Independent Auditor's Report

The Plan Administrator
Retirement Plan for Employees of
Southampton Hospital Association
Southampton, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Retirement Plan for Employees of Southampton Hospital Association Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2022 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For

information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirement of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following is a brief description of the Retirement Plan for Employees of Southampton Hospital Association (the Plan) and provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined-benefit pension plan sponsored by Southampton Hospital Association (SHA or Plan Sponsor) for non-union employees. The Southampton Hospital Association Finance Committee and the Plan administrator control and manage the operation and administration of the Plan. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) serves as the custodian of the Plan. The Plan's assets are invested in mutual funds and pooled separate accounts (PSAs) with Principal. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective December 31, 2003, the Plan was frozen, and the accrual of benefits ceased. As such, no employee can be or become an active participant, as defined in the Plan, after December 31, 2003. Also, a participant's monthly normal retirement benefits cannot exceed their accrued benefits, as defined in the Plan document, as of December 31, 2003.

As of August 1, 2017, SHA transferred certain assets to StaffCo of Brooklyn, LLC (StaffCo) and affiliates of StaffCo. In connection with such transaction, all employees of SHA who were employed as of August 1, 2017 incurred a severance from employment with SHA. SHA remained the sponsor of the Plan on and after August 1, 2017. Other than the aforementioned, there were no other direct effects to the Plan participants.

Participation

All eligible non-union employees of SHA, prior to December 31, 2003, became participants in the Plan after completing one year of service in which they worked 1,000 or more hours, or 780 or more hours for employees who became eligible from January 1, 2003 through December 31, 2003.

Plan Benefits

The Plan provides for normal retirement benefits upon reaching age 65, and has provisions for early retirement, death, and disability benefits. A participant's monthly retirement benefit shall become payable as of the date of a severance from employment, on or after the normal retirement date. Benefits under the Plan are determined based upon a final pay formula. Generally, the final pay formula is calculated as a percentage of earnings multiplied by years of credited services with certain adjustments, up to December 31, 2003, as provided in the Plan. Participants may elect to receive their pension benefits in the form of a qualified joint survivor annuity or other optional forms of payment.

Vesting

A participant becomes vested upon the earlier of completing five years of service or upon reaching age 65 during service with SHA.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan are prepared on under the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the exchange in price that would be received for an asset, or paid to transfer a liability, in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Purchases and sales of investments are recorded on a trade-date basis, interest income is recorded on the accrual basis, and dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Benefits to Participants

Benefits to participants are recorded when paid.

Notes to Financial Statements

Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses, as well as the disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates and assumptions.

Funding Policy

SHA shall annually make contributions as shall be required to satisfy the minimum funding standards prescribed under Section 412 of the Internal Revenue Code (IRC), as amended. The Plan has met the ERISA minimum funding requirements for the Plan year ended December 31, 2022.

Plan Administration Fees

For the year ended December 31, 2022, administrative costs of \$212,828 were expensed by the Plan. These expenses were for custodial fees and Pension Benefit Guaranty Corporation (PBGC) insurance premiums. Certain other administrative expenses are borne by SHA, at SHA's discretion. Administrative expenses paid by SHA for the Plan are excluded from these financial statements.

3. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service the employees rendered until December 31, 2003. The actuarial present values of accumulated Plan benefits as of January 1, 2022 and 2021 were determined by an independent actuary from Principal and are the amounts that result from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation dates and the expected payment dates. The effect of Plan amendments on accumulated Plan benefits is recognized during the year in which such amendments become effective. Had the valuations been prepared as of December 31, 2021 and 2020, there would be no material difference in the actuarial present values of accumulated Plan benefits.

Retirement Plan for Employees of Southampton Hospital Association

Notes to Financial Statements

The significant actuarial assumptions used in determining accumulated Plan benefits are as follows:

January 1, 2022

Investment return:	6.50% compounded annually
Mortality:	In accordance with the 2022 Prescribed Mortality - Optional Combined Table for Small Plans, Male and Female
Retirement:	Assumed retirement age is 65.

January 1, 2021

Investment return:	6.50% compounded annually
Mortality:	In accordance with the 2021 Prescribed Mortality - Optional Combined Table for Small Plans, Male and Female
Retirement:	Assumed retirement age is 65.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue in its frozen status. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present values of accumulated Plan benefits are as follows:

<u>January 1,</u>	<u>2022</u>
Vested benefits:	
Participants currently receiving payments	\$ 18,617,163
Terminated vested participants	7,237,718
Total Vested Benefits	25,854,881
Nonvested benefits	-
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 25,854,881

The change in the actuarial present value of accumulated Plan benefits is as follows:

Actuarial Present Value of Accumulated Plan Benefits, as of January 1, 2021	\$ 26,130,318
Increase (decrease) during the year attributable to:	
Benefits paid	(2,054,139)
Increase for interest due to decrease in discount period	1,507,093
Benefits accumulated and Plan experience	271,609
Net Decrease	(275,437)
Actuarial Present Value of Accumulated Plan Benefits, as of January 1, 2022	\$ 25,854,881

5. Fair Value Measurements

The Plan's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with Financial Accounting Standards Board ASC 820, *Fair Value Measurement*. See Note 2 for a discussion of the Plan's policies regarding this hierarchy and valuation methods.

A description of the valuation techniques applied to the Plan's major categories of assets and liabilities measured at fair value is as follows:

Mutual Funds - Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

PSAs - PSAs are valued at the NAV of the units held. The NAV is based on the fair value of the underlying investments held by the PSA less its liabilities. The fair value of the underlying investments, which can consist of a single mutual fund or multiple securities, is determined using market quotations or prices obtained from independent pricing sources. The NAV, as provided by Principal Life Insurance Company and T. Rowe Price, is used as a practical expedient to estimate fair value. NAV would not be used if it were probable that the investment would not be traded at NAV. The PSAs provide for daily redemptions by the Plan at reported NAV with no advance notice. There are no unfunded commitments related to these investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There was no change in the methodology used at December 31, 2022 and 2021.

Set forth below are tables of assets measured at fair value. As required by ASC 820, assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement and include the major classes for debt and equity securities on the basis of nature and risk of investments.

December 31, 2022

	Level 1	Level 2	Level 3
Investments at fair value:			
Mutual funds	\$ 6,069,521	\$ -	\$ -
Investments measured at NAV*:			
Pooled separate accounts			18,482,066
Total Investments, at fair value			\$ 24,551,587

	Level 1	Level 2	Level 3
Investments at fair value:			
Mutual funds	\$ 6,948,959	\$ -	\$ -
Investments measured at NAV*:			
Pooled separate accounts			25,003,847
Total Investments, at fair value			\$ 31,952,806

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in the preceding tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

6. Information Certified by Principal

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal, the custodian, a qualified institution, has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments at fair value, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment loss, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Investment information included in the supplemental Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, as shown on the ERISA-required supplemental schedule.

At the request of the Plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information in the financial statements, including reading the disclosures related to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP, and in the ERISA-required supplemental schedule, including assessing whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

7. Income Tax Status

The Internal Revenue Service has determined and informed the Plan by a determination letter dated January 8, 2011 that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended on several occasions since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Retirement Plan for Employees of Southampton Hospital Association

Notes to Financial Statements

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Benefits attributable to participant contributions, taking into account those paid out before termination, if any.
- (b) Annuity benefits that former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- (c) Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations as discussed below.
- (d) All other vested benefits (that is, vested benefits not insured by the PBGC).
- (e) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2022 and 2021, those ceilings, which are adjusted periodically, are \$6,205 and \$6,034 per month, respectively.

That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and who are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, and may also depend on the financial condition of SHA and the level of benefits guaranteed by the PBGC.

9. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by an affiliate of Principal and these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services amounted to \$26,900 for the year ended December 31, 2022.

10. Subsequent Events

The Plan's management has performed subsequent event procedures through October 13, 2023, the date the financial statements were available to be issued, and there were no subsequent events requiring adjustments to the financial statements or disclosures as stated herein.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Retirement Plan for Employees of Southampton Hospital Association
EIN 11-1667765 Plan No. 001

Assumptions prescribed by law

Mortality	<u>During benefit payment period</u>
	IRS Prescribed Mortality - Static Annuitant, male and female.
	<u>Before benefit payment period</u>
	IRS Prescribed Mortality - Static Non-annuitant, male and female.

Assumptions selected by actuary

Asset return	6.50% for the current plan year.
	The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
-------------------------	--

Retirement	Active participants			
	Age	Probability of retirement	Age	Probability of retirement
	55	11%	61	0%
	56	5%	62	4%
	57	5%	63	0%
	58	0%	64	7%
	59	9%	65	remaining participants
	60	10%		

This assumption is based on the results of recent experience analysis and anticipated future experience. Some participants retire early since the plan provides an early retirement subsidy beginning at age 55.

Disability	None. This plan had no recent incidence of disability and does not have any retirees who are receiving a disability benefit
-------------------	---

Marriage	75% married; husbands are 3 years older than wives.
-----------------	---

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	None. Due to the size of the plan and limited experience, we're not recognizing a withdrawal assumption prior to retirement.
-------------------	--

Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods selected by plan sponsor	
Asset method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC premium basis	Variable Rate Premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2017-10).
------------------	---

Base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan and has been selected due to data limitations in identifying contingent survivors. In addition, we believe beneficiary mortality isn't materially different while both participants are alive.

Mortality improvement (MI)

Principal 2017-10 MI scale: this scale is based on MP-2021 study and model issued by SOA with the exception of the following user-selected assumptions:

- 10-year convergence period on age and cohort
- Long-term rates (LTR) assumptions using sex-distinct and age-based rates developed from Social Security Trustees Reports.

See Mortality Documentation for rationale and additional information.
