INDEPENDENT AUDITORS' REPORT

To the Trustee of the
Protingent Employee Stock Ownership Plan and Trust

Opinion on the 2022 Financial Statements

We have audited the accompanying financial statements of Protingent Employee Stock Ownership Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Protingent Employee Stock Ownership Plan and Trust as of December 31, 2022, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of Protingent Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Protingent Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Protingent Employee Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Protingent Employee Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters – 2022 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matters – Auditors' Report on the 2021 Financial Statements

The financial statements of Protingent Employee Stock Ownership Plan and Trust as of and for the year ended December 31, 2021, were audited by other auditors whose report dated November 29, 2022, expressed an unmodified opinion on those statements.

PROTINGENT EMPLOYEE STOCK OWNERSHIP PLAN AND TRUST

Notes to Financial Statements

December 31, 2022 and 2021

NOTE 1 – ORGANIZATION AND DESCRIPTION OF THE PLAN

The provisions of the Protingent Employee Stock Ownership Plan and Trust (the Plan) were effective January 1, 2011. The Plan has been amended and restated to comply with current legislation. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Protingent, Inc. (Company), established the Plan which operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by Principal Life Insurance Co. appointed by Protingent, Inc.'s Board of Directors.

The Plan purchased Company common stock using the proceeds of loans from the Company shareholders (Note 7), guaranteed by the Company and holds the common stock in a Trust established under the Plan. The borrowing was to be repaid over a period of ten years by fully deductible Company contributions to the trust fund.

The borrowing was collateralized by the unallocated shares of common stock and was guaranteed by the Company. As the Plan made each payment of principal and interest, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The lenders have no rights against shares of common stock once they are allocated to participants in accordance with the provisions of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, present separately the assets and liabilities and changes therein pertaining to:

- The accounts of employees with rights in allocated stock (allocated) and
- Stock not yet allocated to employees (unallocated)

Employees of the Company except those who are covered under collective bargaining agreements or are non-resident aliens are eligible to participate in the Plan following the completion of one year of service and the attainment of age 18. A participant may enter the Plan on the January 1 or July 1 immediately following fulfilling the eligibility requirements. Eligible participants must have at least 1,000 hours of service and be employed on the last day of the Plan year, unless terminated on or after normal retirement age or due to death or permanent disability, to receive an allocation of Company contributions for that year.

Contributions

The Company is obligated to make contributions in cash to the Plan, which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its notes payable. The Company may also make cash contributions sufficient to fund distributions that are paid to participants each year. Employee contributions are not permitted.

NOTE 1 – ORGANIZATION AND DESCRIPTION OF THE PLAN (continued)

Participant Accounts

Individual participant accounts are maintained by the Plan's third-party administrator. Each account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants beginning of the year account balances.

Vesting

Participants are vested in the Company's contributions based on years of continuous service. Participants vest in the Company's contributions with 20% after two years and each year thereafter, with 100% vesting after six years of service. Upon normal retirement (65), disability, or death, participant become fully vested in all benefits.

Payment of Benefits

Distributions shall be made in accordance with the Plan document when a participant retires, becomes disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Generally, a participant's account shall be distributed in cash through liquidation of shares to remaining participants at a price representative of the fair market value of the stock over a period not to exceed five years. If the Plan makes the distribution in Company common stock, the Company has the right to immediately repurchase such shares at fair value.

Upon termination of service, if the participant's balance is \$1,000 or less, the balance will be distributed to the participant in a lump sum as soon as administratively feasible; if the balance is more than \$1,000 but not more than \$5,000, it will be transferred to an Individual Retirement Account designated by the Plan administrator unless elected otherwise by the participant.

Forfeitures

Upon termination, participants' non-vested account balances are forfeited, however, forfeitures are reinstated in the event of reemployment prior to a five year break in service. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year.

During the year ended December 31, 2022, 38,262 forfeited shares totaling \$54,880 were reallocated to remaining participants.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account.

Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50% of the balance in the participants' account. No diversification election shall be permitted if the balance in a Participant's account has a fair market value of \$500 or less as of the allocation date of the first Plan year in the election period.

NOTE 1 – ORGANIZATION AND DESCRIPTION OF THE PLAN (continued)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market at any time during two option periods, at the current fair market value. The first put option period runs for a period within 60 days commencing on the date of distribution. The second put option period runs for a period within 60 days after the first anniversary of the first day of the first 60-day period. If participants (or beneficiaries) exercise their put option, the Company must purchase the stock at fair market value (see Note 3). The purpose of the put option is to ensure that participants have the ability to ultimately receive cash in exchange for their shares.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2023, which is the date the financial statements were available to be issued.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are significant accounting policies used by the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of the Company common stock are reported at fair value. See Note 3 for discussion of fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. The net appreciation or depreciation in fair value of Protingent, Inc., common stock consists of unrealized appreciation or depreciation of the Company common stock.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company.

NOTE 3 – FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following table discloses by level the fair value hierarchy as of December 31:

Assets at Fair Value as of December 31, 2022:				
	Level 1	Level 2	Level 3	Total
Protingent, Inc., common stock	\$ -	\$ -	\$ 4,414,800	\$ 4,414,800
Assets at Fair Value as of December 31, 2021:				
	Level 1	Level 2	Level 3	Total
Protingent, Inc., common stock	\$ -	\$ -	\$ 5,070,000	\$ 5,070,000

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2022 and 2021.

The fair market value of the Company common stock held by the Plan is based upon an independent appraisal. The appraisal used the Guideline Public Company and Merger and Acquisition market approaches and the Discounted Cash Flow Method income-based approach. The appraiser applies a discount for lack of marketability from the enterprise value.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued)

The preceding method described may produce a fair market value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair market value of certain financial instruments could result in a different fair market value measurement at the reporting date.

The following table sets forth the basic valuation techniques and inputs used in arriving at fair value:

Name	Valuation Technique	Unobservable Inputs
Company Common Stock	Discounted cash flow	Weighted-average cost of capital Long-term revenue growth rate Projected EBITDA
	Guideline public companies	Selected guideline companies Sales multiples Adjusted EBITDA
	Merger and acquisition	Selected transactions Sales multiples Adjusted EBITDA multiples

NOTE 4 – ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common stock, are held by the Company.

Company contributions are held and managed by the Trustee which makes distributions to participants. The Trustee also administered the payment of interest and principal on the notes, which was reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 5 – INVESTMENTS

NOTE 6 – RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and had indebtedness guaranteed by the Company prior to repayment of the notes payable.

NOTE 7 – NOTES PAYABLE

On June 28, 2012, the two shareholders of Protingent, Inc., agreed to sell to the Plan 1,560,000 shares of common stock of the Company for a purchase price of \$3,120,000. The shareholders received a cash payment of \$400,000 and two notes, one for each shareholder, for \$2,720,000 in aggregate to be paid over ten years. The notes bore interest at 6% per annum and were secured by the unallocated shares. The aggregate principal amount of the notes payable as of December 31, 2021, was \$179,246. The notes were repaid in full in July 2022.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts. Upon termination of the Plan, the trustees will be directed to pay all liabilities and expenses of the trust fund and to sell shares of the financed common stock held in the notes payable account to the extent it determines such sale to be necessary in order to repay the notes.

NOTE 9 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 28, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9 – TAX STATUS (continued)

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 10 – RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
