Independent Auditors' Report

The Plan Administrator
Simmons University Retirement Plan
Boston, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of the Simmons University Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded from the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements. We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedules, (1) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 and (2) Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Simmons University Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions, including definitions of key terms.

General

The Plan is a 403(b) defined contribution plan and was most recently restated in 2019. Eligible employees are employees who work 20 hours or more in a week, except students performing certain services, temporary employees, nonresident aliens who did not receive any U.S. source income, or union employees whose collective bargaining agreement provides that they will not participate in the Plan. Eligible employees can participate in the Plan and choose to have elective deferrals immediately upon hire (“Participants”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan utilizes TIAA and CREF and TIAA as agent for TIAA, FSB as its custodian and insurance company. All investments are participant directed.

Contributions

Participant Contributions

Participants may make pretax contributions to the Plan subject to certain Internal Revenue Service (“IRS”) limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. To be eligible to contribute, a participant must not be a student enrolled and regularly attending classes at Simmons University (“the University”). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (“Participant Rollovers”).

Employer Contributions

The University made a discretionary matching contribution of 5% of each eligible participant’s base salary on a per pay period basis in 2022. To be eligible for the discretionary matching contribution, a participant must have contributed an elective deferral to the Plan in an amount of at least 3% of his or her regular salary during the payroll period. There are no age or length of service requirements in order to be eligible to receive, with the exception of adjunct faculty who are not eligible for the discretionary matching contribution. The Plan allows for a discretionary Performance Matching Contribution. No Performance Matching Contribution was made for the year ended December 31, 2022.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocations of the University's contribution, and Plan earnings/losses. Allocations are based on participant earnings/losses, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Plan earnings are credited to a participant's account according to the type of funding vehicle in which balances are invested. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Vesting

Employee deferrals and earnings thereon are fully and immediately vested. Matching Contributions and Performance Matching Contributions are subject to a 1-year cliff vesting schedule.

Notes Receivable from Participants and Plan Loans

Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their employee elective deferral accounts. Participants are limited to ten loans per year. The loans are secured by the vested balance in the Participant's account and bear interest at a reasonable rate to be determined by the Plan administrator. There were \$379,279 and \$88,645 of outstanding loans of this nature at December 31, 2022 and 2021, respectively, with interest rates ranging from 4.25% to 8.00%. Principal and interest are paid ratably through direct payment to TIAA.

Plan loans are available to participants directly through TIAA and CREF, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA and CREF, and loan proceeds are not removed from a participant's account balance. TIAA and CREF loans money to participants from the TIAA General Account, secured by transferring 110% of the loan value from other investment options to a TIAA Traditional Annuity within the Plan. Securing collateral in the amount of 110% ensures that if the participant makes late payments, the collateral will be sufficient to cover the additional accrued interest under the terms of the loan. These loans are not assets of the Plan, and as of December 31, 2022 and 2021, participants had outstanding Plan loan balances due to TIAA and CREF of \$609,174 and \$989,947, respectively, with interest rates ranging from 4.00% to 6.85%. Plan participants pay interest on their Plan loans directly to TIAA and CREF.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Payment of Benefits

Upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated Plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, rollover to another retirement plan, or lifetime annuity payments. In addition, participants may elect in-service withdrawals of their account balances after reaching age 59-1/2 or for hardship purposes. Required minimum distributions for participants also apply per IRS regulations.

Forfeitures

A participant who leaves the employ of the Employer forfeits any non-vested balance at the earlier of five one-year breaks in service or the distribution of the participant's entire vested account. Forfeited balances are used to reduce future Employer contributions. At December 31, 2022 and 2021, forfeitures available totaled \$2,224 and \$606 respectively.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

In November 2007, the Department of Labor ("DOL") issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting, disclosure, and audit requirements under Part 1 of Subtitle B of Title I of ERISA. The Plan, however, was established in 1935, and historically the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the Plan sponsor. Accordingly, various accounting and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009 were not maintained by the Plan. Consequently, the financial statements have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, there can be no assurance as to the completeness or accuracy of the Plan's reported financial information.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from Participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are charged to expenses as they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Investments, Investment Valuation and Income Recognition

Investments other than fully benefit-responsive investment contracts (valued at contract value) are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has fully benefit-responsive investment contracts and non benefit-responsive investment contracts with TIAA and CREF. TIAA and CREF maintains the contributions in a general account.

Unit Values

Individual participant accounts for the pooled separate investment and variable rate annuity accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Investment related fees amounted to \$104,547 for the year ended December 31, 2022 and are included in administrative expenses on the accompanying Statement of Changes in Net Assets Available for Benefits and qualify as party-in-interest transactions as further described in Note 7. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option.

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan administrator has evaluated subsequent events through October 16, 2023, the date that the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.

Note 3 - Information Certified by the Custodian and Insurance Company

Plan investments are held in variable rate annuities, fixed rate annuities, mutual funds and a pooled separate account by the custodian and insurance company, TIAA and CREF and TIAA as agent for TIAA, FSB. The fair and contract values of investments as of December 31, 2022 and 2021 and all investment transactions for the year ended December 31, 2022, including interest and dividends and net depreciation in value are reported to the Plan and certified as complete and accurate by the custodian and insurance company. Information included in the supplemental schedule of assets (held at year end) and notes receivable from participants have also been derived from information certified by the custodian and insurance company.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access at the measurement date.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs that are unobservable for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Traditional Annuity

The TIAA Traditional Annuity is a fixed rate guaranteed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA and CREF. The TIAA Traditional Annuity is offered through a variety of contract types, including Retirement Annuities ("RA") and Retirement Choice ("RC"). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

RA and RC contracts are non benefit-responsive, and accordingly, are reported at fair value. The value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. The crediting interest rates for RA contracts for 2022 and 2021 were 6.25% and 3.70%, respectively, and the crediting interest rates for RC contracts were 6.50% and 3.95%, respectively.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA and CREF's claim-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA and CREF's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. The redemption provisions of the fixed rate annuities vary depending on the nature of the contract option chosen by the participant.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 4 - Fair Value Measurements (Continued)

TIAA Traditional Annuity (Continued)

The RA contract does not allow lump-sum cash withdrawals, and transfers must be spread over 10 annual installments. All other withdrawals and transfers from RA contracts must be spread over 10 annual installments (five annual installments for withdrawals after termination of employment). The RC contract allows for lump-sum cash withdrawals 120 days after termination of employment and is subject to a 2.5% surrender charge. All other withdrawals and transfers from RC contract accounts must be paid in 84 monthly installments. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits.

TIAA Real Estate Account

The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities are generally priced using values obtained from independent pricing sources.

The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily Net Asset Value ("NAV"), which is considered by Plan management to be the best approximation of fair value. This investment is classified at NAV in the fair value hierarchy. The unit value of the fund is calculated daily and available to Plan administrators and client investors on TIAA and CREF's website. There are no unfunded commitments from participants in the Plan who invest in this account. These investments may be redeemed quarterly with one day's notice.

CREF Variable Annuities

The accounts invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. The fair values of accumulation units held by the Plan in CREF Variable Annuity accounts are based on each account's daily NAV, which is considered by Plan management to be the best approximation of fair value. Data for NAVs are available daily to Plan administrators and client investors on TIAA and CREF's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. There are no unfunded commitments from participants in the Plan who invest in these accounts. The variable annuities are measured at net asset value in the valuation hierarchy and are redeemable daily with one day's notice.

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

(a) See Note 4 for the description of the variable rate annuities and pooled separate accounts.

Note 6 - Fully Benefit-Responsive Investment Contracts

Following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

TIAA Traditional Annuity Contracts

Supplemental Retirement Annuities ("SRA"), Retirement Choice Plus ("RCP") and Group Supplemental Retirement Annuities ("GSRA") are also traditional annuity contracts as discussed in Note 4. However, SRA, RCP and GSRA contracts do not have liquidity restrictions and are therefore fully benefit-responsive contracts reported at contract value. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the Statement of Changes in Net Assets Available for Benefits. The crediting interest rate for 2022 and 2021 was 5.50 % and 3.00% for the SRA and GSRA contracts, respectively, and 5.75% and 3.20% for RCP contracts, respectively.

The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate (disclosed in Note 4) is based on a formula agreed upon with the issuer. Such interest rates are periodically reviewed for resetting.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 6 - Fully Benefit-Responsive Investment Contracts (Continued)

TIAA Traditional Annuity Contracts (Continued)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would have limited the Plan's ability to transact at contract value with participants have occurred.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following are the contract values of the Plan's fully benefit-responsive investment contract at December 31:

	2022	2021
Fully Benefit-Responsive Investment Contract at contract value:		
TIAA Traditional (SRA, RCP and GSRA fixed rate annuities)	\$ 19,770,439	\$ 19,258,216

Note 7 - Related-Party Transactions and Party-In-Interest Transactions

Plan investments include investment contracts and a pooled separate account managed by TIAA and CREF, the custodian of the Plan. Therefore, transactions pertaining to these investments qualify as party-in-interest transactions. During the Plan year ended December 31, 2022, the Plan received revenue credits of \$204,556 from TIAA and CREF which were used to pay Plan expenses. The revenue credits are reported as other income on the Statement of Changes in Net Assets Available for Benefits. For the Plan year ended December 31, 2022, fees paid to TIAA and other services providers totaled \$104,547. Notes receivable from participants also qualify for exempt party-in-interest transactions.

SIMMONS UNIVERSITY RETIREMENT PLAN

Notes to Financial Statements

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Plan sponsor may determine.

Note 9 - Tax Status

The Plan adopted the TIAA Volume Submitter 403(b) Plan Document that received an IRS opinion letter dated August 7, 2017 which stated that the Plan is acceptable under Section 403(b) of the Internal Revenue Code for use by eligible Employers for the benefit of their employees. The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of Section 403(b) of the Code and, therefore, believes the Plan is qualified and related accounts are tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 10 - Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events such as an international conflict, which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 11 - Prohibited Transactions

Under U.S. Department of Labor Regulation Section 2510.3-102, 403(b) Plan related salary deferrals and loan repayments withheld from employees' paychecks must be deposited into the Plan as soon as reasonably possible. When this regulation is not satisfied, the Plan sponsor has engaged in a prohibited transaction. During 2022, there were contributions of \$59,164 not remitted within the required time period. The Employer is working to make corrections, including lost earnings, on the prohibited transactions in 2023. During 2021, there were contributions of \$135,430 not remitted within the required time period. The Employer calculated lost earnings on the delinquent contributions per ERISA guidelines and made the correction in 2022.
