Independent Auditor's Report

To the Plan Administrator
LT Corporation & Affiliates Savings Plan
Cleveland, Mississippi

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of LT Corporation & Affiliates Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institutions), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year)-December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to

the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet(s) the requirements of ERISA Section 103(a)(3)(C).

LT Corporation & Affiliates Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the LT Corporation & Affiliates (the “Plan Sponsor” or the “Company”) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provision.

General

The Plan, which became effective October 1, 1984 and was restated effective January 1, 2020, is a defined contribution plan covering substantially all full-time and certain part-time employees of the Company who are age 21 or older. Employees are eligible to participate on the first day of each month, on or after the age, service period and hour requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Each year, participants may contribute to the Plan up to 100% of their eligible compensation subject to the maximum dollar limitations under the Internal Revenue Code (the “Code”). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan provides for a safe harbor matching contribution (“Safe Harbor Matching Contribution”) in which the Company, in order to satisfy the “safe harbor” requirements of the Code, contributes a matching contribution on behalf of the participant based upon each participant’s Deferred Contributions. The Safe Harbor Matching Contributions for 2022 was equal to 100% of the participant’s Deferred Contributions up to 3% of the participant’s eligible compensation, plus 50% of the Deferred Contributions between 3% and 5% of the participant’s compensation. The Safe Harbor Matching Contributions are contributed each pay period. For the year ended December 31, 2022, Safe Harbor Matching Contributions totaled \$767,113 which are included in the Statement of Changes in Net Assets Available for Plan Benefits. The Company may make additional contributions to the Plan, however, there were no such contributions made during the year ended December 31, 2022.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, the Company’s contributions and an allocation of earnings on investments held in the participant’s account. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their voluntary, rollover contributions, and employer match, plus actual earnings thereon.

LT Corporation & Affiliates Savings Plan

Notes to Financial Statements

Payment of Benefits

A participant may receive a benefit payment upon termination, disability and retirement. Upon attainment of 59-1/2 years of age participants may receive an in-service withdrawal from their salary deferral or matching contributions account balances. In accordance with the participant's election, benefit payments can be made in a single lump-sum payment in cash or through installments over a period of not more than the participant's assumed life expectancy. Involuntary cash-outs in a lump sum payment can be made at the Company's discretion for participant balances under \$1,000, and involuntary rollovers to an IRA can be made at the Company's discretion for participant balances between \$1,000 and \$5,000.

Administrative Expenses

The Company pays the administrative costs associated with any professional services provided to the Plan and the cost of communications to the participants. Any expenses paid by the Company are excluded from these financial statements. Administrative expenses recorded by the Plan represent recordkeeping fees paid directly from the Plan to the Plan's trustee. Loan fees and other administrative fees related to benefit payments are deducted directly from the participants' accounts. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan, except fully benefit-responsive investment contracts, are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Plan's management determines the Plan's valuation policies utilizing information provided by Principal Life Insurance Company and Principal Trust Company.

The Plan's fully benefit-responsive investment contract with Principal Trust Company (Note 5) is valued at contract value. Contract value equals the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

LT Corporation & Affiliates Savings Plan

Notes to Financial Statements

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with the corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ASC 820 are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for the Plan's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds: Valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus the liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and is classified within the Level 1 of the fair value hierarchy.

Pooled Separate Accounts: These investments are recorded at the NAV reported by the trustee as a practical expedient to estimating fair value. The fair value of these investments has been measured using the NAV's per share of the Plan's ownership interest in the pooled separate accounts

LT Corporation & Affiliates Savings Plan

Notes to Financial Statements

or an equivalent measure, where it is not probable that the fund will sell a pooled separate account at a price other than NAV. There are no pooled separate accounts with redemption restrictions or unfunded commitments as of December 31, 2022 or 2021.

The investment objectives for the pooled separate accounts measured using the NAV are as follows:

Fixed income - These investments are primarily invested in dividend paying equity securities and in equity securities of companies with large market capitalization.

Real estate - This investment seeks to generate a total return by investing in equity securities of companies primarily engaged in the real estate industry and invests in equity securities of small, medium, and large market capitalization companies. It is non-diversified.

Large cap - The investment seeks long-term growth of capital investing primarily in a diversified portfolio of equity securities with large capitalizations as compared to the overall U.S. market.

Mid cap - This investment seeks to mirror the investment performance of the S&P Mid Cap 400 Index by investing in common stock of companies that compose the S&P Mid Cap 400 Index.

Small cap - This investment seeks to provide long-term growth by investing in common stock of companies that compose the S&P Small Cap 600 Index.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021:

	Assets at Fair Value as of December 31, 2022

4. Information Certified by Principal Life Insurance Company and Principal Trust Company

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103 (a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Principal Trust Company, qualified institutions, have certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate.

<i>December 31,</i>	2022		2021
Mutual funds	\$	16,062,648	\$ 17,438,429
Pooled separate accounts	\$	963,408	\$ 1,317,649
Fixed annuity contract	\$	260,742	\$ 41,795
<i>Year Ended December 31,</i>	2022		
Net depreciation in fair value of investments	\$	(3,421,700)	
Interest and dividends	\$	291,222	

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amount, present in this table are intended to permit reconciliation of the fair value hierarchy to the amounts present in the statements of net assets available for benefit.

The Plan's independent auditor did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Investment Contract

The Plan has an investment option called the Principal Fixed Income Guaranteed Option ("Fund"). The Fund invests in synthetic guaranteed investment contracts ("GIC"). A synthetic GIC is an investment contract generally issued by a bank or insurance company and backed by interest bearing securities. The synthetic GICs are fully benefit-responsive and valued at cost plus undistributed interest income ("Contract Value"). The investments underlying the contract are maintained separate from the contract issuer's general assets, by a third-party custodian. These contracts

LT Corporation & Affiliates Savings Plan

Notes to Financial Statements

typically provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the assets of the Fund, but rather amortized, usually over the time to maturity or duration of the underlying assets, through adjustments to the future interest crediting rate. The GIC issuer guarantees that all qualified participant withdrawals will occur at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were both approximately 1.6% and 1.55% at December 31, 2022 and 2021, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. Such interest rates are continuously reviewed and reset as needed on a monthly to quarterly basis.

The guaranteed investment contracts do have a surrender charge of 5% that may be charged based on cumulative transfer percentages and advance notice of intent to terminate if the Plan terminates its interest in the contract. As of December 31, 2022, the Plan has no intent to terminate its interest in the contract.

The fully benefit-responsive investment contracts are carried and adjusted to Contract Value. In monitoring liquidity, Principal Trust Company considers such factors as the benefit-responsiveness of the investment contracts, the ability of the parties to the investment contracts to perform in accordance with the terms of the contracts, and the likelihood that plan-directed withdrawals would result in payments to plan participants at amounts other than Contract Value.

Benefit responsive GICs, including the wrap agreements, are with highly rated financial institutions and are designed to help preserve principal and provide a stable credit rating. These contracts provide that plan participant-initiated withdrawals permitted under a participating plan will be paid at contract value. The contracts generally provide that withdrawals associated with certain events which are not in the ordinary course of fund operations but are determined by the issuer to have a material adverse effect on the issuer's financial interest and will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in such contracts. Wrap agreements permit the fully benefit-responsive investment contracts, investment manager or issuer to terminate upon notice at market value and provide for automatic termination of the wrap contract if the book value or the market value of the contract equals zero.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

6. Related Party Transactions and Party-in-Interest Transactions

Certain plan investments are managed by Principal Life Insurance Company and Principal Trust Company. Principal Life Insurance Company and Principal Trust Company are the recordkeepers for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are considered party-in-interest transactions. The plan has paid Principal Life Insurance Company \$41,251 for the year ended December 31, 2022.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

8. Tax Status

The IRS has determined and informed the Plan Sponsor in an opinion letter dated August 8, 2014 that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has since been restated and amended; however, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. The Plan's exposure to a concentration of risk is dependent upon funds selected by participants. The following table shows details on investment that represent a concentration of greater than 10% of the Plan's investments in either years:

Investments	December 31, 2022			December 31, 2021		
	Balance	Investments	% of	Balance	Investments	% of
Am Fds Trgt Dte RTM 2035 R6 FD	\$ 1,775,597		10%	\$ 2,307,350		12%
Am Fds Trgt Dte RTM 2025 R6 FD	\$ 1,958,459		12%	\$ 2,174,777		12%
Am Fds Trgt Dte RTM 2030 R6 FD	\$ 2,086,346		12%	\$ 2,128,216		11%

Due to the concentration of investments denoted above, in addition to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such change could materially affect the value of the participants' account balance and the amounts reported in the Statement of Net Assets Available for Benefits. The macroeconomics impacts stemming from the conflict in Ukraine, and the potential impact and duration of the COVID-19 pandemic, continuing supply chain issues and rising inflation has continued to cause volatility in the markets. Any future impact on investments or the Plan remains uncertain.
