INDEPENDENT AUDITORS' REPORT

To the Trustees of
Sun Chemical Corporation 401(k) Savings Plan

Opinion

We have audited the accompanying financial statements of Sun Chemical Corporation 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

SUN CHEMICAL CORPORATION 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan:

The following description of Sun Chemical Corporation 401(k) Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution retirement plan, sponsored by Sun Chemical Corporation (the “Company” or “Plan Sponsor”), effective January 1, 1989. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Generally, all employees who satisfy the following conditions are eligible to participate in the Plan:

- a) Employed as a salaried or hourly employee; and
- b) Not covered under a collective bargaining agreement whereby retirement benefits are subject to negotiation.

Plan Administration - The Plan is administered by the Plan Sponsor. The Plan’s investment assets are held in a trust account at Northern Trust Company (the “Trustee”) and consist of a divided interest in an investment account of the Sun Chemical Corporation Master Retirement Savings Trust (the “Master Trust”).

Master Trust - The Master Trust holds and invests the assets of the Plan, as well as the assets of the Sun Chemical Corporation 401(k) Savings Plan (for Participating Unions) for investment and administrative purposes. Each participant may direct the investment of his/her accounts into any one or more of the Plan’s available investment options. The net investment income (loss) of the investment assets is allocated by Alight, the record keeper, to each participating plan in accordance with the individual participants’ allocation of investments.

Contributions - Employees may generally elect to contribute up to 50% of their basic earnings (base salary) in whole percentages on a before-tax and/or after-tax basis, subject to Internal Revenue Service (“IRS”) rules. Participants who have attained the age 50 before the end of the Plan year are eligible to make catch-up contributions. Employee annual contributions may not exceed \$20,500 plus a catch-up contribution of \$6,500 for participants age 50 and older for 2022. The employer matching contribution is 100% of employee contributions that do not exceed 5%.

Participant Accounts - Individual accounts are maintained for each plan participant at the Plan level. Each participant’s account is credited with the following, as applicable: the participant’s contributions, the Company’s matching contributions, rollovers from qualified previous plans, allocations of the Plan’s investment earnings and charged with withdrawals, an allocation of Plan losses, and administrative expenses. Allocations are based upon the participant earnings/losses or account balances as defined in the Plan document. Company matching contributions are invested in the various investment options in the same percentages as the participant contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting - Participants are vested immediately in their contributions and the employer matching contribution plus actual earnings thereon.

Payment of Benefits - Upon termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant’s vested account balance in a lump-sum payment, subject to certain conditions. Participants may also elect to defer distributions, subject to certain conditions.

SUN CHEMICAL CORPORATION 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of \$1,000. Notes receivable amounts may not exceed the lesser of (a) 50% of the participant's vested balance, or (b) \$50,000 reduced by the participant's highest outstanding notes receivable balance during the preceding 12 months. Notes receivable bear interest at prime plus 1% and are collateralized by a participant's account balance. Notes receivable are generally payable through payroll deductions and only one note receivable may be outstanding in a twelve month period. Notes receivable terms range from one to five years or up to thirty years for the purchase of a primary residence.

Forfeitures - Forfeitures are created when participants terminate employment before becoming entitled to their full benefits. The Master Trust held accumulated forfeitures of \$0 at December 31, 2022 and 2021. Forfeitures are used to reduce employer's matching contributions to the Plan. During 2022, the Plan utilized \$0 of forfeitures to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition (Master Trust) - The Plan's interest in the Master Trust is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded net against investment loss and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Administrative Expenses - Administrative expenses are paid by the Master Trust and recorded net against investment loss in the Statement of Changes in Net Assets Available for Benefits. Investment-related expenses are recorded net against the investment loss in the Statement of Changes in Net Assets Available for Benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are recorded net against investment loss in the Statement of Changes in Net Assets Available for Benefits. Professional fees of the Plan are paid by the Company and are excluded from administrative expenses.

SUN CHEMICAL CORPORATION 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Investment management fees charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis in participant accounts and are not separately reflected. Consequently, management fees are reflected as a reduction of investment return for such investments in participant accounts.

Payment of Benefits - Benefit payments to participants are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with IRS rules and regulations and the Plan document.

Subsequent Events - The Plan Administrator has reviewed and evaluated all events and transactions from December 31, 2022 through October 11, 2023, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statements of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Plan Interest in Master Trust:

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan as well as the Sun Chemical Corporation 401(k) Savings Plan (for Participating Unions). Each participating plan has a divided interest in the Master Trust (see Note 1). The assets of the Master Trust are held by the Trustee.

The following table presents the value of investments and other balances held at the Master Trust level, which excludes balances held at the participating plan level. Such participating plan level balances consist of notes receivable from participants in the amount of \$3,545,628 and \$4,098,566 as of December 31, 2022 and 2021, respectively, and accrued expenses of \$120,344 and \$51,434 as of December 31, 2022 and 2021, respectively.

Net investment loss of Master Trust	<u>\$ (69,384,699)</u>
Plan's interest in the net investment loss of the Master Trust	<u>\$ (69,100,197)</u>

See Note 4 for all relevant fair value disclosures related to investments in the Master Trust including valuation methodologies used and leveling within the fair value hierarchy.

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

SUN CHEMICAL CORPORATION 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

- *Common Collective Trusts:* Investments in regulated investment companies or other trust pooled funds are valued at the net asset value per share/unit on the valuation date. The underlying assets of the trust are normally valued based on their closing sales price or, in the absence of sales, at their reported bid price (see Note 5).
- *Registered Investment Companies:* Valued at the daily closing price in the active market in which the fund is traded or valued per share/unit on the valuation date.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2022 and 2021:

Investments at Fair Value as of December 31, 2022

- (a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2022 and 2021, there were no significant transfers in or out of levels 1, 2, or 3.

NOTES TO FINANCIAL STATEMENTS

Note 5 - Common Collective Trusts:

The Master Trust invests in investment contracts through its common collective trusts (CCT). The CCT's fair value is a relevant measure attribute.

The CCTs held by the Master Trust are primarily S&P index, Dow Jones index, All Country World Index ("ACWI"), bond index and a stable asset fund. The S&P index fund has an objective to approximate the risk and return characterized by the S&P 500 Index. The Dow Jones index fund has an objective to approximate the overall performance of the common stocks included in the Dow Jones U.S. Completion ex-LP's Total Stock Market Index. The primary objective of the ACWI index is to approximate the risk and return characterized by the MSCI ACWI ex-US Index which is commonly used to represent the global non-U.S. equity markets. The bond index fund has an objective to provide investment results that approximate the overall performance of certain bond indices. The stable asset fund has an objective to provide a competitive short-term rate of return while preserving the safety of capital and limiting market risk. To achieve these objectives, the funds invest primarily in common stocks of the S&P index, Dow Jones index, MSCI ACWI ex-US Index, units in other collective funds, investment contracts and obligations of the U.S. government. The funds may make limited use of futures and/or options for the purpose of maintaining equity exposure. Redemptions are allowed for participants daily, and there is no redemption period notice required. There are no unfunded commitments.

Note 6 - Risks and Uncertainties and Concentration of Investment Risk:

The Master Trust provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Master Trust may have investments in securities with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Master Trusts' investment in three funds comprised approximately 65% of total investments at December 31, 2022 and 64% at December 31, 2021.

Note 7 - Party-in-Interest:

Certain administrative functions are performed by the officers and employees of the Company at no cost, who may also be participants in the Plan.

Fees paid by the Master Trust were \$387,206 for investment management and administrative services for the year ended December 31, 2022. Such fees were included as a reduction of the return earned on each fund. These transactions are not deemed prohibited party-in-interest transactions, because they are covered by statutory administrative exemptions from the Internal Revenue Code (IRC) and ERISA's rules on prohibited transactions.

NOTES TO FINANCIAL STATEMENTS

Note 8 - Federal Income Tax Status:

The IRS issued on April 16, 2014 a favorable determination that the Plan meets the requirements of applicable sections of the IRC and is exempt from federal income taxes. Such determination letter did not involve a review of the effect on the Plan of certain recent tax laws that become effective after 2014. The Plan administrator believes that the Plan is designed and has been operated in compliance with the applicable requirements of such recent tax laws as of December 31, 2022.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 9 - Plan Termination:

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The provisions of the Plan provide that, in the event of termination, the assets of the Plan, reduced for any unpaid Plan expenses, will be distributed to Plan participants.
