INDEPENDENT AUDITORS' REPORT

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Xenium 401(k) Retirement Savings Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Xenium 401(k) Retirement Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by Principal Life Insurance Company agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets held at end of year for the year ended December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

XENIUM 401(K) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2022 and 2021

NOTE 1. DESCRIPTION OF PLAN

The following description of the Xenium 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2009 and is a multiple-employer defined contribution plan sponsored by Xenium Resources, Inc. (the Company). The Company is a Professional Employer Organization (PEO) providing human resources outsourcing, consulting and services. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments and Restatements

As of January 1, 2022 the plan adopted the June 30, 2020 version of the volume submitter plan provided by the Plan's third party administrator, Pension Plan Specialists, PC.

Contributions

Participants may contribute up to 100 percent of their annual compensation to the Plan, but not to exceed \$20,500 and \$19,500, per year, for the years ended December 31, 2022 and 2021. Participants age 50 and over may contribute up to an additional \$6,500 catch-up contributions, per year, for the years ended December 31, 2022 and 2021. The Plan permits rollover contributions from other qualified plans established under Sec. 401(a), 403(a), 403(b), and certain IRA accounts. Each participating client company may make Safe-Harbor, discretionary matching or discretionary profit sharing (non-elective) contributions to the Plan on behalf of eligible participants. Total employer contributions were \$3,717,665 and \$3,267,127 for the years ended December 31, 2022 and 2021, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocation of the employer's contribution and an allocation of the Company's matching and discretionary contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participants' elective deferrals, earnings, and account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investment of their account balances into various investment options offered by the plan.

Eligibility

Employees become eligible to participate in the Plan ranging from three months of service to completion of one year of service, and from attainment of 18 to 21 years of age, as specified in their participating employer's adoption agreement. Entry is on the first day of the plan year quarter coinciding with or following completion of the eligibility requirement.

XENIUM 401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions and employer Safe-harbor contributions plus earnings thereon. Certain employers' discretionary matching and profit sharing contributions vest at a rate of 20% per year of service, commencing with either the first or second year of service. All such contributions are fully vested upon completion of 5 or 6 years of service, as specified in each participating employer's adoption agreement.

Employees working at least 1,000 hours in a plan year earn a year of service. Employees become 100% vested on death, disability, or normal retirement at age 65.

Payment of Benefits

On termination of employment or termination of service due to death, disability, or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account either in annuity payments, a lump-sum amount, or in equal installments over a fixed time period. If the participant's vested account balance is less than \$5,000, the Plan must distribute the entire account balance. If the participant does not make timely distribution election then the plan will distribute the entire vested account balance in either a lump sum for balances of \$1,000 or less or an automatic distribution to an Individual Retirement Account (IRA) for balances less than \$5,000 but more than \$1,000.

Participants may elect to take a partial or total distribution when they reach age 59 ½ or at any time thereafter, even if they have not terminated employment with the Company.

In-Service Withdrawals

Hardship distributions are permitted from participants deferral contribution accounts based on certain specific financial needs. Participants who are active or reserve military are permitted in-service distributions if they meet certain requirements.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of \$50,000. Loans may not exceed 50 percent of the participant's vested account balance. The loans are secured by the vested balance in the participant's account and bear interest at a rate equal to one percent above the prime rate. Principal and interest is paid ratably through payroll deductions. Loan terms may not exceed five years except for loan proceeds used to purchase a primary residence. As of December 31, 2022, the rates of interest on outstanding loans range from 4.25% to 8.00% with various maturities through 2048.

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. All loans are current and adequately secured, and accordingly, no valuation allowance is required for the years ended December 31, 2022 and 2021. Loans are fully secured by participant account balances and are treated as taxable distributions from the participant's account in the event of default, typically following termination of employment.

NOTE 1. DESCRIPTION OF PLAN (Continued)

Forfeitures

Forfeitures of unvested benefits are available to pay plan expenses, or are used to offset employer contributions to the Plan. The non-vested forfeiture account balance as of December 31, 2022 and 2021 was \$71,591 and \$68,734, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are participant-directed. All plan investments are stated at fair value as determined by Principal Life Insurance Company. Fair value is the price that would be received if an asset were sold or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See further discussion in the accompanying notes for fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant Loans

Administrative Expenses

As provided in the plan agreement, administrative expenses of the Plan may be paid by the Plan or the Company. Certain expenses of the plan administration, including computer services, office supplies and payroll expenses of administration and clerical personnel are provided by the Company without charge to the Plan. Loan administration fee(s) for noted receivable from participants' loan proceeds. In addition, certain investment related expenses in net appreciation (depreciation) of fair value of investments.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Benefit Payments

Benefits are recorded when paid. Corrective distributions are accrued in the period to which they relate.

Subsequent Events

The Company has evaluated all subsequent events through October 16, 2023, the date the financial statements were available to be issued.

NOTE 3. INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted by Section 2520.203-8 of the Department of Labor Rules and Regulations for Reporting and Disclosures under ERISA. The Plan administrator has obtained a certification from Principal Life Insurance Company, the trustee of the Plan, as of December 31, 2022 and 2021 and for the years then ended December 31 2022 and 2021 that the following information provided to the Plan administrator by the Trustee is complete and accurate.

- Investments, at fair value
- Investments, at contract value
- Notes receivable from participants
- Net depreciation in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants

NOTE 4. FAIR VALUE MEASUREMENTS

The Plan uses fair value measurements to record certain assets and liabilities at fair value on a recurring basis, such as investments. The Plan uses the fair value hierarchy established in accounting literature that consists of three levels. These levels are based on the markets in which assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1: Prices determined using unadjusted, quoted prices in active markets for identical assets or liabilities.

XENIUM 401(K) RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2022 and 2021

NOTE 4. FAIR VALUE MEASUREMENTS (continued)

Level 2: Prices determined using significant other observable inputs. The observable inputs valuation methodology include:

- 1) Quoted prices for similar assets or liabilities in active markets.
- 2) Quoted prices for identical or similar assets or liabilities in inactive markets.
- 3) Inputs other than quoted prices that are observable for the asset or liability.
- 4) Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Prices determined using significant unobservable inputs. In situations where quoted prices or observable inputs are unavailable (for example, when there is little or no market activity), unobservable inputs may be used. Unobservable inputs reflect the Plan's own assumptions about the factors that market participants would use in pricing the asset or liability, and are based on the best information available in the circumstances.

Level 1 Investments at Fair Value

Self-directed brokerage: The investment consists of mutual funds (see below) and common stocks. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Mutual Funds: The fair value of mutual funds is based on quoted net asset values of shares as reported by the fund. The mutual funds held by the Plan are open-ended mutual funds registered with the U.S. Securities and Exchange Commission (SEC). The funds must publish their daily net asset value and transact at the prices. The mutual funds held by the Plan are considered to be actively traded.

Pooled Separate Accounts (PSA): The investments are measured at net asset value (NAV) which are investments where each plan shares in a pooled fund on a participant unit basis. The plan's interest in the account is cumulative record of the number of participation units credited to the account and the number of units allocated or withdrawn from the account. The participation unit value is adjusted periodically to reflect investment results under the separate account. Since NAV is available to current investors and basis for current transactions the fair value is readily determinable. NAV is the practical expedient of fair market value for these funds.

Common Collective Trust (CCT): The investment is valued at net asset value (NAV) which is composed of primarily target date funds. Since NAV is available to current investors and basis for current transactions the fair value is readily determinable. NAV is the practical expedient of fair market value for these funds.

Level 2 Investments at Fair Value

There are no plan assets requiring the use of Level 2 inputs for the periods presented.

Level 3 Investments at Fair Value

There are no plan assets requiring the use of Level 3 inputs for the periods presented.

NOTE 4. FAIR VALUE MEASUREMENTS (continued)

Investments Measured at NAV

Pooled Separate Accounts (PSA): The investments are measured at net asset value (NAV) which are investments where each plan shares in a pooled fund on a participant unit basis. One of the funds, Principal U.S. Property Separate Account, is in a non-registered audited investment. The valuation is not a practical expedient to fair market value and will be reported at NAV.

Common Collective Trust (CCT): The investment is valued at net asset value (NAV) which is composed of primarily target date funds. The net asset value is used as a practical expedient to estimate fair value. This practical expedient will not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business matter.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis as of December 31, 2022 and 2021:

NOTE 4. FAIR VALUE MEASUREMENTS (continued)

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2022 and 2021 are reported in net increase or decrease in fair value of investments.

The following tables summarize investment for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

NOTE 5. INVESTMENTS AT CONTRACT VALUE

Common Collective Trust (CCT): The Plan holds investments in Morley Stable Value Fund and Principal Stable Value Institutional Fund, which is measured at Net Asset Value (NAV) and invested in various investment contracts. These investments are fully benefit responsive and are reported at contract value. The value of these investments were \$3,427,464 and \$2,414,694 as of December 31, 2022 and 2021, respectively.

Guaranteed Investment Contract (GIC): The plan holds numerous Guaranteed Investment Contracts with three, five, and seven year options and various maturities. These contracts are fully benefit responsive and are reported at contract value. The value of these contracts held by the plan was \$1,131,447 and \$979,749 as of December 31, 2022 and 2021, respectively.

The CCT and GIC fully benefit-responsive investment contracts with Principal Life Insurance Company maintain the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contracts issuer is contractually obligated to repay the principal and a special interest rate that is guaranteed to the Plan.

Because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these investment contracts. The investment contracts are presented on the face of the statement of net assets available for benefits at contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

NOTE 5. INVESTMENTS AT CONTRACT VALUE (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The average yields earned by the investment contract are as follows:

	<u>2022</u>	<u>2021</u>

NOTE 7. PLAN TRANSFERS

During the 2022 plan year, three employers adopted the plan and transferred in total assets of \$3,653,666. In addition, five participating employers elected to adopt their own plan and transferred out total assets of \$11,215,229 to other plans.

During the 2021 plan year, two employers adopted the plan and transferred in total assets of \$1,259,126. In addition, nine participating employers elected to adopt their own plans and transferred out total assets of \$235,416 to other plans.

NOTE 8. CONCENTRATIONS OF CREDIT RISK

The Plan has placed its investments with Principal Life Insurance Company. This institution has professionally managed money market funds and investment funds whose investments consist of a very numerous and diverse product mix. As part of the Plan's investment strategy, the trustees perform periodic evaluations of the relative credit standing and investment performance of financial institutions.

NOTE 9. TAX STATUS

The Plan uses an individually designed document. The Plan obtained its latest opinion letter, dated June 30, 2022, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC).

NOTE 10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 11. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions

A technical termination can occur when an employer in the Plan disposes of a segment, involuntary terminates more than 20% of eligible employees without replacement or the employer leaves the plan. Affected participants also become 100% vested in their employer contributions.
