INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
The Laitram Employees' Incentive Savings Plan
Harahan, Louisiana

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Laitram Employees' Incentive Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Laitram Employees' Incentive Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of The Laitram Employees' Incentive Savings Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Laitram Employees' Incentive Savings Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Laitram Employees' Incentive Savings Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Laitram Employees' Incentive Savings Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i- Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE LAITRAM EMPLOYEES' INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2022 and 2021

1) Description of plan

The following description of The Laitram Employees' Incentive Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan available to all participants who were participants in the Laitram Corporation Restated Retirement Income Plan and Trust on April 1, 1984, participants of Laitram, LLC, and related participating employers (Company or Employer) who have completed three months of employment and are not an excluded class of participants as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Participants can elect to contribute to the Plan with payroll deductions up to 75% of total compensation in increments of whole percentages (tax deferred contributions). All eligible employees are automatically enrolled in the Plan with a 4% deferral election, unless the employee elects otherwise. Additionally, the Plan document provides for voluntary after-tax contributions. The amount of participant contributions is not to exceed the maximum deferral amount indicated by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. The Employer will make matching contributions to the Plan for 100% of a participant's contribution up to 4% of the participant's compensation. The participant and Employer contributions are allocated to the respective investment funds based on the participant's election.

The Plan provides for a nondiscretionary contribution to all eligible employees based on a formula that takes into account Social Security.

c) Participant accounts

Each participant's account is credited with the participant's and Employer contributions and Plan earnings, and charged with any distributions made to the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Notes receivable - participant loans

Participants may borrow from their fund accounts up to a maximum of 50 percent of their vested account balance or \$50,000 minus the highest outstanding loan balance in the participant's account during the last 12 months. The participant loan must be a minimum of \$1,000. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through biweekly payroll deductions over a period established at the time the loan is made. Interest rates ranged between 3.25% and 6.5% at December 31, 2022 and 2021.

e) Vesting

Participants are fully vested in the portion of their account representing their contributions plus actual earnings thereon at all times. The portion of each participant's account representing

1) Description of plan (continued)

e) Vesting (continued)

Employer matching contributions vests immediately. The portion of each participant's account representing Employer nondiscretionary contributions vests as follows:

<u>Years of service</u>	<u>Vesting percentage</u>
Less than 2	0%
2	25%
3	50%
4	75%
5	100%

f) Payments of benefits

On termination of employment due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in their account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. A participant may withdraw all or part of their rollover contributions at any time. Withdrawals from the tax-deferred contributions may only be made after attaining age 59 ½ or due to financial hardship, as defined by the Plan. Balances under \$5,000 may be paid out at the discretion of the Company, as defined in the Plan documents. Benefit payments to participants are recorded upon distribution.

g) Forfeitures

Any forfeitures occurring during the plan year will be used to reduce administrative expenses and to reduce Employer contributions. In 2022 and 2021, forfeited non-vested accounts totaling \$198,000 and \$150,945, respectively, were used to pay Employer contributions. At December 31, 2022 and 2021, forfeited nonvested accounts available to offset future Employer contributions and administrative expenses were \$212,349 and \$196,295, respectively.

2) Summary of significant accounting policies

a) Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value.

b) Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

c) Payment of benefits

Benefits are recorded when paid.

THE LAITRAM EMPLOYEES' INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2022 and 2021

2) Summary of significant accounting policies (continued)

d) Investment valuation and income recognition

Investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

e) Notes receivable - participant loans

Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statements of changes in net assets available for benefits. Deemed distributions amounted to \$5,455 and \$3,837 for the years ended December 31, 2022 and 2021, respectively. Payments on previously deemed loans received in 2022 and 2021 amounted to \$-0-.

f) Plan administrative costs

Except for loan origination fees and overnight fees associated with notes receivables from participants, all administrative expenses of the Plan are paid by the Company. In addition, certain investment accounts charge asset and participation fees that are allocated among the respected participants.

3) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants are 100% vested in their account balance.

4) Risks and uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5) Investments

The Plan's investments are held by Fidelity Management Trust Company. The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), depreciated and appreciated in value by \$(106,881,758) and \$48,019,482 for the years ended December 31, 2022 and 2021, respectively.

6) Related party transactions

The Plan invests in mutual funds and money market accounts offered and managed by Fidelity Management Trust Company. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

7) Information certified by the Plan's trustee (unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2022 and 2021, and for the years then ended, included in the Plan's financial statements and supplementary schedule that were prepared by or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

	<u>2022</u>	<u>2021</u>

Interest from notes receivable – participant loans	200,037	229,724
Interest	264,313	4,372

8) Common/collective trusts (managed income portfolio)

The Plan has entered into a managed income portfolio (the “Portfolio”) with Fidelity Management Trust Company (FMTC). The Portfolio invests in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into “wrapper” contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. FMTC seeks to minimize the exposure of the Portfolio to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers.

The Portfolio calculates its net asset value per unit as of the close of business of the New York Stock Exchange. It is the policy of the Portfolio to use its best efforts to maintain a stable net asset value of \$1.00 per unit; although there is no guarantee that the Portfolio will be able to maintain this value. Investments in wrap contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. The dealers may consider the following in the bid process: size of the portfolio, performance of the underlying portfolio, plan cash flow, and the fair value to contract value ratio. For purposes of benefit responsive withdrawals, investments in wrap contracts are valued at contract value, which could be more or less than fair value. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive and held by a trust offered only to qualified employer-sponsored defined-contribution plans.

THE LAITRAM EMPLOYEES' INCENTIVE SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2022 and 2021

8) Common/collective trusts (managed income portfolio) (continued)

An investment contract is considered fully benefit-responsive if: 1) it is effected directly between the Portfolio and the issuer and may not be transferred without the consent of the issuer, 2) the issuer of the wrap contract provides assurance that the contract crediting rate will not be adjusted to less than zero, 3) the contract requires all permitted unit holder-initiated transactions with the Portfolio to occur at contract value without limitation, 4) it is improbable that an event will occur that would limit the ability of the Portfolio to transact at contract value with both the issuer and unitholders, 5) the Portfolio allows unit holders reasonable access to their funds. Investment contracts that do not meet the criteria for valuation at contract value will be valued at fair value as determined by the trustee. These investment contracts provide for benefit responsive withdrawals at contract value.

9) Federal income taxes

The Plan received a favorable opinion letter from the Internal Revenue Service dated June 21, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the letter, including amendments made to comply with recent law changes.

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Department of Labor and Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions for a period of three years from filing these returns; however, there are currently no audits for any tax periods in progress.

10) Fair value measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

NOTES TO FINANCIAL STATEMENTS
For the Years Ended December 31, 2022 and 2021

10) Fair value measurement (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for measuring assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds and money market accounts: Valued at the daily closing price as reported by the fund.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trusts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The NAV is used as a practical expedient to estimate fair value.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022:

<u>Assets at Fair Value as of December 31, 2022</u>

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2022 and 2021 are reported in net appreciation (depreciation).

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2022 and 2021.

11) SECURE Act 2.0

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Most of the significant provisions will become effective in 2024 and thereafter. Accordingly, there is no material impact to the Plan's 2022 financial statements.

12) Subsequent events

The Company has evaluated subsequent events through the date of the auditors' report, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosures in these financial statements.
