Independent Auditors' Report

To the Plan Administrator and Trustees of Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dassault Falcon Jet Wilmington Corporation 401(k) Investment and Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of the matter

Effective December 31, 2022, the Plan merged into Dassault Falcon Jet Corporation 401(k) Investment and Savings Plan (the "Dassault Plan"). See note 2 for details.

Dassault Falcon Jet- Wilmington Corp.
Savings and Investment Plan
Notes to Financial Statements
December 31, 2022

Note 1. Significant Accounting Policies

a) Basis of Presentation

The financial statements of the Dassault Falcon Jet - Wilmington Corp. Savings and Investment Plan (the "Plan") have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully-benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transaction under the terms of the Plan.

b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c) Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully-benefit-responsive investment contract, which is reported a contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

d) Payment of Benefits

Benefits are recorded when paid.

e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distribution based upon the terms of the Plan document.

Note 2. Description of the Plan

The following description of the Plan is provided for general information only. Participants should refer to the Plan document for more complete information.

a) General

The Plan was a savings and investment plan created on October 22, 2000 in accordance with Section 401(k) of the Internal Revenue Code. All employees of Dassault Falcon Jet - Wilmington Corp. (the "Company") who had satisfied certain eligibility requirements were covered by the Plan. The Plan did not have any service or age requirements for participation. The investments of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022 were held by Massachusetts Mutual Life Insurance Company ("Mass Mutual"), and Empower Trust Company ("ETC"), the trustees of the Plan. The Company administers the Plan.

Effective January 1, 2023, the participants of the Plan became eligible to participate in the Dassault Falcon Jet Corporation 401(k) Investment and Savings Plan (the "Dassault Plan"). On December 30, 2022, a total of \$18,919,336 was transferred from the Plan to the Dassault Plan. Certain investments were liquidated and transferred as of December 31, 2022 totaling \$12,118,305. Effective December 31, 2022, a guaranteed interest account transferred in-kind totaling \$6,801,031 was transferred from the Plan to the Dassault Plan.

b) Contributions

In accordance with the Plan provisions and subject to limitations under the Internal Revenue Code, participants could elect to make voluntary contributions, up to a maximum of \$20,500 and \$19,500 in 2022 and 2021, respectively, (plus catch-up contributions for participants age 50 or over of \$6,500 in both 2022 and 2021), on a tax deferred basis, for which the Company made matching contributions in an amount equal to 50% of the voluntary contributions up to a maximum of 6% of compensation. The allocation of the Company's contributions follows the election that participants made with regard to their own contributions. Participants could not make additional voluntary contributions under the Plan provisions.

The Company could elect to make an annual profit-sharing contribution to participant accounts. These profit-sharing contributions serve to increase the value of participants' benefit at retirement. There were none made for the year ended December 31, 2022.

c) Forfeitures

Forfeitures relating to the non-vested portion of the Company's contributions were to be used to reduce future administrative expenses and company contributions. As of December 31, 2022 and 2021, approximately \$0 and \$20,231, respectively, of accumulated forfeitures were available to offset future Company contributions. The Company also had excess forfeitures which amounted to approximately \$0 and \$16,341, as of December 31, 2022 and 2021 respectively. The remaining forfeitures at the time of the plan merger were not reverted back to the Company but were transferred to the Dassault Plan.

Note 2. Description of the Plan (continued)

d) Participant Accounts

The Plan was an individual account plan, i.e. each participant had their own account in the Plan and exercises control over the assets in their account. Each participant's account was credited with the participant's contributions, employer contributions, plan earnings, and allocated forfeitures. The Plan provided for certain participant directed investment options. Participants directed the investment of their contributions into various investments options offered by the Plan. Participants could split their contributions in multiples of 5%. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

e) Vesting

The participants had full and immediate 100% vesting in their contributions and related interest and earnings credited to their accounts. Participants became fully vested in the portion of their accounts attributed to the Company's contribution in accordance with the provisions of the Plan after completing one year of service, as defined in the Plan document.

f) Notes Receivable from Participants

Participants were eligible to borrow from their account upon approval from the Plan administrator. The loan must be paid back within five years or ten years if used to purchase a principal residence. The amount of any loan to a participant when added to the individual's outstanding loans from this Plan could not exceed the lesser of \$50,000 or 50% of the vested portions of the participant's account as of the valuation date coinciding with or immediately preceding the date of the loan. The minimum loan amount is \$1,000. Interest rates on loans were reasonably commensurate with current interest rates charged for loans under similar circumstances by persons in the business of lending money. The interest rate remained fixed over the loan term and could not be renegotiated.

g) Payment of Benefits

On termination of service participants receive their vested benefits as a lump sum payment subject to federal income tax withholding, or have the payment made as a "direct rollover" to an individual retirement account or to another employer's tax qualified plan.

h) Plan Expenses

Costs and expenses incurred with regard to the purchase, sale and transfer of securities in connection with the operation of the Plan were charged to the Plan.

The Company paid for substantially all administrative expenses of the Plan.

Note 3. Related Party Transactions

Certain plan investments were shares of mutual funds and the guaranteed interest account are managed by Mass Mutual, who was the insurance carrier for the guaranteed interest account. Mass Mutual was the trustee through December 30, 2022 and was the recordkeeper of the Plan, therefore, these transactions qualify as exempt party-in-interest transactions. Mass Mutual receives revenue from certain investments in the Plan. Mass Mutual and the Plan sponsor have agreed that if this revenue exceeds an agreed upon revenue rate, Mass Mutual shall make an amount equal to such excess available to the Plan to pay other ERISA qualified plan administrative expenses. For the year ended December 31, 2022, there was \$20,000 excess made available to the Plan, which was used to pay administrative expenses during the year.

Note 4. Investment Information Certified by the Trustee

The following is a summary of the investments and notes receivable from participants regarding the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included in the Plan's financial statements and supplemental schedule, that were prepared by or derived from information provided by Mass Mutual and ETC, the trustees of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustees that such information is complete and accurate.

Investments and notes receivable from participants certified as of and for the years ended December 31 were as follows:

	2022	2021
Investments, at fair value	\$ -	\$ 22,421,413
Investments, at contract value	-	8,129,396
Notes receivable from participants	-	339,111
Net realized and unrealized depreciation		
in fair value of investments	\$ (4,094,845)	
Interest and dividends	1,198,803	
Interest income on notes receivable		
from participants	5,581	

Note 5. Fair Value Measurements

Fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, fair value is classified into three broad levels, which are described below:

Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs.

Dassault FalconJet- Wilmington Corp.
Savings and Investment Plan
Notes to Financial Statements
December 31, 2022

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in inactive markets; or model derived valuations in which all significant inputs are observable or can be derived principally from or corroborated with observable market data.

Level 3: Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs or minimize the use of unobservable inputs.

In determining fair value, the Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021. During the year ended December 31, 2022 there were no significant transfers of assets between Levels 1, 2, and 3.

	December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 22,421,413	\$ -	\$ -	\$ 22,421,413
Total Investments in Fair Value Hierarchy	\$ 22,421,413	\$ -	\$ -	\$ 22,421,413

Note 6. Investment Contract

The Plan entered into a fully benefit-responsive guaranteed investment contract. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Dassault FalconJet- Wilmington Corp.
Savings and Investment Plan
Notes to Financial Statements
December 31, 2022

Because the contract was fully benefit - responsive, contract value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract was presented at contract value on the face of the statement of net assets available for benefits. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents; (2) changes to the Plan's prohibition on competing investment options; (3) bankruptcy of the Plan sponsor or other Plan sponsor events that significantly affect the Plan's normal operations; (4) the failure of the Plan to qualify under the Internal Revenue Code; or (5) premature termination of the contract. The Plan administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 7. Income Tax Status

The Plan is a prototype plan, which has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, that the prototype is designed in accordance with applicable sections of the IRC. The Plan has not received its separate determination letter from the IRS. However, the Plan administrator believes the Plan is currently designed and is being operated in conformance with the applicable requirements of the IRC. Subsequent to this issuance of the opinion letter, the Plan has been amended and restated to comply with recent legislation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain tax positions taken or expected to be taken.

The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.
