INDEPENDENT AUDITOR'S REPORT

To the Participants and Sonoco Employee Benefits Council
Sonoco Pension Plan
Hartsville, South Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Sonoco Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

(Continued)

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

SONOCO PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021
(in thousands of dollars)

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Sonoco Pension Plan provides only general information. Participants should refer to the Plan document for more complete information.

General: The Sonoco Pension Plan (the “Plan”) is a defined benefit pension plan that until July 1, 2019, covered substantially all active domestic employees of Sonoco Products Company (the “Company,” “Plan Sponsor,” and “Plan Administrator”) hired on or before December 31, 2003, whose benefits were not frozen as of January 1, 2011. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

On February 4, 2009, the Plan was amended to freeze plan benefits for all active participants not subject to a collective bargaining agreement effective December 31, 2018. Remaining active participants in the Plan became eligible for retirement contributions under the Sonoco Retirement and Savings Plan (the “Savings Plan”), a defined contribution benefit plan sponsored by the Company, effective January 1, 2019.

Effective July 1, 2019, the Plan was further amended to spin off the assets and liabilities of participants who terminated employment on or before June 30, 2019, participants who were retired and receiving benefits prior to June 30, 2019, and participants who are in active employment on July 1, 2019 and whose benefit accruals were frozen prior to January 1, 2019 (except for certain union employees) to the Sonoco Pension Plan for Inactive Participants (the “Inactive Plan”). Subsequent to these actions, the approximately 600 participants remaining in the Plan are primarily those covered by a collective bargaining agreement and certain non-union hourly employees who were not subject to the freeze in Plan benefits.

The Plan is amended to update benefit formulas for various union groups annually.

Master Trust: The Plan participates in the Sonoco Products Company Master Trust (the “Master Trust”). The Master Trust was established for the investment of assets of both the Plan and the Inactive Plan. The assets of the Master Trust are held by The Bank of New York Mellon/BNY Mellon, N.A. (the “Trustee”).

Pension Benefits: Benefits under the Plan are based on the participants' highest five years of compensation or a flat benefit formula based on benefit service. Participants with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65). The Plan permits early retirement at ages 55-64. Participants may elect to receive their pension benefits in various forms, including joint and survivor annuities. If a participant terminates before rendering five years of service or reaching their earliest retirement age (55), they forfeit the right to receive their accumulated pension benefits.

Death and Disability Benefits: If an active participant dies at age 55 or older, a death benefit equal to the value of the participant's accumulated pension benefits is paid to the participant's surviving spouse. If a participant does not have a surviving spouse, the participant's accumulated pension benefits are forfeited. Active participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid when the employee reaches the earliest retirement age and are computed as though they had been employed to the retirement age with their annual compensation remaining the same as at the time they become disabled.

Administrative Expenses: The Plan Administrator will determine, at its sole discretion, whether expenses incurred in administering the Plan will be paid by the Company or by the Plan. The Plan pays all expenses incurred by the Plan in connection with the investments of the Plan and/or administration of the Plan. The Plan Administrator may direct the Trustee to reimburse the Company for any expenses it has paid directly on behalf of the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Accounting Estimates: The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust investments are stated at fair value (see Note 6 – *Fair Value Measurements* for additional information). Purchases and sales are recorded on a trade-date basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits, the Plan's interest in the Master Trust investment gain (loss), which consists of the Plan's pro rata interest in realized gains (losses), the unrealized appreciation (depreciation) of the investments, dividend and interest income, and expenses. Dividend income of the Master Trust is recorded on the ex-dividend date. Interest income of the Master Trust is recorded on the accrual basis.

Payment of Benefits: Benefit payments to participants are recorded when paid.

Risks and Uncertainties: The Master Trust invests in various investments as described in Note 5 – *Master Trust* and Note 6 – *Fair Value Measurements*. Investments are exposed to various risks, such as interest rate, credit, market, liquidity, currency, and overall market volatility risk. Market risk includes global events such as a pandemic. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the investment securities will occur in near term and such changes could be material to the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for the services rendered by the participants as of the valuation dates. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died and (c) present participants or their beneficiaries. The accumulated plan benefits for active participants are based on the average of their five highest years of compensation, benefit service, and the defined benefit service multiplier as of December 31, 2021, the date used by the Plan's actuary to calculate the Plan's present value of accumulated plan benefits. Benefits payable because of the retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

(in thousands of dollars)

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The Plan's actuary estimates the actuarial present value of accumulated plan benefits. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, termination or retirement) between the valuation date and the expected date of payment. The effect of any plan amendments on accumulated plan benefits is recognized at the time such amendments are approved.

The significant assumptions underlying the actuarial computations as of December 31, 2021 and 2020 are as follows:

	<u>December 31, 2021</u>	<u>December 31, 2020</u>
Long-term rate of return	3.27%	3.27%
Mortality basis	The Pri-2012 Mortality Tables with Blue Collar Adjustments projected with Scale MP-2021 for annuitants and non-annuitants	The Pri-2012 Mortality Tables with Blue Collar Adjustments projected with Scale MP-2020 for annuitants and non-annuitants
Average retirement age rates for active participants	Various rates ranging from 5% at age 55 to 100% at age 69+	Various rates ranging from 5% at age 55 to 100% at age 69+
Retirement age for terminated vested participants	Age 60	Age 60

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefit information as of December 31, 2021 was as follows:

(in thousands of dollars)

NOTE 3 – ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2021 are as follows:

(in thousands of dollars)

Actuarial present value of accumulated plan benefits as of December 31, 2020	\$ 50,778
Increase (decrease) during the year attributable to:	
Increase for interest	1,651
Benefits paid	(581)
Plan amendments	615
Change in actuarial assumptions	122
Other changes	<u>1,282</u>
 Actuarial present value of accumulated plan benefits as of December 31, 2021	 <u>\$ 53,867</u>

The change in the actuarial present value of accumulated plan benefits attributable to the change in actuarial assumptions is due to a change in the mortality scale assumption from MP-2020 to MP-2021. The change in actuarial present value of accumulated plan benefits attributable to the increase in other changes was due to the normal operation of the pension plan and includes the increase due to ongoing benefit accruals and plan experience that is not associated with plan asset performance.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2022 has not been completed as of the date of the financial statements.

NOTE 4 – CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements, including investments held at December 31, 2022 and 2021, net investment (loss) gain from interest in the Master Trust, and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan.

NOTE 5 – MASTER TRUST

The Plan's investment assets are held in the Master Trust. Each participating plan has a divided interest in the Master Trust. Total investment income (loss), (including net appreciation (depreciation) in the fair value of investments) of the Master Trust was allocated to the individual plans based upon beginning monthly balances invested by each plan.

NOTE 6 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date in the principal or most advantageous market for the asset or liability. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs include observable, quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs include unobservable inputs for the asset or liability based on the best information available. Inputs should reflect the judgments and the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value within the Master Trust as of December 31, 2022 and 2021:

Collective trusts: The fair values of participation units held in collective trusts are based on the net asset values ("NAV") per unit as reported by the fund managers. The collective trusts provide for daily redemptions by the Master Trust at reported net asset values per share, generally with no advance notice requirement. One collective trust held has an advance notice requirement of ten business days.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Master Trust has no nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis. None of the Master Trust's financial assets or liabilities are measured at fair value using significant unobservable inputs.

(a) Certain assets that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy.

NOTE 7 – FUNDING POLICY

The Company contributes actuarially determined amounts to provide for normal costs plus amortization of any unfunded liability equal to or greater than the minimum funding requirements of ERISA. These contributions provide assets to pay benefits to Plan participants. The yield (interest, dividends and net realized and unrealized gains and losses) on Plan investments affects future contributions that would otherwise be required to provide funds for these benefits. Employee contributions are neither required nor permitted. There are no participant directed investments. Contributions totaling \$582 and \$2,520 were made to the Plan for the years ended December 31, 2022 and 2021, respectively. The Plan met the minimum funding requirements in 2022 and 2021.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”). The premiums paid to the PBGC are presented in the Statements of Changes in Net Assets Available for Benefits as part of “trustee fees and other expenses.” In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the rules set forth by the PBGC. Whether a particular participant’s accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by then existing assets and the PBGC guaranty, while other benefits may not be provided for at all. A full description of the defined benefit plan termination priorities is available in the Plan document.

NOTE 9 – RETIREE HEALTH BENEFITS

Pursuant to the provisions of Section 401(h) of the Internal Revenue Code (“IRC”), the Company sets aside a percentage of assets to pay for retiree health care claims. In accordance with IRC Section 401(h), the Master Trust’s investments in the 401(h) account may not be used for, or diverted to, any purpose other than providing health benefits for retirees and their beneficiaries. Any assets transferred to the 401(h) account from a defined benefit pension plan in a qualified transfer of excess pension plan assets (and any income allocable thereto) that are not used during the plan year must be transferred out of the account to the pension plan. The related obligations for health benefits are not included in this Plan’s obligations in Note 3 – *Actuarial Present Value of Accumulated Plan Benefits*, as those obligations are to be included in the financial statement reporting for the Sonoco Health and Group Benefits Plan. Plan participants do not contribute to the 401(h) account. Employer contributions or qualified transfers to the 401(h) account are determined as needed and are at the discretion of the Company.

NOTE 10 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management, actuarial, and trustee services. Various administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. At December 31, 2022 and 2021, the Master Trust held investments managed by the Trustee. These investments qualify as party-in-interest transactions.

NOTE 11 – TAX STATUS

The Internal Revenue Service (“IRS”) had determined and informed the Company by letter dated March 27, 2017 that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since the submission for a determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

NOTE 11 – TAX STATUS (Continued)

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

NOTE 12 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 16, 2023, which is the date the financial statements were available to be issued.

NOTE 13 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Disability Retirement

Salaried and Nonunion Hourly
Employees

Eligible participants (except Crellin) must receive either Sonoco long-term disability plan benefits or Workers' Compensation disability benefits, or be eligible for Social Security disability benefits.

Crellin participants must be eligible for Social Security disability benefits, have attained age 45, and completed 10 years of vesting service.

The disability retirement date is the first of any month following eligibility for early retirement. The accrued benefit at termination is payable at normal retirement date. A reduced benefit is payable at the earliest retirement date.

All Other Plans

Unless otherwise stated below, a participant's disability retirement date is the first of the month following: (1) The initial 26-week period of disability during which accident and sickness benefits are paid, (2) eligibility for Social Security disability benefits, and (3) any age or service requirements. Unless otherwise stated below, the disability benefit is the accrued benefit, payable immediately without reduction. If disabled prior to age 55, the benefit reverts to the normal retirement benefit at age 65.

Nonunion Hourly Employees of
Baker, AL

Eligibility is age 50 and 15 years of benefit service.

Nonunion Hourly Employees of
Puerto Rico

Eligibility is age 50 and 15 years of vesting service.

Disability Retirement

Union Employees of Hutchinson, KS

Eligibility is 15 years of vesting service.

Union Employees of Memphis, TN

Eligibility is 10 years of vesting service. The accrued benefit is based on the total of past and Sonoco service at date of disability. If the participant was a vested member of the prior plan (with more than 10 years of vesting service as of April 1, 1987), then the disability benefit will be reduced at age 65 to reflect the benefit payable from the prior employer.

Union Employees of New Albany, IN

Eligibility is 10 years of vesting service. The accrued benefit is based on the total of past and Sonoco service at date of disability. If the participant was a vested member of the prior plan (with more than 10 years of vesting service as of April 1, 1987), then the disability benefit will be reduced at age 65 to reflect the benefit payable from the prior employer.

Union Employees of Norwalk/
Los Angeles, CA

Effective February 16, 2006, eligibility is age 45 and 10 years of vesting service. Minimum benefit of \$250 per month until age 65.

Union Employees of Orrville, OH

Eligibility is 10 years of vesting service.

Union Employees of Richmond, VA

Eligibility is 10 years of vesting service. Prior to age 65, the disability benefit is \$400 per month, reduced by any Workers' Compensation benefits. At age 65, the accrued benefit based on benefit service and the benefit factor in effect as of the date of termination is payable.

Union Employees of Sumner, WA

Eligibility is 10 years of vesting service. (Special provisions apply for former participants of Fibreboard Retirement Group A employed on or before February 15, 1980.)

Preretirement Death Benefit

All married participants with a vested benefit are eligible. The benefit is the amount the eligible spouse would have received had the participant terminated on the date of his death, chosen the 50% joint and survivor form of payment to commence at his earliest retirement date, and then died the day after benefits commenced. A minimum death benefit equal to the employee's accumulated contributions is provided, whether or not the participant was married or vested.
