Independent Auditor's Report

To the Plan Administrator and Participants of
Pacific University Section 403(b) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pacific University Section 403(b) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Pacific University Section 403(b) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Pacific University Section 403(b) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific University Section 403(b) Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such

procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Pacific University Section 403(b) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Pacific University Section 403(b) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, and the schedule of delinquent participant contributions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or are derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**PACIFIC UNIVERSITY
SECTION 403(b) PLAN**

Notes to Financial Statements

December 31, 2022 and 2021

(1) Description of the Plan

The following description of the Pacific University Section 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a 403(b) defined contribution plan, covering all employees of Pacific University (Pacific) except for students enrolled at Pacific who perform services and regularly attend classes and temporary faculty and staff, as defined in the Plan document. The Plan has an effective date of January 1, 1947 and was amended and restated effective October 1, 2017. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Pacific is the Plan's sponsor and serves as the Plan Administrator. The custodians of the Plan are Teachers Insurance and Annuity Association – College Retirement Equities Fund (TIAA-CREF) and Variable Annuity Life Insurance Company (VALIC).

Effective April 1, 2020, the Plan adopted the distribution provision of the Coronavirus Aid, Relief, and Economic Security ("CARES") Act that was signed into law on March 27, 2020. A CARES Act distribution allowed the Plan's participants to take a COVID-19 related distribution up to \$100,000 from the Plan beginning on or after January 1, 2020 and before December 31, 2020. Additionally, the Plan adopted the temporary loan repayment deferral provision of the CARES Act. The deferral provision adopted by the Plan allowed qualified Plan participants who have Plan loan repayments to defer such repayments until December 31, 2020. The Plan also adopted the CARES Act loan provision which raised the limits for qualified Plan loans to \$100,000 or 100% of the present value of the participant's vested account balance for loans issued beginning March 27, 2020 and ending September 23, 2020.

(b) Eligibility

Employees are eligible to participate in the Plan on the first day of employment, provided they are not a student. Eligible employees, except adjunct faculty, are eligible to receive employer contributions after completing one year of service with Pacific. An eligible employee will receive credit for a year of service if the individual worked at least half time for an educational institution during the entire 12 month period preceding employment with Pacific.

(c) Contributions

Eligible employees can defer up to 100% of their eligible compensation into the Plan, up to the maximum allowed by the Internal Revenue Code (IRC). Participants are allowed to make additional catch-up contributions to the Plan if they are 50 years of age or older as of the end of the Plan year. Pacific will make an employer contribution equal to 9% of the employee's eligible compensation.

Contributions are made to the Plan each pay period. Additionally, participants are permitted to make rollover contributions to the Plan from other qualified plans, an individual retirement account or annuity.

(d) Participant Accounts

Each participant's account is credited with employee and Pacific's contributions and allocated with Plan earnings and administrative expenses, as applicable. Allocations are based on compensation or account balances, as defined by the Plan document. Participants may direct their account balances into a variety of investment options offered by TIAA-CREF. During 2019, participants with balances in the VALIC separate accounts had their balances liquidated and transferred to TIAA-CREF. Those balances invested in the VALIC investment contracts will be liquidated and transferred to TIAA-CREF over a five-year period. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The participant accounts are valued daily.

(e) Vesting

Participants are immediately vested in their employee, rollover and employer contributions and earnings thereon.

(f) Plan Loans

Loans are available to participants through TIAA-CREF, subject to certain limitations. Plan loans are issued directly from the funds held by TIAA-CREF and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA Traditional Annuity account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. For active loans, investments equal to 110% of the outstanding loan amount serve as collateral for the loan. Investments underlying defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution event occurs.

At December 31, 2022 and 2021, participants had outstanding Plan loan balances due to TIAA-CREF of \$802,172 and \$138,016, respectively.

Loans were previously available to participants through VALIC, subject to certain limitations. Plan loans were issued directly from the funds held by VALIC. At December 31, 2022 and 2021, participants had outstanding Plan loan balances due to VALIC of \$3,726 and \$48,631, respectively. Issuance of these Plan loans has no impact on the statements of net assets available for benefits.

(g) Notes Receivable from Participants

Participants may borrow the lesser of \$50,000 or 50% of their vested account balance, subject to certain restrictions with a minimum loan amount of \$1,000. Loans are secured by the vested account balance of the participant. Loans are repayable through payroll deductions over periods ranging up to five years, unless the loan is used to acquire a principal residence, in which case the loan term may be for a longer period. The interest rate on participant loans is prime plus 1% and is fixed at the inception of the loan. The interest rate on outstanding loans at December 31, 2022 ranged from 4.25% to 8.00% and mature through 2032.

(h) Payment of Benefits

Participants may receive all or a portion of their account balances upon termination of employment. Benefits may be paid in the form of a single lump sum or may be paid under optional forms, including the following: payments over a fixed time period, life annuity with or without a term certain, or joint and survivor annuity. If a participant dies or becomes disabled before distributions to the participant begin, the distribution of benefits may be elected at any time commencing no later than the month in which the participant would have attained age 70½, unless the participant turns 70½ on or after January 1, 2020 then the age is delayed until they turn age 72.

(i) Hardship Withdrawals

Under certain conditions, participants, while still employed by Pacific, are permitted to withdraw, in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition, the payment of burial or funeral costs of immediate family members, the payment of natural disaster clean-up on the participant's principal residence, or to prevent eviction or foreclosure from the participant's principal residence.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles (GAAP).

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the gains and losses on investments bought and sold during the year as well as the change in the unrealized appreciation or depreciation on those investments during the year.

Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. The Plan follows the fair value measurement and disclosure requirements of Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, which defines fair value as the exchange price that would be received for the asset or paid to transfer a liability in an orderly transaction between market participants. See Note 5 for the discussion of fair value measurements.

(d) Risks and Uncertainties

The Plan's assets are invested in a variety of investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the

level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(e) *Payment of Benefits*

Benefits are recorded when paid.

(f) *Administrative Expenses*

Pacific pays certain administrative expenses of the Plan. Direct expenses totaling approximately \$127,000 and \$140,000 were paid by the Plan during 2022 and 2021, respectively. Certain expenses are included in the transaction prices of investments bought and sold and are not separately quantifiable.

(g) *Revenue Credit*

During 2018, the Plan entered into an agreement with the custodian whereby the custodian shares certain revenue generated by the Plan in excess of their fee. These deposits are included in other income on the statements of changes in net assets available for benefits and are available to be reallocated to participants. During 2022 and 2021, revenue credits of approximately \$70,000 and \$112,000, respectively were generated.

(h) *Subsequent Events*

Pacific has evaluated subsequent events with respect to the Plan through October 16, 2023, the date the financial statements were available for issuance.

(3) *TIAA Traditional Annuity*

The Plan also offers the TIAA Traditional Annuity which is a fixed rate annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed and backed by the claims-paying ability by Teachers Insurance and Annuity Association of America (TIAA) and is a general obligation thereof. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA) and Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), Group Supplemental Retirement Annuities (GSRA), Retirement Choice (RC) and Retirement Choice Plus (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional amounts paid, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating RA and GRA contracts, the crediting interest rate was between 3.25% to 5.75% and 3.70% for the years ended December 31, 2022 and 2021, respectively. For

accumulating SRA and GRSA contracts, the crediting interest rate was between 3.25% to 5.00% and 3.00% for the years ended December 31, 2022 and 2021, respectively. For accumulating RC and RCP contracts, the credit interest rate was between 3.50% to 6.00% and 3.20% for the years ended December 31, 2022 and 2021, respectively.

The RA contract does not allow lump sum cash withdrawals and transfers must be spread over 10 annual installments. With the GRA, lump sum withdrawals are available within 120 days of termination of employment and are subject to a 2.50% surrender charge. All other withdrawals and transfers from RA and GRA contracts must be spread over 10 annual installments (5 annual installments for withdrawals after termination of employment). The SRA and GSRA contracts provide for full participant directed liquidity and are considered benefit-responsive. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

(4) VALIC Fixed Account Annuity

The VALIC Fixed Accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses as allowed by the Plan. The Plan Administrator has determined that contract value approximates fair value. Contract value, as determined by VALIC, represents contributions made under the agreement, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The minimum guaranteed interest rate varies by participant and depends on the date the participant established their account.

(5) Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Shares in registered investment company funds with publicly quoted market prices.

- These shares consist of TIAA-CREF registered investment company funds. The fair values are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Shares in registered investment company funds without publicly quoted market prices.

- These shares consist of CREF accounts (registered investment company funds). The fair values are determined based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. CREF accounts are not exchange traded. Data for NAVs are available daily to Plan Administrators and client investors on TIAA-CREF's website, and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. NAV is used as a practical expedient to estimate fair value. There are no unfunded commitments from participants in the Plan who invest in these accounts.

Separate account

The separate account consists of the TIAA Real Estate Account.

- The fair value of the Plan's interest in the TIAA Real Estate Account (a separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to Plan Administrators and client investors on TIAA-CREF's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. NAV is used as a practical expedient to estimate fair value. There are no unfunded commitments from participants in the Plan who invest in this account.

Self directed accounts

- Participants have the ability to self direct their account into a variety of investments. These investments are valued at fair value based on quoted market prices.

Investment contracts

Investment contracts consist of TIAA Traditional Annuity contracts and VALIC Fixed Accounts.

- Investments in TIAA Traditional Annuity contracts are reported at fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The fair value (which approximates contract value) equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. See Note 3 for discussion of the TIAA Traditional Annuity.
- Investments in VALIC Fixed Accounts are reported at fair value, which approximates contract value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). See Note 4 for discussion of the VALIC Fixed Accounts.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2022:

	Investments at Fair Value			Total

The following table presents the Plan's Level 3 information about significant unobservable inputs related to the Plan's investment in the investment contracts at December 31, 2022:

Type	Fair Value	Valuation Techniques	Significant Unobservable Inputs	Range
Investment contracts	\$ 20,244,010	Discounted Cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.70% - 6.25% GRA - 3.70% - 6.25% RC - 3.95% - 6.50% RCP - 3.20% - 5.75%

The following table presents the Plan's Level 3 information about significant unobservable inputs related to the Plan's investment in the investment contracts at December 31, 2021:

Type	Fair Value	Valuation Techniques	Significant Unobservable Inputs	Range
Investment contracts	\$ 19,597,853	Discounted Cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.00% - 3.80% GRA - 3.00% - 3.80% RC - 2.75% - 3.90% RCP - 2.00% - 3.15%

The following table provides information regarding redemption of investments where NAV has been used to measure fair value at December 31:

	Fair Value	Fair Value	Redemption Frequency	Redemption Notice Period
	2022	2021		
Shared in registered investment company funds without publicly quoted market prices	\$ 36,120,398	\$ 45,057,768	Daily	1 day
Separate accounts	3,989,364	3,843,895	Daily	1 day

The investments in CREF registered investment company funds without publicly quoted market prices had a fair value of \$36,120,398 and \$45,057,768 at December 31, 2022 and 2021, respectively, and have a lock-up period of 90 days if a purchase, sale and repurchase within that account is made within a 60-day period other than for the CREF Money Market Account.

Institutional withdrawals from the TIAA Traditional Annuity in the RC or RCP contracts are allowed over a 60-month period with 190-days advance notice from the institution. The investments in the TIAA Real Estate Account, a separate account, had a fair value of \$3,989,364 and \$3,843,895 at December 31, 2022 and 2021, respectively.

(6) Income Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the IRC. A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service (IRS); however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and as such is exempt from federal income taxes.

Assuming it meets certain initial and ongoing requirements, the Plan is generally exempt from federal and state income taxes. However, GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related-Party Transactions

Certain Plan investments are managed by TIAA-CREF and VALIC. TIAA-CREF and VALIC are the custodians as defined by the Plan. Certain investment fees are paid by the custodians and are reflected in the investment income or loss for the year. The Plan also issues loans to participants that are secured by the vested balance in the participants' accounts. As such, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Additionally, the Plan sponsor, Pacific University, is a party-in-interest to the Plan; however, there were no transactions with the Plan sponsor other than the funding of contributions to the Plan and payment of certain administrative expenses of the Plan.

(8) Information Certified by the Custodians

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, TIAA-CREF and VALIC, the custodians of the Plan, have certified as being complete and accurate the following information as of December 31, 2022 and 2021 and for the years then ended:

- Investments, at fair value
- Investments, at contract value
- Notes receivable from participants
- Investment income
- Interest on notes receivable from participants
- Schedule of assets (held at end of year)

(9) Plan Termination

Although it has not expressed any intent to do so, Pacific has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(10) Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits as reported on the Plan's financial statements to amounts reported on the Form 5500 at December 31:

	2022	2021
Net assets available for benefits reported on the financial statements	\$ 187,170,529	\$ 212,616,471
Deemed loans	(119,175)	(86,568)
Net assets available for benefits reported on the Form 5500	<u>\$ 187,051,354</u>	<u>\$ 212,529,903</u>

The following is a reconciliation of the net change in net assets available for benefits as reported on the Plan's financial statements to amounts reported on the Form 5500 for the years ended December 31:

	2022	2021
Net change in net assets available for benefits reported on the financial statements	\$ (25,445,942)	\$ 27,539,360
Change in deemed loans	(32,607)	(86,568)
Net change in net assets available for benefits reported on the Form 5500	<u>\$ (25,478,549)</u>	<u>\$ 27,452,792</u>

(11) Non-exempt Transactions

Certain participant contributions that occurred in 2022 were identified that were not remitted to the Plan by the Company within the time period required by the Department of Labor. These late remittances constitute prohibited transactions as defined by ERISA. Management plans to remit the lost earnings to the Plan related to the 2022 late contributions during 2023.
