INDEPENDENT AUDITOR'S REPORT

The Plan Administrator and Participants
Morris Bank 401(k) and Employee Stock Ownership Plan
Dublin, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Morris Bank 401(k) and Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Morris Bank 401(k) and Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Morris Bank 401(k) and Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Morris Bank 401(k) and Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Morris Bank 401(k) and Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Assets Held at End of Year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

The Plan Administrator and Participants
Morris Bank 401(k) and Employee Stock Ownership Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Morris Bank 401(k) and Employee Stock Ownership Plan (the KSOP) provides only general information. Participants should refer to the KSOP plan document for a more complete description of the KSOP's provisions.

Plan Conversion

Prior to January 1, 2012, Morris Bank (the Bank), a subsidiary of Morris State Bancshares, Inc., a financial holding company (the Company), sponsored a defined contribution plan named the Morris Bank Section 401(k) Profit Sharing Plan (the 401(k) Plan) covering eligible employees of the Bank. Effective January 1, 2012, the 401(k) Plan was converted into a profit sharing plan with a cash or deferral feature of an employee stock ownership plan to form the KSOP. All participants in the 401(k) Plan on December 31, 2011 became participants in the KSOP plan on January 1, 2012.

General

References herein to the Company include the Company and Bank, unless the context otherwise specifies.

The KSOP consists of two components. One component is a profit sharing plan under Section 401(k) of the Internal Revenue Code (IRC). The other component is a qualified stock bonus plan under IRC 401(a) and as an employee stock ownership plan under IRC 4975(e)(7). The KSOP is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The KSOP holds common shares of the Company and holds the stock in a trust. The Company has no rights against shares once they are allocated under the KSOP. Accordingly, the financial statements of the KSOP present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock ("Allocated") and stock not yet allocated to employees ("Unallocated").

Eligibility

Employees of the Company are generally eligible to participate in the KSOP by making elective deferrals and receiving Company matching contributions as of the first day of the month immediately following the earlier of (1) three months of continuous service measured from the date the employee first performs an hour of service for the Company upon hire or rehire or (2) completes eligibility service. Eligibility service means a twelve consecutive month period during which the employee completes no less than 1,000 hours of service beginning on the date on which the employee first performs an hour of service upon employment or reemployment with the Company or working at least 1,000 hours during any plan year thereafter.

Contributions

Each year, participants may contribute up to 16% of pre-tax annual compensation, as defined in the KSOP. Participants who have attained age 50 on or before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the KSOP.

NOTE 1 – DESCRIPTION OF PLAN

Contributions

The Company matches 100% of the first 3% of the participant's annual compensation deferred by the participant to the KSOP and 50% of the next 2% of the participant's annual compensation deferred by the participant to the KSOP. Contributions are subject to certain IRC limitations. During the years ended December 31, 2022 and 2021, the Company made matching contributions totaling $451,256 and $417,538, respectively to the KSOP.

The Company may make contributions to the ESOP discretionary accounts in cash or Company stock in such an amount determined by the Plan Sponsor, provided however, that the amount is sufficient to pay all required payments of interest and principal under any and all acquisition loans. Each participant who is an eligible employee during the plan year, completes 1,000 hours of service during the plan year, is employed by the Company on the last day of the plan year, reached a retirement date during the plan year or while an eligible employee died or became subject to disability during the plan year is entitled to an allocation of Company contributions. During the years ended December 31, 2022 and 2021, the Company contributions to the ESOP component were $246,561 and $370,955, respectively.

Participant Accounts

Individual accounts are maintained for each KSOP participant. Each participant account is credited with the participant's contributions, the Company's matching contributions, Company discretionary contributions to the ESOP, and the participant's share of the KSOP's earnings (losses). Eligible shares of the Company's common stock to be allocated is released by the Trustee from the unallocated account. Allocations of shares of the Company's stock are based on the participant's eligible balance in the associated cash relative to total associated cash. KSOP earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and matching accounts plus actual earnings thereon. Vesting in the discretionary contribution portion of their accounts plus earnings is based on years of continuous service. Company discretionary contributions vest in 20% increments for years one through four with the participant being 100% vested at five or more years of service. One year of service for vesting purposes consists of the attainment of at least 1,000 hours of service during the Plan year. A participant is 100% vested upon normal retirement age, upon death, or upon totally and permanently disabled.

Investment Options

Participants may direct employee and Company matching contributions into various investment options offered by the KSOP. As of December 31, 2022, the KSOP's investment options include mutual funds and Company common stock. Each participant who is an employee, has completed ten years of membership in the ESOP and attained age 55 may elect to direct the KSOP to diversify a number of shares of Company stock equal to 25% of the Company stock that has been allocated to the participant's accounts in the ESOP valued as of the valuation date preceding the date of diversification reduced by the number of shares of Company stock previously diversified. If the fair market value of Company stock allocated to a participant's account in the ESOP is $500 or less, the diversification election is not permissible.

NOTE 1 – DESCRIPTION OF PLAN

Notes Receivable from Participants
The KSOP does not allow participants to borrow from their fund accounts.

Payment of Benefits
On termination of service due to death, disability, retirement, or other terminations of employment, a participant or, in the case of death, the participant's beneficiary, may choose to receive account distributions either in the form of a lump-sum payment or substantially equal installments over a period of time as defined by the KSOP agreement. Distributions may be made in the form of cash or in Company stock. Stock distribution may be subject to restrictions on transfer and to rights of the KSOP and the Company to repurchase the shares.

Put Option
Under Federal income tax regulations, the Company stock held by the KSOP and its participants is not readily tradable on an established market. The participant is entitled to require that the employer repurchase the securities under the fair valuation formula as provided by governmental regulations. If the participant received a lump sum distribution of his portion of the ESOP fund in the form of Company stock, the Company can pay for the purchase with interest over a period of five years or not less than 30 days after the exercise of the put if the participant received an installment distribution of his portion of the ESOP fund in the form of Company stock, if the fair market value of the stock exceeds a specified limit described in the plan document.

Voting Rights
The Trustee is entitled to exercise voting rights attributable to the shares held by the KSOP. Participants have certain rights to direct the Trustee's voting. Each eligible participant is entitled to instruct the Trustee on how to vote the shares of Company common stock held in the participant's KSOP account in certain circumstances as defined in the KSOP.

Forfeitures
Forfeitures of participants' nonvested accounts are used to restore accounts and any remaining funds will be reallocated to participants entitled to an allocation in the same manner as discretionary contributions are allocated. Unallocated forfeiture balances as of December 31, 2022 and 2021, totaled $11,624 and $10,400, respectively, and there were no forfeitures used to reduce employer contributions for 2022 and 2021.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment – Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the KSOP's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The KSOP's administrative expenses for the Trustee are paid by either the KSOP or the Company, as provided by the Plan document. The Company paid all costs of administering the KSOP except for processing fees for hardship withdrawals. Expenses paid by the Company are excluded from these financial statements. Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the KSOP.

NOTE 3 – TAX STATUS

The KSOP has received a determination letter from the Internal Revenue Service (IRS) dated November 14, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. Although the KSOP has been amended since receiving the determination letter, the KSOP's Administrator and the KSOP's tax counsel believe the KSOP is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the KSOP is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require KSOP management to evaluate uncertain tax positions taken by the KSOP and recognize a tax liability (or asset) if the KSOP has taken an uncertain position that more likely than not would be sustained upon examination. The KSOP is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 4 – CERTIFIED INVESTMENT INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2022 and 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Benefit Trust Company (the trustee of the Plan). This information has not been audited by the Plan's independent auditors.

NOTE 5 – FAIR VALUE MEASUREMENTS

The KSOP's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the KSOP believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in different fair value measurement at the reporting date.

The KSOP utilizes Accounting Standards Codification (ASC) 820, *Fair Value Measurements*. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The KSOP uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2
Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3
Inputs to the valuation method are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds
These investments are valued at the closing price reported on the active market on which individual securities are traded at the end of the plan year.

NOTE 5 – FAIR VALUE MEASUREMENTS

Morris State Bancshares, Inc. Common Stock

The fair value of the Sponsor Company common stock held by the KSOP is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and forecasted financial information, financial position as of the valuation date, trends in the external, competitive market place as of the valuation date, market comparables, condition and trends of the general economy and other appropriate factors.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the KSOP believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the financial assets measured at fair value on a recurring basis as of December 31, 2022 and 2021 aggregated by the level in the fair value hierarchy within which those measurements fall:

	Fair Value Measurements at December 31, 2022

NOTE 6 – COMPANY DIVIDENDS

The Company paid dividends to the KSOP of $301,611 and $247,191 during the years ended December 31, 2022 and 2021.

NOTE 7 – RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The KSOP invests in certain funds and accounts managed by Benefit Trust Company. Benefit Trust Company is the KSOP's trustee and third party administrator. These transactions qualify as party-in-interest transactions. Certain plan investments are shares of Morris State Bancshares, Inc. common stock. Morris Bank is the plan sponsor and, therefore, transactions related to this common stock, including dividend income earned by the KSOP, qualify as party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the KSOP to discontinue its contributions at any time and to amend or terminate the KSOP subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts and plan funds will be used to provide benefits as set forth in the Plan document, subject to the provisions of ERISA.

NOTE 9 – RISKS AND UNCERTAINTIES

The KSOP utilizes various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

The KSOP assessed events that have occurred subsequent to December 31, 2022 through October 12, 2023, the date upon which the financial statements were available to be issued, for potential recognition and disclosure in the financial statements. No significant matters were identified impacting the KSOP's financial position or requiring further disclosure.
