Independent Auditor's Report

Plan Administrator, Audit Committee, and
Retirement Plan Oversight Committee
The University of Tulsa Defined Contribution Retirement Plan
Tulsa, Oklahoma

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The University of Tulsa Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021 and the related statement of changes in net assets available for benefits for the year ended December 31, 2022 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from an agent on behalf of a qualified institution or qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in *Note 3* to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by an agent on behalf of a qualified institution or qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the “Auditor’s Responsibilities for the Audit of the Financial Statements” section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the “Scope and Nature of the ERISA Section 103(a)(3)(C) Audit” section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by an agent on behalf of a qualified institution or qualified institutions agrees to, or is derived from, in all

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the Plan

The following description of The University of Tulsa Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by The University of Tulsa (the University) for the benefit of its employees, except for employees who normally work fewer than 20 hours per week during any plan year, nonresident aliens, students, or employees eligible to participate in the 401(k) plan sponsored by the University. Effective July 1, 2022, nonresident aliens and employees eligible to participate in the 401(k) plan sponsored by the University are no longer excluded from the Plan. Employees must elect to contribute \$200 or more annually to participate in the Plan. Participants are required to attain age 21 and have two years of service to qualify for the University's contributions. The two-year service requirement may include an employee's previous employment with any tax-exempt educational or research organization, provided that the employment was within the last five years immediately preceding employment with the University and that the employee certifies these prior services in accordance with the plan document. Effective July 1, 2022, the two-year service requirement is no longer required to become eligible for the University's contributions.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association of America (TIAA) serves as the issuer of the TIAA Traditional Annuity contract held by the Plan and is the record-keeper of the Plan. TIAA and College Retirement Equities Fund (CREF), together TIAA-CREF, are custodians of certain plan assets, including annuity accounts. The directed custodian of the Plan is TIAA, FSB.

Contributions

The Plan permits eligible employees to have the University make annual contributions of up to 100% of eligible compensation through a salary deferral election. Employee Roth and rollover contributions are also permitted. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Effective July 1, 2022, the Plan no longer allows for special code Section 403(b) catch-up contributions for those participants with 15 years of service. Effective September 1, 2020, plan management elected to suspend the University's contribution until further notice. Effective July 1, 2022, the discretionary contribution became a matching contribution and plan management reinstated the University's matching contribution at 100% of employee contributions up to 5% of employee eligible compensation.

Employees covered under a collective bargaining agreement, independent contractors, leased employees, and adjunct professors are excluded from the University's contributions.

Contributions to the Plan are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various annuity accounts, a pooled separate account, mutual funds, and a money market fund. Each participant has the option of directing contributions into any of the investment account options selected by the University or may participate in the Plan's self-directed brokerage option. Participants may change the allocation to the extent permitted by the individual agreements.

Participant Accounts

Each participant's account is credited with the participant's contributions, the University's contributions, and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants and Plan Loans

Notes Receivable from Participants

Prior to July 1, 2022, the plan document included provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the plan administrator. Effective July 1, 2022, the Plan no longer allows TIAA to issue loans from the Plan to active eligible participants.

Plan Loans

Prior to July 1, 2022, the Plan allowed TIAA to issue loans directly to plan participants. These loans are issued from funds directly owned by TIAA and not from participant accounts and are considered outside the scope of the Plan. Participants may elect to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their balance in the TIAA Traditional Annuity account. To secure plan loans, participants are required to pledge as collateral the balance of their TIAA Traditional Annuity account value equal to 110% of the outstanding loan balance in the event of default. Principal and interest are paid by the participant directly to TIAA.

Loan balances outstanding between TIAA and plan participants as of December 31, 2022 and 2021 were approximately \$281,000 and \$477,000, respectively. The amount pledged as collateral on these outstanding loans at December 31, 2022 and 2021 was approximately \$309,000 and \$525,000, respectively. Plan loan interest rates ranged from 4.22% to 5.18% as of December 31, 2022 and from 4.00% to 7.62% as of December 31, 2021.

The University of Tulsa Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The Employee Benefits Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, formal guidance has yet to be issued by EBSA.

Effective July 1, 2022, the Plan no longer allows TIAA to issue loans directly to plan participants.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Prior to July 1, 2022, participants were immediately vested in the University's contributions plus earnings thereon.

Effective July 1, 2022, participants are 100% vested in the University's contributions and earnings thereon upon completion of one year of service, as defined. In the event of death or disability, the participant becomes 100% vested.

Payment of Benefits

Upon retirement (age 65), termination, disability, or death, a participant, or their beneficiary in the event of death, may elect to receive benefits in any of the forms available from the relevant funding vehicle. Forms of benefit available under the Plan, but not necessarily from all funding vehicles, include: 1) a lump-sum amount, 2) a partial payment, 3) installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy of the participant and their designated beneficiary, or 4) the purchase of an annuity contract or conversion to an income option. Participants who have invested in the TIAA Traditional Annuity are limited in their ability to elect a lump-sum distribution depending upon the year in which contributions were made; however, they may receive the value of their accumulated benefits over a 10-year period. Additionally, participants are allowed to take an in-service withdrawal upon reaching the age of 59½. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 72.

Forfeited Accounts

At December 31, 2022, forfeited nonvested accounts totaled \$1,000. These accounts will be used to reduce future employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the

The University of Tulsa Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to TIAA Traditional Annuity accounts, CREF variable annuity accounts, TIAA-CREF mutual funds, a TIAA Real Estate pooled separate account, a money market fund, and other mutual funds.

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds, money market funds, and variable annuities in mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The fair value of guaranteed investment contracts (excluding fully benefit-responsive investment contracts) is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The TIAA Traditional Annuity is a fixed-dollar annuity and investment product offered by TIAA, an insurance company, and includes benefit-responsive and nonbenefit-responsive accounts. The TIAA Traditional Annuity is maintained in the TIAA general account. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participants and are secured by the general assets of TIAA. The benefit-responsive TIAA Traditional Annuity account is recorded at contract value, and the nonbenefit-responsive TIAA Traditional Annuity account is recorded at fair value as estimated by TIAA, which approximates contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administrative expenses. The investment contract with TIAA contains liquidity restrictions that require withdrawals and transfers from the investment contract to other investment options available to the Plan to be spread over a period of 10 annual installments or five annual installments for withdrawals after a participant's termination of employment.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the plan sponsor or

The University of Tulsa Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The TIAA Real Estate pooled separate account is valued at the NAV per accumulation unit of the investment as provided by TIAA. The underlying real estate holdings or other real estate-related investments are valued principally utilizing external appraisals. Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, the TIAA general account provides the Plan with a liquidity guarantee. Transfers out of the pooled separate account are limited to one per calendar quarter. There are no unfunded commitments or redemption notice periods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the University or the Plan at the University's discretion.

Note 3: Certification of Plan Custodians

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA (an agent on behalf of a qualified institution) and TIAA-CREF (a qualified institution) have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021
- Investment loss and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2022

The University of Tulsa Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information except for comparing such certified investment information to the related investment information included in the accompanying financial statements and ERISA-required supplemental schedule.

Note 4: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain plan investments are shares of mutual funds or units of annuity accounts or a pooled separate account that are managed by TIAA-CREF or held by TIAA, FSB, which are custodians of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain fees incurred by the Plan for the investment management services are included in net depreciation in fair value of investments as they are paid through revenue-sharing rather than a direct payment. The plan sponsor pays directly any other fees related to the Plan's operations. The Plan's traditional annuity contract is maintained in the TIAA general account.

The plan sponsor pays certain legal fees to the firm of a member serving on the Retirement Plan Oversight Committee.

The plan sponsor provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and significant to the fair value of the assets

Notes to Financial Statements

December 31, 2022 and 2021

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2022 and 2021. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. See the table below for inputs and valuation techniques used for Level 3 investments.

Level 3 Activity

Purchases of Level 3 investments totaled approximately \$871,000 and \$598,000 for 2022 and 2021, respectively. There were no issuances or transfers into or out of Level 3 during the years ended 2022 or 2021.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31:

	Fair Value	Valuation Technique	Unobservable Inputs	Range (Weighted-Average)
2022				
TIAA Traditional Annuity contracts – nonbenefit-responsive	\$ 82,874,634	Discounted cash flow	Risk-adjusted discount rate	3.00%–6.50%
2021				
TIAA Traditional Annuity contracts – nonbenefit-responsive	\$ 83,444,316	Discounted cash flow	Risk-adjusted discount rate	2.00%–3.90%

Note 6: Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7: Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the Internal Revenue Service does not currently provide that service for 403(b) plans. However, the University believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and not subject to tax.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

TIAA and CREF issue various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of the contract accumulations, which could impact the value realized upon exiting the contract.

Note 9: Plan Amendments

Effective July 1, 2022, the Plan was amended and restated with the following matters amended:

- Suspension of nonelective contributions indefinitely
- Permit in-plan Roth rollover contributions
- Vesting service requirement was amended to permit prior elective service credits for employment with any tax-exempt educational or research organization to be counted, provided that the employment was within the last five calendar years immediately preceding employment with the University and that the employee certifies these prior services in accordance with the plan document.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 15, 2023, which is the date the financial statements were available to be issued.
