INDEPENDENT AUDITORS' REPORT

To the Plan Administrator, Participants and Beneficiaries of
The Dun & Bradstreet Corporation 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements

We have performed an audit of the financial statements of The Dun & Bradstreet Corporation 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 9 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

2022 Supplemental Schedule Required by ERISA

The supplemental schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

The 2021 financial statements of the Plan were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated October 13, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedule, other than the information in the 2021 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

1. Background and Plan Description

The Dun & Bradstreet Corporation (the “Company”) sponsors The Dun & Bradstreet Corporation 401(k) Plan, (the “Plan”), a defined contribution plan, that is intended to be qualified under Sections 401(a) and 401(k) of the Internal Revenue Code of 1984, as amended (the “IRC”), and is offered to all eligible employees of the Company and its affiliates in the United States. The Plan was established for employees of the Company and is designed to help employees supplement their retirement income. The funding of the Plan is made through employee and Company contributions.

The following summary of major Plan provisions in effect for the Plan years 2022 and 2021 is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”) was enacted on March 27, 2020. Under the CARES Act, the Plan added a distribution option which allowed for penalty free withdrawals up to \$100,000 until December 31, 2020 that may be repaid over a three-year period (including income taxes). The Plan also increased the maximum loan amount from \$50,000 or 50% of a participant's vested account balance to \$100,000 or 100% of a participant's vested balance for loans issued up until September 23, 2020 and permitted new and existing loan repayments to be deferred through December 31, 2020. Also, the processing of required minimum distributions was suspended for 2020, except upon participant request and in cases where a participant’s first required minimum distribution was for 2019, and was deferred until 2020.

Eligibility

All active employees of the Company and its affiliates in the United States are immediately eligible to participate in the Plan on their date of hire. Newly hired employees, as well as employees who may be reemployed, who have not enrolled in the Plan within 60 days of their hire date, are automatically enrolled at a contribution rate of 3% of pre-tax eligible earnings in the default investment option under the Plan which is the age appropriate Vanguard Target Retirement Trust. A participant may opt out of the automatic enrollment by electing his or her own contribution rate or choosing not to participate in the 401(k) Plan within 60 days of their hire date. If an employee has an automatic enrollment date after June 1, 2014, the contribution rate will automatically increase 1% on each anniversary of the automatic enrollment date, up to a maximum of 7% of an employee’s annual compensation.

Contributions

Each eligible participant may contribute between 1% to 50% of their annual compensation (subject to the Internal Revenue Service (“IRS”) compensation limit of \$305,000 in 2022 and \$290,000 in 2021) to the Plan on a pre-tax and/or Roth basis, subject to an overall IRS limit (\$20,500 in 2022 and \$19,500 in 2021). Additionally, an eligible participant may contribute between 1% to 16% of compensation to the Plan on a post-tax basis. The total pre-tax, Roth and post-tax contribution percentage cannot exceed 50% of compensation. In addition, participants age 50 and over can contribute up to an additional \$6,500 in both 2022 and 2021 in pre-tax and /or Roth contributions through the Plan’s catch-up contribution provisions. Catch-up contributions are not eligible for Company matching contributions. The total pre-tax, Roth, post-tax and catch-up contribution percentage cannot exceed 75% of compensation. Contributions are made to the Plan each payroll period by participants through payroll deductions and by the Company on behalf of participants. Contributions will be invested in the default age appropriate Vanguard Target Retirement Trust, if an employee fails to make an investment election.

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The Company matches \$0.50 per dollar of the first 7% of a participant's eligible compensation, or a maximum employer match of 3.5%. The Company made matching contributions of \$10,072,698 during the year ended December 31, 2022.

Participant Accounts

A separate account is established and maintained for each Plan participant. Contributions by the participant and the Company are invested in one or more of the Plan's investment funds as designated by the participant. Income earned, administrative expenses, and net appreciation or depreciation on Plan investments for a given fund is allocated in proportion to the participant's account balance in that fund on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings on the contributions. The Plan provides for 100% vesting in the value of Company contributions plus actual earnings thereon to a participant's Plan account at the end of three years of service. In addition, a participant becomes 100% vested in the value of Company contributions if actively employed and attains age 65, becomes totally and permanently disabled or dies.

Investment Options

The Plan allows participants to direct their contributions and the Company's contributions to a variety of different investments offered by the Plan. At December 31, 2022 and 2021, the Plan offered Mutual Funds, Common /Collective Investment Trust Funds and the Dun & Bradstreet Stable Value Fund which invests in guaranteed investment contracts ("GICs"), synthetic GICs and a short-term investment fund. The following is a summary of the investment options:

Mutual Funds

The Balanced Index Fund is an investment portfolio which will invest approximately 60% of its assets in the Vanguard Institutional Index Fund Institutional Plus Shares and 40% in the Vanguard Total Bond Market Index Fund Institutional Shares. The Vanguard Institutional Index Fund Institutional Plus Shares tracks the S&P 500® Index which contains 500 predominantly large U.S. based companies and represents more than 75% of the value of all publicly-traded common stocks in the U.S. The Vanguard Total Bond Market Index Fund Institutional Shares tracks the Barclays Aggregate Bond Index.

The *Vanguard Developed Markets Index Fund Institutional Shares* is invested to match the total return of a diversified developed market index of non-US stocks.

The *Vanguard Institutional Index Fund Institutional Plus Shares* tracks the performance of the S&P 500® Index that measures the investment return of large-capitalization stocks.

The *Vanguard Extended Market Index Fund Institutional Shares* is invested in securities to match the total return of an equity index composed of mid and small cap stocks.

The *Vanguard Total Bond Market Index Fund Institutional Shares* seeks the performance of a broad, market weighted bond index.

The *BlackRock Advantage Small Cap Growth Equity Portfolio Institutional Class* invests at least 80% of its net assets in equity securities issued by U.S. small capitalization growth companies.

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The *Fidelity Low-Priced Stock Fund Class K* invests at least 80% of its assets in “low-priced” common stocks. Low-priced stocks are stocks that are priced at or below \$35 per share at the time of investment.

The *Fidelity Diversified International Fund Class K* is invested primarily in non-U.S. equity securities. The fund may invest in emerging markets, convertible securities and cash-equivalent investments.

The *Fidelity Blue Chip Growth Fund Class K* is invested in common stocks of well-known and established companies considered “blue chip” by the fund’s portfolio manager. The fund may also invest in companies believed to have above-average growth potential.

The *JP Morgan Equity Income Fund Class R6* is invested in high quality U.S. companies to provide a large cap value strategy with an emphasis on quality and sustainable dividend yields.

The *Northern Small Cap Value Fund* invests at least 80% of its assets in equity securities of small capitalization companies with market capitalizations that are, at the time of purchase, within the range of the Russell 2000 Index. The fund primarily invests in the securities of U.S. issuers, but it may also invest to a limited extent in the securities of foreign issuers.

The *PIMCO Total Return Fund Institutional Class* is invested primarily in investment-grade bonds, including U.S. government, corporate, mortgage-backed and foreign bonds.

The *Allspring Discovery SMID Cap Growth Fund Class R6* invests at least 80% of its net assets in equity securities of small- and medium-capitalization companies; and up to 25% of the fund’s total assets in equity securities of foreign issuers through ADRs and similar investments.

The *Allspring Special Mid-Cap Value Fund Class R6* invests at least 80% of its net assets in equity securities of medium capitalization companies, which the managers define as securities of companies with market capitalizations within the range of the Russell Mid Cap Index at the time of purchase.

Common /Collective Investment Trust Funds

The *Vanguard Target Retirement Trusts, including the Vanguard Target Retirement 2020, 2025, 2030, 2035, 2040, 2045, 2050, 2055, 2060 Trusts II and the Vanguard Target Retirement Income Trust II*, invest in several Vanguard funds, primarily low-cost index funds, to create a broadly diversified mix of stocks and bonds. Each trust seeks to provide capital appreciation and current income consistent with its asset allocation. The year in a Target Retirement Trust’s name is its target date, the approximate year in which an investor in the trust expects to retire and leave the work force.

The Dun & Bradstreet Stable Value Fund

The Fund seeks to provide safety of principal and a stable credited rate of interest. Galliard Capital Management, (“Galliard”) the fund’s advisor, invests in guaranteed investment contracts (“GICs”) and synthetic GICs. The synthetic GICs are comprised of a high quality fixed income portfolio invested in fixed income funds and wrap contracts issued by highly rated financial institutions. These wrap contracts serve to stabilize the return of the fund by offsetting price fluctuations in the underlying fixed income portfolio.

Payment of Benefits

If a participant leaves the Company, the participant is entitled to receive the vested value of his or her account balance. If a participant's vested account value is \$1,000 or less, it will be automatically paid in a lump-sum payment. If the vested value of the account balance is greater than \$1,000, a participant may request an immediate lump-sum payment, or a participant may choose to delay payment to a later date, but not beyond April 1 of the year after the participant reaches age 72. If a lump-sum distribution is received, the participant may be eligible to roll it over into another employer plan or an Individual Retirement Account ("IRA").

All participants who are no longer actively employed with the Company may elect to receive installment payments under the Plan. Installment payments can be paid monthly, quarterly and annually, for a period not to exceed 20 years.

A participant who has been called to active military duty for a period in excess of 30 days may request a distribution of his or her pre-tax and Roth 401(k) contributions under the Plan. Taking such withdrawal would prohibit the participant from making contributions under the Plan for a six month period following the date of distribution.

In the event of death of an employee, if a participant's account balance is \$1,000 or less it will be paid to the employee's beneficiary in a lump-sum payment; if the account balance is greater than \$1,000, the employee's beneficiary may request an immediate lump-sum payment or the beneficiary may choose to delay payment of the account balance until March 1 of the year following the death. If a participant commenced payment in the form of installments prior to death, the beneficiary will receive the remaining account balance in the form of installments with the same frequency as had been received by the deceased participant, unless the beneficiary elects and requests to receive the entire remaining amount in a lump-sum payment.

Notes Receivable from Participants

Participants may obtain loans from the Plan, which are collateralized by the vested balance in their accounts. The Plan limits the total number and amount of loans outstanding at any time for each participant, to two loans. The minimum loan amount is \$500 and the maximum is the lower of 50% of a participant's vested account balance or \$50,000, limited by existing outstanding loans. Additionally, a participant's loan repayment amount cannot exceed 15% of his or her semi-monthly gross compensation. Interest rates applicable to Plan loans are based on the prime rate as reported in Reuters on the last business day of the month before the loan is processed plus 2%. At December 31, 2022 and 2021, interest on participant loans ranged between 4.25% and 11.5%. Interest income from notes receivable from participants amounted to \$320,871 in 2022 and \$405,536 in 2021. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Forfeited Accounts

Forfeitures may be used to reduce future company contributions under the Plan. During 2022 and 2021, \$596,996 and \$400,101, respectively, of forfeitures were used to reduce company contributions. As of December 31, 2022 and 2021, unallocated forfeitures were \$26,467 and \$83,571, respectively.

Administration of the Plan

In November 2019, the Compensation Committee of the Board of Directors of the Company approved changes to the management committees, the Qualified Plan Oversight Committee (POC) and the Qualified Plan Administration Committee (PAC), to oversee the administration of the Plan. The Qualified Plan Oversight Committee is authorized to delegate certain administrative duties to one or more

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

administrative service providers. The Qualified Plans Administration Committee has the exclusive right to determine all matters relating to eligibility, interpretation and operation of the Plan.

The Qualified Plan Administration Committee serves as the ERISA named fiduciary of the Plan. The Qualified Plan Administration Committee is responsible for the control and management of the operation and administration of the Plan. Members of the Qualified Plan Administration Committee are appointed by the Qualified Plan Oversight Committee.

Fidelity Management Trust Company (the “Trustee”) is the Trustee of the Plan and has custody of the Plan’s assets. Fidelity Workplace Services LLC is the record keeper. The expenses of administering the Plan are paid by the Company except for investment management fees, which are charged to the Plan, and certain loan and withdrawal transaction fees, which are paid by the participant.

Plan Termination

The Compensation Committee of the Board of Directors of the Company reserves the right to amend, modify, suspend or terminate the Plan. While the Company has not expressed any intention to discontinue its contributions or to terminate the Plan, it is free to do so at any time subject to the provisions of ERISA and the IRC, which state that, in such event, all participants of the Plan shall be fully vested in the amounts credited to their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of the Plan’s financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and when applicable, disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan provides for various investment options in any combination of common/collective trusts, mutual funds, a stable value fund, and short-term investments. Investment securities, in general, are exposed to various risks, such as interest rate, liquidity, credit and overall market volatility.

Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values in the near term could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits, as well as participant account balances.

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The Plan is exposed to credit loss in the event of non-performance by the companies with whom the investment contracts are placed. However, the Plan administrators do not anticipate non-performance by these companies.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Investment Valuation and Investment Income

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments measured at fair value using net asset value (NAV) as a practical expedient are reported by the respective fund managers. The Qualified Plan Administration Committee determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and insurance companies.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned on an accrual basis.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation or depreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation and depreciation on those investments held during the year.

3. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, *Fair Value Measurement and Disclosures (ASC 820)*, defines fair value and establishes a framework for measuring fair value under current accounting pronouncements. ASC 820 provides a fair value hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date.

The three levels of the fair value hierarchy under ASC 820 are described below as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted or published prices available in active markets for identical investments that the Plan can access at the reporting date.

Level 2 – Inputs to the valuation methodology are other than quoted or published prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies. Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

Level 3 – Inputs to the valuation methodology that are unobservable and significant to the fair values for the asset or liability.

A financial instrument's level or categorization within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy. There have been no changes in the methodologies used and the Plan had no Level 3 investments at December 31, 2022 and 2021.

Common/Collective Investment Trusts

These investments in the Vanguard Target Date Retirement Funds are valued at reported NAV. The NAV is based on the value of the underlying assets owned by the respective fund, minus its liabilities, and then divided by the number of shares outstanding. They are classified within Level 1 of the fair value hierarchy because the NAV is determined and published daily, and plan participants can transact on any date based on published NAV.

This asset category does not have any unfunded commitments or redemption restrictions.

Mutual Funds

These investments are public investment securities held by the Plan that are registered with the Securities and Exchange Commission and valued using the reported NAV. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Mutual funds are classified within Level 1 of the fair value hierarchy because mutual funds are publicly traded, and the NAV is quoted in active markets and may be redeemed daily.

Short-Term Investment Funds ("STIF")

This investment is part of the Dun & Bradstreet Stable Value Fund and valued at the reported NAV of \$1. It is within Level 1 of the fair value hierarchy as plan participant may purchase or redeem units of the Fund daily based on the unit value determined on the respective date of the transaction.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Investments

Investments held by the Plan at December 31, 2022 and 2021 are summarized as follows:

<i>(dollars in thousands)</i>	2022	2021
At fair value:		
Common/Collective Investment Trusts	\$ 247,838	\$ 304,398
Mutual Funds	656,350	874,348

Total Investments at Contract Value:	126,637	113,840
Total investments held by the Plan	<u>\$ 1,034,782</u>	<u>\$ 1,301,778</u>

5. Contracts with Insurance Company

The Plan offers an investment in the Dun & Bradstreet Stable Value Fund (“Stable Value Fund”). The Stable Value Fund holds a portfolio of investment contracts. These contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because this is the amount received by participants if they were to initiate permitted transactions (for example, withdrawals) under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Stable Value Fund invests in cash equivalents, separate account GICs issued by banks or insurance companies, and synthetic GICs. Synthetic GICs include security-backed contracts which are comprised of two components, an underlying fixed income portfolio that invests primarily in U.S. domestic fixed income securities (bonds) and a wrap contract issued by a financial institution to provide stability of principal and interest. The Stable Value Fund is invested in broadly diversified portfolios of fixed income securities including financial instruments issued by highly rated companies.

There are no reserves required against contract value for credit risk of the contract issuer or otherwise. Credited interest rates for fixed rate contracts are fixed for the duration of such contracts and depend upon market conditions when the contract is negotiated. For floating rate contracts, interest rates are reset each quarter.

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

The following represents the disaggregation of contract value investments between types of investment contracts held by the Plan at December 31, 2022 and 2021.

(dollars in thousands)

	<u>2022</u>	<u>2021</u>
Separate Account GICs	\$ 31,715	\$ 28,583
Synthetic GICs	94,922	85,257
Total	<u>\$ 126,637</u>	<u>\$ 113,840</u>

The difference between a synthetic investment contract and a separate account investment contract is that the Plan owns the underlying assets of the synthetic investment contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payment to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With separate account investment contracts, the Plan owns only the contract itself. Synthetic and separate account contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The synthetic investment contracts held by the Plan include wrapper contracts that provide a guarantee that the credit rate will not fall below zero percent. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustment to future contract crediting rates. Formulas are provided in each contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed monthly for resetting.

The separate account investment contracts are first supported by associated assets in a segregated separate account held by the issuing insurance company and then, to the extent necessary, by the insurer's general account assets and surplus. The crediting rate on a separate account GIC resets periodically based upon the earnings of the separate account assets. The securities held in the separate account are owned by the insurance company, but are held for the exclusive benefit of the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrators do not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

6. Tax Status

On May 31, 2013, the Company received a favorable determination letter from the IRS on the Plan which included all amendments made to the Plan and related Trust Document executed subsequent to the receipt of the prior determination letter. In IRS Announcement 2015-19, issued on July 21, 2015, the IRS said it

The Dun & Bradstreet Corporation 401(k) Plan
Notes to Financial Statements
December 31, 2022 and 2021

is eliminating the staggered five-year determination remedial amendment cycles for individually designed tax-qualified retirement plans effective January 1, 2017.

The Plan administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt. Participants will not be subject to income tax for contributions made on their behalf by the Company, nor on money earned by the Plan and credited to their account until such time as they withdraw their balance.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to any uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The Company believes it is no longer subject to income tax examinations for years prior to 2019.

7. Related-Party Transactions

Certain Plan investments are in shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. The following is the activity for the year ended December 31, 2022.

	Fidelity Mutual Funds	
	2022	
<i>(dollars in thousands)</i>		
Purchases	\$	15,514
Sales	\$	61,302
Dividends paid	\$	3,611
Net depreciation	\$	(78,537)

Fees paid by the Plan to the Trustee for administrative expenses were approximately \$336,000 for the year ended December 31, 2022, which is part of the total Administrative Expenses stated on the Statement of Changes in Net Assets Available for Benefits.

8. Reconciliation of Financial Statements to Form 5500

The accompanying financial statements present fully benefit-responsive contracts at contract value. The Form 5500 requires synthetic investment contracts to be reported at fair value. Therefore, there is an adjustment from fair value to contract value for synthetic investment contracts which represents a reconciling item.

Net decrease in net assets available for benefits per the financial statements	\$ (267,829)
Change in adjustments from contract value to fair value for synthetic investment contracts	(7,660)
Net decrease in net assets available for benefits per the Form 5500	<u>\$ (275,489)</u>

9. Information Certified by the Trustee

The Plan has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Sponsor instructed the Plan's independent auditor not to perform any auditing procedures with respect to the information certified as complete and accurate by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements. Fidelity Management Trust Company, the Trustee certified to the investment information presented in the statements of net assets available for benefits, and the statement of changes in net assets available for benefits shown below.

The following information represents certified investments and notes receivable from participants as of December 31, 2022 and 2021:

<i>(dollars in thousands)</i>	December 31, 2022	December 31, 2021
Total Investments	\$ 1,034,782	\$ 1,292,957
Notes receivable from participants	5,214	5,825

10. Transfer In

In 2021, the Company acquired 100% ownership interest in Eyeota Holding Pte Ltd (“Eyeota”). Effective with the close of business on December 31, 2021, eligible employees of Eyeota became eligible to participate in the Plan. On May 12, 2022, assets were transferred into the Plan from Eyeota valued at approximately \$222,000.

11. Subsequent Events

The Plan has assessed subsequent events through October 16, 2023, the date the financial statements were available to be issued, and has determined that no items require disclosure.
