To the Plan Administrator and Trustees
Machine Service, Inc.
401(k) Profit Sharing Plan
Green Bay, Wisconsin

We have audited the financial statements of Machine Service, Inc. Profit Sharing Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2022 and have issued our report thereon dated October 16, 2023. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company, the trustee, which is a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements and ERISA-required supplementary schedules, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of generally accepted accounting principles (GAAP). Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated May 22, 2023. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for selection and use of appropriate accounting policies. The significant accounting policies used by Machine Service, Inc. 401(k) Profit Sharing Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2022. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. There were no significant estimates used in the preparation of the 2022 financial statements.

Certain financial statement disclosures are particularly sensitive because of their significance to the financial statements users. There were no sensitive disclosures affecting the financial statements.

The disclosures in the financial statements are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditors' report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no misstatements that needed correction.

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determine are sufficiently important to merit management's attention. We identified the following reportable finding:

Documentation of Plan Oversight

There were no formal minutes maintained for actions taken by the trustee during the year. With the complexity of investment alternatives and the tax laws covering the qualifications of the Plan and fiduciary responsibilities of the trustee, it is important that the plan sponsor adequately document the due diligence exercised over the operations of the Plan.

We recommend the trustee establish procedures for carrying out the above and document the establishment of those procedures in formal minutes. Periodic plan-administrative meetings should include consideration of items such as:

- Review of Plan's investment performance
- Selection of investment options
- Creation and monitoring of investment policy
- Evaluation of service providers
- Report from the plan administrator
- Employee complaints or concerns, if known
- Report from investment advisor, if applicable
- Consideration and approval of plan amendments (or recommendation of amendments for the Board of Directors)
- Compliance with ERISA regulations

Service Provider SOC 1 Review

During our audits, we noted that the Plan sponsor did not review, in detail, the SOC 1 reports of the service organizations. Since a significant amount of the processing of Plan transactions is performed by service organizations, it is imperative that Plan management review the procedures at these service organizations on a consistent basis and document such review in detail as part of due diligence in operating the Plan.

We recommend documenting that the description of the controls listed within the SOC 1 report covers all significant transactions, processes or computer applications that affect the Plan's financial statements. In addition, if the SOC 1 report identifies noncompliance of the service organization's controls, consideration should be made as to the effects of the findings on the Plan's operations. In the instance of noncompliance, complementary controls at the Plan should be documented and enhanced as necessary. Listing the exceptions and the response of the service organizations' management alone is not sufficient. Plan management must document its own conclusions.

Another item that the plan sponsor should document, in detail, is user controls. The SOC 1 reports identify controls for which Plan personnel are responsible and these are typically referred to as "Client Control Considerations." Client controls are complementary to the controls of the service organization and are necessary for the service organizations' controls to be achieved.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 16, 2023.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Plan's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Matters

Our responsibility for the ERISA-required supplementary schedules accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplementary schedules, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplementary schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Internal Control Over Financial Reporting

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Plan as of and for the year ended December 31, 2022, in accordance with auditing standards generally accepted in the United States of America, we considered Machine Service, Inc. 401(k) Profit Sharing Plan's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Principal Life Insurance Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified a certain deficiency in internal control that we consider to be a material weakness and another deficiency with consider to be a significant deficiency.

A *deficiency* in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency or combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiency in the Plan's internal control to be a material weakness.

Employer Match Contributions on Catch-Up Deferrals

During our audit procedures, we noted that catch-up deferrals are being excluded for purposes of matching contributions. Per review of the Plan adoption agreement, catch-up deferrals are not to be excluded for purposes of matching contributions. This error was caused by an improper setting in the payroll system. We understand this has been currently addressed, however, we suggest that an analysis of the effects of this error be made, and a correcting contribution be made to the Plan.

A *significant deficiency* is a deficiency or a combination of deficiencies in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the Plan's internal controls to be a significant deficiency.

Financial Accounting and Reporting

One of the components of internal control over financial reporting is that employees of a company be sufficiently knowledgeable to prepare the Plan's financial statements in accordance with generally accepted accounting principles (GAAP). The Company's accounting department does not have the training in GAAP to prepare the financial statements of the Plan including the related notes in accordance with GAAP. Consequently, during our audit, we prepared and management reviewed and approved the Plan's financial statements. This is not unusual in plans such as yours.

Other Matters

In addition, we felt the other matters described in the following paragraphs were important to the operation of Machine Service, Inc. 401(k) Profit Sharing Plan. These matters may involve internal controls, general operations, recommendations for the adoption of policies or other such items that we feel will enhance the plan.

Impacts of the Secure Act of 2019 on Your Plan

The passage of the Setting Every Community Up for Retirement Enhancement (SECURE) Act of 2019 included various changes that may impact your Plan as summarized in the following paragraphs.

Long-Term Part-Time Employees

One of the provisions impacts long-term part-time employees, those who work at least 500 hours for three consecutive years starting January 1, 2021 will be able to make deferrals into a retirement plan starting in 2024, unless a plan age requirement is not met. The SECURE Act does not require an employer match on these deferrals if the plan document has service requirements that exclude part-time employees from the match. However, there is another complicating factor relating to vesting. All years of service with hours of 500 or more must be used for determining their vested interest if the employee subsequently exceeds 1,000 hours and becomes eligible for employer contributions. We recommend the Organization ensures its systems are properly tracking hours and years of service for these long-term part-time employees starting January 1, 2021 to be easily able to determine eligibility for 2024 and vesting.

Impacts of the Secure Act 2.0 on Your Plan

The passage of SECURE 2.0 of 2022 included multiple required plan updates as well as optional plan changes that are effective at various dates from now through 2025. We would recommend the Plan work closely with your third-party administrator and others to ensure compliance with the mandatory plan changes and those items which may benefit the plan and plan participants.
