Report of Independent Auditors

The Investment Committee
Autoliv ASP, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Autoliv ASP, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year as of December 31, 2022, and reportable transactions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment

information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of Plan

The following description of the Autoliv ASP, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the plan document and summary plan description, for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined-benefit plan that covers all employees of Autoliv ASP, Inc. (the Company or Plan Sponsor) except leased employees, who are covered under a collective bargaining agreement that does not provide for participation in the Plan, and employees employed outside the United States, who participate in a pension plan under which the employer or an affiliate pays benefits or makes contributions on the employee's behalf. The Plan provides for retirement, disability, and pre-retirement death benefits. Employees may elect to receive their pension benefits as an annuity or lump sum. The Company has frozen participation in the Plan to include only those employees hired prior to December 31, 2003, with 100% vesting after 5 years of employment for those who started employment prior to December 31, 2003, with benefits continuing to accrue as specified within the Plan. The Company has agreed to voluntarily contribute, subject to approval by the Board of Directors, such amounts as are necessary to provide assets sufficient to fund the benefits to be paid to Plan participants. Contributions are sufficient to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and the U.S. Pension Protection Act of 2006, plus any additional amounts that the Company determines to be appropriate.

During December 2017 the Company decided to amend the Plan, communicating in advance a freeze that began on December 31, 2021. After the freeze commenced on January 1, 2022, employees participating in the Plan will no longer accrue benefits. However, the Company will continue making contributions and fund the Plan.

Administrative expenses of the Plan, if not paid from Plan assets, are paid by the Company.

Transamerica Retirement Solutions Corporation is responsible as the third-party administrator for the Plan and utilizes a cash account for the payment of benefits. Transamerica acts as the agent for State Street Bank and Trust Company who is the custodian of the cash account. With the exception of this cash account, The Northern Trust Company is the trustee for the Plan's investments.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Should the Plan terminate at some future time, its net assets generally may not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Valuation of Investments

Investments are stated at fair value. The fair value of participation units owned by the Plan in common collective trust funds is based on net asset value as the practical expedient as determined by the common collective trust fund issuer. The Plan is required to provide 30 days written notice if it wants to redeem its investment in the funds. The short-term investment funds are valued at cost, which approximates fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

Accounting Standards Codification (ASC) 820, *Fair Value Measurement* (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entities' assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities. Valuation adjustments and block discounts are not applied to Level 1 securities.

Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Level 2 – Valuation methodology includes:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Plan Sponsor uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Plan's fair value calculations may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Sponsor believes the valuation methods used are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies(continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on an employee's highest pensionable earnings during the five consecutive calendar years out of the last ten completed years of participating service before retirement. The accumulated plan benefits for active employees are based on average pensionable earnings during the five years preceding the valuation date. There are certain other provisions that cover a small number of grandfathered participants as defined in the plan document. Benefits payable under all circumstance (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

3. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the actuarial present value of accumulated plan benefits earned by the participant to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. This determination is made by the Plan actuary, Mercer.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits as of December 31, 2021, in thousands, is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefits	\$ 43,179
Other participants	256,451
Total vested benefits	299,630
Nonvested benefits	183
Total actuarial present value of accumulated plan benefits	<u>\$ 299,813</u>

The changes in the actuarial present value of accumulated plan benefits from December 31, 2020 to December 31, 2021, in thousands, are as follows:

Actuarial present value of accumulated plan benefits as of	
December 31, 2020	\$ 315,597
Increase (decrease) during the year attributed to:	
Benefits accumulated	18,461
Increase for interest due to the decrease in the discount period	14,601
Benefits paid	(48,888)
Change in actuarial assumptions	42
Net decrease	<u>(15,784)</u>
Actuarial present value of accumulated plan benefits as of	
December 31, 2021	<u>\$ 299,813</u>

Significant assumptions underlying the actuarial computations at December 31, 2021 are as follows:

Retirement	At various dates beginning at age 55 with 100% retired by age 65
Mortality basis	Pri-2012 healthy/disabled mortality tables for males and females without collar adjustment, with beneficiaries reflecting the Pri-2012 contingent table, projected forward from 2012 using the MMP-2021 mortality improvement scale
Discount Rate	5.05%

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

3. Actuarial Present Value of Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations at December 31, 2020 are as follows:

Retirement	At various dates beginning at age 55 with 100% retired by age 65
Mortality basis	Pri-2012 healthy/disabled mortality tables for males and females without collar adjustment, with beneficiaries reflecting the Pri-2012 contingent table, projected forward from 2012 using the MMP-2019 mortality improvement scale
Discount Rate	5.05%

During the year ended December 31, 2021, the accumulated plan benefit obligation increased by \$42 thousand due to changes in the actuarial assumptions for 2021. The \$42 thousand increase to the accumulated plan benefit obligation is due to an update in the mortality assumption.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedules including investments held, net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2022 and 2021, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee, the Northern Trust Company, with the exception of the Goldman Sachs FS Prime Obligations FST (short-term investment) which is certified by State Street Bank and Trust Company.

The Company's approximate asset investment allocation target of equity exposure within the Plan's assets is 25% for the year ended December 31, 2022 and 40% for the year ended December 31, 2021. The actual allocation to equities at December 31, 2022 and 2021, was 23% and 42%, respectively.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

4. Investments (continued)

The following table presents information about the Plan's investments measured at fair value (in thousands):

Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Short-term investment funds	<u>\$ 1,492</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1,492</u>

	Level 1	Level 2	Level 3	Total
Short-term investment funds	<u>\$ 2,588</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 2,588</u>
Total assets in the fair value hierarchy	<u>\$ 2,588</u>	<u>\$ —</u>	<u>\$ —</u>	<u>2,588</u>
Investments measured at the net asset value				<u>340,853</u>
Total investments at fair value				<u>\$ 343,441</u>

There are no future commitments associated with the common collective trust funds. The plan is required to provide 30 days written notice if it wants to redeem its investments in the common collective trust funds.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated May 30, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Autoliv ASP, Inc. Pension Plan

Notes to Financial Statements (continued)

5. Income Tax Status (continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions, and the Plan is currently undergoing an audit conducted by the IRS for the tax year ending December 31, 2019. As of the issuance date of the 2022 plan year financial statements, there have been no findings as a result of the audit conducted by the IRS.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

7. Party-in-Interest Transactions

The Plan holds units of common collective trust funds issued or managed by affiliates of the Northern Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Subsequent Events

The Company has evaluated subsequent events that have occurred through October 16, 2023, the date the financial statements were available to be issued and noted that there were no reportable events.

Mortality sponsor elections			
• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on RP-2006 mortality tables with static mortality improvement based on the IRS methodology and projection scale MP-2020.		
• Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995.		
• Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits.		
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and the 417(e) unisex static mortality applicable during the valuation year.

Rationale for significant economic assumptions

- Discount rate for funding – The funding discount rate is prescribed by the IRS and based on the plan sponsor's election.
- Salary scale – Not applicable as of 1/1/2022 due to plan freeze.
- Social Security taxable wage base increases – Not applicable as of 1/1/2022 due to plan freeze.
- Inflation – Not applicable as of 1/1/2022 due to plan freeze.
- Expenses – Historically, administrative expenses and PBGC premiums have not been paid from the trust.
- Discount rate for ASC 715 – The single interest rate that would generate the same liability as the full Mercer Above Mean Yield Curve as of the measurement date, using cash flows for the benefit plan. The discount rate to be used for the Excess Plan and Supplemental Plan will be set equal to the discount rate for the qualified plan.
- Interest rate for ASC 960 – The interest rate for ASC 960 is based on the ASC 715 long-term rate of return assumption.
- Long-term rate of return on assets – The expected rate of return on plan assets for accounting purposes is selected by the company based on the simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the current target asset mix.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Rationale for significant demographic assumptions**

- **Funding mortality** – The funding mortality is prescribed by the IRS and based on the plan sponsor's election.
- **Mortality for ASC 715 and ASC 960:** Autoliv has no reason to believe the mortality experience of the plan participants will differ from that of the population studied by the Society of Actuaries (SOA) in developing the PRI-2012 base mortality table. Accordingly, for accounting purposes as of December 31, 2021, Autoliv has chosen to use the PRI-2012 base mortality tables (separate E/R, no collar) with generational projection forward using Mercer's MMP-2021 mortality improvement scale.

For lump sum payments, Autoliv has selected the tables that were published by the IRS' under Internal Revenue Code Section 417(e) for distribution years through 2021 and 2022, and estimates of future tables based on IRS' established methodology and the MP-2021 projection scale, as used by the IRS for the most recently published table. These tables represent Autoliv's best estimate of the tables on which future lump sums will be based.

- **Disability incidence** – The disability incidence assumption follows the Conference of Consulting Actuaries' 1985 Pension Disability Study Class 2 rates because the plan's disability benefit requires participants be eligible for Social Security Disability, which was the basis of the 1985 study and adjusted for sponsor's demographic base and disability constraints. The demographic base not large enough to set a plan-specific assumption.
- **Retirement, withdrawal, salary, form of payment, percent married and spouse age difference** – Assumptions were developed in 2020 based on an experience analysis covering the period January 1, 2016 to January 1, 2020.

Actuarial methods for funding**Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Disabled participants:** The liabilities for participants on long-term disability who have not yet commenced benefits have been included with the liabilities for terminated vested participants. We have valued these participants using the assumption that they are permanently disabled.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

• Effective date and plan year (Qualified Plan)	Original plan: November 14, 1944 Restated plan: January 1, 2013 Most recent amendment: Amendment No. 2 Plan year: Calendar year
• Effective date and plan year (Excess Plan)	Original plan: January 1, 1984 Restated plan: December 31, 2008 Most recent amendment: Amendment No. 1 Plan year: Calendar year
• Effective date and plan year (Supplemental Plan)	Original plan: November 1, 2015 Most recent amendment: Amendment No. 1 Plan year: Calendar year
• Status of the plan	Benefit accruals have been frozen as of December 31, 2021 for the Qualified Plan, Excess Plan and Supplemental Plan. Employees first hired on or after January 1, 2004 are not eligible to participate in the plan.
• Significant events that occurred during the year	None
Definitions	
• Covered employees	Employees not subject to collective bargaining at Autoliv ASP, Inc. and hired before January 1, 2004.
• Participation	Covered employees become eligible to participate in the Plan immediately.
• Vesting service	Elapsed time calculated from date of hire.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit service	<p>Elapsed time calculated from date of participation during which a covered employee is an active participant. Participants rehired after December 31, 2003 do not earn benefit service following re-employment.</p> <p>Participants are credited with benefit service for participation in predecessor plans or other defined benefit plans maintained by Autoliv or an affiliate prior to participation in this plan.</p> <p>Benefit service has been frozen as of December 31, 2021.</p>
• Pensionable earnings	<p>Earnings means compensation before salary or payroll deductions and without regard to a pay reduction agreement under an employee benefit plan pursuant to Code Section 125 or 401(k), excluding amounts credited or paid under the key employees stock option and performance unit plan, long-term incentive plans, severance pay, and reimbursement for employment-related expenses but including bonuses and incentive pay which is not, and has not been, subject to deferred income taxation under the Code. This amount is limited pursuant to Code Section 401(a)(17) for use in the Qualified Plan valuations.</p>
• Average final earnings	<p>Average final earnings shall be the monthly average compensation for the period of five consecutive years out of the last ten calendar years of active participation with the greatest aggregate compensation. For this purpose, if a participant ceases to be an active participant during the year, compensation shall be the greater of (a) compensation for that year or (b) compensation for the prior year. If a participant becomes an active participant during the year, compensation shall be prorated based on the credited service earned during such year.</p> <p>The average final earnings has been frozen as of December 31, 2021.</p>
• Accrued benefit	<p>The monthly benefit payable as a life annuity commencing at the participant's normal retirement date resulting from the participant's benefit service and earnings to the date of determination.</p> <p>(1) The accrued benefit shall be the sum of (a) plus (b) plus (c) below:</p> <ul style="list-style-type: none"> (a) 1.00% of the average final earnings times years of benefit service earned before January 1, 2006, plus (b) 0.70% of the average final earnings times years of benefit service earned after December 31, 2005, plus (c) 0.50% of average final earnings in excess of covered compensation times years of benefit service up to 35 years. <p>(2) Benefits for participants who were employed on May 1, 1997 and who were, as of July 1, 1999, at least age 45, credited with at least 5 years of vesting service, and whose age plus benefit service totaled at least 60, shall be determined as the greater of (1) above or the sum of (a) and (b), and reduced by (c) below:</p> <ul style="list-style-type: none"> (a) for former participants of the Thiokol Retirement Income Plan, 0.25% of the average final earnings times years of benefit service for the period employed before January 1, 1984, plus (b) 1.75% of the average final earnings times years of benefit service, reduced by (c) The lesser of (i) and (ii) below:

Schedule SB, Part V — Summary of Plan Provisions

- (i) 1.67% of the Primary Social Security Benefit times years of benefit service, or
- (ii) 50% of the Primary Social Security Benefit

The benefit determined above shall not be less than the larger of (a) \$15 times years of benefit service, or (b) the accrued benefit determined as of July 1, 1999.

For participants that are credited with benefit service for periods of participation under a predecessor plan or another plan maintained by Autoliv, and for whom there has been no transfer of assets to the Plan, the accrued benefit above will be the greater of the amount determined without regard to benefit service earned under the terms of the prior plan, and the amount determined including the benefit service earned under the terms of the prior plan but reduced by the accrued benefit earned under the terms of the prior plan.

- **Accrued benefit (continued)**

The accrued benefit for purposes of the Excess Plan is the difference between the benefit calculated as described above without regard to IRC Section 401(a)(17) compensation limits and the benefit calculated under the Qualified Plan (as described above but with applicable compensation limits).

The accrued benefit for purposes of the Supplemental Pension Plan for benefitting employees is equal to the difference between the sum of the Qualified Plan and Excess Plan Accrued Benefits, and the sum of those amounts had benefit service included the period from May 1, 1997 through June 30, 1999, during which certain employees did not earn benefit service due to corporate activity.

The accrued benefit of the Qualified Plan, Excess Plan and Supplemental Plan shall remain fixed (i.e. frozen) as of December 31, 2021. No participant shall accrue any additional accrued benefit after December 31, 2021.

Normal retirement	
• Eligibility	Age 65
• Benefit	The normal retirement benefit is the same as the accrued benefit.

Schedule SB, Part V — Summary of Plan Provisions**Early retirement**

- **Eligibility** A participant is eligible for an Early Retirement Benefit if termination occurs after attaining age 55 and accruing five years of Vesting Service.
- **Benefit** The Early Retirement Benefit payable shall be the age 65 accrued benefit, reduced for early commencement as follows:

Age at Commencement of Benefits	Percentage of benefit payable associated with Benefit Service earned	
	Prior to January 1, 2006	After December 31, 2005
65	100.0%	100.0%

58	60.0	55.0
57	56.7	50.0
56	53.3	45.0
55	50.0	40.0

Disability (Qualified Plan only)

Schedule SB, Part V — Summary of Plan Provisions

• Eligibility	A participant is eligible for a Disability benefit if the employee is terminated due to disability, has accrued at least 15 years of Vesting Service, and is eligible to receive benefits under the Social Security Act.
• Benefit	Eligible Disabled Employees who are receiving benefits under a long-term disability plan maintained by Autoliv ASP, Inc. may continue to accrue Benefit Service until the earlier of Retirement Date or December 31, 2021, as long as the disability continues. The accrued benefit of the Qualified Plan shall remain fixed (i.e. frozen) as of December 31, 2021. No participant shall accrue any additional accrued benefit after December 31, 2021.
Pre-retirement death (Qualified Plan Only)	
• Eligibility	The surviving spouse of a participant who dies after terminating with a deferred vested benefit.
• Benefit prior to early retirement	The surviving spouse of a participant who dies after terminating with a deferred vested benefit but before attaining age 55 will receive a pension starting as of the last day of the calendar month following the month the participant would have turned 55 with each payment equal to the spouse's portion of the pension payable to the participant had the participant separated from service on the date of death, survived to the benefit commencement date, retired with an immediate 50% Joint and Survivor Annuity, and died the day after the benefit commencement date.
• Benefit after early but before normal retirement	The surviving spouse of a participant who dies after completing five years of Vesting Service or after attaining age 55 will receive a pension starting as of the last day of the calendar month following the month the participant dies with each payment equal to the spouse's portion of the pension payable to the participant had the participant separated from service on the date of death, survived to the Normal Retirement Date, retired with an immediate 50% Joint and Survivor Annuity, and died the day after the Normal Retirement Date.

Schedule SB, Part V — Summary of Plan Provisions**Form of benefits**

- **Automatic form of payment**

Qualified Plan: The automatic form of payment for unmarried participants is the life annuity. Unless a married participant elects otherwise, their benefit will be reduced and paid in the form of a 50% joint and survivor annuity.

Excess Plan and Supplemental Pension Plan: Participants shall receive a lump sum distribution on the first day of the seventh month following separation from service.

- **Optional forms (Qualified Plan)**

Participants may elect, with spousal consent if applicable, to receive benefits as a life annuity, 50% joint and survivor annuity, 75% joint and survivor annuity, modified 50% joint and survivor annuity, lump sum, or a 10-year certain and life annuity. The modified 50% joint and survivor annuity and 10-year certain and life annuity forms are only available to participants who commence benefits after attaining age 55.

The benefit for a participant whose vested benefit has a present value of less than \$1,000 will automatically receive a lump sum distribution without requirement of participant or spousal consent.

The lump sum form of payment is payable based on formula (1) described in the accrued benefit above.

- **Optional forms (Excess Plan)**

Prior to 2008, the Excess plan offered several annuity payout forms; effective January 1, 2008 the only available payout form available from the plan is a one-time lump sum.

- **Payment form conversion factors**

Lump sums are based on an immediate annuity for those participants eligible for early or normal retirement or a deferred to age 65 annuity otherwise, converted to a lump sum using the following actuarial basis:

- Mortality: the applicable mortality table prescribed in code section 417(e)(3)(A)(ii).
- Interest rate: Interest rates outlined in Section 417(e)(3)(c) for the month of November immediately preceding the first day of the Plan Year in which the lump sum distribution is made.

Other forms of payment (Qualified Plan only) are calculated using:

- Mortality: The RP-2000 combined mortality table with 30% white collar and 65% male weighting for the participant. For joint annuitants, the RP 2000 combined mortality table without collar adjustment, but 35% male weighting.

Interest rate: 6.00%

Schedule SB, Part V — Summary of Plan Provisions

Miscellaneous	
• Maximum compensation (Qualified Plan)	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2021, the limit is \$290,000.
• Maximum benefits (Qualified Plan)	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021 the limit is \$230,000.
• Administration	The Plan is administered by the plan sponsor.
• Benefits not included in valuation	To the best of our knowledge, no benefits were excluded from the valuation.

Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent amendments:**
 - *Qualified Plan:* Amendment 2 effective January 1, 2022, signed January 11, 2018.
 - *Excess Plan:* Amendment 1 effective January 1, 2022, signed January 11, 2018.
 - *Supplemental Plan:* Amendment 1 effective January 1, 2022, signed January 11, 2018.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, actuarial increases are not included in the valuation, but increases due to service are included.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued without regard to late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are

Schedule SB, Part V — Summary of Plan Provisions

expected to occur on or after the valuation date regardless of anticipated funding-based limitations.

- *Plan amendments:* See above.
- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules were updated from 2021 to 2022.
