INDEPENDENT AUDITOR'S REPORT

To the Committee Members of the Pension Plan for Employees of
The Ohio National Life Insurance Company

Opinion

We have audited the accompanying financial statements of The Pension Plan for Employees of The Ohio National Life Insurance Company, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2022, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Pension Plan for Employees of The Ohio National Life Insurance Company, as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of January 1, 2022, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Pension Plan for Employees of The Ohio National Life Insurance Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Pension Plan for Employees of The Ohio National Life Insurance Company's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Pension Plan for Employees of The Ohio National Life Insurance Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Pension Plan for Employees of The Ohio National Life Insurance Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of *Schedule of Assets Held at End of Year* and *Schedule of Reportable Transactions* are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

13. Actuarial Value of Assets:

Market Value.

14. Rationale for Assumptions:

The IRS segment rates and mortality tables used to determine minimum funding and maximum deductible amounts are pursuant to IRS regulations. The discount rate for accounting liabilities was selected by the plan sponsor based upon a yield curve obtained from Ohio National's investment department, unreduced for expenses, and extended to 30 years by the final rate and 4.00% beyond. The selection of other actuarial assumptions is based on the actuary's best estimate of future expectations based on an examination of historical results compared to expectations, periodic experience studies, Society of Actuaries mortality studies, and any reasonably certain information about future expected plan changes.

15. Changes Since Last Year:

The interest rates used to determine the Target Liability were updated as required by IRS regulations.

The mortality table used to determine the Target Liability was updated to the IRS 2022 Static Mortality Table as required by IRS regulations.

The Ohio National Life Insurance Company

Opinion

We have audited the accompanying financial statements of The Pension Plan for Employees of The Ohio National Life Insurance Company, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of January 1, 2022, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Pension Plan for Employees of The Ohio National Life Insurance Company, as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of January 1, 2022, and the changes in its accumulated plan benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Pension Plan for Employees of The Ohio National Life Insurance Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Pension Plan for Employees of The Ohio National Life Insurance Company's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Pension Plan for Employees of The Ohio National Life Insurance Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Pension Plan for Employees of The Ohio National Life Insurance Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of *Schedule of Assets Held at End of Year* and *Schedule of Reportable Transactions* are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS**

NOTE 1 DESCRIPTION OF THE PLAN

The following description of The Pension Plan for Employees of The Ohio National Life Insurance Company (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

GENERAL - The Plan is a defined benefit pension plan providing retirement benefits to all eligible employees. The Plan sponsor is the Ohio National Life Insurance Company (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Eligible employees are all common law employees of the Company who were employed prior to January 1, 1998. Employees are eligible to participate in the Plan after completing five years of service with the Company.

The Plan is administered by the Company's Pension Committee (Committee), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

FUNDING POLICY - The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2022 and 2021, the Company made contributions of \$0 and \$0, respectively. The Company met or exceeded the minimum funding requirement of ERISA for 2022 and 2021. Effective December 31, 2019, the Plan is frozen. However, Company contributions could still be required after that date.

PENSION BENEFITS - Employees with 5 or more years of service hired after January 1, 1996 and before January 1, 1998 are entitled to monthly retirement benefits beginning at normal retirement age equal to 1.00% of average monthly compensation plus 0.75% of average monthly excess compensation multiplied by the number of years in the participant's period of service not to exceed 35 years. Employees with 5 or more years of service hired before 1996 are entitled to monthly retirement benefits beginning at normal retirement age equal to 1.15% of average monthly compensation plus 0.75% of average monthly excess compensation multiplied by the number of years in the participant's period of service not to exceed 35 years. For service after December 31, 2000, these same employees are entitled to 1.25% and 0.75% of average monthly compensation and average monthly excess compensation, respectively, multiplied by the participant's period of service not to exceed 35 years. Average monthly compensation means one-sixtieth (1/60) of participants compensation for the 5 individual fiscal years during which compensation was the highest out of the 10 fiscal years immediately prior to any benefit determination, or over the participant's total period of employment if less. Average monthly excess compensation means average monthly compensation in excess of the monthly integration base. The plan permits early retirement at age 55 to 64 provided a specified number of years of service are met.

**THE PENSION PLAN FOR EMPLOYEES OF
THE OHIO NATIONAL LIFE INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Employees may elect to receive their benefits in the form of a joint and survivor annuity, an annuity for ten years certain and life thereafter, a life annuity with or without a period certain, a life annuity with a 75% or 100% survivor annuity, or such other life annuity option as may be available from the Insurer under the Contract. Fixed or variable annuity options are also available. Employees who terminate employment prior to the earliest retirement date having a vested accrued benefit with a present value of less than \$10,000 may be cashed out of the plan. The Plan is frozen as of December 31, 2019 and participants will not accrue any additional pension benefits after that date.

DEATH AND DISABILITY BENEFITS - If an employee with a vested interest in any retirement benefit dies prior to commencement of any retirement benefits, a lump sum death benefit shall be payable to the employee's beneficiary.

Upon total and permanent disability an employee shall continue to be credited with years of service under the Plan until normal retirement age is reached. The employee shall be entitled to all benefits under the Plan determined as if the employee had remained in active employment until normal retirement age and had continued to earn during disability the rate of monthly compensation in effect prior to the disability. The full benefit at Normal Retirement Date shall be paid at the same time Normal Retirement benefits would have been paid in the absence of disability. Prior thereto, no benefits determined with respect to disability will be paid under this Plan. The Plan is frozen as of December 31, 2019 and participants will not accrue any additional death and disability benefits after that date.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING – The accompanying financial statements are prepared on the accrual basis of accounting.

USE OF ESTIMATES - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION - The Plan's deposit administration contract with The Ohio National Life Insurance Company is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Funds under the investment contract with insurance companies that have been allocated and applied to purchase annuities (that is, Ohio National is obligated to pay the related pension benefits) are excluded from the Plan's assets.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

**THE PENSION PLAN FOR EMPLOYEES OF
THE OHIO NATIONAL LIFE INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS**

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PAYMENT OF BENEFITS - Benefit payments to participants are recorded upon distribution.

ADMINISTRATIVE EXPENSES - The Plan's expenses are paid by the Company and are excluded from these financial statements.

SUBSEQUENT EVENTS - The plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during the last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation over the highest five years in the final ten years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by the plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2022 and 2021 were (a) mortality of participants (the IRS Static Mortality Table), (b) retirement age (the assumed average retirement age was 63), and (c) investment return. The 2022 and 2021 valuations included ASC 960 discount interest rates of 3.10% and 2.75%, respectively. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022 and 2021. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 4 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Any accrued benefit derived from employee contributions.
2. Retirement benefits which were available to participants three years prior to the date of termination of the Plan.
3. Retirement benefits available to participants at the date of termination of the plan.
4. The vested portion of accrued benefits derived from employer contributions.
5. Vested benefits not permitted to be granted priority under (2) through (4) because of limitations of law or regulations.
6. Other accrued benefits derived from employer contributions.
7. Excess, if any, of the full funding limitation amount over amounts previously allocated.

Benefits to be provided via contracts under which Ohio National Life Insurance Company (note 7) is obligated to pay the benefits would be excluded for allocation purposes.

**THE PENSION PLAN FOR EMPLOYEES OF
THE OHIO NATIONAL LIFE INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS**

NOTE 4 PLAN TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at fair value based primarily on market quotations of the underlying securities. The underlying securities are mutual funds that are fair valued using the quoted net asset value. The net asset value is calculated using market observable data and the mutual funds are restricted to contract holders.

Fixed accumulation account: Valued at fair value by using a unit value of 1.00 per unit.

THE OHIO NATIONAL LIFE INSURANCE COMPANY

NOTE 5 FAIR VALUE MEASUREMENTS (CONTINUED)

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

NOTE 6 CONTRACT WITH INSURANCE COMPANY

In May 1997, the Plan entered into a deposit administration contract with The Ohio National Life Insurance Company (GP 9018). On June 13, 2017, a new contract was entered into with Ohio National (GP 4996). All assets from GP 9018 were transferred to GP 4996.

The Ohio National Life Insurance Company maintains the Plan contributions in unallocated fixed and variable accumulation accounts. As of the last day of each calendar year, Ohio National credits the fixed accumulation account with interest at Ohio National's earned interest rates. The value of the variable accumulation accounts is dependent upon the investment results of separate accounts of Ohio National.

Benefits under the Plan are provided by the purchase of annuities from Ohio National at rates per the contract. Funds to purchase the annuities are withdrawn from the fixed accumulation account.

NOTE 7 TAX STATUS

The Plan obtained its latest determination letter on August 22, 2013, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

**THE PENSION PLAN FOR EMPLOYEES OF
THE OHIO NATIONAL LIFE INSURANCE COMPANY
NOTES TO FINANCIAL STATEMENTS**

NOTE 8 RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Plan investments are held and managed by The Ohio National Life Insurance Company. Ohio National is the Plan administrator as defined by the Plan and, therefore, these transactions qualify as party-in-interest. For 2022 and 2021, fees were charged by reducing the rate of return on earnings of the underlying investments and cannot be separately identified.

Administrative fees of \$16,500 and \$14,800 for 2022 and 2021, respectively, were paid by the Company.

Several employees of The Ohio National Life Insurance Company provide administrative and actuarial services to the Plan. These services include Plan oversight and day-to-day plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan has implemented certain requirements by the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which laws change the Plan to, among others, allow certain eligible individuals to receive coronavirus-related relief for loan repayment, suspend required minimum distributions, and delay the commencement date for required minimum distributions. The optional features within these acts are currently being assessed but have not been implemented to date. Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

NOTE 10 SUBSEQUENT EVENT

Per discussion with the plan attorney, the Plan could receive money as part of the demutualization of the group annuity contract in 2022. The Plan has filed for an exemption letter with the DOL so that the money would not be considered a prohibited transaction and can be received by the Plan.

Management has performed an analysis of the activities and transactions subsequent to December 31, 2022 to determine the need for any adjustments to and/or disclosures within the financial statements for the year ended December 31, 2022. Management has performed their analysis of subsequent events through October 11, 2023, the date the financial statements were issued and determined no adjustments were needed.
