Opinion

We have audited the financial statements of Main Line Health, Inc. Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Main Line Health, Inc. Retirement Savings Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance GAAS.

Supplemental Information Required by ERISA (Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MAIN LINE HEALTH, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF PLAN

The following description of the Main Line Health, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Main Line Health, Inc. ("MLH" or the "Sponsor"). It meets the requirements of Section 403(b) of the Internal Revenue Code of 1986, as amended (the "IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In November 2006, MLH and Riddle Health System ("RHS") entered into a definitive affiliation agreement. As a result of this agreement, MLH became the plan sponsor of the Riddle Health System Retirement Plan ("RHS Plan"), effective January 1, 2009. Prior to the affiliation agreement, RHS sponsored the RHS Plan, and an affiliated entity with RHS, Mirmont Alcoholism Rehabilitation Center ("Mirmont"), sponsored the Mirmont Alcoholism Rehabilitation Center Tax Sheltered Annuity Plan ("Mirmont Plan"). Effective January 1, 2011, the board of governors of MLH approved the merger of the RHS Plan and the Mirmont Plan with and into the Plan.

The Plan document was amended on December 31, 2016, for the purposes of defining vesting and eligibility of Mirmont employees. The amendment was effective January 1, 2017.

The Plan document was amended on December 20, 2017, for the purpose of defining employer matching contributions of active participants. The amendment was effective the same day.

The Plan document was amended on July 29, 2020, for the purpose of suspending employer matching contributions for the period from August 1, 2020 through July 31, 2021.

The Plan document was amended on December 15, 2022, for the purposes of reflecting changes to automatic enrollment provisions and clarifying the time at which participants are required to receive benefits following employment termination. The amendment also modified provisions regarding unclaimed benefits, reflected final Internal Revenue Service ("IRS") regulations on hardship withdrawals, and disclosed applicable provisions of the Setting Every Community Up for Retirement Enhancement Act of 2019 and the Coronavirus Aid, Relief, and Economic Security ("CARES") Act. The amendment was effective the same day.

Eligibility

An eligible employee of the Plan is defined as any employee of the Sponsor who has completed one month of service, other than a leased employee, an employee in temporary employment status, any employee covered by a collective bargaining agreement (unless the collective bargaining agreement provides for the eligibility of such employee to participate in the Plan), or an independent contractor.

1. DESCRIPTION OF PLAN (CONTINUED)

Contributions

Participants may contribute a portion of their annual eligible compensation as a pre-tax deferral, up to the maximum allowed by the IRC, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 4% of eligible compensation and their contributions invested in a designated balance fund until changed by the participant.

Participants are eligible to receive employer matching contributions upon commencement of employment. The Sponsor contributes 25% of the first 4% of compensation contributed by a participant, up to a maximum employer contribution of 1% of the participant's salary. Employer matching contributions are subject to certain limitations under the IRC.

Non-elective contributions for Lankenau Institute of Medical Research ("LIMR") employees

Effective January 1, 2011, the Sponsor makes a non-elective contribution equal to 4% of compensation to the account of each LIMR Faculty Employee and LIMR Post-Doctoral Fellow employed before January 1, 2007, who is an active participant.

Other LIMR employees who are active participants, including Post-Doctoral Fellows hired on or after January 1, 2007, who were later hired into an eligible job category other than faculty, receive 4% of compensation in their account each pay period, provided they are not in one of the following categories:

- Age 45 or over on August 1, 1999
- Have 15 or more years of service on August 1, 1999
- A Post-Doctoral Fellow who began employment on or after January 1, 2007
- LIMR employee designated as administrative
- LIMR employee identified in Appendix C of the Plan document

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Sponsor's contributions and Plan earnings less distributions paid. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Sponsor's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service as follows:

<u>Years of service</u>	<u>Vesting interest</u>
Less than 2	0%
2 or more	100%

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

1. DESCRIPTION OF PLAN (CONTINUED)

Notes receivable from participants

Once in any 12-consecutive-month period, participants may borrow up to 50% of their vested account balance in Vanguard Fiduciary Trust Company ("Vanguard"), the custodian of the Plan (minimum \$1,000, maximum \$50,000). Repayment of the note, plus interest, is made to the Plan account over five years (15 years for the purchase of a primary residence). Notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Participants may only have one outstanding note at a time.

If a participant fails to make a payment when the note is due under the terms of the note, that participant will be in default. In the event of default, the note becomes due and payable immediately and interest will continue to accrue until the entire note balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the note. Under certain circumstances, the note in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a note will reduce the benefit a participant would otherwise be entitled to from the Plan. As of December 31, 2022 and 2021, notes receivable from participants include (in thousands of dollars) \$370 and \$352 of notes deemed in default, respectively.

Payment of benefits

For all forms of termination of services, including death or disability, participants or their beneficiaries may choose to receive the value of the vested interest in their account as a lump-sum distribution, a rollover, or an annuity. They may also choose monthly, quarterly or annual installments. In the case of a participant whose total balance under the Plan does not exceed \$5,000, such balance will be distributed in a single sum as soon as practicable following separation from service.

The Plan allows for hardship withdrawals from a participant's elective deferral account. Participants must exhaust all other options before financial hardship withdrawals are allowed.

Forfeited accounts

Forfeitures of the non-vested portion of terminated participants' accounts are used to reduce future employer contributions. At December 31, 2022 and 2021, forfeited non-vested accounts totaled (in thousands of dollars) \$15 and \$14, respectively. For the year ended December 31, 2022, forfeitures used to reduce employer matching contributions amounted to (in thousands of dollars) \$217.

Plan loans

Plan loans are issued as separate contracts by the Teachers' Annuity Association of America ("TIAA") as contemplated under IRC Section 72(p)(5) and do not represent Plan assets. Plan loans are issued via the TIAA Traditional Annuity ("TIAA Traditional"), which is a fully benefit-responsive, guaranteed investment annuity contract entered into by the Plan. Loans are collateralized using the participant's TIAA Traditional account balance in an amount equal to 110% of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45% of their TIAA Traditional account balance subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments (up to 10 years for the purchase of the participant's primary residence). Principal and interest are paid ratably by the participant to TIAA and each payment will reduce

amounts collateralized by the borrowing participant's TIAA Traditional account balance. Plan loan balances outstanding from participants to TIAA were (in thousands of dollars) \$198 and \$201 as of December 31, 2022 and 2021, respectively.

Existing loans with TIAA continue to be repaid. No new loans from TIAA accounts are permitted for active participants. For active participants who wish to borrow against funds in their TIAA account, all or some of the TIAA account balance must be transferred to and borrowed from Vanguard, according to Plan rules. New loans are permitted for terminated employees only.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts are required to be reported at fair value, except for fully benefit-responsive contracts, which are reported at contract value. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and changes in net assets available for benefits during the year. Accordingly, actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year such adjustments are determined.

Investment valuation and income recognition

Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 6). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Investment management fees and operating expenses charged to the Plan for investments in registered investment companies are deducted from income earned on a daily basis and are not separately reflected. Consequently, investment management fees and operating expenses are reflected in the net appreciation/depreciation in fair market value of such investments.

MAIN LINE HEALTH, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid to participants.

Administrative expenses

Certain expenses of maintaining the Plan, such as accounting and legal fees, are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 16, 2023, the date on which these financial statements were available to be issued, and has determined that there are no material subsequent events that require disclosure under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 855, *Subsequent Events*.

3. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability; and• inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

MAIN LINE HEALTH, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

3. FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement, based on the Plan's assessment of the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Registered investment companies and money market funds: Valued at quoted market prices, which represent the net asset value ("NAV") of the securities held in such funds.

Pooled separate account: Valued at NAV per share. The NAV, as provided by the custodian, is based on the contractual terms of the underlying investments and provides a daily rate for income accretion. The NAV is used as a practical expedient to estimate fair value. The pooled separate account's daily value is calculated based on the contract value, which is based on the provisions on the contract. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value (in thousands of dollars), on a recurring basis, as of December 31, 2022 and 2021:

At December 31, 2022				
Description	Total	Level 1	Level 2	Level 3
Money market funds	\$ 42,230	\$ 42,230	\$ -	\$ -
Registered investment companies	<u>1,159,143</u>	<u>1,159,143</u>	<u>-</u>	<u>-</u>

Investments measured at NAV:				
Pooled separate account *	<u>3,883</u>			
Total investments at fair value	\$ <u>1,374,392</u>			

* In accordance with Subtopic 820-10, certain investments that were measured at net value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the statements of net assets available for benefits.

During the years ended December 31, 2022 and 2021, there were no transfers between levels of the fair value hierarchy.

4. FAIR VALUE OF INVESTMENTS THAT USE NET ASSET VALUE

The following tables set forth a summary of the Plan's investments with a reported NAV per share at December 31, 2022 and 2021 (in thousands of dollars):

Fair Value Estimated Using Net Asset Value per Share at December 31, 2022					
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate account	\$ <u>3,943</u>	\$ <u>-</u>	Daily	None	None
Fair Value Estimated Using Net Asset Value per Share at December 31, 2021					
Description	Fair Value	Unfunded Commitments	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Pooled separate account	\$ <u>3,883</u>	\$ <u>-</u>	Daily	None	None

The pooled separate account seeks to generate favorable total returns primarily through the rental income and appreciation of a diversified portfolio of directly held, private real estate investments and real estate-related investments, which offers investors guaranteed, daily liquidity. The principal strategy is to purchase direct ownership interests in income-producing real estate, primarily office, industrial, retail and multi-family properties.

MAIN LINE HEALTH, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. INVESTMENT CONTRACT WITH TIAA

The Plan has entered into a fully benefit-responsive guaranteed investment contract with TIAA. TIAA maintains the contributions in a general account. TIAA Traditional is an unallocated fixed annuity contract that is fully and unconditionally guaranteed by TIAA. TIAA Traditional provides a guarantee of principal, a guaranteed minimum rate of interest (generally 3%, but in some recent contracts between 1% and 3%) and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

TIAA Traditional meets the fully benefit-responsive investment criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Terminated participants may withdraw, transfer, or borrow all or a portion of their investment contract value. For active participants, the only option is a rollover to Vanguard unless the participant has reached the age of 59½, when in-service withdrawals are available for any purpose. No new loans are permitted for active participants.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting rate is supported by the investment performance of a large, diversified portfolio, is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Sponsor or other Sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. In addition, there is no provision in the contract which provides the issuer the ability to terminate the contract with the Plan and settle at an amount different from the contract value.

MAIN LINE HEALTH, INC. RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

7. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of registered investment companies, an insurance company general account contract, a pooled separate account, and fixed annuities managed by Vanguard and TIAA or affiliates thereof. Vanguard and TIAA are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue-sharing, rather than a direct payment. The Plan made direct payments to the trustees of (in thousands of dollars) \$925 during the year ended December 31, 2022, which were not covered by revenue sharing.

Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. TAX STATUS

Currently, 403(b) plans are not required to submit plans to the IRS for determination. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC and is exempt from federal income taxes under Section 501(a) of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
