INDEPENDENT AUDITORS' REPORT

To the Plan Administrator and Participants of the
Centenary University Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Centenary University Defined Contribution Reporting Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a period of one year subsequent to the audit report date.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a – Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of and for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**CENTENARY UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Centenary University Defined Contribution Retirement Plan (the "Plan") is provided for general information purposes only. Readers should refer to the Plan agreement for more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Centenary University (the "University") who are not students. Participants aged twenty or older become eligible to receive employer matching contributions once completing 12 months of service. Prior employment at another institution of higher education will be credited when determining matching eligibility. This Plan commenced on June 15, 1945 and has since been restated as of July 1, 2018 and is subject to the provisions of ERISA and subsequent amendments. The Plan was most recently amended effective July 1, 2019 to reduce the matching contribution percentage to zero. The University is the Plan administrator and TIAA, CREF and TIAA, FSB are custodians of the Plan.

Employee Contributions

As approved by the Board of Trustees and subject to the provisions of the Internal Revenue Code ("IRC"), eligible employees may contribute during the Plan year at the participant's election into any of the Plan's fund options, in pre-tax base annual compensation provided that the sum of contributions during any Plan year does not exceed the following limitations:

Pre-tax Contributions

Pre-tax contributions are limited to base annual salary ("Compensation"), as defined by the Plan, and are subject to the requirements under Section 402(g) of the code, or \$20,500 for the Plan year ended December 31, 2022.

Rollover Contributions

Any eligible employee may transfer contributions and such other amounts to the Plan from an "eligible rollover plan" that meets the requirements of the IRC and the Plan at the time of the transfer ("Rollover Contributions").

Age 50 Catch-up Contributions

Participants who are at least age 50, or who will reach age 50 during any calendar year will have the option to make additional pre-tax contributions provided certain requirements are met. Such participants are permitted to make additional pre-tax contributions of up to \$6,500 in 2022.

403(b) Lifetime Catch-up Contributions

Participants who have completed 15 or more years of service with a qualified organization will have the option to make additional pre-tax contributions. Such participants are permitted to make additional pre-tax contributions of up to \$3,000 in 2022 with a lifetime cap of \$15,000.

DECEMBER 31, 2022 AND 2021**

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Employer Contributions

For the year ended December 31, 2022, there was no University contribution. The employee elective deferrals, and the matching contribution when applicable, are recorded in the period in which the University makes the payroll deductions from the employee's earnings.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the University's contribution, when applicable, and (b) plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures

Participants are vested immediately in their voluntary contributions and any matching contributions plus any actual earnings thereon. There was no forfeiture balance nor forfeitures applied as of December 31, 2022 and 2021, respectively.

Plan Loans to Participants

Participants are permitted to take participant loans from their vested accounts and plan loans directly from TIAA.

Participant Loans

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50% of their non-forfeitable account balance. The term of the loan may not exceed five years. Participant loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the third-party administrator, which has been determined to be prime plus 1%. Interest rates were 4.25% - 7.25% on outstanding loans as of December 31, 2022. Principal and interest payments are paid through deductions to the participant's paycheck. At December 31, 2022 and 2021, participants had outstanding participant loan balances due to TIAA of \$53,397 and \$38,442.

Plan Loans

Plan loans are funds borrowed from TIAA and not the participant accounts, Plan loans are not considered Plan assets and are not reported in the statements of net assets. Plan loans are secured by a portion of the participant's TIAA Traditional Annuity accounts and 110% of that account balance is held as collateral to cover the outstanding loan in case of default. The interest rates on plan loans are determined by the Traditional Annuity Contract.

At December 31, 2022 and 2021, participants had outstanding plan loan balances due to TIAA of \$38,565 and \$51,976, respectively. These loans were collateralized by TIAA Traditional Annuity Contract account balances of \$42,422 and \$57,174 as of December 31, 2022 and 2021, respectively. In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the participant or the participant becomes eligible to receive a distribution under the terms of the Plan.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On termination of service, whether due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or apply the value to the purchase of an annuity contract. The Plan also provides for in-service withdrawals for hardship reasons and for participants who have attained age 59 ½. Hardship withdrawals are only permitted from the participants pre-tax contributions. Minimum required distributions for participants who have reached age 70 ½ also apply per IRS regulations.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements using the accrual basis of accounting. The Plan adheres to accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contracts are considered fully benefit-responsive. See Notes 4 and 5.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, as well as disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Expenses

Certain expenses of maintaining the Plan are incurred at either the investment level or the Plan level. Certain expenses incurred by the investments (commissions, management fees) are paid out of investor assets and are therefore netted into realized and unrealized depreciation in the fair value of investments in the statement of changes in net assets available for benefits. Certain administrative expenses are paid by the University and others are paid directly from participant accounts.

Payment of Benefits

Benefits are recorded when paid.

**CENTENARY UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Except for fully benefit-responsive contracts, investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gain and losses on investments bought and sold, as well as held, during the year.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S CUSTODIANS

As noted in the independent auditors' report, the Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by TIAA and CREF, custodians of the Plan and recordkeeper and agent for TIAA, FSB, a custodian of the Plan. This information includes:

- Investment values as of December 31, 2022 and 2021, as shown in the statements of net assets available for benefits and the fair value disclosures in Note 4.
- Notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021
- Net investment loss and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Schedule H, Line 4i – schedule of assets (held at end of year) as of December 31, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to information certified by the custodians.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets;

**CENTENARY UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds:

TIAA CREF FUNDS

TIAA CREF funds are valued at the net asset value ("NAV") of shares held by the Plan at year end, based upon quoted market prices determined in an active market. In an effort to reduce market timing and excessive trading, shareholders will be locked out of a fund for 90 days if a purchase, sale and repurchase within that fund is made within a 60 day period, other than for the TIAA-CREF Money Market fund or TIAA-CREF Short Term Bond fund.

OTHER MUTUAL FUNDS

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**CENTENARY UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Variable annuity contracts:

CREF Accounts are valued daily. Each CREF Account determines its unit value each day, based on the underlying assets, minus its liabilities, and then divided by the number of units outstanding. The underlying investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. On the other hand, CREF Money Market Account holdings are generally valued at amortized cost. CREF Accounts are available to participating plans under variable annuity contracts at the closing accumulation unit value on any day the New York Stock Exchange is open. Beginning in October 2014, the unit values for the CREF Accounts are listed on the NASDAQ's website and being updated overnight for each day that NASDAQ is open. Therefore, the CREF Accounts are deemed to be actively traded.

In an effort to reduce excessive trading by shareholders, shareholders will be locked out of an account for ninety days if a purchase, sale and repurchase within that account is made within a 60 day period, other than for the CREF Money Market account.

TIAA Traditional Annuity:

The TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value, and as such observable prices for identical or similar investments do not exist. The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals, and administrative expenses. See Note 5.

Pooled Separate Account:

The TIAA Real Estate Account ("REA") is considered a pooled separate account, which purchases accumulation units whose net asset values are calculated daily. The fair value of the Plan's interest in the REA is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. Beginning in October 2014, the unit value for the REA is listed on the NASDAQ's website and being updated overnight for each day that NASDAQ is open. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Accumulation units in the REA are available for transactions at the closing accumulation unit value on any day the NASDAQ is open for business. Transfers out of the REA are limited to one per calendar quarter. The TIAA general account provides the REA with a liquidity guarantee whereby TIAA ensures that the REA has funds available to meet participant redemption, transfer or cash withdrawal requests.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – TIAA TRADITIONAL ANNUITY

The Plan has entered into a guaranteed investment contract with TIAA which consists of liquid contracts which are benefit responsive and illiquid contracts which are non-benefit responsive (see Note 4).

TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

TIAA Traditional Guaranteed Annuity is still a single funding vehicle reported at contract value, but the reporting of the TIAA Traditional Guaranteed Annuity has been modified in 2010 by TIAA to include the reporting of the amount of benefit responsive and non-benefit responsive holdings of the contract separately. As of December 31, 2022, and 2021, \$9,107,209 and \$8,996,785, respectively, is not fully benefit-responsive due to withdrawal restrictions and is reported at contract value which Plan management has determined approximates fair value. The remaining \$898,089 and \$908,460 as of December 31, 2022 and 2021, respectively, is fully benefit-responsive and is reported at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA and CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary that cause a significant withdrawal from the Plan), or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at the contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6 – RELATED-PARTY TRANSACTIONS

Certain plan investments are managed by TIAA and CREF, the custodians. The Plan also allows notes receivable from participants. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

**CENTENARY UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

NOTE 8 – TAX STATUS

Prior to July 2018, the Plan was operated under the ERISA Specimen 403(b) Plan, which is a TIAA prototype plan document. In July 2018, the Plan was amended and restated through adoption of the TIAA ERISA 403(b) Volume Submitter Plan. The Internal Revenue Service (“IRS”) approved the volume submitter plan adopted by the Plan, as then designed, to be in compliance with applicable requirements of the Internal Revenue Code (“IRC”) and therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 16, 2023, the date the financial statements were available to be issued. Effective January 1, 2023, the Plan has reinstated the employer contribution at a flat percentage rate of 5% of the participant's contribution. Other than this change, the Plan is not aware of any additional subsequent events which would require recognition or disclosure in the financial statements.
