Report of Independent Auditors

The Plan Committee
Clover Health 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Clover Health 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to

those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2022, and delinquent participant contributions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Clover Health 401(k) Plan
Notes to Financial Statements
December 31, 2022

1. Description of the Plan

The following brief description of the Clover Health 401(k) (the “Plan”), which is sponsored by Clover Health, LLC (“Plan Sponsor” or “Plan Administrator”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions, copies of which may be obtained from the Plan Sponsor.

General

The Plan is a defined contribution plan under Internal Revenue Code (“IRC”) Section 401(a), which includes a deferred arrangement that is intended to qualify under IRC Section 401(k). The Plan was established effective January 1, 2018. The Plan covers all eligible employees of the Plan Sponsor and the Plan Sponsor’s wholly owned subsidiary, Clover Health Labs, LLC (the “Companies”). Effective March 1, 2019 the Plan allows for the participation of Medical Service Professionals of NJ, LLC (“LLC”) employees. This LLC was acquired in 2019 by the Plan Administrator’s parent company. For vesting purposes, those employees were credited for all years of service with the acquired companies.

An eligible employee is defined as any person employed by the Companies for at least 60 days, with the exception of those employed by the Companies with a contract, fee for services employees, interns, or non-residents. Employees are eligible to receive employer-matching contributions for safe-harbor and discretionary contributions upon completion of one year of service.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Investments are participant-directed, and the Plan uses Transamerica Retirement Solutions, LLC as the Plan’s recordkeeper. Transamerica Life Insurance Company (“Transamerica”) and Reliance Trust Company (“RTC”) are the Plan’s custodians.

Participant Contributions

Each year, participants may contribute their pre-tax annual eligible earnings, as defined in the Plan document, through a salary reduction as either a pre-tax or Roth deferral, subject to statutory limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to \$6,500 for 2022. Participants also may contribute rollover amounts from other eligible retirement plans, as defined. Participants direct the investment of their contributions into various investment options offered by the Plan. Pursuant to the IRC, the maximum amount that a participant can elect to defer on a pre-tax basis under a 401(k) plan is \$20,500 for the year ended December 31, 2022.

Employer Contributions

For the year ended December 31, 2022, the Companies made safe-harbor matching contributions equal to 100% of the participant’s contribution, up to 4% of their eligible compensation upon completion of one year of service. For the year ended December 31, 2022, the Companies made \$1,593,458 in safe-harbor matching contributions to the Plan. The Companies’ matching safe-harbor contributions are invested based on the participants’ elected allocation percentages.

Participant Accounts

The Plan maintains individual accounts for each Plan participant. Each participant’s account is credited with the participant’s contributions, the employer contributions, if any, and allocations of Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

**Clover Health 401(k) Plan

Vesting

Participants are immediately vested in their employee pre-tax and after-tax contributions, rollover contributions, employer safe-harbor matching contributions, and any earnings thereon. Participants are vested in employer discretionary contributions which were transferred from a prior plan during 2018 and any earnings thereon, according to the following schedule:

Years of Vesting Service	Vested Percentage (%) for Employer Discretionary Contributions
1 year but less than 2 vesting years of service	20
2 years but less than 3 vesting years of service	40
3 years but less than 4 vesting years of service	60
4 years but less than 5 vesting years of service	80
5 years or more vesting years of service	100

Notes Receivable from Participants

Participants may borrow from their accounts an amount not less than \$1,000 and not to exceed the lesser of \$50,000 or 50% of their vested account balance. A participant may only have one outstanding loan at a time. Loan terms range up to five years but can be longer for the purchase of a primary residence. The loans are secured by the participant's account balance and bear interest at rates of 4.25% to 8.00%, which is commensurate with local prevailing rates at the time of loan application. Principal and interest are paid ratably through payroll deductions. All loans will become due and payable upon any separation from employment. If the loan is not repaid, it will automatically be treated as a distribution to the participant after the last day of the calendar quarter following the quarter in which the repayment is due.

Payments of Benefits

Participants are eligible to receive a distribution of their vested balance under the following circumstances: (a) retirement, (b) termination of employment, (c) disability, (d) death and (e) attaining 59½ years of age.

Participants also are entitled to hardship withdrawals while still employees. Hardship withdrawals are regulated by the Internal Revenue Service (IRS), and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Cash-Outs of Accounts and Consent to Distribution

If the value of a participant's vested interest in their account is \$5,000 or less, the participant's account will be "cashed out" by distributing the participant's vested interest by a single-sum payment or by direct rollover to an IRA or other eligible retirement plan as soon as reasonably practicable following the date the participant's employment terminates. The participant's account will be cashed out even if the participant does not consent to the distribution. If the value of the participant's vested interest is more than \$5,000, distribution of the account balance cannot be made before the participant's normal retirement date without the participant's written consent.

Forfeitures

Upon termination of employment, participants forfeit their non-vested discretionary contribution balances. As of December 31, 2022 and 2021, participants' forfeited non-vested accounts were \$223,520 and \$192,154, respectively. Forfeited balances may be used to pay Plan expenses, as directed by the Companies. During the years ended December 31, 2022 and 2021, the forfeiture account was held in permissible investments selected by the Companies.

2. Summary of Significant Accounting Principles

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Clover Health 401(k) Plan
Notes to Financial Statements
December 31, 2022

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable are reclassified as a distribution based on the terms of the Plan document. Fees charged by Transamerica relating to notes receivable from participants are paid from the participants' accounts and are included in administrative expenses and expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021.

Administrative Expenses

Certain expenses incurred in the administration of the Plan, including recordkeeping and trust fees, are paid by the Companies. Fees related to participant-directed transactions are paid by the Plan. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Recent Accounting Pronouncements

There were no new material accounting standards issued or adopted in the year of 2022 that impacted the Plan.

3. Information Certified by Transamerica and Reliance Trust Company

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivable from participants at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Transamerica and Reliance Trust Company.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (“ASC”) 820 are described as follows:

Level 1 - Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 - Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Observable inputs other than quoted prices that are used in the valuation of the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies and inputs used for assets measured at fair value.

Mutual Funds - Mutual funds are maintained at their fair values, which represent unadjusted quoted market prices and are based on the fair values of the underlying portfolios valued at the daily closing price, as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Investment returns are recorded net of expenses in each fund. Plan management believes that the most appropriate classification for these investments is Level 1.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, of the Plan’s assets at fair value.

5. Fully Benefit-Responsive Stable Value Option

The Plan entered into a fully benefit-responsive investment contract with Transamerica. Transamerica maintains the contributions in a general account. The Transamerica Stable Value Option investment choices are backed by the general account of Transamerica or Transamerica Financial Life Insurance Company. While Transamerica declares rates periodically and back the principal and interest of these investment choices, any guarantees are subject to the claims paying ability of Transamerica or Transamerica Financial Life Insurance Company. The investment choice is not guaranteed by the FDIC or any other government agency. Although Plan participants generally may withdraw assets from the Stable Value Option investment choice without restrictions, Transamerica may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance. Investments at contract value at December 31, 2022 and 2021, were \$800,896 and \$573,630, respectively.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Stable Value Option, as a deposit liability of Transamerica with no underlying assets, would have no direct investments on behalf of the Plan. The assets are based on the general unallocated account of Transamerica and the risk of investment is based on their insurance ratings. The average yield earned is equal to the average yield earned by the Plan adjusted to reflect the actual interest rate credited to Plan participants.

Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event (e.g. plan termination or merger, premature termination of the contracts, bankruptcy of the plan sponsor etc.) that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable.

6. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Transamerica. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA. Notes receivable from participants also qualify as exempt party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intention to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

8. Tax Status

The underlying pre-approved plan has received an opinion letter from the Internal Revenue Service ("IRS") dated June 30, 2020, stating that the written form of the underlying pre-approved document is qualified under Section 401 of the Internal Revenue Code (the "Code"). Any employer adopting this form of the plan will be considered to have a plan qualified under Section 401 of the Code, and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan provides for investments in various investment securities that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuations of investments in the financial statements of the Plan may not necessarily be indicative of amounts that could be realized in a current market exchange.

10. Subsequent Events

For purposes of determining the effect of subsequent events on these financial statements, Plan management has evaluated events through October 16, 2023, the date on which the financial statements were available to be issued and concluded that no subsequent events occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.
