INDEPENDENT AUDITORS' REPORT

Plan Administrator
Lott Oil Company, Inc. 401(k) Plan
Natchitoches, Louisiana

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Lott Oil Company, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Lott Oil Company, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lott Oil Company, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lott Oil Company, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lott Oil Company, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lott Oil Company, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(l) – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(1) **Description of the Plan**

The following description of the Lott Oil Company, Inc. (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a tax-qualified defined contribution plan under Section 401(a) of the Internal Revenue Code of 1986, as amended, which provides retirement, disability and death benefits for eligible employees of the Company. An eligible employee is any person employed by the Company who is an employee at any of the following Plan co-sponsors: Lott Oil Company, Inc., Blue Sky Personnel Services, LLC, Lomac of Natchitoches, Inc., and Lott Gaming, Inc. To attain eligibility, employees must be age twenty-one (21), and must have completed one year of service, as defined by the Plan. The Plan is subject to various provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan is an amendment and restatement of a pre-existing plan which was originally effective as of July 1, 1993. The plan as herein discussed is effective as of January 1, 2021.

Contributions and Allocations

Each year, eligible participants may contribute up to one-hundred (100%) of their pretax annual compensation (“eligible compensation” as defined under the Plan), not to exceed maximum annual contribution limits established by the Federal Government. The annual elective deferral limitations for 2022 and 2021 totaled \$20,500 and \$19,500, respectively. In addition, during the year which a participant attains age fifty (50) and in subsequent years, the participant may elect to make additional, pretax “catch up” contributions of up to \$6,500.

Participants direct the investment of their contributions into various options offered by the Plan.

A matching contribution by the Company is discretionary for each plan year. Matching contributions shall be equal to fifty percent (50%) of a participant’s elective deferrals, including catch-up contributions, which do not exceed five percent (5%) of the participant’s total compensation. Participants do not need to satisfy any eligibility requirements, beyond those outlined above, to be eligible to receive a matching contribution. Matching contributions totaled \$170,928 for the year ended December 31, 2022.

Rollover contributions are permitted by the Plan. Employees who are not otherwise eligible to participate in the Plan are eligible to make rollover contributions. Rollover contributions remain in segregated rollover accounts and are always one hundred percent (100%) vested. Rollover contributions may be withdrawn by the participant at any time.

Voluntary employee contributions to the Plan are not allowed.

Participant Accounts

Under the Plan, elective deferrals made by participants and any employer contributions are placed into investment accounts, as directed by the participant, which are then credited with

(1) **Description of the Plan (cont.)**

gains and losses at each valuation date. Valuation is performed daily. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Vesting

Under the Plan, participants are immediately vested in their elective deferral contributions plus actual earnings thereon. Participants are vested in the Company's contribution portion of their accounts plus actual earnings thereon based on years of continuous service. All participants are fully vested after completing at least six (6) years of service.

The vesting schedule for matching and non-elective employer contributions (including top-heavy) is as follows:

Completed Years of Service	Percentage Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow, from their fund accounts, a minimum of \$1,000 up to the lesser of \$500,000 or fifty percent (50%) of their vested account balance. Participants may not have more than one (1) outstanding loan at a time. Loan repayment periods may not exceed five (5) years.

Loans must be secured with an irrevocable pledge and assignment of the participant's vested interest in his or her account. No more than fifty percent (50%) of the balance in the participant's account may be considered by the Plan as security.

Loans bear interest at a reasonable fixed rate established by the Plan Administrator.

Principal and interest is paid ratably as of each payroll withholding period by the participant, typically through payroll deductions.

Payment of Benefits

On termination of service due to reasons other than death, the form of distribution will be a lump sum distribution. Participants may also elect to receive this distribution as a rollover to another qualified retirement plan or an individual retirement account. If the value of a participant's account is greater than one thousand dollars (\$1,000), participants may elect to receive partial payments in amounts requested from time to time.

On termination of service due to death, distributions from the Plan are dependent upon several factors including whether the participant has attained their minimum distribution requirement date and information regarding the beneficiary listed on their account.

(1) **Description of the Plan (cont.)**

In-service distributions are permitted by the Plan if a participant has attained age fifty-nine and one-half (59 ½) and is one-hundred percent (100%) vested in the account from which the distribution is made.

Hardship distributions are permitted by the Plan, provided the participant provides documentation demonstrating the existence of a hardship event, as defined by the Plan.

Forfeited Accounts

Forfeitures are amounts which cannot be paid to terminated participants because they were not one hundred percent (100%) vested upon separation from service with the Company. Forfeitures of Company contributions will be used to pay plan expenses and supplement employer contributions, respectively. The Plan, as of December 31, 2022 and 2021 had forfeited non-vested account balances totaling \$5,055 and \$1,200. During the year ended December 31, 2022, the Plan did not use forfeited account balances to pay plan expenses or supplement employer contributions.

(2) **Summary of Significant Accounting Policies**

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits at the date of the financial statements and the changes in net assets available for Plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Net appreciation (depreciation) in the fair value of Plan assets reflected in the Plan's statement of changes in net assets available for benefits includes the Plan's gains and losses on investments bought and sold, as well as held during the year. Purchases and sales of investments are recorded on a trade-date basis. Interest income, including interest earned on notes receivable from participants, is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are

(2) **Summary of Significant Accounting Policies (cont.)**

charged directly to the borrowing participant's account and are included in administrative expenses when incurred.

As of December 31, 2022 and 2021, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Loan defaults are considered to have occurred if any scheduled payment remains unpaid as of the end of the last day of the calendar quarter following the calendar quarter in which the required payment was due.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Although not required, the Company, as Plan Sponsor, may pay the related costs of administering the Plan. Expenses paid by the Company on behalf of the Plan are not reflected in the financial statements of the Plan.

(3) **Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 - inputs to the valuation methodology include the following:
 - Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets
 - Inputs other than quoted prices that are observable for the asset or liability
 - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement

(3) Fair Value Measurements (cont.)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the plan's fair value measurements at December 31, 2022 and 2021, respectively:

	Investments at fair value as of December 31,			
	2022		2021	
	Level 1	Total	Level 1	Total
Mutual funds	\$ 4,469,917	\$ 4,469,917	\$ 5,187,860	\$ 5,187,860
Total investments at fair value	\$ 4,469,917	\$ 4,469,917	\$ 5,187,860	\$ 5,187,860

(4) Transactions with Parties in Interest

The plan issues loans to participants, which are secured by the vested balances in the participants' accounts.

Additionally, Lott Oil Company, Inc., the Plan sponsor, provides certain accounting and administrative services for which no fees are charged.

(5) Plan Amendment or Termination

The Company has reserved the right to terminate the plan or reduce or cease contributions at its discretion or to amend the plan at any time and in any respect. However, no amendment can reduce benefits already earned by the participants. In the event of termination, participants are entitled to the full amount in their account as of the date of termination, regardless of the percent vested at the time of termination.

(6) Tax Status

The Plan received a determination letter dated December 10, 2020, in which the Internal Revenue Service state that the Plan, as designed, is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the plan's financial statements.

U.S. GAAP require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

(8) CARES Act

In response to the financial effects of COVID-19, the U.S. Congress approved the Coronavirus Aid, Relief and Economic Security ("CARES") Act on March 27, 2020. Certain provisions of the CARES Act increase the maximum loan amount participants may borrow from the lesser of \$50,000 or 50% of the value of the participant's vested balance to the lesser of \$100,000 or 100% of the vested balance, delay loan repayments for one year, allow hardship withdrawals related to COVID-19 of up to \$100,000 that can be redeposited to a qualified plan within three years without tax penalty, and allow for certain other benefits. The CARES Act does not require formal amendment to the Plan document until the last day of the Plan year beginning on or after December 31, 2025 as long as the Plan operates with the revised limits.

(9) Subsequent Events

The Plan Administrator has evaluated all events or transactions that occurred after December 31, 2022 through October 8, 2023, which is the date the financial statements were available to be issued. During this period there were no material subsequent events requiring disclosure except as noted below.

(10) Information Certified By Custodian (Unaudited)

The following information regarding investment activity has been certified as complete and accurate pursuant to 29 CFR 2520.103-5(c) of the Department of Labor's *Rules and Regulations for Reporting and Disclosure* under ERISA by the custodian of the Plan assets, Mid Atlantic Trust Company, and has not been audited by the Plan's independent accountants at and for the years ended December 31, 2022 and 2021:
