INDEPENDENT AUDITORS' REPORT

October 3, 2023

To the Trustees
Krystal Biotech, Inc. 401(k) Plan
Pittsburgh, PA

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of the Krystal Biotech, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Krystal Biotech, Inc. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Krystal Biotech, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Krystal Biotech, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Krystal Biotech, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Report on Compiled 2021 Financial Statement

Plan management is responsible for the accompanying financial statement of net assets available for benefits of Krystal Biotech, Inc. 401(k) Plan as of December 31, 2021. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statement nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the financial statements of Krystal Biotech, Inc. 401(k) Plan as of and for the year ended December 31, 2021.

KRYSTAL BIOTECH, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note A - Description of Plan

General - The Krystal Biotech, Inc. 401(k) Plan (the Plan), as amended and restated effective November 9, 2021, is a defined contribution plan covering eligible employees of Krystal Biotech Inc. (the Company). The Plan document is the governing instrument and should be referred to for a full description of the Plan and its provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility - Employees are eligible to participate after the first of the month following employment and after the attainment of age 21.

Employee Contributions – Participants may contribute pre-tax and Roth amounts as defined by the Plan, up to 100% of eligible compensation, in accordance with the Internal Revenue Code section 415 limits. Employees may also elect to make catch-up contributions provided they have reached age 50 by the end of the current calendar year. Participants may also contribute rollovers from other qualified plans. Eligible compensation is defined as wages and other compensation on Form W-2, with some exclusions including stock bonuses and severance pay. Eligible compensation is subject to annual limitations prescribed by the IRC.

Employer Contributions – The Company will contribute a Safe Harbor Matching contribution equal to 100% of the first 3% of employee compensation deferred and 50% of the next 2% of employee compensation deferred. Participants are immediately 100% vested in this contribution. The Company Safe Harbor Matching contribution for the year ended December 31, 2022 amounted to \$795,108.

The Company may also contribute discretionary matching or nonelective profit sharing amounts to the Plan. These amounts are decided annually by management and are allocated to all eligible participants. The Company did not elect to contribute discretionary matching or nonelective profit sharing contributions for 2022.

Participants may direct their own contributions, as well as the Company's employer contributions, into any of a number of pooled separate accounts maintained by Voya Retirement Insurance and Annuity Company (the Custodian).

Participant Accounts - Each participant's account is credited with the employee's contribution, the Company's matching and discretionary contributions, Plan earnings, and certain administrative fees, as appropriate.

Vesting - Participants are fully vested in the value of their contributions as well as all employer contributions made.

Notes Receivable from Participants - Participants may borrow a minimum of \$1,000 up to a maximum of 50% of the vested account balance or \$50,000, whichever is less. Loans, which bear interest at a rate of prime plus 2%, are collateralized by the vested portion of the participant's account and repayments are made through payroll deductions. Participant loans are considered assets of the Plan and are valued based on the unpaid principal balance plus accrued but unpaid interest. There were no participant loans outstanding at December 31, 2022 and 2021.

Benefit Payments - Individual accounts can be distributed upon the death, disability, retirement, or termination of employment of the Plan participant. Participants may receive a distribution from their Rollover Contribution Account at any time. In-service distributions from other accounts are also available as long as the participant has attained the age of 59 ½. The Plan also permits a hardship withdrawal of a participant's account, other than from their qualified non-elective contribution account or matching contribution account, up to an amount required to alleviate the hardship. For terminating employees, distributions are mandatory in an amount of \$5,000 or less and participant consent is not required.

KRYSTAL BIOTECH, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note A - Description of Plan (continued)

Termination - Although there is not a present intent to do so, the Company has reserved the right to terminate or partially terminate the Plan.

Note B - Summary of Significant Accounting Policies

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America. The following are the significant accounting policies followed by the Plan:

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates.

Contribution Revenue - Employee contributions and Company contributions are recognized as additions to Plan assets in the year designated by the employee and Company, respectively.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (Notes D and E) or contract value (Note F), which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's valuation policies are determined utilizing information provided by the Custodian of the Plan's assets. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Interest income on loans is recorded on the accrual basis. An allowance for notes receivable from participants has not been recorded as delinquent notes receivable from participants are recorded as a distribution and reduction of the participant loan balance based upon the terms of the plan document.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - All reasonable expenses of administration may be paid out of the Plan assets unless paid by the Employer.

Subsequent Events - Management has evaluated subsequent events through October 3, 2023, the date the financial statements were available to be issued.

Note C - Tax Status

The Internal Revenue Service has determined by a letter dated July 13, 2021 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the Plan administrator and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

KRYSTAL BIOTECH, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note C - Tax Status (continued)

GAAP requires plan management to evaluate tax positions taken by the Plan and to recognize a tax benefit if it is more likely than not the tax position would be sustained upon examination by the applicable authorities. The remainder of the tax position is required to be recorded as a tax liability. The Plan's tax returns for 2020 and 2021 are subject to examination by the taxing authorities, generally for three years after they were filed. The Plan currently has no uncertain tax positions and, therefore, no liabilities have been recorded.

Note D - Information Certified by the Plan's Custodian

The investment assets of the Plan, as well as the information contained in the supplemental schedule and the unaudited investment income or loss, including interest, dividends, expenses, realized and unrealized gains and losses, and fair value measurements of investments (Note E) have been certified by Voya Retirement Insurance and Annuity Company, the Custodian, as of and for the year ended December 31, 2022, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

At December 31, 2022, the investments were held by Voya Retirement Insurance and Annuity Company, the Custodian of the Plan, in an annuity contract. Participants may direct their investments into pooled separate accounts. The Plan's investments are stated at fair value. The investment strategies of these pooled separate accounts vary among growth, income, and equity objectives. A prospectus describing each pooled separate account is available from the plan administrator.

The following information is certified by the Custodian:

	<u>2022</u>
Investments – at fair value	\$ 5,215,272
Investments – at contract value	\$ 33,706
Investment loss from pooled separate accounts	\$ (717,960)
Interest income on notes receivable from participants	\$ 25

Note E - Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," establishes a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs into three broad levels. Level 1 inputs are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access. Level 2 inputs are quoted prices for similar assets in active markets or inputs that are observable for the asset, either directly or indirectly through market corroboration, for substantially the full term of the asset. Level 3 inputs are unobservable and significant inputs developed by the plan sponsor based on the best information available about the assumptions market participants would use in pricing the asset. A financial asset's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

KRYSTAL BIOTECH, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note E - Fair Value Measurements (continued)

The following is a description of the valuation methodology used in measuring Plan assets at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Pooled Separate Accounts - Pooled Separate Accounts (PSAs) invest in mutual funds and equity securities. PSAs are valued daily at their accumulation unit value multiplied by number of units held. The accumulation unit value is determined daily based on the net asset value of shares of the underlying fund as provided by the Custodian.

The valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables detail the assets' fair value measured as of December 31, 2022 and 2021:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2022				
Pooled separate accounts	\$ <u>5,215,272</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>5,215,272</u>
Total investments at fair value	\$ <u>5,215,272</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>5,215,272</u>
December 31, 2021 (unaudited)				
Pooled separate accounts	\$ <u>3,131,560</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>3,131,560</u>
Total investments at fair value	\$ <u>3,131,560</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>3,131,560</u>

Note F - Fully Benefit-Responsive Investment Contract

The Plan holds a traditional fixed account investment fund with the custodian. This investment meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully benefit-responsive investment contract because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions plus credited interest less participant withdrawals and fees. The account is credited with earnings based on the daily balance. There is no stated minimum or maximum interest rate for the investment choice.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events may limit the ability of the Plan to transact at Contract Value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs.

KRYSTAL BIOTECH, INC. 401(K) PLAN
NOTES TO THE FINANCIAL STATEMENTS

Note F - Fully Benefit-Responsive Investment Contract (continued)

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different than the contract value. The issuer will terminate the contract under the following circumstances: (1) the Plan provides effective communication that the contract will be terminated; (2) the market value balance is not more than \$1,000 or the contract value difference is zero; (3) the issuer determines that it will not be able to continue to operate the agreement under its current terms following the Plan's establishment, activation, or material change to, any Plan investment fund; (4) the Plan fails to make the contributions required under the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

Note G - Party-in-Interest

During both Plan years, Plan assets were invested in pooled separate accounts managed by the Custodian who holds all of the Plan's investment assets in an annuity contract. Investments with the Custodian were valued at \$5,248,978 and \$3,131,560 at December 31, 2022 and 2021, respectively. Additionally, asset-based fees paid by the Plan to the Custodian and investment advisor are party-in-interest transactions. These expenses, which are paid as a total amount to the Custodian, amounted to \$28,351 for the year ended December 31, 2022. Participant transaction fees were also paid to the Custodian and third-party administrator.

Note H - Plan Amendments

Effective November 9, 2021, the Plan was amended and restated to bring the Plan into compliance with the legislative and regulatory changes set forth in IRS Notice 2017-37 (the 6-year pre-approved plan restatement cycle). Participants should refer to the Plan document for more complete information.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
