CNH Industrial U.S. Retirement Board
CNH Industrial U.S. Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CNH Industrial U.S. Retirement Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

(Continued)

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

(Continued)

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at Year End) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CNH Industrial U.S. Retirement Savings Plan

Notes to Financial Statements

December 31, 2022 and 2021

1. Plan Description

The following description of the CNH Industrial U.S. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan, sponsored and administered by Case New Holland Industrial Inc. (the Company or CNH), is a defined contribution plan covering eligible U.S. employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants are eligible to make contributions to the Plan upon date of hire. Company contributions do not begin until after participants have completed one year of service, as defined. Participant and employer contributions vary between participating groups of employees. The following is a brief description of the contributions applicable to various segments of participants; detailed information is contained within the supplements to the plan document:

Eligible Group	Employee Contribution	Employer Contribution
United Auto Workers (UAW) employees hired before May 14, 1998, eligible Fargo machinists	Up to 50% of eligible compensation; for UAW employees, up to 100% of their negotiated lump-sum payment	None
UAW employees hired on or after May 14, 1998	Up to 50% of eligible compensation; for UAW employees, up to 100% of their negotiated lump-sum payment	70% match on participant contributions up to 6% of compensation; fixed contribution of 5% of participant's eligible compensation
Hourly non-represented employees hired on or after July 1, 2003	Up to 50% of eligible compensation	70% match on participant contributions up to 6% of eligible compensation; fixed contribution of 5% of participant's eligible compensation
Hourly non-represented employees hired before July 1, 2003	Up to 50% of eligible compensation	50% match on participant contributions up to 10% of eligible compensation

1. Plan Description (continued)

Eligible Group	Employee Contribution	Employer Contribution
Salaried employees	Up to 50% of eligible compensation	200% match on participant contributions up to 2% of eligible compensation and 100% match on participant contributions on the next 8% of eligible compensation
Fiat Powertrain Technologies of North America, Inc.	Up to 50% of eligible compensation	200% match on participant contributions up to the first 2% of participant's eligible compensation and 100% match on participant contributions on the next 8% of eligible compensation

Participants may also contribute eligible rollover distributions from other qualified plans. The Plan allows in-Plan Roth conversions and provides automatic enrollment for certain hourly employees. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed by the participant.

Additional amounts may be contributed at the discretion of the Company's board of directors. No such additional discretionary contributions were made for the year ended December 31, 2022. Generally, participants must be employed on the last day of the plan year to be eligible for the fixed contributions and profit-sharing contributions. All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Effective April 2022, the following changes were put in place for non-represented hourly and salaried employees: auto-enrollment for all employees currently deferring less than 4% was set at 4%. Employees are also eligible for immediate company match contributions on their deferrals. Auto-escalation: Non represented hourly and salaried employees not at 10% deferral will be auto-escalated by 1% each year to a 10% maximum starting April 2023. The annual fixed 5% company contribution was eliminated effective April 1, 2022 for hourly non represented employees. The match for hourly non-represented employees also changed for those hired after July 1, 2003. The new match is 300% on the first 2% deferral, 100% on the next 2% deferral and 60% on the next 2% deferral. For those non-represented hourly employees hired prior to July 1, 2003 they were included in the auto enrollment, auto escalation and re-solicitation, their match formula was not changed.

Investment Options

Participants direct their elective contributions and employer contributions into various investment options offered by the Plan, including a self-directed brokerage feature, and can change their investment options daily.

Notes to Financial Statements

December 31, 2022 and 2021

1. Plan Description (continued)

The CNH Stock Fund has been frozen to new investments since November 2007. A participant may on any business day divest any portion of his or her employer matching contribution account balances invested in qualifying employer securities and reinvest such accounts in any other plan investment option. Restrictions may apply to a participant's ability to transfer employer matching contributions from the CNH Stock Fund pursuant to the Company's insider trading policy.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's matching and fixed contributions (if any), and allocations of any company discretionary contributions and the Plan's earnings and charged with distributions and withdrawals and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Participants vest in the Company's contributions as outlined in the supplements to the plan document.

Participants employed at the Company's Calhoun, Georgia, plant at the time the plant closed on August 31, 2015, became fully vested in their entire account balances under the Plan.

Payment of Benefits

On termination of service, death, retirement, or disability a participant may receive the value of the vested interest in his or her account under a variety of payment options. In certain circumstances, participants may make "hardship withdrawals" as defined in the Plan. Active participants may also take distributions from the Plan upon attainment of age 59 1/2.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions may be reinstated. Forfeited balances of terminated participants' non-vested accounts are used to pay the Plan's expenses or to reduce future Company contributions. Unallocated forfeiture balances as of December 31, 2022 and 2021, were \$586,385 and \$654,518, respectively. Forfeitures used to reduce the Company's contributions for 2022 were \$720,869 and forfeitures used to pay the Plan's expenses for 2022 were \$161,037.

1. Plan Description (continued)

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance of the participant's account and bear interest at the prime rate as reported in *The Wall Street Journal* on the day the loan is approved, plus 1.00%. The interest rates on loans outstanding at December 31, 2022, ranged from 4.25% to 11.50%.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, all account balances of the participants become fully vested.

Master Trust Participation

The Plan participates in the CNH Industrial U.S. Defined Contribution Master Trust (the Master Trust). Each participating plan's interest in the investment funds of the Master Trust is based on account balances of the participants and their elected investment funds. The Master Trust's assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to the fair value of the assets assigned to each plan, income and expenses resulting from the collective investment of the assets of the Master Trust.

Plan Transfer

Effective January 3, 2022, the Company spun off Fiat Powertrain Technologies of North America, Inc. and IDV USA, Inc. and these companies ceased being participating employers in the Plan. As a result of the spin-off, account balances of the affected employees totaling \$15,585,338 were spun off from the Plan into a new plan sponsored by Fiat Powertrain Technologies of North America, Inc.

December 31, 2022 and 2021

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Benefit Payments

Benefit payments to participants are recorded when paid by the Plan.

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities within the Master Trust are recorded on the trade date. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Investment Risk

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Market risks include global events, like the COVID-19 pandemic. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

December 31, 2022 and 2021

2. Summary of Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. A quarterly fee is charged to participants for recordkeeping services. Investment related expenses are included in Master Trust investment gain (loss).

3. Investment in Master Trust

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and Master Trust investment gain, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan).

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs-to-valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active

4. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan.

Common stock and CNH Stock – Valued at the closing price reported on the active market on which the individual securities are traded

Mutual funds – Valued at quoted market prices, which represent the net asset value (NAV) of shares held at year-end

Self-directed brokerage accounts – Account primarily consists of mutual funds that are valued at quoted market prices, which represent the NAV of shares held at year-end

Interest-bearing cash and non-interest-bearing cash – Valued at cost, which approximates fair value

Collective trusts – Valued at Level 2 due to monthly availability of the NAV and the categorization of underlying assets in the funds which have observable inputs and therefore have a readily determinable fair value.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated January 16, 2018, stating that the Plan is qualified under Section 401(a) of the Code, and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

5. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2022 and 2021 that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2019.

6. Related-Party and Party-in-Interest Transactions

Certain Master Trust investments are shares of mutual funds and units of a collective trust fund managed by Fidelity Management Trust Company. The Plan also invests in the common stock of the Company. These transactions qualify as party-in-interest transactions; however, they are exempt from prohibited transactions rules under ERISA. Notes receivable from participants also reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company, and no such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company, while other expenses are paid by the Plan to various service providers and are considered party-in-interest transactions.

At December 31, 2022 and 2021, the Master Trust held 2,222,061 and 2,349,523 shares, respectively, of CNH common stock. During the year ended December 31, 2022, the Master Trust recorded sales of CNH common stock of \$2,288,046. During the year ended December 31, 2022, the Master Trust recorded dividend income and realized loss on the CNH company stock of approximately \$642,271 and \$445,164, respectively.

7. Subsequent Events

Management evaluated subsequent events for the Plan through October 13, 2023, the date the accompanying financial statements were available to be issued.

Auto-escalation: Non represented hourly and salaried employees not at 10% deferral will be auto-escalated by 1% each year to a 10% maximum starting April 2023.
