PhysicianOne Urgent Care 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of PhysicianOne Urgent Care 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution, as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of PhysicianOne Urgent Care 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about PhysicianOne Urgent Care 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of PhysicianOne Urgent Care 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about PhysicianOne Urgent Care 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year, Schedule H, Line 4i) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to, or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

PhysicianOne Urgent Care 401(k) Plan

Notes to Financial Statements

December 31, 2022

Note 1 – Plan Description

The following description of the PhysicianOne Urgent Care 401(k) Plan (the "Plan") is provided for only general information. Participants should refer to the Summary Plan Description or Plan agreement for a more complete description of the Plan's provisions.

General – The Plan, established on September 1, 2009, is a defined contribution plan with a salary reduction feature under Internal Revenue Code Section (IRS) 401(k). The Plan is the retirement plan of Happy Mountains, LLC and its subsidiaries (collectively the "Company"). The plan administrator/sponsor is Happy Mountains, LLC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan trustees oversee governance of the Plan, as well as determine the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility – All employees of the Company are eligible to participate in the Plan upon reaching 21 years of age with quarterly entry dates. Participants are eligible to participate in the safe harbor contribution component of the plan upon completing one year of service.

Participant Contributions – Participants, at their option, can defer up to 100% of qualified compensation on a pre-tax basis, not to exceed IRS annual limits. Participants age 50 and over, before the end of the plan year, may voluntarily contribute additional catch-up contributions subject to IRS limits. Such contributions are not subject to federal income taxes until withdrawn from the Plan, in accordance with Section 401(a) of the Internal Revenue Code (the IRC). Participants, at their option, may contribute on an after-tax basis ("Roth" contributions). Participants are also allowed to contribute amounts representing distributions from other qualified plans ("rollovers").

Company Contributions – The Plan requires a safe harbor, non-discretionary matching contributions of 100% of salary deferrals, up to a maximum of 3% of compensation plus 50% of salary deferrals that exceed 3% but not in excess of 5% of compensation.

The Company may elect to contribute a discretionary non-elective or matching contribution in addition to safe harbor contributions. There were no additional employer contributions during 2022.

Vesting – Participants are immediately vested in their voluntary and employer contributions plus related earnings.

Participant Accounts – Each participant's account is credited with the participant's contribution, the Company's safe harbor matching contribution and an allocation of the Company's discretionary contribution and plan earnings/losses (based on participant's investment election and account balance). The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account balance.

Investment Options – All assets of the Plan are participant directed. Participants have the option of directing the investment of their contributions, as well as any Company contributions into various pooled separate accounts or an investment contract offered by the Plan.

Payment of Benefits – Plan benefits are available at normal retirement age (age 62), deferred retirement, disability retirement, death, or termination of employment. Participants will receive the vested portion of their account as a lump sum payment. If at the time of termination, the amount of a participant's vested account is \$5,000 or less, the plan administrator may distribute the vested account without participant consent.

Note 1 – Plan Description (Cont.)

In-Service Withdrawals – The Plan allows for annual in-service withdrawals from the vested portion of a participant's account upon the participant's attainment of age 59½.

Hardship withdrawals are permitted if the withdrawal is due to immediate financial need, as defined by the Plan. The amount of the hardship withdrawal is subjected to certain limitations as specified in the Plan and the Internal Revenue Code.

Loan Provisions – Participants may borrow from their accounts a minimum of \$1,000, up to a maximum, not to exceed the lesser of (a) 50% of the participant's vested balance, or (b) \$50,000, reduced by the excess, if any, of the highest outstanding principal balance of loans from the Plan to the borrower during the preceding year, subject to certain conditions as defined by the Plan agreement. Each borrowing is evidenced by a note bearing interest at a reasonable rate as determined by the plan administrator, based on prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, and must be repayable over a period not to exceed five years (other than loans for the purchase of a primary residence). Principal and interest payments are credited to the borrowing participant's account. Principal and interest are paid in level amortization payments made through payroll deductions. The loans are secured by the vested balance in the participant's account. Loans will become due and payable in full upon the participant's death, retirement, or other termination of employment with the Company.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual method of accounting, except that benefit payments are recorded upon distribution.

Fair Value Measurements – The Plan follows the provisions of the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (ASC) Topic 820, "Fair Value Measurements and Disclosures" (ASC Topic 820), for assets and liabilities that are measured and recorded at fair value on a recurring basis, and to determine fair value disclosures. That standard defines fair value, establishes a framework for measuring fair value, and requires disclosures about fair value measurements. Investments measured using the net asset value ("NAV") practical expedient are exempt from categorization within the fair value hierarchy (see Note 4).

Accounting Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and the changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded. If a participant does not make loan repayments for a period of 90 days, and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment upon the occurrence of a distributable event based on the terms of the Plan document.

Investment Valuation and Income Recognition – The Plan's assets invested in pooled separate accounts are stated at fair value (see Note 4). The investment contract with an insurance company is stated at contract value. Contract value is the relevant measurement attributable to the fully-benefit responsive insurance contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value equals the value of the contribution deposits made to the contract plus earnings at guaranteed crediting rates, less withdrawals, transfers and fees (see Note 5). The Trustees of the Plan determine the Plan's valuation policies.

Note 2 – Summary of Significant Accounting Policies (Cont.)

Net investment appreciation and depreciation reflected in the statement of changes in net assets available for benefits includes the realized gains and losses on investments bought and sold during the year, as well as unrealized gains and losses on investments held during the year, all of which relates to the pooled separate accounts (see Note 3).

Purchases and sales of securities are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date.

Payment of Benefits – Benefits are recorded upon distribution to participants or beneficiaries.

Plan Expenses – Certain expenses of maintaining the Plan are paid by the plan sponsor, and therefore are excluded from these financial statements. Fees related to the administration of notes receivables from participants are charged directly to the participant's account and are included in administrative expenses, while expenses for items such as recordkeeping fees are allocated to participants accounts. Investment related fees are included in the net appreciation/depreciation of the fair value of investments.

Evaluation of Subsequent Events – Management has evaluated subsequent events involving the Plan for potential recognition or disclosure in the accompanying financial statements. Subsequent events are events or transactions that occurred after December 31, 2022 up through October 13, 2023, the date the accompanying financial statements were available to be issued.

Note 3 – Information Prepared and Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule. The following information included in the accompanying financial statements and supplemental schedule, was obtained from data that has been prepared and certified as complete and accurate by the custodian, Ameritas Life Insurance Corp.:

Note 4 – Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, "Fair Value Measurement", are described as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Plan did not hold any assets that are required to be reported within the fair value hierarchy as of December 31, 2022 or 2021.

The following is a description of the valuation methodologies used for investments measured at net asset value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Pooled Separate Accounts – The Plan has investments in participation units held in pooled separate accounts through sub-accounts of an insurance company. The net asset value is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Included in the pooled separate accounts are funds considered common collective trusts for which the net asset value is based on the market value of the underlying investments.

The other underlying securities in the pooled separate accounts are listed on national securities exchanges and valued on the basis of year-end closing prices. The Plan has concluded that the net asset value as adjusted (for mutual fund dividends, mutual fund splits, and administrative charges and other items), and reported by the insurance company approximates fair value of the investments. The investments are redeemable at the adjusted net asset value under agreements with the insurance company.

It is possible that the redemption rights may be restricted or eliminated in the future. Due to the nature of the investments, changes in market conditions, liquidity requirements, and the economic environment, it may significantly affect the net asset value of the pooled separate accounts and, consequently, the fair value of the Plan's investments.

Note 4 – Fair Value Measurements (Cont.)

The methods described previously may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the end of the reporting date.

As of December 31, 2022 and 2021, investments for which fair value is measured using the net asset value per share practical expedient, consisted of pooled separate accounts in the amount of \$7,819,821 and \$8,315,979, respectively. The pooled separate accounts allow for daily redemptions, and do not require a notice period for participant level transactions, but require a 60-day notice period for plan-level withdrawals. There are no unfunded commitments.

Note 5 – Investment at Contract Value

The Plan holds an investment contract issued by Ameritas Life Insurance Corp. (Ameritas). Because the contract is a guaranteed investment contract and it meets the criteria to be considered a fully benefit-responsive contract, contract value is the relevant measurement attribute for net assets available for benefits and, therefore, is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by Ameritas, represents contributions made under the contract plus earnings, less participant withdrawals and administration expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion of, their investment at contract value.

The contract issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 1.5%. Such interest rates are reviewed on an annual basis for resetting.

The Plan may withdraw the entire investment value; however, it will be subject to a market value adjustment. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments. No events are probable of occurring that might limit the ability of the Plan to transact at contract value.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participant accounts will be distributed to participants in accordance with the provisions of the Plan.

Note 7 – Income Tax Status

The Plan is a qualified cash or deferral arrangement established under Section 401(k) of the Internal Revenue Code, and is exempt from federal income taxes under Section 401(a) of the Internal Revenue Code. The Company has executed an adoption agreement using a Volume Submitter Plan and relies on a favorable opinion letter from the Internal Revenue Service dated June 30, 2020, issued for the Volume Submitter Plan. In the opinion of the plan administrator, the Plan and its underlying Trust, is designed, and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (the "Code") and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note 8 – Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Company, and certain others. The Plan has investments in participation units held in pooled separate accounts through sub-accounts of Ameritas Life Insurance Corp. Ameritas provides services to the Plan as the custodian and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts, and these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 9 – Investment Risks and Uncertainties

The Plan offers the option to invest in pooled separate accounts and an investment contract, which are exposed to various risks, such as interest rate, credit, and market risks. Due to the level of risk associated with these investments, and the level of uncertainty related to changes in the value of these investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.
