BurgaFlex North America 401(k) Retirement Savings Plan
Grand Rapids, Michigan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of BurgaFlex North America 401(k) Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contribution for the year ended December 31, 2022 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the

financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

1. Description of the Plan

The following description of BurgaFlex North America 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that covers substantially all employees of BurgaFlex North America, LLC and David & David Operations, LLC (dba Holly Plating) (collectively, the Company or Plan administrator). The Plan was adopted effective January 1, 2019. The Plan Document was amended and restated effective August 1, 2021. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Custodian and Administration of the Plan

The custodian and recordkeeper of the Plan is Voya Retirement Insurance and Annuity Company (the Custodian). The administrator of the Plan is the Company. The custodian holds all assets of the Plan in accordance with the service provider contract with the Company. Plan management determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees of the Company are considered eligible for participation, except for: (1) collectively bargained employees; (2) non-resident aliens who receive no compensation from the employer which constitutes U.S. source income; (3) leased employees; and (4) temporary employees.

Participant must be 20 years of age to participate in the Plan.

Additionally, eligible employees of the Company are eligible to become a participant in the 401(k) component of the Plan on the first day of the month following completion of 60 days of service. Participants of the Plan are eligible for matching contributions on the first day of the month following completion of one year of service, with a minimum of 1,000 hours, as defined by the Plan Document.

Contributions

The Plan contains two major components: a 401(k) deferral component and a matching component. The matching component includes discretionary contributions. The 401(k) component allows eligible participants to defer part of their compensation through voluntary salary or wage reduction. Employee rollover, Roth, and catch-up contributions are also permitted. The Company may make a matching contribution as determined by management's discretion each year. No matching contribution was made in 2022.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund. Annually, the contribution percentage will increase 1%

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

per year, unless the participant opts out or changes the rate. Effective August 1, 2021, automatic contribution percentage increases will not exceed 6% of eligible compensation.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participants direct the investment of the contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's and the Company's contributions, and an allocation of investment earnings or losses. Each participant's account is charged with an allocation of Plan losses and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Currently, the Plan offers pooled separate accounts and a guaranteed investment contract as investment options for participants.

Vesting

Participant contributions, and earnings thereon, are fully vested at all times. Vesting in the employer contributions is as follows:

Years of Service	Vesting (%)
Less than 2	-
2	20
3	40
4	60
5	80
6	100

Forfeitures

Forfeitures attributable to employer match contributions are used to offset future match contributions. There were forfeitures of \$2,254 and \$69 in 2022 and 2021, respectively. No forfeitures were used in 2022.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or separation, a participant or a participant's beneficiary may elect to receive a lump-sum distribution equal to the value of a participant's interest in his or her account. A participant or participant's beneficiary may also elect to take partial distributions or installments distributions solely to the extent necessary to satisfy minimum distribution rules. A participant or participant's beneficiary may not take a partial lump sum distribution of less than \$1,000. Hardship withdrawals of participant deferral contributions are allowed under certain conditions of the Plan. In-service distributions upon attainment of age 59½ are allowed from all types of contributions.

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their accounts a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance, but not less than \$1,000. Note terms range from one to five years. The notes are secured by the balance in the participant's account and bear interest at the prevailing rate charged by other lenders for similar notes. Principal and interest are paid through payroll deductions over a period of five years or less, unless for the purchase of a principal residence, in which case the note terms may not exceed 30 years. The Plan restricts participants to one loan outstanding at any time.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the Plan's investment in the fully benefit-responsive investment contract, which is stated at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net (depreciation) appreciation in the fair value of investments includes the Plan's losses and gains on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a deemed distribution is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to participant-initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net (depreciation) appreciation in fair value of investments.

Subsequent Events

Subsequent events have been evaluated by management through October 16, 2023, the date these financial statements were available to be issued.

Effective January 1, 2023, the Plan Document was amended. The vesting of employer contributions was revised as follows:

Years of Service	Vesting (%)
Immediately on Plan participation	-
1	25
2	50
3	75
4	100

3. Certified Investment Information

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Retirement Insurance and Annuity Company (Voya), a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules is complete and accurate:

- Investments and notes receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment loss and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Investment information included in the Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedules.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2022 and 2021.

Pooled Separate Accounts (PSAs) - Pooled separate accounts are valued at the net asset value (NAV) of the units held. The NAV is based on the fair value of the underlying investments held by the PSA less its liabilities. The fair value of the underlying investments, which can consist of a single mutual fund or multiple securities, is determined using market quotations or prices obtained from independent pricing sources. The NAV, as provided by Voya Retirement Insurance and Annuity Company is used as a practical expedient to estimate fair value. NAV would not be used if it was probable that the investment would not be traded at NAV. The PSAs held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance-notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments or other restrictions associated with these investments. These are direct filing entities.

The Plan's valuation methods may result in a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan's management believes the valuation methods are appropriate and consistent with the market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

There were no investments as of December 31, 2022 and 2021 within the fair value hierarchy table, as the PSAs are valued using NAV per share as a practical expedient.

5. Fully Benefit-Responsive Investment Contract

The Plan holds a benefit-responsive investment contract with Voya. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged to participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obliged to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.0% for 2022 and 2021. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the maturity date.

6. Related Party and Parties-in-Interest Transactions

Certain Plan investments are in investment funds managed by Voya. Participant loan and distribution processing fees are paid to Voya by participants. The Plan also issues loans to participants which are secured by the vested balance of the participants' accounts. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions, which are exempt from prohibited transaction rules.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the Company shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in

BurgaFlex North America 401(k) Retirement Savings Plan

Notes to Financial Statements

accordance with the value of the units credited to such participants as of the date of such termination.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed Voya, by a letter dated June 30, 2020, that the Volume Submitter Profit Sharing Plan with CODA (the volume submitter plan which the Plan is based) is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated and amended since receiving the opinion letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC; therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there currently are no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan holds various investment instruments that are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible changes in their values could occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the financial statements.

10. Non-Exempt Transactions

The Company determined that certain employee deferrals and loan repayments had not been remitted to the Plan within the required time period according to Department of Labor regulations. The amount reported was \$5,553 for the 2021 Plan year and \$16,645 for the 2022 Plan year. These transactions constitute non-exempt party-in-interest transactions or prohibited transactions as defined by ERISA. The Company calculated lost earnings and deposited such funds in the Plan during 2022.
