Independent Auditors' Report

To the Plan Participants and Plan Administrator
CITGO Petroleum Corporation Employees' Retirement and Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CITGO Petroleum Corporation Employees' Retirement and Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Part IV, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) Plan Description

The CITGO Petroleum Corporation Employees' Retirement and Savings Plan (the Plan) adopted by the Board of Directors of CITGO Petroleum Corporation (CITGO or the Company) and participating related companies, collectively referred to as the "Company", became effective January 1, 1987. Effective on January 1, 1994, PDV America, Inc., the parent company of CITGO, adopted the Plan for eligible salaried employees. Additionally, on January 1, 2002 employees of PDVSA Services, Inc. became eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The following description of the Plan is provided for general information purposes only. Participants should refer to the Plan's Summary Plan Description (SPD) or the Plan document for a more complete description of the Plan's provisions. The terms used herein are as defined in the Plan document. The Plan document was amended effective April 2, 2013, to provide for the merger of the accounts of former and current salaried participants in the CITGO Refining and Chemicals Employees' Thrift Plan and the UNO-VEN Savings and Investment Plan into the Plan.

(a) General

The Plan is a 401(k) defined contribution plan whose purpose is to encourage and assist salaried employees of the Company or hourly employees of the Company who are not covered by a collective bargaining agreement in saving for their retirement. Participation in the Plan is voluntary. Employees become eligible to participate on their date of hire, but do not become eligible for Company Basic or Matching contributions until they have been employed for a total of twelve months, which need not be consecutive.

(b) Contributions

Participants may contribute, through payroll deductions, 3% to 50% of their eligible compensation. Those contributions may be made on an after-tax, pre-tax or a combination of after-tax and pre-tax basis. The total pre-tax contributions for each participant cannot exceed the maximum allowed by law, which was $20,500 for 2022 and $19,500 for 2021. Participants age 50 and over as of year-end are eligible to make catch-up contributions to the extent permissible under laws and regulations.

Each eligible employee hired on or after March 23, 2007, after meeting the eligibility requirements, is automatically deemed to have elected to defer 3% of his/her compensation into the Plan effective on the first day of the month coincident with or immediately following the end of the 45-day period following his/her date of hire unless the employee has affirmatively elected to make no contributions or elected to make pre-tax contributions in a different amount. The default investment option for the investment of participant accounts for which an election is not received is the age appropriate State Street Target Retirement funds.

A Company Basic contribution is made for each eligible participant in an amount equal to 3% of such participant's eligible compensation whether or not the participant makes any elective contributions. In addition, a Company Matching contribution is made for each eligible participant based on the participant's year-to-date pre-tax contributions, to the extent not withdrawn, and is $2 for every $1 contributed by the participant up to 3% of the participant's eligible year-to-date compensation. Participants direct how their after-tax contributions, pre-tax contributions, Company Basic and Matching

contributions, and forfeiture allocations are to be invested under certain options in whole percentages. Maximum contributions allowed by the Plan could be reduced if certain Internal Revenue Code of 1986, as amended (IRC), annual limitations are exceeded.

Effective November 1, 2020, Company Basic and Matching contributions were suspended for eight months, then reinstated effective July 1, 2021.

The Plan also allows eligible transfers and rollover distributions from other qualified plans.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, amounts rolled over or transferred from other qualified plans, the Company Basic and Company Matching contributions, allocations of Plan earnings or losses, and the forfeitable portions of terminated participants' accounts. Allocations of Plan earnings or losses are based on the actual earnings or losses of the participant's selected investments. The benefit to which a participant is entitled is the benefit that can be provided from such participant's account.

(d) Vesting

Participants are immediately vested in their contributions and amounts rolled over or transferred from other qualified plans, plus earnings thereon. Participants are also vested in the 3% Company Basic contributions and the Company Matching contributions and forfeitures, and earnings thereon, upon attaining eligibility for such Company contributions after one year of service.

(e) Distributions to Participants

Generally, distributions from the Plan are allowed only when a participant ceases employment with the Company for any reason. Only in cases of after tax contributions, a participant's attainment of age 59½ or qualified hardship is an in-service distribution from the Plan allowed.

Participants may elect to receive the full amount of their vested account balance or delay withdrawal until a future date; withdrawals must begin no later than April 1 of the year following the later of the year in which the participant reaches age 72 or retires (the mandatory distribution date). Upon termination or retirement participants may delay withdrawal until a future date but no later than the mandatory distribution date, begin a periodic withdrawal program, make withdrawals on an "as needed" basis or take a single sum payment. If the vested account balance upon termination of employment is $1,000 or less, the account will be distributed without a request for withdrawal.

Certain retired or terminated participants have elected to receive periodic distributions until their account balances are fully distributed. These participants' account balances are included in the Plan's net assets available for benefits.

(f) Forfeitures

A portion of the Company Basic and Company Matching contributions may be subject to forfeiture if a participant terminated from employment prior to June 1, 2004 and prior to becoming 100% vested under the vesting rules in effect at the time of termination. All forfeitures arising during a calendar year less forfeitures restored are allocated to the accounts of participants entitled to receive Company

Matching contributions based ratably on the amount of Company Matching contributions credited to their accounts for such year. Forfeitures of $17,212 and $2,055 arose in 2022 and 2021, respectively, and were allocated to the accounts of participants in the following year.

(g) Notes Receivable from Participants

A participant who is in employment with the Company is generally eligible to obtain a loan limited to the lesser of $50,000 reduced by the participant's highest outstanding loan balance in the prior 12 months or 50% of the participant's vested account balance in the Plan as defined in the Plan document. Effective April 2, 2013, participants are allowed a maximum of two loans outstanding at any given time. The maximum loan term is 60 months. The fixed rate of interest is the prime rate published by the Federal Reserve on the last day of the month prior to the borrowing. Principal and interest are paid ratably through semimonthly payroll deductions.

As of December 31, 2022, notes receivable from participants have interest rates ranging from 3.25% to 7.00% and maturity dates through January 2028.

(h) Plan Termination

Upon termination of the Plan, participants will be entitled to the total value of their accounts. Although it has not expressed any intention to do so, the Board of Directors of CITGO has the right under the Plan to discontinue Company contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(i) Master Trust and Plan Investment Management

The CITGO Petroleum Corporation Defined Contribution Plan Master Trust (the Master Trust) consists of the assets of the Plan and the Employees' Thrift Plan of CITGO Petroleum Corporation. Fidelity Management Trust Company (FMTC), a qualified institution, is the Plan's trustee. Fidelity Workplace Services LLC is the Plan's recordkeeper.

(j) Plan Administration

The Benefit Plans Committee of CITGO serves as the plan administrator. The Company pays certain administrative expenses of the Plan, including salaries, accounting and professional fees, and office expenses. Commissions paid to brokers by the Plan for certain investment activities are included in the participants' cost of the investments or deducted from the participants' proceeds, as applicable. The Fixed Income Fund pays its administrative expenses. In addition, certain investments related expenses reduce investment income presented in the accompanying statements of changes in net assets available for benefits. Other transaction specific fees are charged to the accounts of participants electing such transactions.

As a result of the COVID-19 outbreak in March 2020, the Employer changed its administrative practice to provide assistance for impacted employees through the end of 2022. On March 27, 2020, the CARES Act was passed by Congress, which provides immediate and temporary relief for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The Employer adopted certain of the provisions outlined in the CARES Act, including Coronavirus-Related Distributions ("CRDs") and loan payment suspensions. Participants impacted by

COVID-19 were eligible through the end of 2022 to take CRDs from their Plan balance of up to $100,000. These CRDs were not penalized for early withdrawal. CRDs will be considered standard hardship withdrawals.

(2) Significant Accounting Policies

(a) Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

(c) Risk and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term.

(d) Valuation of Investments

The Plan's interest in the Master Trust is stated at fair value (except for fully benefit responsive investment contracts, which are stated at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Benefit Plans Committee determines the Plan's valuation policies utilizing information provided by the trustee. See note 4 for discussion of fair value measurements.

(e) Notes Receivable from Participants

Notes receivable from participants are valued at amortized cost. Amortized cost represents unpaid principal, plus accrued but unpaid interest.

(f) Income Recognition

Purchases and sales of investments are recorded on a trade-date basis. Net appreciation in fair value of investments includes realized gains and losses on sales of investments and unrealized gains and losses based upon changes in the fair values of investment assets held during the plan year. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

(g) Other Revenue

The agreement between the Trustee and the Plan includes a revenue sharing arrangement whereby the Trustee shares revenue generated by the Plan. These deposits are included in the other revenue amount in the statement of changes to net assets available for benefits. The funds can be used to pay

plan expenses or be allocated to participants. Income from revenue sharing during 2022 and 2021 was $7,730 and $0, respectively, and was allocated to participants during 2022 and 2021, respectively.

(h) Distributions to Participants

Distributions to participants are valued based on the cash proceeds distributed and are recorded when paid.

(3) Investments

Investments held by the Master Trust and earnings thereon are allocated to each participating CITGO defined contribution plan based on such plan's participants' investment option elections.

The following table presents the statements of net assets available for benefits of the Master Trust and the Plan's specific interest at December 31, 2022 and 2021:

Total investment income	$ 179,981,970	138,897,259

(4) Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 – Inputs to the valuation methodology are observable for the asset or liability (other than quoted prices included within Level 1), either directly or indirectly. Observable inputs are those that reflect the assumptions market participants would use in pricing the asset developed on market data obtained from sources independent of the Plan.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. Unobservable inputs are those that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing the asset, developed based on the best information available in the circumstances.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the Master Trust's valuation methodologies for assets measured at fair value. There have been no changes in methodologies used at December 31, 2022 and 2021.

(a) Money Market Funds, Mutual Funds (Registered Investment Companies) and Collective Investment Trusts

Money market and mutual funds are valued at the daily closing price as reported by the fund. Money market and mutual funds held by the Master Trust are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market and mutual funds held by the Master Trust are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy. The collective investment trusts (CIT's) are valued at the daily NAV as reported by the issuer and are classified within Level 1 of the valuation hierarchy. The CIT's primarily consist of common stocks.

Master Trust assets measured at fair value on a recurring basis as of December 31, 2022:

	Fair value measurements using			
	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Mutual funds	$ 304,802,821	—	—	304,802,821
Money market fund	33,169,288	—	—	33,169,288
Collective investment trusts	555,520,072	—	—	555,520,072
Total assets at fair value	$ 893,492,181	—	—	893,492,181

Master Trust assets measured at fair value on a recurring basis as of December 31, 2021:

	Fair value measurements using			
	Quoted prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Mutual funds	$ 359,658,059	—	—	359,658,059
Money market fund	30,563,132	—	—	30,563,132
Collective investment trusts	762,746,450	—	—	762,746,450
Total assets at fair value	$ 1,152,967,641	—	—	1,152,967,641

(Continued)

The availability of observable market data is monitored to assess the appropriate classification of investments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may result in the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the Plan year. There were no such transfers between levels during 2022 and 2021.

(5) Fully Benefit Responsive Investment Contracts with Banks and Insurance Companies

The Master Trust's Fixed Income Fund enters into wrap contracts with underlying securities to create synthetic investment contracts (SICs). These contracts meet the fully benefit responsive investment criteria and therefore are reported at contract value.

Under the SICs, the Master Trust owns fixed income investments and enters into wrap contracts with high quality insurance companies, banks or other financial services companies that substantially offset the price fluctuations in the underlying investments caused by movements in interest rates. Each wrap contract obligates the wrap issuer to maintain the contract value of the underlying investments. The contract value is generally equal to the principal amounts invested in the underlying investments, plus interest accrued at a crediting rate established under the wrap contract, less any adjustment for withdrawals as specified in the wrap contract. Under the terms of the wrap contracts, the realized and unrealized gains and losses on the underlying investments are, in effect, amortized over the duration of the underlying investments, through adjustments to the future contract interest crediting rate. The wrap contracts provide that the adjustment to the interest crediting rate will not result in a future interest crediting rate that is less than zero; thus, ensuring that the participants' principal and accrued interest are protected. The crediting rate is reset on a quarterly basis. Key factors that could influence future average interest crediting rates include, but are not limited to, participating plans cash flows, changes in interest rates, total return performance of the fair market value of the underlying securities, and default or credit failures of any of these securities.

In certain circumstances, the amount withdrawn from the wrap contracts would be payable at fair value rather than at contract value. These events may be different under each wrap contract. Examples of such events include: the participating Plan's failure to qualify under the IRC; termination or merger of the participating plans; group termination, layoffs or exclusion of a material group from eligibility in the participating plans; the establishment of a competing plan by the plan sponsor or a competing investment option; adoption of any amendments to the participating plans, including changes to the investment options, transfer procedures, or withdrawal rights offered by the participating plans for which amendment is not approved by the wrap contract issuer; dissemination of a participant communication that is designed to induce participants to transfer assets from the Fixed Income Fund; and changes in tax law, regulation, administrative position, accounting rule or standard applicable to the participating plans. The plan administrator does not believe that the occurrence of any of the aforementioned events, which would limit the participating plans' ability to transact at contract value, is probable.

The wrap contract issuers generally are not permitted to terminate the wrap contract on short notice unless certain events have occurred. Examples of such events include: knowing and willful misrepresentation or misstatement of material facts; material breach in the performance of any obligation of the Master Trust or trustee in connection with or under the wrap agreement; failure to cure within 5 business days noncompliance with the established investment guidelines; failure to receive payment of fees in accordance with the terms of the wrap contract; the wrap contract or the transactions contemplated by the wrap contract result in a nonexempt prohibited transaction under Section 406 of ERISA or IRC Section 4975; and uncured loss of participating plan's tax qualified status. If one of these events was to occur, the wrap contract issuer could terminate the wrap contract at the market value of the underlying investments.

	2022	
	Master trust	**Plan's interest**
Synthetic investment contracts	$ 153,309,735	116,629,546
Total synthetic investment contracts	$ 153,309,735	116,629,546

	2021	
	Master trust	**Plan's interest**
Synthetic investment contracts	$ 145,487,352	109,758,330
Total synthetic investment contracts	$ 145,487,352	109,758,330

(6) Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits from the accompanying financial statements to the Annual Return/Report of Employee Benefit Plan (Form 5500) of the Plan as of December 31, 2022 and 2021:

	2022	**2021**
Net assets available for benefits from the financial statements	$ 811,083,945	1,010,115,733
Adjustment from contract value to fair value for fully benefit-responsive investment contracts in CITGO Petroleum Corporation Defined Contribution Plan Master Trust	(7,273,418)	1,343,360
Net assets available for benefits from the Form 5500	$ 803,810,527	1,011,459,093

(Continued)

The following is a reconciliation of the Plan's share of CITGO Petroleum Corporation Defined Contribution Plan Master Trust net investment income from the accompanying financial statements to the Form 5500 of the Plan for the years ended December 31, 2022 and 2021:

	2022	2021
Plan's share of CITGO Petroleum Corporation Defined Contribution Plan Master Trust net investment income (loss) from the financial statements	$ (160,187,023)	138,897,259
Adjustment from contract value to fair value for fully benefit-responsive investment contracts in CITGO Petroleum Corporation Defined Contribution Plan Master Trust, December 31, 2021 and 2020	(1,343,360)	(5,144,157)
Adjustment from contract value to fair value for fully benefit-responsive investment contracts in CITGO Petroleum Corporation Defined Contribution Plan Master Trust, December 31, 2022 and 2021	(7,273,418)	1,343,360
Plan's share of CITGO Petroleum Corporation Defined Contribution Plan Master Trust net investment income from the Form 5500	$ (168,803,801)	135,096,462

Fully benefit-responsive investment contracts are recorded on the Form 5500 at fair value but are recorded at contract value for financial statement presentation.

(7) Tax Status

The Plan obtained its latest determination letter on August 14, 2018, in which the Internal Revenue Service (IRS) stated the Plan, as designed and amended, is qualified under IRC Section 401(a) and that the related trust is exempt from federal income taxes under IRC Section 501(a). The plan administrator believes the Plan is designed and continues to operate in accordance with applicable provisions of the IRC at December 31, 2022 and 2021.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Party-In-Interest Transactions

The Plan invests in money market funds and mutual funds issued by an affiliate of the trustee. Fidelity Management Trust Company is the Plan's trustee; therefore, these transactions qualify as party-in-interest transactions.

The above transactions are covered by an exemption from the "prohibited transactions" provisions of ERISA and the IRC.

(9) Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications from the trustee of the Plan that all of the information provided by them is complete and accurate.

Information included in the accompanying financial statements and notes to financial statements as to Investments in CITGO Petroleum Corporation Defined Contribution Plan Master Trust, notes receivable from participants, Plan's share of CITGO Petroleum Corporation Defined Contribution Plan Master Trust net investment income (loss), interest income on notes receivable from participants, CITGO Petroleum Corporation Defined Contribution Plan Master Trust's investments included in notes 3, 4 and 5, net appreciation (depreciation) in fair value of investments, interest and dividends, net income from fully benefit-responsive investment contracts, and all information in the supplemental schedule are presented in reliance solely upon those certifications.

(10) Subsequent Events

The Plan has evaluated subsequent events through October 13, 2023, the date the financial statements were available to be issued.
