Report of Independent Auditors

Hitachi Energy USA Inc. U.S. Benefits Committee and Plan Participants
Cash Balance Pension Plan for Certain Represented Employees of Hitachi
Energy USA Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Cash Balance Pension Plan for Certain Represented Employees of Hitachi Energy USA Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal-control related matters that we identified during the audit.

Effective December 31, 2019, the Cash Balance Pension Plan for Certain Represented Employees of ABB, Inc. transferred the assets and liabilities for all inactive participants to the ABB, Inc. Cash Balance Plan. Effective January 1, 2020, the Cash Balance Pension Plan for Certain Represented Employees of ABB, Inc. was renamed the Cash Balance Pension Plan for Certain Represented Employees of ABB Enterprise Software Inc., and the plan sponsor was changed to ABB Enterprise Software Inc. Effective November 1, 2021, the plan sponsor's name was changed to Hitachi Energy USA Inc. (the Company) and the Cash Balance Pension Plan for Certain Represented Employees of ABB Enterprise Software Inc. was renamed the Cash Balance Pension Plan for Certain Represented Employees of Hitachi Energy USA Inc.

The Plan is a cash balance defined benefit plan that covers salaried and hourly employees of the Company, except temporary employees. The Plan provides for retirement, death, and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility and Vesting

Participants of the Cash Balance Pension Plan for Certain Represented Employees of ABB Inc. on December 31, 2019, continue to be participants of the Plan. No employees hired on or after January 1, 2017, are eligible to participate in the Plan.

Active participants become fully vested upon the earlier of the completion of three years of service or attainment of age 65.

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Benefits

The Plan is a cash balance plan whereby a participant's accrued benefit is based on the participant's cash balance account. The cash balance accounts for participants hired before January 1, 2012, are credited with a monthly amount based on compensation and an interest credit. The cash balance accounts for participants hired on or after January 1, 2012, are credited with only a monthly interest credit.

Benefits are paid out in monthly installments or as a lump-sum distribution.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2022 and 2021.

Plan Termination

Although it has not expressed an intention to do so, the Company reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend of the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC), as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments held in the master trust (Master Trust) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation included in the plan interest in net investment loss of Master Trust includes the gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are based on the cash balance accounts or the transition benefits for certain employees. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

3. Accumulated Plan Benefits

The accumulated plan benefit information as of the end of each plan year is as follows:

3. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

Certain information related to investments for the Plan and the Master Trust disclosed in the accompanying financial statements, including the plan interest in Master Trust held at December 31, 2022 and 2021, and the net investment loss from plan interest in the Master Trust for the year ended December 31, 2022, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Plan's trustee, U.S. Bank National Association.

Master Trust

The Plan's investments are held in a Master Trust that was established for the investment of assets of the Plan and several other Company sponsored retirement plans. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. At December 31, 2022 and 2021, the Plan's interest in the net assets of the Master Trust was 91.29% and 96.49%, respectively.

5. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable, either directly or indirectly, for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

5. Fair Value Measurements (continued)

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value at December 31, 2022 and 2021:

Money market funds are valued based on quoted market prices that represent the net asset value (NAV) of shares held by the Plan at year-end. The NAV is a quoted price in an active market.

Collective investment funds are valued at net asset value as a practical expedient.

The following table sets forth, by fair value hierarchy level, the Master Trust's assets carried at fair value at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Money market funds	\$ 288,134	\$ –	\$ –	\$ 288,134

^(a)These collective investment funds' objective is to provide long-term total return, composed primarily of capital appreciation and investment income. To pursue its goal, these funds generally invest in domestic and foreign mutual funds. These investments are valued daily and have a redemption period of up to 15 days.

^(b)This collective investment fund's objective is to maximize long-term total return, consistent with prudent investment management. This investment is valued daily and has a redemption period of up to 15 days.

^(c)This collective investment fund seeks long-term capital growth through matching, as closely as possible, the return of the S&P 500 Index. To pursue its goal, this fund invests in indexed bank collective funds. This investment is valued daily and has a redemption period of up to 15 days.

^(d)This collective investment fund seeks to match the total return of the Barclays U.S. Aggregate Bond Index. To pursue its goal, this fund invests in indexed bank collective funds. This investment is valued daily and has a redemption period of up to 15 days.

5. Fair Value Measurements (continued)

^(e)This collective investment fund seeks to generate a return to approximate a custom benchmark index, which comprises the Dow Jones U.S. Select REIT Index, Bloomberg Roll Select Commodity Index, S&P Global LargeMidCap Commodity and Resources Index, Bloomberg Barclays US Government Inflation-Linked 1-10 Year Bond Index, and S&P Global Infrastructure Index. This investment is valued daily and has a redemption period of up to seven business days.

^(f)This collective investment fund seeks to generate attractive and consistent returns primarily derived from a strong income component while secondarily seeking long-term capital appreciation with low to moderate volatility. NAV is assessed at the end of each calendar quarter by the group trustee. Investors may withdraw units at the end of each calendar quarter after submitting a request (in writing) no later than 100 days before the proposed withdrawal date.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated February 3, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and, therefore, the related trust is exempt from taxation. Subsequent to receiving the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

Certain administrative expenses are paid by the Company on behalf of the Plan. Expenses that are paid directly by the Company are excluded from these financial statements.

Notes to Financial Statements (continued)

8. Risks and Uncertainties

The Plan and the Master Trust invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported on the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 16, 2023, the date the accompanying financial statements were available to be issued.

Demographic Assumptions, Continued

Percent married	For purposes of valuing the pre-retirement surviving spouse benefit, 70% of eligible participants are assumed to be married.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the plan year beginning on the valuation date is the greater of the actual pensionable pay earned during the prior plan year adjusted by one full year of salary scale or the base pay rate as of the valuation date.
Timing of benefit payments	Lump sum payments are assumed to be paid upon termination for active employees, and at the assumed retirement age for deferred vested employees. Annuity payments are assumed to be made uniformly throughout the year and, on average, at mid-year.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, plan-related expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

For purposes of calculating the actuarial value of assets, expected earnings assumptions of 5.75% for 2021 and 2020 was used.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Hitachi Energy USA Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor through its third party administrator (USI), furnished participant data as of 1/1/2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

Please refer to the forthcoming 1/1/2022 Valuation Census Data Report for documentation of assumptions made for missing or apparently inconsistent data elements.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions, Continued

Social security wage base (SSWB)	The assumed SSWB increase is based on long-term expectations of assumed increases in real wages (the portion of GDP increases that becomes part of wages).
Rates of increase in compensation	Assumed compensation increases are based on plan sponsor expectations. The plan sponsor has indicated this assumption does not significantly conflict with future expectations for compensation increases.
Interest crediting rate	<p>The plan credits interest on the cash balance accounts primarily using CPI plus 300 basis points, limited to the 417(e) third segment rate for August of the previous year, but with a minimum interest crediting rate of 4% and a maximum interest crediting rate of 9%. The assumption selected by the plan sponsor is the actual interest crediting rate for 2022 and an assumed interest crediting rate assumption thereafter. Based on future expectations, the assumed interest crediting rate for 2023 and beyond for the Hitachi Represented Cash Balance Plan is based on long-term expectations of long high-quality corporate bond yields and equals 4.75%.</p> <p>After examining the historical variability in these rates, and considering the impact of the minimum and maximum rates, we believe that the assumptions selected do not significantly conflict with what would be reasonable based on market conditions as of the measurement date.</p>
Annuity conversion rate	As required by IRC 430, annuity benefits were calculated from the cash balance accounts using the current required IRC 430 conversion rates.
Assumed return for asset smoothing	The assumed 2021 return of 5.75% used for asset smoothing is the mean projected portfolio return based on Hitachi Energy USA Inc.'s master trust target asset allocation and Willis Towers Watson's long-term expected rate of return for each asset class based on January 2021 capital market assumptions.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were selected based on a published table for pension participants believed to have similar characteristics to the plan population.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Demographic Assumptions, Continued

Disability	Disability rates were selected based on a published table for pension participants believed to have similar characteristics to the plan population.
Retirement	Retirement rates were based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Percent married	The assumed percentage married was selected based on general population statistics on the marital rates of individuals of retirement age.
Form of Payment	The percentage of terminating participants in the Hitachi Energy Represented Cash Balance Plan assumed to take lump sums reflects historical experience of a broader population in the predecessor plan.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The plan was created as a spinoff of the active participants from the ABB Represented Cash Balance plan as of December 31, 2019. The Represented Cash Balance Plan was a spinoff from the Cash Balance Plan on July 1, 1999.

Coverage and participation

Immediately upon employment in a participating collectively bargained unit. Accruals under the prior ABB plan were frozen as of December 31, 2016 for participants hired after December 31, 2011. There will be no new participants in the prior ABB plan after December 31, 2016.

As of January 1, 2020, all active participants of the former ABB Represented Cash Balance Plan are participants in the Hitachi Energy Represented Cash Balance Plan.

Interest credits

Interest credits on each member's account balance in any year are equal to the Cost of Living Escalator Percentage, which is the highest Consumer Price Index rate for the months of August, September, and October of the previous year plus 300 basis points, but not less than 4% or greater than 9%, however, the resulting rate is limited to the greater of 4% and the 417(e) third segment rate for August of the previous year. The Percentage was 8% for the plan years beginning July 1, 1999 through January 1, 2001. The Percentage was 6.7% for the plan year beginning January 1, 2002, 5.93% for the plan year beginning January 1, 2003, 6.00% for the plan year beginning January 1, 2004, 6.20% for the plan year beginning January 1, 2005, 7.70% for the plan year beginning January 1, 2006, 6.80% for the plan year beginning January 1, 2007, 6.50% for the plan year beginning January 1, 2008, 8.40% for the plan year beginning January 1, 2009, 4.00% for the plan year beginning January 1, 2010, 4.20% for the plan year beginning January 1, 2011, 6.90% for the plan year beginning January 1, 2012, 5.20% for the plan year beginning January 1, 2013, 4.50% for the plan year beginning January 1, 2014, 4.70% for the plan year beginning January 1, 2015, 4.00% for the plan year beginning January 1, 2016, 4.18% for the plan year beginning January 1, 2017, 4.36% for the plan year beginning January 1, 2018, 4.46% for the plan year beginning January 1, 2019, 4.00% for the plan year beginning January 1, 2020, 4.00% for the plan year beginning January 1, 2021 and 4.00% for the plan year beginning January 1, 2022.

Accrued benefit under prior plan

The accrued benefit under the plan prior to the Cash Balance Plan as of the date of conversion was converted to a lump sum amount as a beginning account balance. Such conversion was based upon an 8% interest rate for the January 1, 1994, January 1, 1992 and December 1, 1988 conversions, and 7.25% for December 1, 1989 conversions, and an assumed retirement age of 65.

Accrued monthly annuity benefit

Equal to a five-year certain and continuous annuity payable at age 65 that is actuarially equivalent to the account balance. In no event will the accrued benefit be less than the benefit accrued under the plan prior to the Cash Balance Plan as of the date of conversion.
