INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of the
Reed College Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Reed College Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 and schedule of delinquent participant contributions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

***Note 1* Description of Plan**

The following description of the Reed College Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a 403(b) defined-contribution plan covering employees of Reed College (Reed) and any affiliate approved by Reed. The Plan has an effective date of October 31, 1936 and was amended and restated effective January 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Reed is the Plan's sponsor and serves as the plan administrator.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan within 60 days after hire or rehire. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in the applicable 403(b) annuity contracts until changed by the participant.

Contributions

Eligible employees can defer up to 100% of their eligible compensation into the Plan, up to the maximum allowed by the Internal Revenue Code (IRC). A participant who has attained or will attain age 50 by the end of the plan year may elect to defer an additional amount not to exceed the amount allowed by the IRC. Reed plans to make a discretionary fixed employer contribution equal to 10% of the employee's eligible compensation unless another percentage has been elected. Employee elective contributions are made to the Plan each pay period. Employer fixed contributions are paid at the discretion of Reed but no later than March 15 of the following year. Additionally, participants are permitted to make rollover contributions to the Plan from an individual retirement account or annuity.

Participant Accounts

Each participant's account is credited with employee contributions, Reed's contributions, and plan earnings (losses), and charged with distributions and an allocation of administrative expenses. Allocations are based on compensation or account balances, as defined by the plan document. Participants may direct their contributions into a variety of investment options offered by Teachers Insurance and Annuity Association (TIAA). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their employee and employer contribution and earnings (losses) thereon.

Note 1 Description of Plan - Continued

Participant Loans

Loans are available to participants through TIAA, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA Traditional Annuity account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding.

See Note 3 for discussion of the TIAA Traditional Annuity. For active loans, investments equal to 110% of the outstanding loan amount are reflected in the statements of net assets available for benefits and serve as collateral for the loan. Investments underlying defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution event occurs.

At December 31, 2022 and 2021, participants had outstanding plan collateralized balances due to TIAA of \$1,350 and \$20,190, respectively, which are not included in the accompanying statements of net assets available for benefits or schedule of assets (held at end of year).

Effective September 2018, TIAA stopped administering the collateralized loans and began administering non-collateralized loans. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance less their highest outstanding loan balance within the past 12 months. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are made at a fixed rate at the Wall Street Journal Prime Rate plus 1%. The rates of outstanding loans as of December 31, 2022 range from 4.25% to 8.00% with maturity dates between March 1, 2023 and September 15, 2029.

Payment of Benefits

Participants may receive all or a portion of their account balance upon termination of employment, death, disability, or the attainment of age 59½. Benefits must be distributed in the form of a qualified joint and survivor annuity or preretirement survivor annuity unless the participant elects, with the spousal consent where applicable, not to have the distribution in that form. The benefit will be paid in the form of a single lump sum if the participant's balance is under \$5,000. Distributions must commence no later than the month in which the participant would have attained age 72.

In the event of financial hardship, a participant may receive a distribution from their account. Any distribution of this type must be on account of the employee's immediate and heavy financial need.

Note 1 Description of Plan - Continued

Revenue Credit Account

The Plan has a Revenue Credit Account which is a suspense account funded with excess revenue generated by the Plan. These funds may be used to pay Plan expenses or be distributed to each participant who is employed on the last day of the Plan year. The Plan received revenue credits of \$75,475 and \$74,107 during 2022 and 2021, respectively, which is included in other income on the statements of changes in net assets available for benefits. During 2022 and 2021, \$41,609 and \$40,646, respectively, of the Revenue Credit Account was used to pay Plan administrative expenses. The balance in the fund as of December 31, 2022 and 2021 was \$127,300 and \$89,562, respectively.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

The Plan historically was viewed as an amalgamation of individual annuity and custodial accounts and the Plan and its custodian was not required to maintain financial information at the plan level. As of December 31, 2009, the Plan's custodian began to provide the plan administrator with annual certified statements summarizing the Plan's activities and holdings. Because certain historical records were not maintained or are not available at the plan level, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to January 1, 2009. This accounting policy election is permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (FAB 2009-2); however, generally accepted accounting principles in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The amount of any such excluded annuity and custodial accounts and the related income and distributions that may exist are not determinable.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

Note 2 Summary of Significant Accounting Policies - Continued

Investment Valuation and Income Recognition

The Plan's investments other than fully benefit-responsive investment contracts are reported at fair value. The Plan follows the fair value measurement and disclosure requirements of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, which defines fair value as the exchange price that would be received for the asset or paid to transfer a liability. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the realized gains and losses on investments bought and sold during the year and the change in unrealized appreciation (depreciation) on those investments from one period to the next.

Risks and Uncertainties

The Plan invests in investment securities, which are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic, inflation, or international conflict. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are classified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan but have not yet been paid are not accrued. At December 31, 2022 and 2021, there were no amounts payable to participants.

Administrative Expenses

Reed paid no administrative expenses on behalf of the Plan for the year ended December 31, 2022 and 2021. Administrative expenses paid by the Plan include record-keeping, consulting, audit, and investment management fees and are paid by the Plan and allocated to the participants investment accounts.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

***Note 2* Summary of Significant Accounting Policies - Continued**

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before financial statement are issued.

The plan has evaluated subsequent events through October 16, 2023, which is the date the financial statements were available to be issued.

***Note 3* TIAA Traditional Annuity**

The TIAA Traditional Annuity is an unallocated fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA), Group Supplemental Retirement Annuities (GSRA), Retirement Choice (RC) and Retirement Choice Plus (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

The TIAA Traditional Annuity is segregated into non benefit and fully benefit responsive categories.

Investments in fully benefit-responsive TIAA Traditional Annuity contracts are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals and administrative expenses if any. The SRA, GSRA and RCP are considered fully benefit-responsive. The contract value of the fully benefit responsive TIAA Traditional Annuity contracts was \$13,973,314 and \$13,104,417 as of December 31, 2022 and 2021, respectively.

There are no liquidity restrictions (applicable to participant withdrawals and transfers). There are no events that would limit the Plan from transacting at contract value with the issuer or that would allow issuers to terminate these fully benefit-responsive investment contracts with the Plan and settle at an amount different from contract value.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

Note 3 TIAA Traditional Annuity - Continued

Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk adjusted market discount rate, which correlates closely with TIAA Traditional Annuity's historical crediting rates. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than an effective rate of 3.00%, and between 1.00% and 3.00% for some contracts. Such interest rates are reviewed and re-set by the issuer on an annual basis. The crediting interest rate for accumulating Retirement Annuity (RA) and Group Retirement Annuity (GRA) contracts was 6.25% as of December 31, 2022. The crediting interest rate for accumulating Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA) contracts was 5.50% as of December 31, 2022. The crediting interest rate for accumulating Retirement Choice (RC) contracts was 6.50% as of December 31, 2022. The crediting interest rate for accumulating Retirement Choice Plus (RCP) contracts was 5.75% as of December 31, 2022.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claims paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

The SRA, GSRA, and RCP contracts provide for full participant directed liquidity. The RA contracts do not allow lump sum cash withdrawals and transfers must be spread over 10 annual installments. With the GRA and RC contracts, lump sum withdrawals are available within 120 days of termination of employment and are subject to a 2.5% surrender charge. All other withdrawal and transfers from GRA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). All other withdrawals from RC contracts must be spread over 84 monthly installments. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

Note 4 Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2022 and 2021.

Fixed Annuity Contracts – Non Fully Benefit Responsive: These annuity contracts are reported at contract value, which approximates fair value. This determination is based on TIAA's credit rating and yield during 2022 and 2021 being comparable to similar alternative investments and the interest rate which re-sets annually being comparable to a ten year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the differences between contract value and fair value could become significant.

Insurance Company Separate Account: The Insurance Company Separate Account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

Note 4 Fair Value Measurements - Continued

Variable Annuity Contracts: Valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. The underlying investments consist principally of equity securities, fixed-income instruments and short-term investments.

Registered Investment Companies: Valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of:

Investments, Fair Value as of December 31, 2022

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the ASC 820 fair value hierarchy at December 31, 2022 and 2021, respectively:

Type 2022	Fair Value	Valuation Method	Significant Unobservable Inputs	Discount Rate
Fixed Annuity Contracts - Non Fully Benefit Responsive	\$35,385,871	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate	RA - 3.70% - 6.25% GRA - 3.70% - 6.25% RC - 3.95% - 6.50%

Type 2021	Fair Value	Valuation Method	Significant Unobservable Inputs	Discount Rate

Note 5 Plan Tax Status

The Plan is intended to comply with the applicable requirements of Section 403(b) of the Internal Revenue Code of 1986, as amended (IRC). A tax determination letter program is not yet available for individually designed IRC Section 403(b) plans through the Internal Revenue Service. The plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Services. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

REED COLLEGE RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2022 AND 2021

Note 6 Related-Party Transactions

Plan investments are managed by TIAA and CREF. TIAA and CREF serve as the recordkeeper and custodian as defined by the Plan, and therefore, transactions involving these investments qualify as party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

Note 7 Certified Financial Information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA.

TIAA and CREF have certified to the completeness and accuracy of the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021, schedule of assets (held at end of year) as of December 31, 2022, and the related investment activity (including interest and dividends, other income, net appreciation and depreciation in fair value of investments, and interest income on notes receivable from participants) reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2022 and 2021.

Note 8 Plan Termination

Although it has not expressed any intent to do so, Reed has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 9 Nonexempt Transactions

During 2021, there were unintentional delays by Reed College in remitting employee deferrals in the amount of \$142,122 to the custodian. Delinquent participant deferrals are subject to excise tax penalties. The delinquent contributions were corrected in 2023.
