WIPFLI

Independent Auditor's Report

To the Plan Administrator
Therma-Stor Union 401(k) Plan
Madison, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Therma-Stor Union 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Therma-Stor Union 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Therma-Stor Union 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Therma-Stor Union 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Therma-Stor Union 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Therma-Stor Union 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Therma-Stor Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees who are included in a collective bargaining unit at Therma-Stor, LLC (the "Employer") who are represented by Sheet Metal Workers Local 565 and have completed one month of service. Participants may enter the Plan on the first day of the month following the satisfaction of the service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Transfers

The Employer also sponsors a 401(k) Plan for Non-Union employees. If participants change their employment status, their account balances are transferred to/from the corresponding plan.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan also allows participants to roll over distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Employer makes a matching contribution equal to 50% of participant contributions up to six percent of compensation. Employer matching contributions totaled \$247,187 for the year ended December 31, 2022. Additionally, active participants receive additional Employer contributions equal to \$0.65 for each hour of service credited to the participant during the period. Additional Employer contributions totaled \$139,871 for the year ended December 31, 2022. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Employer contributions, and allocations of plan earnings (losses) and forfeitures of terminated participant's nonvested accounts, if any. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Vesting and Forfeitures

A participant is fully and immediately vested in their contributions, plus actual earnings thereon. A participant is vested in the Employer matching and additional Employer contributions and earnings thereon according to the following schedule:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2 years	0 %
2 years	20 %
3 years	40 %
4 years	60 %
5 years	80 %
6 or more years	100 %

An active employee becomes 100% vested upon reaching Normal Retirement Age (65), death or disability.

Prior to July 1, 2021, additional Employer contributions were 100% vested after two years of service.

Forfeitures of nonvested participant balances are first used to pay plan expenses or reduce Employer contributions, with any remaining amounts reallocated to remaining participants. Reallocated forfeitures are subject to the same vesting schedule as the Employer matching contributions. Forfeitures used to reduce Employer contributions were \$60,878 and to pay expenses was \$19,023 for the year ended December 31, 2022. The amount of unallocated forfeitures at December 31, 2022 and 2021 were \$25,616 and \$9, respectively.

Notes Receivable From Participants

Participants may borrow from their accounts up to the lesser of \$50,000, reduced by the highest outstanding loan balance during the one-year period ending on the day before the loan is made, or, 50% of the participant's vested balance. The minimum amount of any loan is \$1,000 and loan terms range from one to five years except loans used to acquire a dwelling unit may extend up to 15 years. Loans are secured by the participant's investment accounts and bear interest at rates ranging from 3.25%-7.00%, commensurate with local prevailing rates as determined by the plan administrator. Principal and interest generally is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or monthly installments over various periods. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or leave the account under the Plan, except that participants with balances below \$5,000 will be paid only a lump sum amount. The Plan also permits in-service distributions to participants over the age of 59 ½ or in the case of financial hardship.

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Employer and are excluded from these financial statements. Fees related to benefit payments and to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 16, 2023, the date the financial statements were available to be issued.

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Investments in pooled separate accounts are valued using a readily available fair value based on the fair value of the underlying securities in which the account is invested. The readily determinable fair value is used if the fair value per share is determined and published and is the basis for current transactions. There are currently no redemption restrictions or unfunded commitments on these transactions.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Investments in common trust funds are valued using a readily determinable fair value based on the fair value of the underlying securities in which the account is invested. The readily determinable fair value is used if the fair value per share is determined and published and is the basis for current transactions. There are currently no redemption restrictions or unfunded commitments on these investments.

Guaranteed interest accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total

Note 3: Fair Value Measurements (Continued)

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2022, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed interest account	\$ 2,034	Discounted cash flow	Interest rate on account	2.61%
			Applicable interest rate	2.61%
			Maturity date	12/31/2022-12/31/2023

If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value.

If the applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage. This percentage is equal to:

1. The difference between the applicable interest rate and the interest rate on the account, multiplied by
2. The number of years (including fractional parts of a year) until the maturity date.

Note 4: Guaranteed Investment Account

The Plan maintains investments in guaranteed interest contracts with Principal Life Insurance Company. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses paid by the Plan. The contracts are included in the financial statements at fair value, as reported by the trustee. The fair value of the contracts is the value paid any time funds are withdrawn prior to their maturity, for an event other than death, disability, termination, or retirement, and reflects the applicable surrender charge. The Trustee and Plan management have determined that the guaranteed interest accounts are not fully-benefit responsive.

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 5: Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company, the Trustee of the Plan.

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Fees paid during the year for administrative services rendered by parties-in-interest were based on customary and reasonable rates for such services. Certain legal, accounting, and administrative expenses relating to the maintenance of the Plan are paid by the Employer. The Plan made direct payments to the third-party administrator of \$38,080 during 2022. Certain plan investments are pooled separate accounts, collective trust funds, and guaranteed interest accounts managed by affiliates of Principal Trust Company, the Trustee. Transactions involving these funds are considered transactions with parties-in-interest.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Employer contributions.

Note 8: Tax Status

The Employer adopted a nonstandard prototype document with an IRS notification letter which states the prototype plan document is in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Therma-Stor Union 401(k) Plan

Notes to Financial Statements

Note 10: Partial Plan Termination

During October 2023, Plan management determined that the Plan had experienced a partial plan termination for the year ended December 31, 2022. When a partial plan termination occurs, affected participants are to become fully vested. Plan management determined that participants affected by the 2022 partial plan had forfeitures deducted from their withdrawals. Accordingly, Plan management is in the process of making corrections for the affected participants. The Plan has recognized a corrective contribution receivable of \$40,000 as of December 31, 2022, to reflect the amount the Plan expects to receive from the Employer to restore the forfeited participant balances.

Note 11: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2022, to Form 5500:

Net assets available for benefits per the financial statements	\$ 3,948,089
Adjustment for corrective contribution receivable	(40,000)
Net assets available for benefits per the Form 5500	\$ 3,908,089

The following is a reconciliation of net decrease in net assets available for benefits per the financial statements for the year ended December 31, 2022, to Form 5500:

Net decrease in net assets available for benefits per the financial statements	\$ (210,045)
Less: Adjustment for corrective contribution receivable	(40,000)
Net loss per Form 5500	\$ (250,045)
