INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees'
Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section—

- the amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to the assets held for investments of the Plan that were certified by a qualified institution. Their report dated September 30, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2021 financial statements related to the assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103 (a)(3)(c). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirement of ERISA Section 103 (a)(3)(c).

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees'
Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2021 and the related statement of changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section—

- the amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion-

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to the assets held for investments of the Plan that were certified by a qualified institution. Their report dated September 30, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2021 financial statements related to the assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103 (a)(3)(c). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirement of ERISA Section 103 (a)(3)(c).

Notes to Financial Statements
December 31, 2022 and 2021**

1. Description of the Plan

The following brief description of the Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for complete information.

General

The Plan is a defined benefit noncontributory pension plan covering substantially all hourly-rate employees of the Gwinner, North Dakota Plant (the "Plant") of Doosan Bobcat North America (the "Company"), represented by the United Steelworkers International Union AFL-CIO, Local 560, formerly the Paper, Allied-Industrial, Chemical and Energy Workers International Union and its Local No. 7-0560.

The Plan is maintained under a Collective Bargaining Agreement (the "Agreement") which became effective in December 2022. Prior to the most recent Agreement, the Plan was maintained under the Agreement from December 2018.

Effective January 1, 2019, the Plan was closed to new entrants.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Purchase of Annuities

In March 2021, the Plan purchased annuities from a large insurance company for a premium of \$19,579,771. This satisfied the Plan's future obligations to approximately 388 retirees.

Pension Benefits

The normal retirement age is 65 with 5 years of vested service. The monthly pension benefit is calculated as a set rate multiplied by the number of years of credited service. The current rate for retirement taken in 2022 and 2021 is \$41.00 for each year of credited service. The Plan permits early retirement at ages 55 to 64 and 11 months at a reduced benefit; however, 10 or more years of credited service are required to receive early retirement benefits.

Benefits are payable in the form of a life only annuity with monthly payments beginning at retirement, or employees may elect to receive reduced pension benefits with a 55% joint and survivor annuity. The Plan also provides pre-retirement spousal benefits in the event of the death of a vested active employee who has not achieved eligibility for pension benefits and for terminated vested employees. If employees terminate before rendering five years of service, they forfeit the right to receive their accumulated plan benefits.

Active employees with ten or more years of credited service who become permanently and totally disabled receive monthly disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid from the time it is determined that the employee is eligible for such payments until normal retirement age. At normal retirement age, disabled participants begin receiving normal retirement benefits earned as of the date they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Administrative Expenses

Investment management expenses, trustee fees, and Pension Benefit Guaranty (PBGC) premiums are paid by the Plan. The Company paid all fees for actuarial services.

Benefit Payments

Benefit payments are recorded when paid.

Actuarial Matters

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2022 was determined by the consulting actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2022 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Pri-2012 sex-distinct table with blue collar adjustments; improvements under the Mercer Social Security 2021 scale Disabled: Table published in Actuarial Study #123 by the Social Security Administration
Discount rate	– 5.40%

Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefits	–Various based on actual experience

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2021 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Pri-2012 sex-distinct table with blue collar adjustments; improvements under the Mercer Social Security 2020 scale Disabled: Table published in Actuarial Study #123 by the Social Security Administration
Discount rate	– 5.40%
Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefits	–Various based on actual experience

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2023, the date the financial statements were available to be issued.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The

Clark Equipment Company
Melroe Division Gwinner, North Dakota Plant
Hourly-Rate Employees' Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's investments at December 31, 2022 and 2021 measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Commingled funds: Valued at the current unit value of the fund at the end of the year, as determined by the administrator of the fund. The current unit value is the value of the fund assets, based on the closing prices on an active market, less fund liabilities divided by the number of shares outstanding. The current unit value is a reasonable exit price, but it is not quoted in an active market. These investments are classified as Level 2.

Short-term investment fund: At December 31, 2022 and 2021, the fund invested in First American Institutional Prime Obligations Fund, Class Z, a money market mutual fund. These investments are classified as Level 1.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022:

Investments at Fair Value as of December 31, 2022

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total	<u>\$ 350,134</u>	<u>\$ 83,175,516</u>	<u>\$ -</u>	<u>\$ 83,525,651</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

Investments at Fair Value as of December 31, 2021

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Commingled funds	\$ -	\$ 104,257,033	\$ -	\$ 104,257,033
Short-term investment fund	<u>402,944</u>	<u>-</u>	<u>-</u>	<u>402,944</u>
Total	<u>\$ 402,944</u>	<u>\$ 104,257,033</u>	<u>\$ -</u>	<u>\$ 104,659,977</u>

The fair values of the funds in the Master Trust shown above reflect the proceeds anticipated should the funds be sold. There are no restrictions on the redemption of the funds, nor are there any unfunded commitments related to these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Funding Policy

It is the Company's policy to make annual contributions to the Plan in amounts ranging from the minimum necessary to satisfy the funding requirements of ERISA to the maximum tax deductible contributions allowed by the Internal Revenue Code ("IRC"). In accordance with ERISA, minimum funding requirements have been met for the years presented.

5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Investment Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2022 and 2021 and for the years then ended, which was obtained from data prepared and certified as complete and accurate by US Bank National Association, the Plan's trustee.

7. Investment in Master Trust

Until June 30, 2021, the assets of two of the Company's separate defined benefit pension plans were included in the Master Trust, for which the trustee was JPMorgan Chase Bank N.A. (the "Trustee"). The Trustee maintained separate accounting of all contributions, benefit payments and expenses and allocated income received by the Master Trust on the basis of adjusted value of each plan at year end.

The following net appreciation in fair value of investments, interest, and dividend income are certified by the Trustee to be complete and accurate. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate.

Net investment income for the Master Trust for the year ended December 31, 2021 was as follows:

	Year Ended December 31, 2021
Plan's interest in investment income of the Master Trust	\$ <u>3,780,428</u>

8. Party-in-interest Transactions

At December 31, 2022 and 2021, certain plan investments are funds managed by US Bank National Association. Effective July 1, 2021, US Bank National Association is the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions. Through the Plan most investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

From January 1 – July 30, 2021, through the Master Trust, certain investments were managed by JPMorgan Chase Bank N.A. JPMorgan Chase Bank N.A. was the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions, but are not deemed prohibited transactions. Through the Master Trust certain investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 12, 2013, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Hourly-Rate Employees' Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Thereafter, the rates of withdrawal are 55% of the Mercer Modified 2003 Society of Actuaries Select and Ultimate Turnover Table and vary by age, as shown in the table above

Rationale for economic assumptions

- **Expected investment return** – Based on the median simulated 20-year investment return for the plan's target mix using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook. Further adjusted to reflect return for trust paid expenses (42 basis points) and active management (87 basis points).

Rationale for demographic assumptions

- **Withdrawal** – Developed based on an experience study undertaken in 2018 using data from 2013 - 2017. Experience for this period is expected to be representative of anticipated future experience. The assumption is reviewed annually for reasonability.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Disability** – The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates. The plan's relatively small size would not support a credible disability study.
- **Retirement age** – Based on an experience study undertaken in 2018 using data from 2013 – 2017 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Benefit commencement age** – Based on an experience study undertaken in 2018 using data from 2013 – 2017. This assumption incorporates the fact that many employees retire prior to normal retirement age.
- **Spouse assumptions** – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married and spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of payment** – Based on an experience study undertaken in 2018 using data from 2013 through 2017 and the expectation that the future election patterns not differ significantly from the period studied.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each month/quarter/year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as required by IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Summary of major plan provisions

Effective date and plan year	Original plan: January 1, 1971 Restated plan: January 1, 2016 Plan year: Calendar Year
Status of the plan	The plan has ongoing benefit accruals, but effective January 1, 2019 the plan was closed to new entrants.
Significant events that occurred during the year	None, but in March 2021 about \$19 million in annuities were purchased for about 250 retirees and beneficiaries with monthly benefits less than \$1,000/month.

Definitions

• Covered employees	Hourly employees covered under the collective bargaining agreement between the company and the United Paperworkers International Union, AFL-CIO CLC, Local No. 7560.	
• Participation	A covered employee participates on date of hire.	
• Employee contributions	None required and none allowed.	
• Vesting service	Vesting service based on each calendar year in which employee performs at least 1,000 hours of service.

	January 1, 2009	\$41.00
• Accrued benefit	The service multiplier times the credited service.	

Normal retirement	
• Eligibility	The first day of the month following the later of attainment of age 65 or completion of 5 years of participation.
• Benefit	Service multiplier times credited service.
Early retirement	
• Eligibility	The first day of the month following the attainment of age 55 and completion of 10 years of credited service.
• Benefit	Normal retirement benefit reduced by 4/9th of 1 percent for each full month between the commencement date and normal retirement age.
Late retirement	
• Eligibility	First of any month after the participant's normal retirement date.
• Benefit	Same as normal retirement; however, participants receive the combination of accrual of benefits after normal retirement and the actuarial increase for deferred retirement.
Deferred vested	
• Eligibility	Termination for reasons other than death or retirement after completing 5 years of service.
• Benefit	Same as normal retirement or, for participants with 10 or more years of credited service, early retirement.
Disability	
• Eligibility	Employees with at least 10 years of credited service becoming totally and permanently disabled for a period of 6 months or longer.
• Benefit	The normal retirement benefit plus an additional temporary benefit equal to the normal retirement benefit. The temporary benefit is payable until the employee is eligible for unreduced Social Security or attains age 65.
Pre-retirement death	
• Eligibility	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.
• Benefit	Surviving spouses of deceased married vested participants are eligible to receive a death benefit of 55% of the participants benefit after adjusting by a factor of 90 percent plus or minus ½ percent for each year the spouse is older or younger, respectively, than the employee; this adjustment cannot exceed 100 percent.
Form of benefits	
• Automatic form for unmarried participants	A single life annuity.
• Automatic form for married participants	A 75% joint and survivor annuity.
• Optional forms	A 75% joint and survivor annuity.

• Optional form conversion factors	The factors for converting a benefit from a life annuity are described in Table A of the plan document.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2022, the limit is \$245,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2016, are included in this valuation:

- **Most recent plan amendments included:** The plan was restated as of January 1, 2016.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:*
Late retirement actuarial increases apply to participants who defer retirement beyond age 65. Participants are valued assuming that they receive the combination of accrual of benefits after age 65 and the actuarial increase for deferred retirement
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits for events that occurred before the valuation date but includes contingent event benefits for events that are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

- **Benefit accruals:** The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

In March 2021, approximately \$19 million in annuities were purchased for about 250 retirees and beneficiaries with monthly benefits less than \$1,000/month. This annuity purchase was previously reflected in the FYE21 expense and disclosure reporting, but is reflected in the minimum funding valuation target liability for the first time with the January 1, 2022 funding valuation.

Schedule SB, line 15 — Reconciliation of differences between valuation results and amounts used to calculate AFTAP

The 2022 AFTAP was adjusted to reflect \$19,293,876 in annuity purchases completed during the 2021 plan year.
