Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements

We have performed an audit of the accompanying financial statements Cooper-Standard Automotive Inc. Salaried Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- the amounts and disclosures in the 2022 financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the 2022 financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of Cooper-Standard Automotive Inc. Salaried Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Cooper-Standard Automotive Inc. Salaried Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

Benefits Plan Committee and Plan Participants
Cooper-Standard Automotive Inc.
Salaried Retirement Plan

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Cooper-Standard Automotive Inc. Salaried Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Cooper-Standard Automotive Inc. Salaried Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Auditors' Report on the 2021 Financial Statements

The 2021 financial statements of Cooper-Standard Automotive Inc. Salaried Retirement Plan were audited by Gilmore Jasion Mahler, LTD, whose members and professional staff joined CliftonLarsonAllen LLP as of January 1, 2023, and has subsequently ceased operations. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed Gilmore Jasion Mahler, LTD not to perform, and they did not perform, any auditing procedures with respect to the information certified by a qualified institution. Their report dated October 5, 2022, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements, other than that derived from the certified information, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

COOPER-STANDARD AUTOMOTIVE INC. SALARIED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 DESCRIPTION OF THE PLAN

The following description of Cooper-Standard Automotive Inc. Salaried Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all salaried and union and non-union hourly employees of Cooper-Standard Automotive Inc. (the Plan Sponsor) hired prior to January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Some of the Plan's participants may be eligible for unreduced monthly pension benefits upon attainment of 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62.

The amount of any pension benefit otherwise available may be reduced by certain disability payments (but not payments under the Federal Insurance Contribution Act (FICA)). The Plan provides certain survivor and disability benefits, and various optional forms of payment, some actuarially reduced.

Any employee of the Plan Sponsor (including any United States citizen who is employed by a "foreign affiliate" (as defined in Section 3121(l)(6) of the Internal Revenue Code (the Code)) for which the Plan Sponsor has entered into an agreement with the Internal Revenue Service pursuant to Section 3121(l) of the Code, is not a nonresident alien, is not a leased employee, is not an independent contractor or an employee of an independent contractor, and is not a member of the Plan Sponsor's Board of Directors acting solely in that capacity is eligible for participation in the Plan. For part-time employees, the service requirement is 1 year and 1,000 hours and for full-time employees, the service requirement is 1 year. Effective January 1, 2009, the Plan was frozen to all new employees.

Employees from the Bowling Green Seal Plan who are subject to the collective bargaining agreements between the Plan Sponsor and Local Union #1042 of the United Steelworkers of America are eligible for participation in the Plan. Employees of this plan had their accruals frozen as of December 31, 2022. The current bargaining agreement is effective July 23, 2020 through July 23, 2023 and has been renewed as of the date of these financial statements through July 23, 2026. Effective January 1, 2009, the plan was frozen to all new employees.

On November 7, 2022, the Plan Sponsor amended the Plan to merge all assets and liabilities of the Cooper-Standard Automotive, Inc. Collectively Bargained Retirement Plan – Gaylord UAW Local 388 into this Plan effective December 31, 2022. In May 2023, the assets of the Cooper-Standard Automotive, Inc. Collectively Bargained Retirement Plan – Gaylord UAW Local 388 were transferred into the Plan within the Master Trust.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

General (continued)

Effective December 31, 2022, the Plan was amended to terminate and provide for a lump sum payment window during Plan termination. All benefits of each participant were 100% vested upon termination. Plan management is in the process of executing necessary actions under a standard plan termination in order to distribute benefits to plan participants or transfer to an insurance carrier. It is expected this process will be completed in 2024.

Pension Benefits

The Plan includes participants that were participants in other plans that have been merged into this plan. Benefit payment calculations vary as described below depending on the prior plan under which service was accrued.

Participants that were participants in the Cooper Tire & Rubber Company Spectrum Retirement Plan as of December 31, 2001, who were born before 1962 and whose credited service is before 1987 (Cooper Tire grandfathered participants), are entitled to a monthly "protected benefit" equal to 1.5 percent of the monthly average of all compensation (as defined in the Plan) during the highest five of the ten calendar years prior to the year of termination or retirement (minimum of \$20), multiplied by the years of continuous credited service.

The sum of the Cooper Tire grandfathered participant's retirement benefit under the Plan and his/her primary social security (FICA) benefit may not exceed 90 percent of the monthly average of all compensation (as defined in the Plan) during the highest five of the last ten calendar years prior to the year of termination or retirement, unless the \$20 minimum would serve to exceed the above amount.

For Cooper Tire grandfathered participants with less than 30 years of continuous credited service, the above 90 percent limitation and the amount of FICA benefit taken into account in computing the Plan benefit will be reduced by 1/30th for each year of continuous credited service less than 30.

Participants that were participants in the Standard Products Plan as of December 31, 2001 (Standard Products grandfathered participants), who were employed prior to June 30, 1976, are entitled to a monthly benefit equal to the greater of a) an amount equal to a percentage of average compensation (ranging from 22 percent-40 percent) multiplied by years of service or b) $1 \frac{1}{15}$ percent of average compensation not in excess of $\frac{1}{12}$ annual covered compensation plus $1 \frac{2}{3}$ percent of any compensation in excess of average compensation multiplied by accrual service (not to exceed 30 years) or c) retirement (minimum of \$30), multiplied by the years of continuous credited service.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Continued)

Standard Products grandfathered participants, who became an employee on or after June 30, 1976, are entitled to a monthly benefit equal to the greater of a) $1\frac{1}{15}$ percent of average compensation not in excess of $\frac{1}{12}$ annual covered compensation plus $1\frac{2}{3}$ percent of any compensation in excess of average compensation multiplied by accrual service (not to exceed 30 years) or b) retirement (minimum of \$30), multiplied by the years of continuous credited service.

For participants that are not grandfathered participants and who were participants as of December 31, 2001, their cash balance account includes an opening account balance as of January 1, 2002, which represents their accrued benefit under the provisions of the Plan prior to the establishment of the cash balance feature.

Participants who accrued service prior to December 31, 2006 in the Northern Plants Plan and the Leonard Plan will receive benefits determined by multiplication of a benefit rate, which depends upon the period of credited service by the total number of years of credited service, in addition to any benefits accrued under the Plan beginning January 1, 2007.

Participants who accrued service prior to February 28, 2007 in the El Dorado Plan will receive benefits determined by multiplication of a benefit rate, which depends upon the period of credited service by the total number of years of credited service, in addition to any benefits accrued under the Plan beginning March 1, 2007. Participants also have the option of receiving a lump sum distribution for service accrued in the El Dorado Plan.

Participants from the Archbold Plan (Archbold Participants) are eligible for monthly benefit payments upon reaching age 65 or the completion of five years of service, if later. The normal monthly benefit payments are determined by multiplication of a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 42 years. Archbold Participants are eligible to receive early retirement benefits between the ages of 50 and 65 upon the completion of 10 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Archbold Plan document, for each month that the early retirement date precedes the normal retirement date.

Participants from the Bowling Green Hose Plan are eligible for unreduced monthly pension benefits upon 30 years of continuous credited service. Participants also may retire earlier than the normal retirement age. Pension benefits for participants with less than 30 years of continuous credited service are subject to a reduction based upon the time by which the retirement precedes the participant's attainment of age 62. Effective April 1, 2009, credited service was frozen and no participants will be eligible to accrue service.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Pension Benefits (Continued)

Participants from the Auburn Plan are entitled to monthly pension benefits equal to the amount specified in the plan agreement, which was increased effective July 1, 2007, multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit. Effective August 31, 2011, credited service was frozen and no participants will be eligible to accrue service.

Participants from the Newlex Plan are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by multiplication of a benefit rate, which depends upon the period of credited service, by the total number of years of credited service, not to exceed 35 years. A participant is 100 percent vested after five years of service. Prior to that time, the participant is 0 percent vested. Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 15 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65 except, that they are reduced by certain factors, as outlined in the Plan document for each month that the early retirement date precedes the normal retirement date.

Participants from the Bowling Green Seal Plan are entitled to monthly pension benefits equal to the amount specified in the plan agreement multiplied by the years of continuous credited service at time of termination or retirement. If termination occurs prior to eligibility for an immediate pension benefit, vested participants may elect to receive a lump sum distribution in lieu of a deferred pension benefit.

Effective January 1, 2002, the Plan established a cash balance feature under which cash balance accounts are maintained for participants that are not grandfathered participants. The cash balance account is the accumulation of interest and pay credits during a participant's active employment. Pay credits are based upon a participant's eligible compensation for the year and range from 3 percent to 10 percent of eligible compensation, based on the age of the participant and years of credited service. Effective February 1, 2009, the Plan was frozen and no additional benefits will accrue.

Vesting

Prior to January 1, 2008, participants in the Plan became vested upon completion of 5 years of vesting service or reaching normal retirement age (age 65). Effective January 1, 2008 in accordance with the provisions of the Pension Protection Act, participants that are receiving benefits in the Plan under a cash balance formula become vested upon completion of 3 years of service.

DECEMBER 31, 2022 AND 2021

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2022 and 2021, the Company made contributions of \$0. The Company's contributions for 2022 and 2021 exceeded the minimum funding requirements of ERISA.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plan's interest in the Master Trust is based on the beginning of the year's value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company as provided by the Plan document.

Subsequent Events

The Plan has evaluated subsequent events through October 11, 2023, the date the financial statements were available to be issued.

DECEMBER 31, 2022 AND 2021

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a) retired or terminated employees or their beneficiaries,
- b) beneficiaries of employees who have died, and
- c) present employees or their beneficiaries.

Benefits for active employees under the Plan are based on the employees' years of credited service computed to the nearest completed 1/12 of a year, multiplied by the pension amount in effect on the valuation date. Benefits payable under all circumstances are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2021, were:

- a. Life expectancy of Participants: Pri-2012 Employees table with blue collar adjustments for non-annuitants, Pri-2012 Healthy Retirees table with blue collar adjustments for annuitants, and Pri-2012 Contingent Survivors with blue collar adjustments for contingent survivors only after retiree death, all participants with Projection Scale MP-2021.
- b. Retirement Age Assumptions: Probability table of retirement with ages ranging from 55 to 65
- c. Discount Rate: 3.50% (5.50% for 2021)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The following is a summary of actuarial present value of accumulated plan benefits as of December 31, 2021:

Actuarial Present Value of Accumulated	
Plan Benefits:	
Vested Benefits:	
Participants Currently Receiving Payments	\$ 115,059,100
Other Participants	96,897,888
Total Vested Benefits	<u>211,956,988</u>
Nonvested Benefits	<u>5,171,296</u>
Total Actuarial Present Value of	
Accumulated Plan Benefits	<u>\$ 217,128,284</u>

The changes in the actuarial present value of accumulated Plan benefits are summarized as follows for the year ended December 31, 2021:

Actuarial Present Value of Accumulated	
Plan Benefits - Beginning of Year	\$ 180,330,743
Increase (Decrease) During the Year Attributable to:	
Change in Actuarial Assumptions	38,627,854
Benefits Accumulated	(153,617)
Change in Discount Period	9,637,892
Benefits Paid	<u>(11,314,588)</u>
Actuarial Present Value of Accumulated	
Plan Benefits - End of Year	<u>\$ 217,128,284</u>

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2022. Had the valuations been performed as of December 31, 2021 there would be no material differences.

During the year ended December 31, 2022, management changed the allocation of investments in the Master Trust portfolio to be more conservative and reduce market risk.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

The Northern Trust Company, the trustee of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information of the Plan and of the Master Trust reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021 and the statements of changes in net assets available for benefits for the years then ended.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no other changes in the methodology used at December 31, 2022 and 2021.

Mutual Funds and Money Market Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Real estate fund – These are valued on the relevant business day with an evaluation price based on the total value of the security for a client's share of the holdings and are valued at NAV as a practical expedient.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Equity funds and bond funds – These collective funds are valued at the value of the participation units in a fund, which represent the net asset value of shares held by the Plan at year-end and are valued at NAV as a practical expedient.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31:

	2022			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ -	\$ -	\$ -	\$ -

- (a) In accordance with Subtopic 820-10, certain investments that were measured at the net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Bond funds	\$ 172,081,478	\$ 212,079,025	None	Daily	1 day

NOTE 6 INTEREST IN MASTER TRUST

Investments within the Master Trust are valued at their fair value as determined by the Trustee. The Plan's interest in the Master Trust is determined by the Plan's relative asset value to the Master Trust's total asset value at the end of the year. Although assets of participating plans are commingled, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans are maintained. The net investment income (loss) and administrative expenses of the investment assets are allocated by the Trustee to each participating plan based on the relationship of the interest of each Plan to the total of the interests of the participating plans. The following has been derived from information certified as complete and accurate by the Trustee, as of and for the years ended December 31, 2022 and 2021.

The following presents the values of investments in the Master Trust as of December 31:

Investment Type	2022	2021
Mutual funds	\$ -	\$ 1,231,506
Real estate funds	10,330,610	11,270,311
Money market funds	1,713,536	9,422,670
Equity funds	11,203,793	41,686,728
Bond funds	172,081,478	212,079,025
Plan's investment in the Master Trust	<u>\$ 195,329,417</u>	<u>\$ 275,690,240</u>

The following presents the values of investments in the Plan as of December 31:

NOTE 6 INTEREST IN MASTER TRUST (CONTINUED)

Investment income for the Master Trust for the years ended December 31:

	2022	2021
Total net realized and unrealized gain (loss) on investments	\$ (66,230,329)	\$ 20,615,050
Dividends	443,107	555,926
Net investment gain (loss)	<u>\$ (65,787,222)</u>	<u>\$ 21,170,976</u>

NOTE 7 PLAN TERMINATION

In the event of partial or total termination of the Plan, participants' benefits become nonforfeitable.

In the event the Plan terminates, its available net assets will be allocated to benefits as prescribed by ERISA, generally in the following order:

- a. Certain annuity benefits that former employees or their beneficiaries are receiving or that employees eligible for retirement would have been receiving had they retired.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) as discussed below.
- c. All other vested benefits.
- d. All non-vested benefits.

The PBGC guarantees most, but not all, vested retirement benefits and certain disability and survivor's pensions. However, there is a statutory ceiling on the amount of any individual's monthly benefit that PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination, whichever comes later. For younger annuitants, or for those who elect to receive their benefits in some form other than a single-life annuity, the corresponding ceilings are actuarially adjusted.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits, and the level of benefits guaranteed by the PBGC.

NOTE 8 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated September 7, 2016, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

COOPER-STANDARD AUTOMOTIVE INC. SALARIED RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021

NOTE 8 PLAN TAX STATUS (CONTINUED)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The plan investments are managed by The Northern Trust Company, trustee. The Northern Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions qualify as party in interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 11 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Cooper-Standard Automotive, Inc. Collectively Bargained Retirement Plan – Gaylord UAW Local 388 maintained an interest in the Master Trust as of December 31, 2022 as reported by the Trustee. Therefore the financial statements present a receivable of \$9,385,414 to recognize the merger as of December 31, 2022. The Form 5500 reflects the merger as part of the Plan's interest in the Master Trust.

Disability

50% of Pension Disability Table (DP-85) class 1 Incidence Rates. 100% of the rates are assumed for merged Archbold, Auburn, BG Hose, BG Seal and Newlex participants.

Benefit

commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained the earliest retirement age (age 55 for Newlex).
- Deferred vested benefit Generally, the participant is assumed to commence payment at the age their benefit is unreduced.
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

For valuation purposes, participants are assumed to elect the normal pension payment option, except cash balance participants are assumed to elect a lump sum. Auburn, BG Hose and BG Seal actives who terminate before their early retirement age are assumed to take a lump sum (based on UP84 [set forward one year] mortality and a 4% interest rate).

Covered pay	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.50% in 2021 and 5.75% in 2020 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

SCHEDULE SB ATTACHMENTS

Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with Cooper Standard and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the October 30-year Treasury rate. The plan sponsor has selected an expected future 30-year Treasury rate grading up to 4.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

Plan-related expenses As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population, adjusted for observed plan experience.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions, adjusted for observed plan experience.
Retirement	Retirement rates are based on plan sponsor expectations for the future and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
■ Deferred vested benefit	Generally, deferred vested participants are assumed to begin benefits at the age when benefits are first unreduced.

Funding methods

The methods used for funding purposes as described within this attachment, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430 and in accordance with the plan sponsor election under ARPA.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from, Scale MP-2019 to Scale MP-2020, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$867,000 for the prior valuation to \$845,000.
- The cash balance interest rate was updated to use 2.06% for 2022, 2.70% in 2023 increasing 60 basis points annually until a rate of 4.50% in 2026 and thereafter.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Cooper-Standard Automotive Inc. Salaried Retirement Plan
Valuation Date	January 1, 2022
Enrolled Actuary	Melissa Mayea
Enrollment Number	23-07650

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 8 Explanation of Discrepancy in Prior Year Prefunding Balance Election as of January 1, 2022

The 2021 Schedule SB as filed does not reflect the plan sponsor's election to revoke the plan funding balance election to apply the \$2,005,808 because the MRC was \$0. As a result of this decision, Line 8 of the 2022 Schedule SB does not match line 35 of the filed 2021 Schedule SB.

65	100.00	100.00

Disability

50% of Pension Disability Table (DP-85) class 1 Incidence Rates. 100% of the rates are assumed for merged Archbold, Auburn, BG Hose, BG Seal and Newlex participants.

Benefit

commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained the earliest retirement age (age 55 for Newlex).
- Deferred vested benefit Generally, the participant is assumed to commence payment at the age their benefit is unreduced.
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

For valuation purposes, participants are assumed to elect the normal pension payment option, except cash balance participants are assumed to elect a lump sum. Auburn, BG Hose and BG Seal actives who terminate before their early retirement age are assumed to take a lump sum (based on UP84 [set forward one year] mortality and a 4% interest rate).

Percent married	For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible male and female participants are assumed to be married.
Spouse age	Male participants are assumed to be 3 years older than their spouses and female participants are assumed to be 3 years younger than their spouses.
Covered pay	N/A
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.50% in 2021 and 5.75% in 2020 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

SCHEDULE SB ATTACHMENTS

Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Benefits not valued	Willis Towers Watson has reviewed the plan provisions with Cooper Standard and, based on that review, is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2022. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. No data adjustments were made and we are unaware of any data adjustment made by the data provider.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the October 30-year Treasury rate. The plan sponsor has selected an expected future 30-year Treasury rate grading up to 4.50%. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.

SCHEDULE SB ATTACHMENTS

Plan-related expenses As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on a published table for pension participants believed to have similar characteristics to the plan population, adjusted for observed plan experience.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions, adjusted for observed plan experience.
Retirement	Retirement rates are based on plan sponsor expectations for the future and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
■ Deferred vested benefit	Generally, deferred vested participants are assumed to begin benefits at the age when benefits are first unreduced.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described within this attachment, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430 and in accordance with the plan sponsor election under ARPA.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from, Scale MP-2019 to Scale MP-2020, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$867,000 for the prior valuation to \$845,000.
- The cash balance interest rate was updated to use 2.06% for 2022, 2.70% in 2023 increasing 60 basis points annually until a rate of 4.50% in 2026 and thereafter.

- Newlex
Benefit before Normal Retirement: Full monthly pension benefits reduced by certain worker's compensation benefits until age 65.
Benefit after Normal Retirement: After age 65, any offset for public disability payments stops. The benefit is then recomputed based on the benefit form elected to be paid at that time.

Death benefit

- Cash Balance
Account balance at the date of death.
- Pre-Retirement benefit
Upon the death of a participant after 5 years of Vesting Service, the surviving spouse shall receive a 50% survivor benefit computed as if the participant had terminated employment at date of death, survived to earliest retirement age and elected commencement of benefits under the Normal Form of Payment and at that time died.
- Newlex
If the participant dies before reaching age 65, payments to the spouse will automatically begin when the participant would have reached age 65. However, the spouse can elect to receive a reduced benefit as early as the date the participant would have reached age 55 or upon the participants' death if after age 55. Payment to the spouse is 50% of the benefit that would have been payable to the participant, reduced to reflect the 50% survivor option.

If the participant continues working after age 65 and dies before retiring, payments to the spouse will begin the month following the participant's death.
- Post-Retirement benefit
Elected form of payment plus a single sum benefit of \$2,250 (\$2,000 for BG Hose and Newlex, \$750 for El Dorado, and \$4,000 for BG Seal). A participant who terminated employment before age 60 and did not commencement retirement or disability payments immediately is not eligible for a single sum death benefit.
- Newlex
Payable to participants who retired after June 24, 2002. Elected form of payment plus a single sum benefit of \$2,000.

- Newlex
Benefit before Normal Retirement: Full monthly pension benefits reduced by certain worker's compensation benefits until age 65.
Benefit after Normal Retirement: After age 65, any offset for public disability payments stops. The benefit is then recomputed based on the benefit form elected to be paid at that time.

Death benefit

- Cash Balance
Account balance at the date of death.
- Pre-Retirement benefit
Upon the death of a participant after 5 years of Vesting Service, the surviving spouse shall receive a 50% survivor benefit computed as if the participant had terminated employment at date of death, survived to earliest retirement age and elected commencement of benefits under the Normal Form of Payment and at that time died.
- Newlex
If the participant dies before reaching age 65, payments to the spouse will automatically begin when the participant would have reached age 65. However, the spouse can elect to receive a reduced benefit as early as the date the participant would have reached age 55 or upon the participants' death if after age 55. Payment to the spouse is 50% of the benefit that would have been payable to the participant, reduced to reflect the 50% survivor option.

If the participant continues working after age 65 and dies before retiring, payments to the spouse will begin the month following the participant's death.
- Post-Retirement benefit
Elected form of payment plus a single sum benefit of \$2,250 (\$2,000 for BG Hose and Newlex, \$750 for El Dorado, and \$4,000 for BG Seal). A participant who terminated employment before age 60 and did not commencement retirement or disability payments immediately is not eligible for a single sum death benefit.
- Newlex
Payable to participants who retired after June 24, 2002. Elected form of payment plus a single sum benefit of \$2,000.
