Independent Auditors' Report

Board of Trustees
Plumbers Local 360 Pension Plan
Collinsville, Illinois

Opinion

We have audited the accompanying financial statements of Plumbers Local 360 Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits and accumulated plan benefits of Plumbers Local 360 Pension Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits and changes in accumulated plan benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Plumbers Local 360 Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Plumbers Local 360 Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Additional Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The additional Schedules of Administrative Expenses are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the additional information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Description of the Plan

The following description of Plumbers Local 360 Pension Plan (the "Plan") provides only general information. Participants of the Plan should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a multiemployer defined benefit pension plan. The Plan was established in 1986, pursuant to a collective bargaining agreement ("CBA") between Plumbers Local 360 (the "Union") and the participating employers (the "Employers") to provide retirement, death, and disability retirement benefits to eligible participants and beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Administration of the Plan is the responsibility of the Board of Trustees ("Trustees") and is governed by a joint board consisting of equal representation from the Employers and the Union.

Eligibility

To be eligible, an employee must be working for an Employer who is subject to the CBA or for an Employer subject to a trustee approved participation agreement. Additionally, pursuant to a participation agreement, office employees of the Plan are eligible to participate in the Plan. Participants are considered eligible on the first day of the month coinciding with or the next following the day, they entered into covered employment.

Funding Policy

The Employers make monthly contributions to the Plan on behalf of covered employees in amounts determined by the CBA or such other agreements and is subject to minimum funding requirements of ERISA and maximum deductibility of contributions by the Employers under the Internal Revenue Code ("IRC"). The hourly contribution rate was \$5.85 for each of the years ended December 31, 2022 and 2021. Contributions by participants are not permitted under the Plan. The Trustees design the benefit structure based on information from the actuarial consultants. The Plan's actuary has certified that the minimum funding requirements under ERISA have been met as of December 31, 2022 and 2021.

**Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021**

Pension Protection Act Funding Status

As required by ERISA under the Pension Protection Act of 2006 ("PPA"), the Plan's actuary has completed the Plan's actuarial funding certification as of December 31, 2022, in accordance with generally accepted actuarial principles and practices. The certification was based on projections using the actuarial present value of accumulated plan benefits as of December 31, 2021 and audited financial information as of December 31, 2021, as well as other information, including estimated cash flows for the year ended December 31, 2022 and the rate of market value return as reported by investment consultants. The funded status provides an indication of the financial health of the Plan.

The actuary employed by the Plan calculated the funding status for the Plan and determined that the Plan was neither critical nor endangered (green zone) for the 2022 Plan year beginning January 1, 2022.

Vesting

Participants are fully vested if either of the following have been completed: at least 5 years of vesting service; or at least 5,000 hours of service in any 5 consecutive Plan years. A year of service is a calendar year during which at least 870 hours of vesting service are completed.

Pension Benefits

The Plan provides the following types of monthly pensions for qualified employees who retire from covered employment: 1) normal retirement, 2) early retirement, 3) late retirement, 4) disability retirement, and 5) deferred pension benefit. The monthly pension amount is related to the number of pension credits earned by an employee. Once an employee retires, benefits will be paid for life as long as the former employee remains retired. At death, survivor benefits may be paid to the deceased employee's spouse. In certain instances, a death benefit is also payable if an employee dies before retirement. There is no compulsory retirement age under the Plan. A detailed description of all available elections for the payment of benefits is available in the summary plan description, which is provided to each participant.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with the provisions of the Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (the "FASB ASC"), which is the source of authoritative, non-governmental accounting principles generally accepted in the United States of America ("GAAP"). All references to authoritative accounting guidance contained in our disclosures are based on the general accounting topics within the FASB ASC.

**Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021**

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Fair Value Measurements

The Plan follows guidance issued by the FASB on fair value measurements, which establishes a framework for measuring fair value, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. This guidance applies whenever fair value is the applicable measurement. The three general valuation techniques used to measure fair value are the market approach, cost approach, and income approach.

Employer Contributions Receivable

Employer contributions receivable represents Employer contributions which are due to the Plan for hours worked prior to the end of the Plan year, but not received by year end. Employer contributions receivable are carried at reported amounts less an estimate for doubtful accounts based on a review of outstanding amounts. Plan management determines the allowance for doubtful accounts by regularly evaluating individual Employer receivables and considers an Employer's financial condition, payment history, and current economic conditions. Employer contributions receivables are written off when deemed uncollectible. Plan management is of the opinion that no allowance is necessary as of December 31, 2022 and 2021.

Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

Property and Equipment

Property and equipment is stated at cost. Major additions and improvements are capitalized, while maintenance and repairs are expensed as incurred. When assets are sold or otherwise disposed of, the related cost and accumulated depreciation or amortization are removed from the accounts. Any gain or loss arising from such disposition is included as additions or deductions in the year of disposition.

Depreciation is computed using an accelerated method over the useful life of the asset and amortization is computed using the straight-line method over the estimated useful lives of the assets as follows:

<u>Classification</u>	<u>Years</u>
Furniture and office equipment	5-7
Software	5

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan permits the payment of Plan expenses from Plan assets. Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. The Plan shares certain administrative expenses with other related plans. In computing these allocated costs, various factors were considered, including the time spent, space used, costs incurred, and volume of transactions relating to the Plan in relation to the other plans. The administrative expenses are shown net of these allocations.

Recent Accounting Pronouncements

Credit Losses on Financial Instruments

The FASB has issued new guidance on the presentation of financial assets measured at amortized cost. Such assets will be presented at the net amount expected to be collected over the remaining contractual lives. Estimated credit losses will be based on relevant information about historical experience, current conditions, and reasonable and supportable forecasts that affect the collectibility of the reported amounts. The standard will also change the accounting for credit losses related to securities available for sale and purchased financial assets with a more-than-insignificant amount of credit deterioration since origination. The guidance will be required for the first fiscal year beginning after December 15, 2022.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2023, the date on which the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into Levels 1, 2, and 3. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical instruments in active markets.
Level 2	Inputs to the valuation method to include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, inputs other than quoted prices that are observable for the instrument, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The instruments' fair value measurement levels within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value.

Level 1 investments consist of money market funds and registered investment companies ("mutual funds"). The money market funds are valued at cost plus accrued interest which approximates fair value. Mutual funds are recorded at the closing price recorded by the fund. These are open ended mutual funds and are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 investments consist of U.S. government and agency securities. U.S. government and agency securities are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Investments also include common collective trust funds. The common collective trust funds are valued at the NAV of shares of the bank collective trusts held by the Plan at year-end. The NAV is based on the fair value of the underlying investments held by the trusts. The NAV is used as the practical expedient to estimate fair value.

Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value of investments is measured as of December 31, as follows:

	2022			
	Total	Fair Value Measurements		Level 3
		Level 1	Level 2	
Money market funds	\$ 60,447	\$ 60,447	\$ -	\$ -

5. Related Party Transactions

Cost Sharing Plan

The Plan is reimbursed by the Plumbers Local 360 Pension Supplemental Plan (the "Supplemental Plan"), the Plumbers Local 360 Health and Welfare Plan (the "Health and Welfare Plan"), and the Plumbers Local 360 Industry Advancement Fund (the "IA Fund"), for shared employee salary, employee benefits, and overhead costs on an approved pro-rata basis. The amounts that were reimbursed for the years ended December 31, 2022 and 2021 were \$107,294 and \$99,138, respectively. These reimbursements are netted against expense in the schedules of administrative expenses. As of December 31, 2022 and 2021, \$27,476 and \$25,489, respectively, was due to the Plan, which is included in the reimbursement amounts above.

Total Due to Other Funds	<u>\$ 6,468</u>	<u>\$ 6,468</u>

The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on participants' years of credited service. The accumulated plan benefits of active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, as of December 31, 2022 and 2021 and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

Significant assumptions underlying the actuarial computations are:

Funding Method	The Present Value of Future Normal Costs equals the Present Value of Benefits reduced by Plan Assets. These future costs are spread as a level percentage over current and future expected pay. The portion attributable to current pay is the current year Normal Cost. Experience gains and losses are included in the Present Value of Future Normal Costs, and therefore are spread over future years as a level percentage of pay.
Valuation of Assets	All assets are valued at Market Value
Mortality Rates - Pre-Retirement	2022 and 2021 - Males: PRI-12 Employee Blue Collar Table for males, with projected mortality improvement based on the most recent improvement Scale published (Scale MP 2021). 2022 and 2021 - Females: PRI-12 Employee Blue Collar Table for females, with projected mortality improvement based on the most recent improvement Scale published (Scale MP 2021).
Mortality Rates - Post-Retirement	2022 and 2021 - Males: PRI-12 Annuitant Blue Collar Table for males, with projected mortality improvement based on the most recent improvement Scale published (Scale MP 2021). 2022 and 2021 - Females: PRI-12 Annuitant Blue Collar Table for females, with projected mortality improvement based on the most recent improvement Scale published (Scale MP 2021).
Investment Earnings	Pre-Retirement: 7.00% per annum: compounded annually (2022 and 2021) Post-Retirement: 7.00% per annum: compounded annually (2022 and 2021)

Current Liability	2.55% per annum: compounded annually (2022)
	2.22% per annum: compounded annually (2021)
Salary Appreciation	None Assumed
Assumed Retirement Age	Age 61
Termination Prior to Retirement Other Than Death	None Assumed
Expense Load	\$110,000 is the assumed annual expense
Amortization Methods for Contribution Alternatives	The Minimum Required, Maximum Deductible, and the Recommended Contribution are all based on the Aggregate Cost Method, under which there is no Unfunded Accrued Liability.

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

7. Plan Amendments

Effective January 1, 2022 all retirees and beneficiaries who retired on or before December 31, 2021 shall receive a seven percent increase in their monthly pension benefit.

8. Plan Termination

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved by the Trustees. During termination, the Plan's assets should not be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries, and participants. In the event of termination, the net assets of the Plan will be used to pay benefits and satisfy obligations of the Plan to pay administrative expenses. A detail description of the priority order of participant's claims can be found in the summary plan description provided to each participant.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

**Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021**

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan and the level of benefits guaranteed by the PBGC. For multiemployer plans, the PBGC provides financial assistance to plans that are unable to pay basic PBGC guaranteed benefits when due.

9. Tax Status of Plan

The Internal Revenue Service has determined and informed the Trustees by a letter dated December 8, 2015, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with GAAP, the Plan's management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan's management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is no longer subject to income tax examinations for years prior to 2019. The Plan is also subject to routine audits by the Department of Labor, generally for six years after the statutory due date of the annual information return. There are currently no audits in progress for any tax periods.

10. Risks and Uncertainties

Investments

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions

The majority of receivables are from plumbing contractors primarily located in or working in Southern Illinois. The Plan generally does not require collateral, but in some cases can require a performance bond.

Plumbers Local 360 Pension Plan
Notes to Financial Statements
December 31, 2022 and 2021

Actuarial Present Value

Plan contributions are made and the actuarial present values of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Funding Method:

Aggregate Funding Method - Under this method, the Present Value of Future Normal Costs equals the Present Value of Benefits reduced by Plan Assets. These future costs are spread as a level percentage over current and future expected pay. The portion attributable to current pay is the current year Normal Cost.

Experience gains and losses are included in the Present Value of Future Normal Costs, and therefore are spread over future years as a level percentage of pay.

Valuation of Assets

All Assets are valued at Market Value
