Independent Auditors' Report

To the Trustees of
Fleis & VandenBrink Engineering, Inc.
Employee Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have audited the accompanying financial statements of Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if

there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing

procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

FLEIS & VANDENBRINK ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

The Plan spun off the 401(k) assets and participant accounts to a separate plan effective September 1, 2022. The account balances of active and inactive participants with 401(k) account balances were transferred to a newly created Fleis & VandenBrink Engineering, Inc. 401(k) Plan. The remaining plan was renamed the Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan (ESOP). Assets of \$17,656,381 were transferred out of the ESOP into the Fleis & VandenBrink Engineering, Inc. 401(k) Plan.

As part of the spinoff of the assets, the Plan was restated on September 1, 2022. As part of the restatement, employee contributions to the Plan were discontinued, participant loans are no longer allowed, and distributions from the Plan are limited to termination of employment, diversifications, death, QDRO, or plan termination. The Company continues to make safe harbor matching contributions to the Plan. All remaining assets in the plan are non-participant directed.

Eligibility - The Fleis & VandenBrink Engineering, Inc. Employee Stock Ownership Plan is a defined contribution plan covering all full-time employees of F&V Companies, Inc. (the Company) who are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Prior to plan restatement on September 1, 2022, employee contributions to the Plan were elective for participants of the Plan and were in the form of pre-tax or Roth salary deferrals, not to exceed the current IRS imposed limitations. Participants who attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants could also make rollovers to the Plan from other qualified plans. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various mutual funds and an investment contract as investment options for participants. Subsequent to September 1, 2022, employees were no longer permitted to make contributions to the Plan.

For the entire plan year, for each employee that met the service requirement, the Company provides a safe harbor match equal to the amount contributed by the employee to the Plan up to 3% of compensation with an additional match of 50% of the amount contributed by the employee to the Plan in excess of 3% up to 5% of compensation with a maximum limit equal to 4%. The Plan can also make a discretionary ESOP contribution. The service requirement from January 1, 2022

FLEIS & VANDENBRINK ENGINEERING, INC.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

through August 31, 2022 was one year of service. Effective September 1, 2022 there was no longer a service requirement to be eligible for the safe harbor match.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with an allocation of any administrative expenses paid by the plan. Allocations are based on participant income or loss on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. If the Plan purchases Company stock for cash, each participant's share is determined by allocating the purchased shares based on the participant's applicable balance against the aggregate amount in the accounts of all participants. For unallocated Company stock purchased with an exempt loan, a participant's account is credited upon payment of a portion of the balance with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account.

Vesting - Participants are immediately vested in their contributions and employer safe harbor contributions, plus actual earnings thereon. Vesting in the Company's ESOP contributions is based on years of service. A participant vests 20% per year starting with the completion of two years of service and is 100% vested after six years of service. Forfeitures were not material in 2022 and 2021. For a participant whose initial entry date is on or after January 1, 2023, the vesting percentage with respect to the participant's safe harbor contributions shall be 50% after completion of 1 year and 100% after completion of 2 years.

Payment of Benefits - Prior to plan restatement on September 1, 2022, funds could be withdrawn from a participant's account upon the occurrence of one of the following: hardship, attainment of age 59-1/2, QDRO, death, total disability, termination of employment, transfer of employment, or attainment of age 70-1/2. Upon termination of service, a participant may elect to either receive distribution of a lump-sum amount equal to the value of the participant's vested interest in his or her account, or to transfer the value of the participant's account into another qualified retirement plan.

Subsequent to September 1, 2022, funds may be withdrawn from a participant's account upon the occurrence of one of the following: termination of employment, diversifications, death, QDRO, or plan termination. Upon termination of service, distribution shall be made as soon as administratively feasible following the end of the plan year that includes the date the employee terminates employment. Participant may elect to either receive distribution of a lump-sum or to transfer the value into another qualified retirement plan.

Distributions and benefits are recorded when paid.

FLEIS & VANDENBRINK ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Notes Receivable - Prior to plan restatement, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans were secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest was paid ratably through payroll deductions or by direct payment from the participant. Subsequent to September 1, 2022, participants could no longer borrow from the plan as all assets were non-participant directed.

Put Option - Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company or the Plan buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account into other investments offered under the Plan. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Administrative Expenses - A portion of the administrative expenses of the Plan are paid by the Plan's sponsor. Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value investments.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash and Cash Equivalents - For financial statement purposes, the Plan considers all highly liquid investments with maturity of three months or less when purchased to be cash equivalents.

FLEIS & VANDENBRINK ENGINEERING, INC.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Valuation of Investments and Income Recognition - Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. Investments in mutual funds and corporate stocks are stated at fair value as determined using quoted market values as of the last business day of the plan year. Investments in municipal bonds are stated at fair value determined based on recent market transactions for identical or similar bonds. The common shares of the Company are valued at fair value on December 31, 2022 and 2021. Fair value of the common shares of the Company is determined by annual independent appraisal. Realized and unrealized gains and losses are included in investment income. The Fair market value of these shares was \$174.90 and \$147.45 as of December 31, 2022 and 2021, respectively. See Note 7 for discussion of fair value measurements.

On December 31, 2022, the Company redeemed 2,000 shares of the Company's stock for \$349,800. The redemption was done with cash and a note receivable. The Plan redeemed 1,349 shares of the Company's stock with cash for \$235,920, and the Plan purchased 651 shares of the Company's common stock with a note receivable of \$113,880.

On December 31, 2021, the Plan purchased 9,605 shares of the Company's stock for \$1,416,257. The purchase was done with cash and an exempt loan. The Plan purchased 7,473 shares of the Company's stock with cash for \$1,101,886, and the Plan purchased 2,132 shares of the Company's common stock with a note payable of \$314,372. The Company holds the common stock in a trust established under the Plan. The liability of the Plan for payment on the note was limited to the periodic contributions to the Plan, any earning attributable to such contributions and to any cash dividends received on the Company stock purchased with the proceeds of the loan. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the years then ended, present separately the assets and liabilities and changes therein pertaining to

- a. The accounts of employees with rights in allocated common stock (allocated), and
- b. Common stock not yet allocated to employees (unallocated)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year. The fully benefit-responsive investment contract is reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because

FLEIS & VANDENBRINK ENGINEERING, INC.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

contract value is the amount participants would receive if they were to initiate permitted transactions under the plan.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balances. Accrued but unpaid interest is not significant. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2021. There were no participant loans at December 31, 2022.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares become allocated generally in the period in which debt service is actually paid.

Company Dividends - The Company declared a dividend to the ESOP of \$766,450 and \$558,289 during the years ended December 31, 2022 and 2021, respectively. Of the dividends declared, \$612,256 and \$432,910 were received in the following years and are included on the statement of net assets available for benefit as accrued income as of December 31, 2022 and 2021, respectively.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Voting Rights - All shares of Company Stock held by the Trust will be voted by the Trustee, as the administrative committee shall direct in writing from time to time. The Trustee shall give its proxy to the administrative committee, or its nominee, at the direction of the administrative committee.

Reclassifications - Certain amounts as reported in the 2021 financial statements and footnotes have been reclassified to conform with the 2022 presentation.

NOTE 5 - INCOME TAX STATUS

The Internal Revenue Service has reviewed and approved the plan in a letter dated August 23, 2023. Prior to the restatement, the Plan obtained its latest determination letter on February 12, 2015 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Service. The Plan restatement was subsequent to the approval date and the latest determination letter, however, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan invested in a benefit-responsive investment group annuity contract with Empower Annuity Insurance Company of America totaling \$1,551,343 at December 31, 2021. The account is credited with earnings at guaranteed credit rates, and charged for participant withdrawals and administrative expenses. The Plan was not invested in a benefit-responsive investment group annuity contract at December 31, 2022.

As described in Note 2, the contract meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Empower Annuity Insurance Company of America, represents contributions made under the contract, plus interest credited to the prior value of the investment, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The underlying assets held by the contract are general assets of the insurance company issuing the contract and consist primarily of bonds diversified across a range of fixed-income asset classes such as asset-backed securities, mortgage-backed securities, commercial mortgage-backed securities, commercial mortgages, and private equity. The contract provides for a guaranteed rate of interest for a specified period. The rate is reset every quarter as determined by Empower. A formula is provided for the contract to adjust renewal crediting rates to recognize the difference between fair value and the book value of the underlying assets. Empower guarantees that the rate will never be less than zero.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

In general, issuers may terminate the contract if the Plan representative announces its intention to terminate, cancel, or merge the Plan, the qualification status of participant employer or plan changes, there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to pre-established investment guidelines. The plan administrator does not believe that any events which would allow the issuer to terminate the contract are probable of occurring. There are not any events that would limit the ability of the Plan to transact at contract value so long as the group annuity contract remains in force.

NOTE 7 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology includes quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are presented as level 1 in the fair value measurements table. There were no investments in mutual funds at December 31, 2022.

FLEIS & VANDENBRINK ENGINEERING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

Company Stock: Valued based on an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings received from management, weighted average cost of capital, market comparable, and applicable discounts and premiums. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The valuation process involves the selection of an appraiser under contract with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Management received the report, reviewed the report and assumptions, and approved the valuation.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The Company stock is presented as level 3 in the fair value measurement table.

The following tables present fair value measurement information for certain financial instruments:

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

NOTE 8 - NOTE PAYABLE

During 2021, the Plan entered into a \$314,372 note payable agreement to purchase Company stock from the Company. The note required payment in full no later than December 31, 2022 and incurred interest at a rate of 1.52%. The liability for payment of the note was limited to the periodic contributions made to the Plan by the Company, to any earnings attributable to contributions, and to any cash dividend received by the Plan on the stock purchased with the proceeds of the note. During the year ending December 31, 2022, the Plan paid the note in full.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and the Company's common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, including the Company's common stock, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - TRANSACTIONS WITH PARTIES IN INTEREST

Watkins Ross served as one of the Plan's recordkeepers and related transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to Watkins Ross for recordkeeping services amounted to \$19,216 and \$18,142 for the years ended December 31, 2022 and 2021, respectively. Empower Annuity Insurance Company of America served as one of the Plan's recordkeepers and custodians for the years ended December 31, 2022 and 2021. Fees paid by the Plan to Empower Annuity Insurance Company of America amount to \$26,150 and \$28,550 for the years ended December 31, 2022 and 2021, respectively. The Plan paid Merrill Lynch \$24,805 and \$30,291 for custodial and advisory services for the years ended December 31, 2022 and 2021, respectively. The recordkeeping, custodial and advisory service fees are included in administrative fees on the statement of changes in net assets available for benefits.

The Plan invests in the Company's common stock. This is a related party and part in interest transaction. As described in Note 1, the Company pays a portion of the plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA. In addition, the Plan purchased stock from the Company during the year ended December 31, 2021 and the Company redeemed stock from the Plan during the year ended December 31, 2022. See Notes 2 and 8.

Notes to Financial Statements

NOTE 11 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Under termination of the Plan all participant will become fully vested, and the administrator shall direct the Trustee to distribute to each participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 12 - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events through the date of the independent auditors' report, October 16, 2023, which was the date the financial statements were available to be issued.
