INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of the
MobyMax 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of MobyMax 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section—

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of MobyMax 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statement

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about MobyMax 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of MobyMax 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about MobyMax 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – 2022 Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 and supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Prior Period Financial Statements

Plan management is responsible for the accompanying financial statement of MobyMax 401(k) Plan, which comprises the statement of net assets available for benefits as of December 31, 2021. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statement nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by plan management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on the financial statements.

MOBYMAX 401(K) PLAN
Notes to Financial Statements
December 31, 2022 and 2021

Note 1 - Description of Plan

The following brief description of MobyMax 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, effective January 1, 2021, is a defined contribution and profit-sharing plan covering employees of Best Sales and Support, LLC (the Employer), excluding those who are nonresident aliens, union employees, leased employees, and interns. All non-excluded employees are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participant elective contributions represent amounts paid by an employer, at the election of the employee, in lieu of cash compensation and include contributions that are made pursuant to a salary reduction agreement. Participants may contribute elective deferrals up to 90% and Roth elective deferrals up to 50% of compensation, not to exceed the limits of Internal Revenue Code (IRC) Section 401(k), 404, and 415. The Plan also accepts catch-up contributions, qualified participant rollovers, employer matching contributions, safe harbor non-elective contributions, and discretionary qualified non-elective employer contributions. Deferral, Roth, and Safe Harbor Contributions are effective as of February 1, 2021.

Benefits

The purpose of the Plan is to provide retirement benefits to employees of the employer who made contributions to the Plan through a salary reduction agreement. The Plan was adopted to provide an opportunity for participating employees to benefit from tax-deferred savings in accordance with IRC Section 401(k), in addition to any benefits otherwise provided by the Plan.

Participant Accounts

Each participant's account was credited with the participant's voluntary contribution and allocations of the employer's contribution, if any, and Plan earnings reduced by investment expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes to Financial Statements (Continued)
December 31, 2022 and 2021

Note 1 - Description of Plan (Continued)

Vesting

Participants have a fully vested and nonforfeitable interest in any employee contributions, employer matching, safe harbor non-elective contributions, and discretionary qualified nonelective employer contributions and the investment earnings thereon at all times.

Payments of Benefits

All distributions from the Plan are subject to the IRC sections governing distributions. A participant is eligible to withdraw funds from the Plan for the following reasons:

1. Termination of employment
2. Normal retirement
3. Death
4. Disability
5. Attainment of age 59 ½
6. Hardship

Notes Receivable from Participants

Under the terms of the Plan, participants may borrow from their accounts a minimum of \$1,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. In no instance may the term of repayment be greater than five years. The loans are collateralized by the balance in the participant's account and the interest that will apply will be the rate as reflected in Wall Street Journal on date of loan plus 1% per year. There were no outstanding loans as of December 31, 2022 and 2021.

Investment Options

The assets of the Plan, both employee and employer, are allocated to various investment funds at the discretion of the participant. For fund investment objectives, risks, charges and expenses, participants should contact the fund manager for a prospectus.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 8 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Benefit Payments

Benefits to participants are recorded when paid.

Administrative Expenses

The Employer pays certain administrative expenses on behalf of the Plan.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 12, 2023, the date the financial statements were available to be issued.

MOBYMAX 401(K) PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021

Note 3 - Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and amounts reported in the statements of net assets available for benefits.

Note 4 - Information Certified by the Plan's Custodian (Unaudited)

Certain information related to investments from participants disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2022 and 2021, and net (depreciation) in fair value of investments, and interest and dividends for the year ended December 31, 2022, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Matrix Trust Company, the custodian of the Plan, as of December 31, 2022 and 2021.

Note 5 - Termination of the Plan

The employer reserves the right, by written notice to all parties concerned, to discontinue its contributions at any time and to terminate the Plan subject to the terms of ERISA. In the event that the Plan is terminated, all participants will be deemed fully vested and eligible for benefits under the Plan.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the volume submitter plan adopted by the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. The Plan was amended since receiving the determination letter however, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes that the Plan was qualified, and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2021.

MOBYMAX 401(K) PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021

Note 7 - Related Party Transactions

Certain Plan investments are shares of mutual funds managed by Human Interest. Plan administrative expenses of \$3,494 were paid by the Plan to Human Interest for the year ended December 31, 2022. Human Interest provided recordkeeping services to the Plan for the year ended December 31, 2022. Therefore, these transactions qualify as party-in-interest transactions.

Note 8 - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Plan's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability and are to be developed based on the best information available in the circumstances.

The Plan determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

MOBYMAX 401(K) PLAN
Notes to Financial Statements (Continued)
December 31, 2022 and 2021

Note 8 - Fair Value Measurements (Continued)

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2022 and 2021.

Registered investment companies:

Registered investment companies, which include mutual funds and a money market fund, are valued at the daily closing price as reported by the funds. The registered investment companies held by the Plan are deemed to be actively traded.

The preceding valuation method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, the Plan's assets that were accounted for at fair value on a recurring basis as of December 31, 2022.

	Total Fair Value	Level 1
Investments, at fair value:

There are no Level 2 and 3 assets as of December 31, 2022 and 2021.

Note 9 - Prohibited Transactions

During 2022 and 2021, participant contributions in the amount of \$69,892 and \$17,552, respectively, were not transferred to the Plan within the time period described in 29 CFR §2510.3-102. The contributions were or are being remitted as soon as administratively feasible, and the lost earnings are in the process of being or have been replenished to the participants' accounts.
