**2022 Client Service Communication**

---

**The Plan Administrator of  
LifePoint Marquette Pension Plan**

We have audited the financial statements of the LifePoint Marquette Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) as of and for the year ended December 31, 2022, and have issued our report thereon dated September 14, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan by Principal Bank and Wells Fargo, N.A., which are banks or similar institutions or insurance carriers that are regulated, supervised, and subject to periodic examination by state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of generally accepted accounting principles in the United States of America ("GAAP"). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter to you April 4, 2023. Professional standards also require that we communicate to you the following information related to our audit.

This information is intended solely for the information and use of the Plan administrator and management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

We appreciate the confidence you place in LBMC as your business advisor. We strive to help you stay compliant, manage risk, and improve performance as you manage your employee benefit plans.

<b>Scope of Attest Services</b>	<p>LBMC was engaged to perform an ERISA Section 103(a)(3)(C) audit of the 2022 financial statements of LifePoint Marquette Pension Plan (the “Plan”) including subjecting the form and content of certain supplemental information to auditing procedures.</p>
<b>Plan Management Responsibilities</b>	<p>Management is responsible for the preparation and fair presentation of the financial statements, and supplemental information, and maintaining internal controls.</p>
<b>Attest Deliverable</b>	<p>LBMC issued an ERISA Section 103(a)(3)(C) opinion on the financial statements of the Plan and communicated certain matters relating to the financial statements and supplemental information.</p>
<b>Other Services</b>	<p>LBMC performed the non-attest service of drafting the financial statements and supplemental schedules of the Plan in conformity with U.S. generally accepted accounting principles based on information provided by management.</p> <p>We provided management with any and all accounting records that were prepared by LBMC in connection with the non-attest services set forth above. Management is responsible for retaining these accounting records, including supporting schedules as an integral part of the Plan’s accounting records:</p> <ul style="list-style-type: none"> <li>• Trial balance with financial statement groupings</li> <li>• Fair value leveling of investments</li> <li>• Investments measured at net asset value as a practical expedient determination</li> </ul>

Area	Detail
<b>Qualitative Aspects of Accounting Practices – Accounting Policies</b>	<p>Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new significant accounting policies were adopted and the application of existing policies was not changed during 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.</p>
<b>Qualitative Aspects of Accounting Practices – Estimates</b>	<p>Accounting estimates are an integral part of the Plan’s financial statements and are based on management’s knowledge and experience, as well as certain assumptions. Certain accounting estimates are particularly sensitive due to: (i) their significance to the financial statements; and (ii) because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the financial statements relate to management’s estimate of the benefit obligation as of year-end and management’s estimate of the fair value of the Plan’s investments. Investments are carried at fair value as determined on the last day of the plan year, as described in Note 6 to the financial statements.</p> <p>We evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.</p>
<b>Qualitative Aspects of Accounting Practices – Disclosures</b>	<p>Financial statement disclosures are neutral, consistent, and clear.</p>

Area	Detail
<b>Difficulties Encountered in Performing the Audit</b>	<p>For purposes of this report, “difficulties” may include matters such as:</p> <ul style="list-style-type: none"> <li>• the unavailability of, or significant delays in management providing information,</li> <li>• an unreasonable time frame within which to complete the audit,</li> <li>• extensive unexpected effort required to obtain audit evidence, or</li> <li>• restrictions imposed on the auditor by management.</li> </ul> <p>We encountered no significant difficulties in performing and completing our audit.</p>
<b>Disagreements with Management</b>	<p>For purposes of this report “disagreements with management” include matters that, individually or in the aggregate, could be significant to the Plan’s financial statements or the auditors’ report, regardless of whether they were satisfactorily resolved. Examples of such matters include, but are not limited to, the application of accounting principles to a specific transaction, the basis for management’s judgments about accounting estimates, and the scope of the audit. We are pleased to report that no such disagreements arose during the course of our audit.</p>
<b>Management Consultations with Other Independent Accountants</b>	<p>If management were to consult with other accountants about the application of an accounting principle to the Plan’s financial statements or the type of auditors’ opinion that may be expressed on those statements, professional standards require the consulting accountant to confer with us to determine that the consultant has all relevant facts. To our knowledge, there were no such consultations with other accountants.</p>
<b>Management Representations</b>	<p>We have requested certain representations from management that are included in the management representation letter dated September 14, 2023.</p>
<b>Independence</b>	<p>We are not aware of any relationships between our firm and the Plan that, in our professional judgment, may reasonably be thought to bear on our independence that have occurred during the period from January 1, 2022, through the date of this report.</p>
<b>Other Findings or Issues</b>	<p>We generally discuss a variety of matters, including the application of accounting principles and auditing standards with management each year both prior to, and subsequent to engagement as the Plan’s auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition of our engagement.</p>
<b>Form 5500 Procedures</b>	<p>We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditors’ report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan’s financial statements. We identified no material inconsistencies in performing and completing our audit.</p>

Area	Detail
<b>Information Accompanying the Financial Statements</b>	<p>Our responsibility for the ERISA-required supplemental schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedules, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).</p>
<b>Corrected and Uncorrected Misstatements</b>	<p>While professional standards require communication of all misstatements identified during the audit that are more than trivial in nature and magnitude to management, we are pleased to report that no such misstatements were identified as a result of our audit procedures.</p>

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Plan, we considered the Plan’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan’s internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan by Principal Bank and Wells Fargo, N.A., that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan’s financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first two paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

During the course of our audit, we identified the following item that is an opportunity for improving internal controls and enhancing compliance with Internal Revenue Services and DOL regulations:

<p><b>Participant Contributions</b></p>	<p>During our testing of participant pay and contributions, we noted that participants are contributing on 6% of what is referred to on the payroll registers as 401k Eligible Compensation. However, per the Plan Document, participants are required to contribute 6% of their gross pay excluding deductions. We recommend that the Plan Sponsor investigate this operational issue and make corrections. Additionally, we recommend consultation with ERISA counsel to ensure there are no other actions needed to address this issue.</p>

On December 29, 2022, the SECURE 2.0 Act of 2022 (SECURE 2.0) was enacted. This occurred as part of the passage of the Consolidated Appropriations Act, 2023, a federal government spending package. SECURE 2.0 builds on the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE 1.0) in effort to expand retirement coverage and savings. The new law includes both required and optional changes to defined contribution and defined benefit plans, and the effective dates vary across the 90+ provisions.

The law creates opportunities for plan sponsors to include new benefits in their existing plans that address everyday obstacles when saving for retirement, like repaying student debt and saving for emergencies. It also has provisions which raise the age for required minimum distributions, allow long-term part time employees to participate in their benefit plans sooner, increase the “catch-up” contribution limit for pre-retirees, and allow participants to self-certify hardship withdrawals, as well as many others. SECURE 2.0 includes provisions in the following areas:

- Contributions
- Corrections
- Disclosure and Notices
- Distributions and/or Exceptions to the Additional Tax on Early Distributions
- Expanding Coverage
- Miscellaneous
- Plan Design
- Required Minimum Distributions
- Taxes and Tax Credits
- Testing and Reporting

LBMC recommends that you work with your retirement plan provider to determine which provisions to adopt and at what time. Should you have any questions, reach out to your service team leaders.

For additional information or if you have questions, please contact the Audit Service Team Leaders.

**Upcoming year salary increase**

The preceding year's salary is increased by 3.00% at each age. Note: not used for Plan accounting calculations.

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

**Disability**

Table as provided by prior actuary.

Selected rates of withdrawal are shown below:

Age	Male Rate of disability	Female Rate of disability
25	0.0402%	0.0222%
40	0.1116%	0.1014%
55	0.4944%	0.4392%

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

**Marriage**

80% married; husbands are 3 years older than wives.

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

**Withdrawal**

Table as provided by prior actuary.

Age	Rate of withdrawal	Age	Rate of withdrawal
15-19	0.00%	40-44	5.00%
20-24	20.00%	45-49	3.00%
25-29	15.00%	50-54	1.75%
30-34	10.00%	55-59	0.50%
35-39	7.00%	60+	0.00%

Due to our short tenure as actuaries on this plan, we don't have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

<b>Wage base increase</b>	3.25% per year.  Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption to 1.10% above inflation of 2.25%.
<b>Compensation limit increase</b>	2.25% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See <u>Calculated deduction</u> in Rules and regulations.  Compensation limit increase is consistent with the inflation assumption.
<b>Form of benefit</b>	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods prescribed by law	
<b>Liability measure</b>	Funding target is the present value of the benefits accrued on the valuation date.  Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
<b>HCE benefit payment restrictions</b>	A ratio of the plan assets and accrued liability is used to determine if restrictions apply. Assets and accrued liability are as of the valuation date and are reduced by: <ul style="list-style-type: none"><li>any retiree benefit index or floor</li><li>amounts for HCEs who were previously restricted</li><li>an amount for the retiring HCE</li></ul> The estimated HCE ratio illustrated in this report is based on the market value of plan assets (excluding late deposits) and funding target as of the valuation date. The funding target uses the non-stabilized interest rates as defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods could be used.

Methods selected by plan sponsor

<b>Asset method</b>	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
<b>Segment rates</b>	<p>24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.</p>
<b>PBGC premium basis</b>	<p>Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method must be used for five years before a change can be made.</p>
Methods elected by actuary	
<b>Retirees</b>	<p>Assets and liabilities for current and future retirees are included.</p>
<b>Vested benefits</b>	<p>A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.</p>

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality**

Based on Pri-2012 Blue collar base rate mortality table projected generationally using MP-2021.

**Base rates**

Before benefit payment period

Employee amount-weighted, male and female

During benefit payment period

Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement (MI)**

MP-2021 is the most recent improvement scale published by the SOA in October 2021.

**Interest rate used to value liabilities**

5.75%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

**Treatment of administrative expenses**

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets  
LifePoint Marquette Pension Plan  
EIN 20-1538254 Plan No. 002

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$496,881 contributions received after the plan year end with a discounted value of \$492,126. In addition, the market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF due to the value of the employee contributions \$12,113 receivables are being included on the Schedule H. The Schedule SB, line 2a excludes the employee contributions amount.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 LifePoint Marquette Pension Plan  
 EIN 20-1538254 Plan No. 002

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

**Optional forms of benefit payments**

The optional forms of benefit payments are:

- Monthly annuity payable for life, or 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 75, or 100.
- Modified cash refund annuity (required contributions in excess of total payments received at date of death)

The optional form conversion basis is 6.0% interest and the UP 1984 mortality table for payments other than lump sums.

**Required contributions** Employees currently required to contribute 6% of gross wages each year. Deducted each pay period up to the date they have completed 1,995 hours of service.

Interest will be credited to required contribution account in each plan year at the rate of 120% of the Federal mid-term rate per annum compounded annually.

Effective January 1, 2006, a participant may make an irrevocable election to waive future benefit accruals under the plan in exchange for increased company allocation under a defined contribution plan.

#### **Changes in Principal Eligibility or Benefit Provisions**

There have been no changes in principal eligibility or benefit provisions since the last valuation.

#### **Significant Event**

The enrolled actuary has not been made aware that any significant events have occurred during the year.

## Independent Auditors' Report

Plan Administrator  
LifePoint Marquette Pension Plan:

### *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements*

We have performed an audit of the financial statements of the LifePoint Marquette Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

### *Opinion on the 2022 Financial Statements*

In our opinion, based on our audit and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the 2022 Financial Statements* section of our report,

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management has determined meets the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion on the 2022 Financial Statements***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the 2022 Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the 2022 financial statements.

### ***Responsibilities of Management for the 2022 Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued or are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditors' Responsibilities for the Audit of the 2022 Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the 2022 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2022 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - 2022 Supplemental Schedules Required by ERISA***

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2022, schedule of assets (held at end of year) as of December 31, 2022, and schedule of reportable transactions for the year ended December 31, 2022 are presented for the purposes of additional analysis and are not a required part of the 2022 financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2022 financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare 2022 financial statements or to the 2022 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

*Other Matter - Auditors' Report on the 2021 Financial Statements*

Predecessor auditors performed an audit of the 2021 financial statement of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for the Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated April 20, 2023 indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## Notes to the Financial Statements

December 31, 2022 and 2021

(1) Description of plan

The following brief description of the LifePoint Marquette Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions. LifePoint, Inc. (the "Plan Sponsor") is the sponsor of the Plan and is also designated as the Plan administrator.

(a) General

The Plan is a contributory defined benefit pension plan. The Plan covers eligible employees of Marquette General Health Systems, a subsidiary of the Plan Sponsor. On August 31, 2012, the Plan Sponsor acquired certain assets of the Marquette General Health System, including the assets and liabilities associated with the benefits of certain participants in the Marquette General Hospital, Inc. Retirement Plan. The Plan Sponsor established the Plan to assume the liability and associated assets for benefits accrued by the Marquette General Hospital, Inc. Retirement Plan as of August 31, 2012 and to provide retirement benefits at each eligible employee's retirement date and related death benefits for the employee's beneficiary. The Plan has been subsequently amended to reflect certain changes in the tax law and Plan provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

(b) Eligibility

Eligible employees were subject to the collective bargaining agreement in effect as of August 31, 2012 between the Plan Sponsor and the Michigan Nurses Association and have been continuously employed by DLP Partner Marquette, LLC, since September 1, 2012, and were actively accruing benefits under the Marquette General Hospital, Inc. Retirement Plan on August 31, 2012.

Effective September 1, 2012, the Plan was amended to freeze participation to any new employees hired on or after September 1, 2012.

(c) Pension benefits

Plan participants become entitled to monthly pension benefits upon reaching their normal retirement age of 65 or the fifth anniversary of the date on which the employee became a participant in the Plan. Pension benefits are determined based on the applicable percentage of the participant's final average compensation, up to covered compensation. If the participant was born before January 1, 1955, the applicable percentage is 1.7736 percent. If the participant was born after January 1, 1955, the applicable percentage is 1.8333 percent. If a participant's final average compensation is greater than the covered compensation, the benefit is increased by 2.5 percent of the amount by which the final average compensation exceeds covered compensation. Pension benefits are also calculated based on years of credited service. Participants may also elect to receive an early retirement benefit upon reaching age 55 with 10 or more years of service.

# LIFEPOINT MARQUETTE PENSION PLAN

## Notes to the Financial Statements

December 31, 2022 and 2021

Participants can choose various annuity options to receive the value of their accumulated plan benefits. If less than \$1,000 in accumulated benefits exist, benefits will be paid in a single lump-sum distribution.

(d) Funding policy

The Plan Sponsor's funding policy is to contribute for each Plan year not less than the amount required by ERISA to meet the minimum funding standard. The minimum amount of such contributions shall be sufficient to fund the Plan's current service costs on a current basis and to fund prior service costs. For the years ended December 31, 2022 and 2021, there was no minimum funding requirement of ERISA. During 2022 and 2021, the Plan Sponsor made contributions of \$813,338 and \$1,777,120, respectively. The Plan Sponsor also accrued \$496,881 during the year ended December 31, 2021 which was paid in 2022. The Plan Sponsor's contribution for the year exceeded the minimum funding requirements of ERISA. As a condition of accruing additional benefits, eligible employees under the collective bargaining agreement are required to contribute six percent of their salary to the Plan. Eligible employees may elect to cease to make the six percent contribution. If an eligible employee makes this election, their accrual of additional benefits is frozen effective on the first day of the Plan year following the Plan year during which they made their election.

(e) Vesting

All participants are fully vested.

(f) Death and disability benefits

If a vested participant dies, the Plan automatically provides death benefit coverage to the beneficiary of the participant in the amount equal to 50% of their normal retirement benefit, subject to adjustment for early retirement if the beneficiary elects to begin receiving benefits before the participant would have reached their normal retirement date. Active employees who become totally disabled are eligible to receive disability benefits equal to the monthly benefit accrued as of the time they become disabled.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

# LIFEPOINT MARQUETTE PENSION PLAN

## Notes to the Financial Statements

December 31, 2022 and 2021

(b) Investment valuation and income recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines the valuation policies utilizing information provided by Principal Bank ("Principal") for the year ended December 31, 2022 and by Wells Fargo, N.A. ("Wells Fargo") for the year ended December 31, 2021. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of benefits

Benefits payments are recorded when paid.

(d) Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees paid by the Plan incurred in connection with the general administration of the Plan are included in administrative expenses. Fees incurred by the Plan for the investment related services are included in net appreciation (depreciation) in fair value of investments.

(e) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

(f) Events occurring after reporting date

The Plan Sponsor has evaluated events and transactions that occurred between December 31, 2022 and September 14, 2023, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

# LIFEPOINT MARQUETTE PENSION PLAN

## Notes to the Financial Statements

December 31, 2022 and 2021

### (3) Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits accumulated under the Plan are based on the employee's highest consecutive 60 months of credited service compensation. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered at the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, or retirement) between the valuation date and the expected date of payment.

The significant assumptions used by the Plan's consulting actuaries as of January 1, 2022 are as follows:

Assumed rate of return	5.75%
Mortality	MP-2021 Mortality Scale
Benefit commencement age	Based on experience
Salary increases	3.25%

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The Plan's mortality rate for 2021 used the Improvement Scale MP-2021. Additionally, the assumed rate of return was 5.25% for 2021.

### (4) Certified information

Certain information related to investments presented and disclosed in the accompanying financial statements and supplemental schedules of assets (held at end of year) and reportable transactions, including cash and the fair value of investments held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments and interest and dividend income was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal as of December 31, 2022 and for the period from February 22, 2022 to December 31, 2022 and by Wells Fargo as of December 31, 2021 and for the period from January 1, 2021 to February 21, 2022.

# LIFEPOINT MARQUETTE PENSION PLAN

## Notes to the Financial Statements

December 31, 2022 and 2021

### (5) Accumulated plan benefits

A schedule of the actuarial present value of accumulated plan benefits as of January 1, 2022 is as follows:

Actuarial present value of vested benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 20,091,521
Other participants	<u>16,817,124</u>
Total vested benefits	36,908,645
Nonvested benefits	<u>510,954</u>
Total actuarial present value of accumulated plan benefits	\$ <u>37,419,599</u>

The schedule of changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2022 is as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ <u>38,324,549</u>
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,006,386
Interest	1,970,578
Benefits paid	(1,599,910)
Assumption changes	<u>(2,282,004)</u>
Net decrease	<u>(904,950)</u>
Accumulated present value of accumulated plan benefits at end of year	\$ <u>37,419,599</u>

### (6) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

# LIFEPOINT MARQUETTE PENSION PLAN

## Notes to the Financial Statements

December 31, 2022 and 2021

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- (i) *Money market funds*: Valued using \$1 as the net asset value ("NAV").
- (ii) *Mutual funds*: Valued based on the funds' reported closing net asset values ("NAV") as of the last business day of the plan year. The mutual funds are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**December 31, 2022 and 2021**

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

**Fair Value Measurements as of  
December 31, 2022 using the following inputs**

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 20,481,664	\$ -	\$ -	\$ 20,481,664

Investments measured at NAV as a practical expedient (a)				<u>13,893,882</u>
Investments at fair value				<u>\$ 35,301,485</u>

**Fair Value Measurements as of  
December 31, 2021 using the following inputs**

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 24,318,402	\$ -	\$ -	\$ 24,318,402

Total assets in the fair value hierarchy	<u>\$ 24,318,402</u>	<u>\$ 1,936,838</u>	<u>\$ -</u>	26,255,240
Investments measured at NAV as a practical expedient (a)				<u>18,617,307</u>
Investments at fair value				<u>\$ 44,872,547</u>

(a) Certain investments are measured at NAV as a practical expedient to estimate fair value and, therefore, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which the fair value is measured using the NAV practical expedient as of December 31, 2022 and 2021, respectively. There are no participant redemption restrictions for these investments.

## Notes to the Financial Statements

December 31, 2022 and 2021

### (7) Income tax status

The Plan obtained a favorable determination letter on November 3, 2015, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

### (8) Untimely remittance of participant contributions

The Plan Sponsor is required by Department of Labor regulation to remit participant contributions and participant loan repayments as soon as practicable, but by no later than the fifteenth business day following the end of the month in which the amounts were withheld from wages. For certain contributions withheld in 2022, the funds were not remitted timely. The Plan Sponsor corrected these late remittances during 2022.

### (9) Risks and uncertainties

The Plan invests in investment securities which are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

## Notes to the Financial Statements

December 31, 2022 and 2021

### (10) Related party and party-in-interest transactions

The Plan allows purchases and sales of assets through Principal, and, for 2022, certain Plan investments were shares of a money market fund managed by Principal, and therefore, these transactions qualify as party-in-interest transactions under ERISA. As described in Note 1, the Plan paid expenses to various service providers which also qualify as party-in-interest transactions.

### (11) Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of termination, the Plan's assets are allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable, or would have been payable, on the day before the commencement of the said three-year period to the extent the benefits are based on provisions of the Plan during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.
