Board of Directors
Family Pathways 401(k) Plan
North Branch, Minnesota

We have audited the financial statements of Family Pathways 401(k) Plan an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2022, and we will issue our report thereon dated October 16, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company, trustee of the Plan's pooled separate accounts, and Principal Life Insurance Company, on behalf of Principal Global Investors Trust Company who is the trustee of the stable value fund, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplemental schedule, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information during our discussion with you on September 7, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Our Responsibility under Auditing Standards Generally Accepted in the United States of America

As stated in our engagement letter dated May 15, 2023, our responsibility, as described by professional standards and except as discussed above, is to plan and perform our audit to obtain reasonable, but not absolute, assurance that the financial statements are free of material misstatement and are fairly presented in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your responsibilities.

Internal Control over Financial Reporting

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of Family Pathways 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing our opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company, trustee of the Plan's pooled separate accounts, and Principal Life Insurance Company, on behalf of Principal Global Investors Trust Company who is the trustee of the stable value fund, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses and, therefore, material weaknesses may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in the Plan's internal control to be a material weakness:

Uncorrected Errors

<i>Condition:</i>	As a result of our audit procedures performed, we discovered that the Plan was using the incorrect definition of compensation for purposes of calculating employee deferrals from 2017 through 2020 and was using the incorrect definition of compensation for purposes of calculating employer matching contributions from 2017 through 2022. The use of the incorrect definition of compensation consisted primarily of excluding certain types of compensation (i.e. on-call wages and appreciation pay) which resulted in missed contributions for participants with earnings derived from those types of compensation for each of the plan years noted above. We also noted through discussions with Plan management and review of subsequent Plan records that no corrective contributions have been made with respect to these errors.
<i>Criteria:</i>	Administering the Plan to ensure it follows the Plan document is the responsibility of the Plan's management; therefore, management must be able to prevent, detect and correct any deviations from Plan document.
<i>Cause:</i>	The Plan's management did not have a system control to detect noted deviations. Plan management has not effectively corrected the errors, resulting in sustained Plan noncompliance.
<i>Effect:</i>	A deviation from the Plan document may occur and not be detected by the Plan's internal controls. To maintain independence in the audit, the auditor cannot be part of the internal controls.

Recommendation: Given the longevity of errors identified within the Plan and the failure to correct errors identified in and derived from prior years, we recommend that universal corrective action is taken immediately, which includes, but is not limited to, the following items:

- Payroll compensation codes and benefits alignment needs to occur as soon as practicable to ensure the payroll system used is correctly calculating eligible compensation in accordance with the definition in the Plan documents. It is likely that errors similar to those that have been communicated to you are continuing to occur into the current calendar year.
- Plan management should work with Principal (the third-party administrator of the Plan) to determine the corrective contributions that are necessary to be made for the missed employee deferrals and employer matching contributions as well as lost earnings thereon. Plan management should also work to fund the determined corrective contribution amounts as soon as possible. The Plan sponsor will bear the funding obligation in order to make participant accounts whole. In addition, the Plan sponsor may be responsible for filing a form and paying excise taxes as part of the correction.
- Similar corrective calculations should be made for the 2023 plan year up to the point that compensation codes are corrected.
- If Plan management wishes to exclude certain types of compensation from eligible compensation for purposes of determining employee deferrals and employer matching contributions, management could consider implementing a Plan amendment changing the definition of eligible compensation. This type of Plan amendment would affect future, not past, periods.
- Plan management should consult with an ERISA attorney to determine the potential for any impacts on the Plan's qualified status resulting from ongoing uncorrected errors.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Plan's internal control to be a significant deficiency:

Missing Supporting Documentation

Condition: As a result of our audit procedures performed, we discovered one participant out of a sample of fifteen, for which elective deferral support could not be provided. Additionally, we discovered four participants, out of a sample of fifteen, for whom the pay rate support received did not correlate to or support the pay rate for the pay period selected for testing or could not be provided altogether.

Criteria: Administrating the Plan to ensure it follows the Plan document is the responsibility of the Plan's management; therefore, management must be able to prevent, detect and correct any deviations from Plan document.

Cause: The Plan's management did not maintain adequate records to support all participant deferral elections and approved pay rates for the period selected.

Effect: Lack of supporting documentation for participant data could lead to an error impacting one or more participants that would not be able to be detected or corrected by Plan management.

Recommendation: We recommend that Plan management implement a system to obtain and maintain adequate participant records to support their individual payroll data and deferral elections.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted, and the application of existing policies was not changed during 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

- Management's estimate of the fair value of investments based on the methodology disclosed in Note 4 to financial statements. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements taken as a whole.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audits

We encountered no significant difficulties in dealing with management in performing our audits.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. The following list summarizes uncorrected misstatements of the financial statements. Management has determined that their effects are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. The uncorrected misstatements or the matters underlying them could potentially cause future period financial statements to be materially misstated, even though, in our judgment, such uncorrected misstatements are immaterial to the financial statements under audit.

- As discussed above, the Plan has uncorrected errors related to the use of the incorrect definition of compensation for purposes of calculating employee deferrals and employer matching contributions during the plan years from 2017 through 2022. Although the exact amount of the necessary correction has not been determined by Plan management, it is their belief that the corrective amounts will not be material to the financial statements as a whole. We have reviewed management's preliminary calculation and agree with the assessment that the correction would be immaterial to the plan as a whole.

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified the following reportable findings:

- As discussed above, the Plan has a material weakness in internal control related to the ongoing use of the improper definition of compensation for purposes of calculating employee deferrals and employer matching contributions and a failure to take corrective action for such errors. This issue and uncorrected errors date back to 2017. We recommend that corrective action is taken immediately as described above in order to maintain plan compliance, avoid the claim of fiduciary breach, and protect the plan's qualified tax status. While the error may be monetarily immaterial to the financial statements as a whole, failure to withhold and remit elective deferrals in accordance with the Plan's definition of eligible compensation results in an operational defect within the Plan that could ultimately impact the qualified status of the Plan if the defect is not corrected.
- In addition, the significant deficiency listed above is also considered a reportable finding.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 16, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to either Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as each Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

Our responsibility for the ERISA-required supplemental schedule accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplemental schedule, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The comments and recommendations in the report are purely constructive in nature and should be read in this context.

Our audit would not necessarily disclose all weaknesses in the system because they were based on selected tests of the accounting records and related data.

If you have any questions or wish to discuss any other items contained in this letter, please feel free to contact us at your convenience. We thank you for the courtesy and cooperation extended to us by your staff and for the continued opportunity to be of service.
