by the Plan. Therefore, the IPA is a party-in-interest under ERISA and transactions with the IPA qualify as party-in-interest transactions. Fees incurred by the Plan for audit and nonattest services provided by the IPA are absorbed fully by the Company and are, therefore, neither disclosed nor included or accrued on the accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits.

As more fully discussed in Note 6, on November 10, 2022 and October 26, 2021, the Plan entered into separate 80-26 Loan agreements between the Plan and the Plan Sponsor for the purpose of providing the Plan with liquidity to fund the Plan’s ESOP obligations incurred during 2022 and 2021, respectively. The Plan Sponsor is a party-in-interest under ERISA and transactions with the Plan Sponsor qualify as party-in-interest transactions. The 2021 Term Note’s outstanding principal balance of \$600,000 at December 31, 2021 was timely paid in full during 2022. The 2022 Term Note’s outstanding principal balance of \$1,200,000 at December 31, 2022 is due and payable in full on or before November 10, 2023.

These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

8. Tax Status

The Plan obtained its latest determination letter on September 18, 2013, in which the Internal Revenue Service (“IRS”) stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

9. Plan Termination

While there is no intention to do so, the Company reserves the right to terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their employer contribution balances, and the net assets of the Plan will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

10. Risks and Uncertainties

The Plan provides for various investment options in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risks associated with investment securities, and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants’ account balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

The following table presents concentrations of investments that represented 5% or more of the Plan’s net assets at December 31, 2022 and 2021:

	<u>2022</u>	<u>2021</u>
Collective investment trusts:
