Independent Auditor's Report

To the Plan Administrator of
CAMS 401(k) Plan
Houston, Texas

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CAMS 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report;

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP"); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CAMS 401(k) PLAN

Notes to Financial Statements

1. Description of Plan

The following description of the CAMS 401(k) Plan (the “Plan”) provides general information only. Participants should refer to the “Plan Agreement” for a more complete description of the Plan’s provisions, a copy of which is available from Consolidated Asset Management Services, LLC (the “Company”).

General

The Plan is a defined contribution plan covering substantially all employees of the Company and its affiliates (collectively referred to as the “Employer” or the “Plan Administrator”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and subsequent related amendments and revisions.

Eligibility

Employees are eligible to become a participant in the Plan on their date of hire. Union employees and employees who are non-resident aliens, as defined in the Plan Agreement, are not eligible to participate in the Plan.

Administration of the Plan

Voya Retirement Insurance and Annuity Company (“Voya” or the “Trustee”) is the investment trustee and financial recordkeeper for the Plan’s participant-directed accounts. The third-party administrator for the Plan is Economic Group Pension Services (“EGPS”).

Contributions

The Plan allows participants to contribute up to 100% of their eligible annual compensation on a pre-tax or after-tax basis, subject to certain limits prescribed by law. Participants may also contribute amounts representing distributions (rollovers) from other qualified defined benefit or defined contribution plans. The Employer makes matching contributions to the Plan for all participants on a uniform basis. During the year ended December 31, 2022, the Employer made safe harbor qualified matching contributions equal to 100% of elective deferrals that did not exceed 4% of compensation, subject to limits set forth by the Internal Revenue Service (“IRS”), totaling \$4,808,478. Furthermore, the Employer may make an additional discretionary profit sharing contribution to the Plan. Employees are eligible to receive any discretionary profit sharing contribution if they have completed six months of service and will receive the discretionary profit sharing contribution if they are employed on the last day of the plan year. For the year ended December 31, 2022, the Employer made discretionary profit sharing contributions to the Plan equal to 3% to 9% of eligible compensation as specified in the Plan Agreement. The discretionary profit sharing contributions totaled \$4,913,871, of which \$221,910 was funded during 2022 and the remaining amount of \$4,691,961 is to be funded during 2023 and is included as employer contributions receivable on the statement of net assets available for benefits as of December 31, 2022.

Participant Accounts

The Plan provides for participant-directed investment programs for individual participants as provided by the Trustee. Each participant’s account is credited with the participant’s contribution and allocations of (a) the Employer’s matching and discretionary profit sharing contributions and (b) plan earnings or losses and charged with an allocation of certain administrative expenses. Allocations are based on participant compensation or account balances as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants may change their investment options daily.

CAMS 401(k) PLAN

Notes to Financial Statements

Vesting

Participants are immediately vested in their contributions and in the Employer's safe harbor matching contributions plus actual earnings or losses thereon. Vesting in any discretionary profit sharing contributions, including earnings or losses thereon, is based upon years of continuous service. A participant is 100% vested in discretionary profit sharing contributions after three years of credited service.

Notes Receivable from Participants

Participants are allowed to borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance less their highest outstanding note amount during the prior 12 months. The notes are secured by the balance in the participant's vested account balance and bear interest at a rate commensurate with local prevailing rates as determined appropriate by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Note terms range from one to five years or up to fifteen years for the purchase of a participant's primary residence.

Forfeitures

Forfeitures of discretionary profit sharing contributions may be used at the Employer's discretion to pay administrative expenses or to reduce employer contributions. At December 31, 2022 and 2021, unallocated forfeitures totaled \$42,903 and \$11,224, respectively. During the year ended December 31, 2022, \$68,319 of forfeitures were used to reduce employer contributions. No forfeitures were used to pay administrative expenses during the year ended December 31, 2022.

Payment of Benefits

Benefits are payable to participants in the event of retirement, death, disability, or termination of employment. Upon normal retirement, disability or death, a participant or a designated beneficiary is entitled to receive 100% of their account balance. Upon termination, a participant is entitled to receive the vested portion of their account balance. In-service distributions may be made from the participant's vested account balance upon attainment of age 59½ or for financial hardship in accordance with the Plan Agreement. Benefit payments are made in the form of a lump sum payment, as defined in the Plan Agreement. Non-lump-sum payments are also permitted under the Plan Agreement. All hardship withdrawal requests are subject to approval by the Plan Administrator.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States of America ("GAAP") as codified by the Financial Accounting Standards Board in its Accounting Standards Codification ("ASC").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

CAMS 401(k) PLAN

Notes to Financial Statements

Investment Valuation and Income Recognition

At December 31, 2022 and 2021, all investments are held by the Trustee pursuant to group annuity contracts and are held in various pooled separate accounts and a fully benefit-responsive guaranteed investment contract ("GIC" or "Fixed Account").

Investments are reported at fair value (except for fully benefit-responsive guaranteed investment contract, which is reported at contract value and approximates fair value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, Trustee, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The change in the current value of investments (including investments bought and sold) during the period are reflected in the statement of changes in net assets available for benefits as net appreciation or depreciation in fair value of investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan Agreement. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

Risk and Uncertainties

The Plan provides for various investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.

Payment of Benefits

Benefits are recorded as a reduction to net assets available for benefits when paid.

Fees and Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan Agreement. Expenses that are paid directly by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other participant directed expenses are charged directly to the participant's account and are included in administrative expenses of the Plan. Investment related expenses are included in net appreciation or depreciation in fair value of investments.

Plan Transfers

In addition to this Plan, the Company sponsors another employee benefit plan available to employees covered under certain collective bargaining agreements. From time to time, employees may move their participation from one plan to the other upon changes in their employment status. Balance transfers resulting from these changes in plan participation are included in transfers from (to) other qualified plans in the accompanying statement of changes in net assets available for benefits.

CAMS 401(k) PLAN

Notes to Financial Statements

3. Information Certified by Trustee

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2022 and 2021, and net depreciation in fair value of investments and interest income from fixed account for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya, a qualified institution.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedule and reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedule is in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 requires disclosure to the extent to which fair value is used to measure financial and non-financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. ASC 820 establishes a three-level valuation hierarchy based upon the transparency of inputs utilized in the measurement and valuation of financial assets or liabilities as of the measurement date:

- *Level 1* - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- *Level 2* - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - a. Quoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in inactive markets;
 - c. Inputs other than quoted prices that are observable for the asset or liability; and
 - d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

- *Level 3* - Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

CAMS 401(k) PLAN

Notes to Financial Statements

The following is a description for the valuation methodology used for assets measured at fair value. There have been no changes in methodology used at December 31, 2022 and 2021.

- *Pooled Separate Accounts:* These accounts are valued on a net unit basis as determined by Voya on the last business day of the plan year. The Plan discloses investments at fair value using the Net Asset Value ("NAV") per share as the practical expedient within the fair value structure; however, assets using NAV do not need to be categorized within the three levels of the fair value hierarchy. All of the Plan's investments recorded at fair value of \$110,844,314 and \$123,245,693 at December 31, 2022 and 2021, respectively, are pooled separate accounts. The calculated NAV is directly related to the net asset value of the underlying investment adjusted for dividends or distributions received by the Trustee and the daily equivalent of any fees charged. The underlying investments held by each pooled separate account are traded on an active market. Due to the nature of these investments, there are no unfunded commitments. Participant-directed redemptions are allowed daily with no restrictions. Furthermore, the underlying investments of these pooled separate accounts consist solely of mutual funds, each of which follows the investment strategies of those underlying investments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Investment in Insurance Contract

The Plan also invests in a fully benefit-responsive investment contract, the Voya Fixed Account, characterized as a fixed account. The fixed account is not a separate account investment choice but it is an investment in the Trustee's general account which seeks to protect against any loss of principal. There are no reserves against contract value for credit risk of Voya or otherwise. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate on a daily basis. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return. The average yield of the fixed account based on actual earnings and interest credited to participants yielded 1% for the year ended December 31, 2022. The fixed account's minimum guaranteed fixed rate of return, which is guaranteed by Voya was 1% for the year ended December 31, 2022. The guaranteed interest rate in effect as of December 31, 2022 and 2021 was 1%. Certain events, such as the premature termination of the contract by the Plan Administrator or the termination of the Plan, would limit the Plan's ability to transact at contract value with Voya. The Plan Administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with Plan participants is not probable.

The Plan accounts for the fixed account, a GIC, in accordance with ASC 946 and 962A whereby the contract value is equal to participant deposits minus participant withdrawals plus credited interest. Interest credited is net of expenses. Contract value may be subject to market value adjustments in connection with contract holder directed withdrawals or under limited circumstances for certain in-service participant withdrawals. The fair value of the fixed account which consists of an underlying GIC owned by the Plan is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

CAMS 401(k) PLAN

Notes to Financial Statements

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan Agreement to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA. Upon any full or partial termination, all amounts credited to affected participants will become fully vested and not subject to forfeiture. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

7. Income Tax Status

The Plan uses a Volume Submitter 401(k) Profit Sharing Plan sponsored by Malcolm Thompson & Associates Inc., an affiliate of EGPS, who received an opinion letter dated September 30, 2014 from the Internal Revenue Service that the form of the plan is acceptable under section 401 of the Internal Revenue Code ("IRC") for use by employers for the benefit of their employees. The Plan has been amended since the adoption of the Plan; however, the Employer believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

8. Party-In-Interest Transactions

During the year, the Plan invested in various pooled separate accounts and a fixed account offered by Voya. These investments are considered party-in-interest transactions because Voya serves as trustee and record keeper for the Plan. Notes receivables from participants also qualify as parties-in-interest transactions. The Plan Administrator has approved of these transactions and functions. For the year ended December 31, 2022, fees paid by the Plan to the Trustee for administrative services rendered totaled \$414,752.

9. Subsequent Events

The Plan evaluates all events and transactions that occur after the date of the financial statements but before the financial statements are available to be issued. The Plan Administrator evaluated such events and transactions through October 16, 2023, the date the financial statements were available for issuance and determined that no subsequent events have occurred which would require recognition or disclosure in the financial statements or notes to the financial statements.
