INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Clark Equipment Company Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of Clark Equipment Company Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section—

- the amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to the assets held for investments of the Plan that were certified by a qualified institution. Their report dated September 30, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2021 financial statements related to the assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103 (a)(3)(c). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirement of ERISA Section 103 (a)(3)(c).

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Clark Equipment Company Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of Clark Equipment Company Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section—

- the amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to the assets held for investments of the Plan that were certified by a qualified institution. Their report dated September 30, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2021 financial statements related to the assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103 (a)(3)(c). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirement of ERISA Section 103 (a)(3)(c).

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of the Plan

The following brief description of the Clark Equipment Company Retirement Plan (the “Plan”) is provided for general information purposes. Participants should refer to the plan document for more complete information.

History

On November 30, 2007, Doosan Infracore International, Inc. (the “Company”) purchased from Ingersoll-Rand plc (“IR”) its Bobcat, Utility Equipment, and Attachment businesses. As defined in the purchase agreement, employees and former employees of these IR businesses became employees and former employees of the Company, and the related pension assets and obligations for these individuals were to be transferred to the Plan.

Effective June 30, 2016, Doosan Infracore International, Inc. merged into Clark Equipment Company with Clark Equipment Company being the surviving corporation. For the time period prior to June 30, 2016, “Company” means Doosan Infracore International, Inc. For the time period from June 30, 2016 – August 14, 2023, “Company” means Clark Equipment Company and any successor to Clark Equipment Company that elects, by action of its Board of Directors, to adopt the Plan. Effective August 15, 2023, Clark Equipment Company was renamed Doosan Bobcat North America, Inc.

General

The Plan is a defined benefit noncontributory pension plan generally covering certain retired, terminated and laid-off employees of the Company and its subsidiaries and affiliates entitled to pension benefits under their previous plans that were merged into the Plan. Additionally, the Plan covers certain active employees who previously participated in the Clark Equipment Company Retirement Program for Salaried Employees (the “Salaried Plan”), which merged into the Plan in 2008. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Except for the participants who previously participated in the Salaried Plan, the Plan covers only retired and other former employees of the Company and its subsidiaries. All future benefit accruals provided under the Plan relate to active participants of the Salaried Plan component. If a former employee, who was a participant in the Plan and not covered by the Salaried Plan component, resumes employment with the Company, benefits under the Plan shall be suspended, and any subsequent service with the Company shall be credited to the applicable active pension plan.

Transfers from Other Plans

Certain participants of the Plan are entitled to increased benefits in the Plan in lieu of the benefit they have earned under the Clark Employee Stock Ownership Plan (the “ESOP”), a defined contribution plan also sponsored by the Company. The terms of this benefit increase dictate that a portion of the eligible participants’ accounts in the ESOP be transferred to the Plan. During 2022 and 2021, \$0 and \$555,598, respectively, were transferred from the ESOP to the Plan.

Purchase of Annuities

In March 2021, the Plan purchased annuities from a large insurance company for a premium of \$32,091,183. This satisfied the Plan’s future obligations to approximately 255 retirees.

Pension Benefits

The normal retirement age is 65 with five years of vested service. The monthly pension benefit is based on annual compensation, Social Security benefit, and years of credited service. Variations of this formula apply to employees of specific subsidiaries of the Company. Eligibility for early retirement and surviving spouse benefits vary as defined by the Plan. Employees electing early retirement receive reduced pension benefits based on the commencement of pension payments and the applicable variations. Employees who become totally and permanently disabled are eligible for a disability benefit. Their monthly benefit is equal to the normal retirement benefit accumulated as of the date they become disabled, reduced by any worker's compensation benefits payable to the employee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Actuarial Matters

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries and beneficiaries of employees who have died. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2022 was determined by the consulting actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Clark Equipment Company Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2022 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Pri-2012 sex-distinct base tables with white and blue collar adjustments where applicable identifying information is available Disabled: Social Security Administration Actuarial Study #123 disabled life mortality table
Discount rate	– 4.00%
Expected retirement age for active participants	– Various ages from 55 to 70
Form of benefits	– Various based on actual experience
Salary increase	– 3.50%

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2021 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Pri-2012 sex-distinct base tables with white and blue collar adjustments where applicable identifying information is available Disabled: Social Security Administration Actuarial Study #123 disabled life mortality table
Discount rate	– 4.20%
Expected retirement age for active participants	– Various ages from 55 to 70
Form of benefits	– Various based on actual experience
Salary increase	– 3.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Investment management expenses, trustee fees, and Pension Benefit Guaranty (PBGC) premiums are paid by the Plan. The Company paid all fees for actuarial services.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2023, the date the financial statements were available to be issued.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's investments at December 31, 2022 and 2021 measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Clark Equipment Company Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Commingled funds: Valued at the current unit value of the fund at the end of the year as determined by the administrator of the fund. The current unit value is the value of the fund assets based on the closing prices on an active market less fund liabilities divided by the number of shares outstanding. The current unit value is a reasonable exit price, but it is not quoted in an active market. These investments are classified as Level 2.

Short-term investment fund: At December 31, 2022 and 2021, the fund invested in First American Institutional Prime Obligations Fund, Class Z, a money market mutual fund. These investments are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

Investments at Fair Value as of December 31, 2022

	Level 1	Level 2	Level 3	Total
Commingled funds	\$ -	\$ 94,832,318	\$ -	\$ 94,832,318
Short-term investment fund	784,489	-	-	\$ 784,489
Total	<u>\$ 784,489</u>	<u>\$ 94,832,318</u>	<u>\$ -</u>	<u>\$ 95,616,807</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

Investments at Fair Value as of December 31, 2021

	Level 1	Level 2	Level 3	Total
Commingled funds	\$ -	\$ 124,951,571	\$ -	\$ 124,951,571
Short-term investment fund	497,813	-	-	\$ 497,813
Total	<u>\$ 497,813</u>	<u>\$ 124,951,571</u>	<u>\$ -</u>	<u>\$ 125,449,384</u>

The fair values of the funds in the Master Trust shown above reflect the proceeds anticipated should the funds be sold. There are no restrictions on the redemption of the funds, nor are there any unfunded commitments related to these investments.

Clark Equipment Company Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Funding Policy

It is the Company's policy to make annual contributions to the Plan in amounts ranging from the minimum necessary to satisfy the funding requirements of ERISA to the maximum tax deductible contributions allowed by the Internal Revenue Code ("IRC"). In accordance with ERISA, minimum funding requirements have been met for the years presented.

5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Investment Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2022 and 2021 and for the years then ended, which was obtained from data prepared and certified as complete and accurate by US Bank National Association, the Plan's trustee.

	December 31, 2022	December 31, 2021

7. Investment in Master Trust

Until June 30, 2021, the assets of two of the Company's separate defined benefit pension plans were included in the Master Trust, for which the trustee was JPMorgan Chase Bank N.A. (the "Trustee"). The Trustee maintained separate accounting of all contributions, benefit payments and expenses and allocated income received by the Master Trust on the basis of the adjusted value of each plan at year end.

The following net depreciation in fair value of investments, interest, and dividend income are certified by the Trustee to be complete and accurate. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

Net investment loss for the Master Trust for the year ended December 31 was as follows:

	Year Ended December 31, 2021
Plan's interest in investment loss of the Master Trust	\$ <u>(1,236,918)</u>

8. Party-in-interest Transactions

At December 31, 2022 and 2021, certain plan investments are funds managed by US Bank National Association. Effective July 1, 2021, US Bank National Association is the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions. Through the Plan most investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

From January 1 – July 30, 2021, through the Master Trust, certain investments were managed by JPMorgan Chase Bank N.A. JPMorgan Chase Bank N.A. was the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions, but are not deemed prohibited transactions. Through the Master Trust certain investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated January 31, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained

Notes to Financial Statements

upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for economic assumptions**

- **Salary increases** – Based on 2018 experience study.
- **Social Security wage base** – It exceeds the inflation assumption by 0.75% which is a long term expectation for real wage growth.
- **Inflation** – It is within 10 basis points of the long-term inflation assumption published by Mercer Investment Consulting in their *Capital Market Outlook* as of January 1, 2022.
- **The ESOP Annuity Conversion** – Discount rates for Plan Factor are based on current levels and are assumed increase to long-term expected levels over a five-year horizon. 417(e) Minimum factor rates are implied future segment rates based on the current year's IRS-prescribed rates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for demographic assumptions**

- **Withdrawal** – Developed based on an experience study undertaken in 2018 using data from 2013 - 2017. Experience for this period is expected to be representative of anticipated future experience. The assumption is reviewed annually for reasonability.
- **Disability** – The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates. The plan's relatively small size would not support a credible disability study.
- **Retirement age** – Based on an experience study undertaken in 2018 using data from 2013 – 2017 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Benefit commencement age** – Based on an experience study undertaken in 2018 using data from 2013 – 2017. This assumption incorporates the fact that many employees retire prior to normal retirement age.
- **Spouse assumptions** – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married and spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of payment** – Based on an experience study undertaken in 2018 using data from 2013 – 2017.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
- Benefit payments due January 1st are paid in December and as a result have been removed from the liabilities as of January 1st.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- Interest discounts and mortality rates were updated from 2021 to 2022 in accordance with PPA.
- The ESOP annuity conversion assumptions were updated to reflect current interest rates.

Schedule SB, line 15 — Reconciliation of differences between valuation results and amounts used to calculate AFTAP

The 2022 AFTAP was adjusted to reflect \$48,508,114 and \$32,444,370 (total of \$80,952,484) in annuity purchases completed during the 2020 and 2021 plan years, respectively.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Status of the plan	The plan is closed to new entrants hired on or after January 1, 1997 (or February 14, 1997 for Clark-Hurth Components not covered by another plan).
Significant events that occurred during the year	In March 2021, about \$32 million in annuities were purchased for approximately 390 retirees with monthly benefits less than \$1,000/month.

• Benefit	The normal retirement benefit plus an additional temporary benefit equal to the normal retirement benefit. The temporary benefit is payable until the employee is eligible for unreduced Social Security or attains age 65.
Pre-retirement death	
• Eligibility	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.
• Benefit	Surviving spouses of deceased married vested participants are eligible to receive a death benefit of 55% of the participants benefit after adjusting by a factor of 90 percent plus or minus ½ percent for each year the spouse is older or younger, respectively, than the employee; this adjustment cannot exceed 100 percent.
Form of benefits	
• Automatic form for unmarried participants	A single life annuity.
• Automatic form for married participants	A 55% joint and survivor annuity.
• Optional forms	Life Annuity, 75% joint and survivor annuity.
• Optional form conversion factors	The factors for converting a benefit from a life annuity to a 55% or 75% joint and survivor annuity are described in Table A of the plan document.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2022, the limit is \$245,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, effective January 1, 2014 as amended December 31, 2018, are included in this valuation:

- **Most recent plan amendments included:** The plan amendment adopted December 31, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**

—*Active participants:*

Melroe Division Bismarck, North Dakota Plant Hourly-Rate Employees' Pension Plan(Plan38)

Late retirement actuarial increases apply to participants who defer retirement beyond age 65. Participants are valued assuming that they receive the combination of accrual of benefits after age 65 and the actuarial increase for deferred retirement.

Other employees(Legacy Plan 50)

The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to Participants who defer retirement beyond age 70½.

—*Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase

Active participants:

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - Unpredictable contingent event benefits: This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - Benefit accruals: The plan's funding target does not have any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2021 to 2022.

In March 2021, approximately \$32 million in annuities were purchased for about 390 retirees with monthly benefits less than \$1,000/month.
