Report of Independent Auditors

To the Participants and Plan Administrator of
University of Pikeville, Inc. Retirement Plan
Pikeville, Kentucky

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of University of Pikeville, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule referred to above.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements

1. Description of Plan

The following description of the University of Pikeville, Inc. Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

The Plan is a defined contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by University of Pikeville, Inc. (the University, Plan Sponsor or Plan Administrator). Plan assets are held by custodians, of which are Teachers Insurance and Annuity Association (TIAA) and Variable Annuity Life Insurance Company (VALIC). The Plan has been amended from time to time, most recently effective July 1, 2022 for changes in employer matching contributions, as described below.

The Plan covers substantially all employees of the University except those who are students enrolled and attending classes at the University. Employees become eligible to make participant contributions immediately upon being hired, and are eligible for employer contributions after completing one year of service as defined by the Plan. Employees are eligible to participate in the Plan on the first day of the month subsequent to or on the completion of eligibility requirements.

Contributions

Participants may elect to contribute up to the maximum allowable contribution, as defined by the Internal Revenue Code (IRC), to their individual accounts. Participants may also contribute amounts representing distributions from other qualified defined contribution plans, as well as any catch-up contributions for which participants may be eligible, as defined by the IRC.

Prior to July 1, 2022, the Plan allowed employer contributions, which were elective at the discretion of the employer. In 2021, the Plan Sponsor contributed 5% of employee eligible wages and matched 100% of each participant's contributions up to a maximum of 2%. Effective July 1, 2022, the Plan Sponsor began matching 100% of the participant's contribution up to 2% and 50% of the participant's contribution of more than 2%, up to 6%. The Plan Sponsor also began contributing a nonelective contribution equal to 4% of an eligible employee's compensation. The total contribution to a participant's account for the Plan year cannot exceed the maximum limit determined by Internal Revenue Service (IRS) regulations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the University's matching contributions plus earnings and realized gains, and charged with the participant's withdrawals and distributions, as well as realized losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account and includes employee contributions and related earnings thereon.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

1. Description of Plan, continued

Vesting

Participants are vested fully and immediately in their contributions and the University's contributions and all earnings thereon.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. If no such direction is made, participant accounts are invested in accordance with default investment alternatives as established under the Plan. The Plan Sponsor's contributions are automatically invested in the same investment options at the same percentage as participant deferral contributions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service due to other reasons, a participant will receive the value of the vested interest in his or her account as a lump-sum distribution.

Risk and Uncertainties

The Plan provides for various participant-directed investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of the investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Certain notes receivable from participants are issued directly from funds owned by TIAA and not directly from a participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding note receivable in case of default. The collateral is held in the TIAA Traditional Annuity as either part of a Group Supplemental Retirement Annuities (GSRA) contract or as a separate Retirement Loan contract.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

1. Description of Plan, continued

Notes Receivable from Participants, continued

The interest rate for these Plan notes may be fixed or variable and the initial rate is determined by the terms of the controlling contract as is the rate adjustment details and frequency. For notes having collateral held in a GSRA contract, principal repayments increase the amount of TIAA Traditional funds available for the participant's use. For Retirement Loan contracts, principal repayments are transferred to the CREF Money Market investment option in the participant's Retirement Annuities or Group Retirement Annuities contract. For these Plan notes receivable, interest is paid directly to TIAA.

Additionally, participants may borrow from their account balances subject to the provisions of the Plan agreement up to a maximum of the lesser of \$50,000 or 50% of their vested balance, reduced by the highest outstanding loan balance in the preceding 12 months.

The maximum term of a loan is 5 years unless the loan is used to purchase a new home. The maximum term for a loan to purchase a new home is 30 years. The loans are collateralized by the balance in the participant's account and bear interest at current market rates of local lending institutions. Principal and interest is paid ratably through bi-weekly or semi-monthly payroll deductions.

Investment and Administrative Expenses

All investment and administrative expenses of the Plan, except certain custodian fees, are absorbed by the Plan. Investment expenses are included in net depreciation in fair value of investments.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) which require management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of the significant accounting policies consistently followed by the Plan in the preparation of its financial statements.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value with the exception of the fully benefit-responsive insurance contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains or losses on investments bought and sold as well as held during the year.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

Contract value is the relevant measurement for fully benefit-responsive insurance contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based on the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

The Plan Administrator evaluated subsequent events for accounting and disclosure requirements through October 11, 2023, the date the financial statements were available to be issued.

3. Information Prepared and Certified by Custodians

The Plan's asset information included in this note and throughout the Plan's financial statements and supplemental schedule was prepared by or derived from information provided by TIAA and VALIC, the custodians of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that asset information provided to the Plan Administrator by the custodians related to the asset information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to asset information in this note and which appears throughout the financial statements and the supplemental schedule.

The following table presents the fair value of assets (except for fully benefit-responsive insurance contract, which is reported at contract value) in the Plan that were certified by TIAA and VALIC.

Total investments	\$ <u>38,546,066</u>	\$ <u>43,097,118</u>
Notes receivable from participants	\$ 181,497	\$ 69,216

For the year ended December 31, 2022, TIAA and VALIC also certified the completeness and accuracy of the \$6,488,715 of net realized and unrealized depreciation in the fair value of investments, \$1,084,707 of interest and dividends related to the investments, and \$6,500 of interest on notes receivable from participants.

4. Investment Contracts with Insurance Company

The Plan has a fully benefit-responsive insurance contract and a non benefit-responsive insurance contract with TIAA. TIAA maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contracts are included in the financial statements at contract value, as reported to the Plan by TIAA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Participants may choose to invest in TIAA Traditional Annuity accounts, which pay a guaranteed rate of interest plus additional amounts that are not guaranteed but may be established on a year-by-year basis. These additional amounts, when declared, remain in effect through the end of the "declaration year," which begins each March 1.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan Sponsor or other Plan Sponsor event (e.g., divestitures or spin-offs of a subsidiary) that causes a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

5. Fair Value Measurements

The Plan classifies its investments based on a hierarchy consisting of: Level 1 (valued using quoted prices from active markets for identical assets), Level 2 (not traded on an active market but for which observable market inputs are readily available), and Level 3 (valued based on significant unobservable inputs). The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2022 and 2021.

Following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at cost, which approximates fair value.

Variable annuity: Valued at NAV per share based on quoted market prices of underlying investments.

Non benefit-responsive insurance contract: This is a TIAA Traditional Annuity account valued at contract value which equals the accumulated cash contributions and interest credited to the Plan's contracts less any withdrawals. Contract value approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements, continued

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

Total investments at fair value				<u>\$ 41,899,538</u>

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

5. Fair Value Measurements, continued

In accordance with accounting standards, investments that are measured at fair value using the NAV practical expedient have not been classified as Level 1, 2 or 3 in the fair value hierarchy, but are included above to permit reconciliation of the fair value hierarchy tables to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share as of December 31:

	2022 Fair Value	2021 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Variable annuity	\$ 1,027,388	\$ 1,049,014	N/A	Daily	Daily

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

6. Exempt Party-in-Interest Transactions

The Plan's investments include fully allocated insurance contracts with and accounts managed by TIAA and VALIC. Certain Plan investments are shares of mutual funds managed by TIAA and VALIC. TIAA and VALIC are custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Administrative expenses of \$14,913 for the year ended December 31, 2022 are comprised of fees paid by the Plan to TIAA and VALIC for investment management services and withdrawal charges.

Additionally, indirect fees are paid to TIAA and VALIC based on investment account values. The indirect fees paid to TIAA for the year ended December 31, 2022 were approximately \$125,300. The indirect fees paid to VALIC range from 0.80% to 1.36% of the investment account value. The indirect fees are included within net depreciation in fair value of investments on the statement of changes in net assets available for benefits.

7. Tax Status

The Plan has adopted a non-standardized form of a prototype plan sponsored by TIAA. As announced in Revenue Procedure, 2013-22, the IRS opened up the application process for 403(b) pre-approved plans on June 28, 2013. Prototype plan sponsors had until April 30, 2015 to submit their plans to the IRS for approval. In January 2017, the IRS published Revenue Procedure 2017-18, which extended the deadline to March 31, 2020 as the last day to take advantage of the amendment period under Revenue Procedure 2013-22. The Plan adopted an IRS approved TIAA document effective November 30, 2018. Prior to April 30, 2014, 403(b) plans were not required to submit plans to the IRS for determination. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC.

UNIVERSITY OF PIKEVILLE, INC. RETIREMENT PLAN

Notes to the Financial Statements, continued

8. Priorities upon Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the rights of all affected participants to amounts contributed by them and the Plan Sponsor and related earnings thereon would become fully vested.
