INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
Clark Atlanta University Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Clark Atlanta University Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Further, as discussed in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits, certain contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have been excluded in the statement of changes in net assets available for benefits. The amount of these excluded contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America (GAAP) require that these accounts and the related income and distributions be included in the financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our responsibility is to conduct audits of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditors' report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an opinion on these financial statements.

We are required to be independent of the Plan, and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter***Supplemental Schedule Required by ERISA***

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

1. DESCRIPTION OF THE PLAN

The following description of the Clark Atlanta University Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers substantially all employees of Clark Atlanta University (the University or Plan Sponsor) who are employed in a job classification covered by the Plan (an eligible class), as defined. The Plan utilizes Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) as insurance companies for annuity contracts and TIAA, FSB, as custodian of mutual funds held by the Plan.

Contributions

All employees, except for students and employees who normally work less than 20 hours per week, are eligible to participate in the employee elective deferral portion of the Plan. Participants may make pretax elective deferrals to the Plan subject to certain Internal Revenue Service (IRS) limitations. Participants 50 years of age or older may also elect to make pretax catch-up contributions up to the maximum amount allowable by law. Special catch-up contributions under Internal Revenue Code (IRC) Section 403(b) are also permitted for those participants who have been employed by the University for more than 15 years and have contributed an average of less than \$5,000 per year to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Employees may begin participating in the employee elective deferral portion of the Plan immediately upon meeting the eligibility requirements.

All eligible employees who complete two years of eligible service with the University or another teaching institution or educational institution are required to make a mandatory employee contribution to the Plan equal to 3% of each employee's eligible compensation, as defined by the Plan. These mandatory employee contributions are in addition to any employee elective deferrals.

The University makes a matching contribution to the Plan on behalf of each employee who is at least 18 years of age and is making mandatory employee contributions to the Plan. The match is equal to 5% of each employee's eligible wages and is calculated and remitted on a pay period basis.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the University's contributions and investment earnings and charged with withdrawals and an allocation of investment losses and administrative expenses. Fund managers' fees are charged to participants' accounts as a reduction of the return earned on each investment option or a reduction in principal if earnings do not exceed fees.

**CLARK ATLANTA UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

1. DESCRIPTION OF THE PLAN – CONTINUED

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the funding vehicles. Investment earnings/(losses) are credited/(charged) to a participant's account according to the type of funding vehicle in which balances are invested. The Plan administrator may change the investment options available to participants at any time.

Vesting

Employee deferrals, the University's matching contributions and earnings thereon are fully and immediately vested.

Payment of Benefits

Upon attainment of age 59½, or upon termination of service, retirement, death, or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated Plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, fixed annuities, variable annuities, or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances for hardship purposes. Rollover account balances, transfer in contributions and qualified reservist contributions may be withdrawn at any time. Minimum required distributions for participants who have reached a certain age also apply per IRS regulations.

Revenue Credit Account

The Plan holds a revenue credit account (Revenue Credit Account) which is credited by TIAA with the return of certain excess revenue generated by certain investments. The Revenue Credit Account may be used to pay reasonable Plan expenses or be allocated to participants. As of December 31, 2022 and 2021, the Plan had \$25,141 and \$8,895 in the Revenue Credit Account, respectively; these funds were held in the TIAA Traditional Annuity Benefit Responsive fund. There were no revenue credits allocated to participants out of the Revenue Credit Account during the year ended December 31, 2022.

Plan Loans

Loans are available to participants through TIAA, subject to certain limitations. Plan loans are issued directly from the funds owned by TIAA and loan proceeds are not removed from a participant's account balance. However, a portion of a participant's TIAA Traditional Annuity Contract (Traditional Annuity) account balance is reserved or held in collateral to cover 110% of the outstanding loan amount for the period of the TIAA Traditional Annuity.

At December 31, 2022 and 2021, participants had outstanding Plan loan balances due to TIAA of \$189,926 and \$300,461, respectively. These loans are collateralized by the Traditional Annuity account balances of \$208,919 and \$330,507 as of December 31, 2022 and 2021, respectively. These collateral amounts are included in the investment balances reported in the accompanying statements of net assets available for benefits.

Plan participants paid net interest expense on their Plan loans to TIAA. The interest expense is offset by the income received by the participants on the collateralized annuity contracts.

1. DESCRIPTION OF THE PLAN – CONTINUED

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and are generally not to exceed a term of five years, unless the proceeds are used for purchase of the participant's principal residence, in which case the loan may not exceed a term of 20 years. The interest rate is set at the prime rate plus 1% and is fixed over the life of the loan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

In November 2007, the Department of Labor (DOL) issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title 1 of ERISA. Prior to the amended regulations, the Plan (established in 1980) was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the Plan Sponsor. Accordingly, various accounting, human resources and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, were not sufficiently maintained by the Plan. Consequently, the financial statements and supplemental schedule have been prepared based on available records analyzed by Plan management. As certain records were not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements and supplemental schedule cannot be determined.

Risks and Uncertainties

The Plan's investment securities include fixed annuity contracts, variable annuity contracts and mutual funds. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of contract value measurements and Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchase of Annuity Contracts

Amounts transferred to TIAA for the purchase of insurance or annuity contracts in an allocated funding agreement are reported in the statement of changes in net assets available for benefits as annuity settlement options.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements.

Subsequent Events

Management has evaluated subsequent events through October 13, 2023, which is the date the financial statements were available to be issued and has determined that there are no subsequent events that require disclosure under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 855, *Subsequent Events*.

3. TIAA TRADITIONAL ANNUITY

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), Group Retirement Annuities (GRA), Supplemental Retirement Annuities (SRA) and Group Supplemental Retirement Annuities (GSRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

As described in Note 2, because the GSRA and SRA are fully benefit-responsive contracts, contract value is the relevant attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The RA and GRA are non-benefit responsive investment contracts and are reported at fair value. See Note 4 for discussion of fair value measurements.

When participants choose to allocate a portion of their retirement savings to the Traditional Annuity during the accumulation phase of the contract, their contributions purchase a guaranteed amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid.

The participant's principal plus a specified minimum rate of interest is guaranteed by TIAA's claims-paying ability. The Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees.

Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

All RA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a ten-year period. All GRA contracts may be withdrawn in a single lump-sum within 120 days of termination of employment; this transaction is subject to a 2.50% surrender charge. All other withdrawals and transfers of accounts may be spread over ten annual installments (over five years for withdrawals after termination of employment). All SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC Topic 820, *Fair Value Measurement* (ASC 820) are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2022 and 2021.

Mutual funds: Valued by obtaining quoted prices on nationally recognized securities exchanges.

Variable annuity accounts (registered investment companies held as variable annuity accounts): Valued based on each account's daily net asset value (NAV), which is considered by Plan management to be the best approximation of fair value. CREF accounts are not exchange-traded. Data for NAV's is distributed to plan administrators and client investors on TIAA's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of the individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments or redemption restrictions from participants in the Plan who invest in these accounts.

**CLARK ATLANTA UNIVERSITY
DEFINED CONTRIBUTION RETIREMENT PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2022 AND 2021**

4. FAIR VALUE MEASUREMENTS – CONTINUED

Real estate account: A variable annuity account is valued based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on TIAA-CREF website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the Fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has monies available to meet participant redemption, transfer, or cash withdrawal requests. There are no unfunded commitments or redemption restrictions from participants in the Plan who invest in this account.

Fixed annuity contracts: As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. The fair value of the fixed annuity contracts is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. See also Note 3 for discussion of the TIAA Traditional Annuity.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies, or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. CERTIFIED INFORMATION

Certain information related to investments disclosed in the accompanying financial statements and the ERISA-required supplemental schedule, including investments held as of December 31, 2022 and 2021, and net depreciation in fair value of investments, and interest and dividends for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA, CREF and TIAA, FSB, (the Certifying Entities) the custodians of the Plan.

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments include guaranteed investment contracts, variable annuity accounts, and shares of mutual funds managed by the Certifying Entities. Therefore, transactions pertaining to these investments qualify as party-in-interest transactions. As described in Note 2, the Plan paid to TIAA administrative fees of \$38,729 for the year ended December 31, 2022. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. TAX STATUS

Effective January 1, 2019, the Plan Sponsor adopted a volume submitter Plan document sponsored by TIAA. The IRS issued an advisory letter dated August 7, 2017 stating that this Plan document as then designed was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and operating in accordance with the applicable requirements of Section 403(b) of the IRC and, therefore, believes that the Plan is qualified.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan Sponsor has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
