INDEPENDENT AUDITOR'S REPORT

To the Trustees of the Standard Concrete
Products, Inc. 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Standard Concrete Products, Inc. 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Standard Concrete Products, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Financial Statements section –

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management has determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Standard Concrete Products, Inc. 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Standard Concrete Products, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Standard Concrete

Products, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are condition or events, considered in the aggregate, that raise substantial doubt about Standard Concrete Products, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal-control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500 - Schedule H - Part IV, Item 4i - Schedule of Assets (Held at Year End) as of December 31, 2022, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS

STANDARD CONCRETE PRODUCTS, INC. 401(k) PLAN

NOTE A -- DESCRIPTION OF THE PLAN

The following description of the Standard Concrete Products, Inc. 401(k) Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan, established by Standard Concrete Products, Inc. (Sponsor), covering all employees, with the exception of union employees, nonresident aliens and leased employees, who are age twenty-one (21) or older. Employees are eligible to participate as of the first day of the month after two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. The trustees oversee governance of the Plan and determine the appropriateness of the Plan's investment offerings, monitor investment performance and report to the Plan Sponsor's Board of Directors.

Contributions: Each year, participants may elect to defer up to 80% of their compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective trust as investment options for participants. The Sponsor may make a discretionary contribution in the form of a matching contribution or a discretionary profit-sharing contribution on the employee's behalf. Sponsor discretionary contributions are invested based on the participant's elections. Contributions are subject to statutory limitations.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary matching contribution, (b) the Company's discretionary profit-sharing contribution and (c) Plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based upon participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions, employer matching contributions and profit-sharing contributions, plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the vested balance in the participant's account and bear an interest rate ranging from 4.25% to 8%. Principal and interest is paid ratably through monthly payroll deductions for salaried employees and through weekly payroll deductions for hourly employees.

Payment of Benefits: On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. For termination of service for other reasons, the

NOTE A -- DESCRIPTION OF THE PLAN - Continued

full value of the participant's vested account shall be payable if the participant consents or his account is \$5,000 or less. If the participant fails to consent to the distribution of his account and his account exceeds \$5,000, he shall receive a lump-sum payment of his account at normal retirement age as defined in the Plan document.

NOTE B -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements are presented using the accrual basis of accounting.

The collective trust investment invests primarily in guaranteed investment contracts or funding agreements, security-backed investment contracts, separate accounts issued or wrapped by insurance companies, banks or other financial institutions, or externally managed stable value commingled investment funds. The fund may also invest in high-quality money market instruments. The investment contracts are non-transferable but provide for benefit-responsive withdrawals by plan participants at contract value. Contract value represents invested principal plus contractual interest earned thereon, less participant withdrawals and administrative expenses. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent participant loans are recorded as a benefit payment based on the terms of the Plan document. As of December 31, 2022 and 2021, no allowance for credit losses has been recorded.

Receivables: The Plan believes that receivables are fully collectible and that no allowance for uncollectible accounts is needed.

Investment Valuation and Income Recognition: Investments are reported at fair value, except for fully benefit-responsive contracts which are reported at contract value (See Note I). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as those held during the year. Additionally, the fair market value adjustment of investments held in the fixed account and the net asset value adjustment for

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE B -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

investments held in pooled separate accounts during 2021 through February 1, 2022, are included in the net appreciation (depreciation).

Payment of Benefits: Benefits are recorded when paid.

Operating Expenses: All administrative expenses of maintaining the Plan are paid either by the Sponsor or from Plan assets, at the option of the Sponsor. During 2022 and 2021 the Plan paid a portion of its administrative expenses. Fees related to the administration of notes receivable from participants and withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Date of Management's Review: The Plan has evaluated subsequent events through the date of the auditor's report which is the date when the audited financial statements were available to be issued.

NOTE C -- FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying Statements of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels:

- Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs that are unobservable inputs and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are only used when Level 1 inputs are not available. Level 3 inputs would only be used in level 1 or level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the periods presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021:

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE C -- FAIR VALUE MEASUREMENTS - Continued

Mutual Funds: Values at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the US Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed Account: The fair values of the fixed-annuity contract are reported based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Pooled Separate Accounts: The fair value of pooled separate accounts for which quoted market prices are not available are valued at their accumulation unit value (AUV). The AUV is determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the account's separate account charges.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

<u>Assets at Fair Value Measurements as of December 31, 2022</u>			
	<u>Fair Value</u>	<u>Quoted Prices in Active Markets (Level 1)</u>	<u>Total</u>
Mutual Funds	\$ 3,949,975	3,949,975	3,949,975
Total	\$ 3,949,975	\$ 3,949,975	\$ 3,949,975

<u>Assets at Fair Value Measurements as of December 31, 2021</u>			
	<u>Fair Value</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Net Asset Value as Practical Expedient</u>
Pooled Separate Accounts measured at net asset value	\$ 0	\$ 0	\$ 5,016,644
Fixed Account	1,012,211	1,012,211	0
Total	\$ 1,021,211	\$ 1,021,211	\$ 5,016,644

In accordance with Subtopic 820-10, pooled separate accounts that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits. This class includes investments in pooled separate accounts that invest in mutual funds consisting of several underlying investments. These investments can be redeemed (if currently eligible) on a daily basis in the form of distributions. These distributions are typically made within ten days to

two weeks of the date of request and include a daily redemption notice period. There are no unfunded commitments related to investments. The following table lists each pooled separate account and its fair value at each respective reporting period. - (a) This class of investments seeks long-term total return and current income. The fund seeks to achieve its objective by investing primarily in a diversified portfolio of equity securities. Under normal circumstances, it will invest at least 80 percent of its assets in equity securities and at least 80 percent of its assets in dividend paying securities. The fund may invest in securities of companies with any market capitalization, but will generally focus on large cap securities. It may also invest in convertible securities and non-convertible preferred stock. The fund may invest up to 25 percent of its total assets in securities of foreign issuers.
- (b) These classes include investments that seek to provide a total return consistent with an asset allocation targeted at retirement approximated in the years 2025 - 2065, respectively. Under normal market conditions, the Portfolio invests at least 80 percent of its net assets (plus borrowings for investment purposes) in a combination of

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE C -- FAIR VALUE MEASUREMENTS - Continued

underlying funds which are passively managed index funds. These underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments.

- (c) This class seeks to provide a combination of total return and stability of principal consistent with an asset allocation targeted at retirement. Under normal market conditions, the portfolio invests at least 80 percent of its net assets (plus borrowings for investment purposes) in a combination of underlying funds, which are passively managed index funds. These underlying funds invest in U.S. stocks, international stocks, U.S. bonds, and other debt instruments.
- (d) This class includes investments in income-producing equity instruments and investment-grade quality debt instruments. Under normal market conditions, the portfolio invests at least 80 percent of its net assets (plus borrowings for investment purposes) in equity and income securities at the time of investment. The investment seeks total return consisting of long-term capital appreciation and current income.
- (e) This class invests at least 80 percent of its net assets (plus borrowings for investment purposes) in equity securities of small-capitalization companies. The sub-advisor defines small-capitalization companies as companies with a market capitalization equal to those within a universe of Russell 2000 Index stocks at the time of purchase.
- (f) This class includes investments in 100 percent money market funds. The investment seeks to provide high current return, consistent with preservation of capital and liquidity, through investment in high-quality money market instruments while maintaining a stable share price of \$1.00. The portfolio invests at least 99.5 percent of its total assets in government securities, cash and repurchase agreements collateralized fully by government securities or cash.
- (g) This class seeks investment results that correspond to the total return (which includes capital appreciation and income) of the Russell Top 200 Index. The fund invests at least 80 percent of its net assets (plus borrowings for investment purposes) in equity securities of companies, which at the time of purchase are included in the index; convertible securities that are convertible into stocks included in the index, other derivatives whose economic returns are, by design, closely equivalent to the returns of the index or its components, and exchange-traded funds that track the index.
- (h) This class seeks investment results that correspond to the total return (which includes capital appreciation and income) of a widely accepted international index. The fund invests at least 80 percent of its net assets (plus borrowings for investment purposes) in equity securities of companies, which at the time of purchase are included in the index, convertible securities that are convertible into stocks included in the index, other derivatives whose economic returns are, by design, closely equivalent to the returns of the index or its components and exchange-traded funds that track the index.

- (i) This class invests at least 80 percent of its net assets (plus borrowings for investment purposes) in common stock of mid-sized U.S. companies. The investment seeks long-term capital appreciation. It normally invests in companies that the sub-advisor believes have above average prospects for growth. The portfolio may invest in real estate related securities including real estate investment trusts.
- (j) This class invests at least 80 percent of its net assets (plus borrowings for investment purposes) in intermediate-term bonds. The investment seeks long-term capital appreciation. Under normal market conditions, the fund invests in a portfolio of bonds, including but not limited to corporate, government and mortgage bonds which are rated at least BBB by S&P Global Ratings.
- (k) This class includes investments in common stocks, nonconvertible preferred stocks and convertible securities. The fund normally invests at least 65 percent of its total assets in equity and equity-related securities of companies that exceed \$1 billion in market capitalization and that the manager believes have above average growth prospects. These companies are generally considered medium-to-large capitalization companies. The investment seeks long-term growth of capital.
- (l) This class seeks to provide capital appreciation; current income is a secondary objective. The fund invests at least 80 percent of its net assets (plus borrowings for investment purposes) in U.S.-traded equity securities of mid-capitalization companies. The sub-advisor considers mid-capitalization companies to be companies with market capitalizations generally within those of companies in the Russell Midcap Index.
- (m) This class seeks maximum total return consistent with preservation of capital and prudent investment management. The fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in Fixed Income instruments that are economically tied to at least three non-US countries. The fund may invest, without limitation, in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage-or-asset-backed securities. The fund may also invest up to 10% of its total assets in preferred securities.
- (n) This class seeks investment results that correspond to the total return (which includes capital appreciation and income) of the Russell Midcap Index. The fund invests at least 80 percent of its net assets (plus borrowings for investment purposes) in equity securities of companies, which at the time of purchase are included in the index, convertible securities that are convertible into stocks included in the index, other derivatives whose economic returns are, by design, closely equivalent to the returns of the index or its components, and exchange-traded funds that track the index.

The Plan's policy is to recognize transfers into and out of Level 2 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2022 and 2021, there were no significant transfers into or out of Level 2.

NOTE D -- INVESTMENT AND CONTRACT INFORMATION CERTIFIED BY THE TRUSTEE

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022, and net appreciation (depreciation) in fair value of investments, interest and dividends earned and interest earned on notes receivable from participants for the period February 1, 2022 through December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Reliance Trust Company (the trustee of the Plan as of February 1, 2022).

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments held at December 31, 2021, and net appreciation in fair value of investments, including the market value adjustment, interest and dividends earned and interest earned on notes receivable from participants for the year ended December 31, 2021, and the one month ended January 1, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Retirement and Insurance Annuity Company (the trustee of the Plan through January 31, 2022).

For the plan year ended December 31, 2021, and through January 31, 2022, the Plan had a deposit administration contract with Voya Retirement and Insurance Annuity Company. The contract maintained contributions in pooled separate accounts and fixed investment funds offered by the trustee. The accounts were credited with actual earnings on investments and charged for Plan withdrawals. The contract is included in the accompanying financial statements at the current values reported to the Plan by Voya Retirement and Insurance Annuity Company. The crediting interest rate for all fixed-income accounts was based on a formula agreed upon with the issuer, but it could not be less than one percent. Such interest rates were reviewed on an annual basis for resetting purposes. The market value adjustment was the approximate amount that would be paid if the contract were terminated as of the last day of the year. This amount is included in net appreciation in fair value of investments in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE E -- RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds or investment contracts which are managed by Reliance Trust Company or Voya Retirement and Insurance Annuity Company, respectively. Reliance Trust Company is the trustee as defined by the Plan effective February 1, 2022, and Voya Retirement and Insurance Annuity Company was the trustee as defined by the Plan through January 31, 2022.

These party-in-interest transaction are exempt from the prohibited transaction rules of ERISA.

NOTE F -- TERMINATION OF PLAN

Although it has not expressed any intent to do so, the Sponsor reserves the right to discontinue contributions or to terminate the Plan at any time subject to provisions of ERISA. Upon termination of the Plan, the participants shall become fully vested and receive the value of their accounts after payment of Plan expenses.

NOTE G -- INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan sponsor and the third-party administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No tax liabilities for uncertain positions have been recorded in the accompanying Statements of Net Assets Available for Benefits. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2019.

NOTE H -- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the accompanying Statements of Net Assets Available for Benefits.

NOTE I -- COMMON COLLECTIVE TRUST -- STABLE VALUE FUND

The Plan has invested in a stable value investment fund (Fund) that meets the criteria of a fully benefit-responsive investment contract and is therefore reported at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals. The Fund is comprised of a portfolio of short-term investments, traditional guaranteed investment contracts issued by an insurance company or other financial institution, synthetic investment contracts and wrap contracts that provide for participant transactions to be executed at contract value. Short-term investments are valued at contract value which approximates cost plus accrued interest which approximates fair value. Traditional guaranteed investment contracts are valued at contract

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE 1 -- COMMON COLLECTIVE TRUST -- STABLE VALUE FUND - Continued

value which represents principal plus accrued interest earned. These investments are not tradable on a secondary market but provide for benefit-responsive withdrawals by plan participants at contract value. Synthetic investment contracts consist of security-backed guaranteed investment contracts (SBIC) which represent individual assets placed in a trust, with ownership by the Fund; a third-party issues a wrap contract that provides for participant transactions to be executed at contract value. Individual assets of the synthetic investment contract are valued at fair value, on the basis of valuations furnished by Trustee-approved independent pricing services. SBIC's consist of investment-grade fixed income securities, owned by the Fund, which are "wrapped" by an insurance company, bank or other financial institution. The underlying securities of SBIC's may be either held-to-maturity, or the securities may be bought and sold during the life of the contract. Under specified circumstances, the wrap provides for benefit payments to the Fund for the benefit of plan participants at contract value.

The wrap contracts amortize the realized and unrealized gains and losses on the underlying bonds over the duration of the underlying bonds through adjustments to the future interest crediting rates. The crediting rates are designed to produce a return experience over time equal to the cumulative market return on the covered assets net of fees, but without the day-to-day fluctuations in value typically associated with fixed income securities. Primary variables impacting future crediting rates of the Fund include level of market interest rates over time, amount of timing of plan and participant contributions, transfers and withdrawals into and out of the contract, investment returns generated by the bonds backed by the wrap contracts and the duration of the underlying investments backed by the contracts. Because changes in market interest rates affect the yield to maturity and the market value of the underlying bonds, they can have a material impact on the contracts crediting rates. To the extent that the Fund has unrealized and realized losses, the future interest crediting rates will be lower over time than the current yield of the portfolio to account for this loss. If the portfolio generated realized and unrealized gains, future crediting rates will be higher over time than the current yield of the portfolio and the investor currently redeeming the Fund's units may forego any benefit related to future crediting rates higher than the current yields of the portfolios. The level and timing of contributions allocated to, and withdrawals from the wrap contracts affect the crediting rates and can result in different crediting rates than would be the case if the level and timing of contributions and withdrawals were different. All wrap contracts provide for a minimum crediting rate of zero percent. In the event that a crediting rate should fall to zero, and participant withdrawals from the contract occur that exhaust the market value of the underlying portfolio that is being wrapped, the wrap issuers will pay the Fund the shortfall needed to maintain the crediting rate at zero. This is intended to protect the participants' principal and accrued interest.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The contract value of the Fund and the underlying investment contracts at December 31, 2022, was \$1,488,482. All of the contracts that the Fund purchases are benefit responsive at contract value for all plan permitted, participant directed transactions. There are no exceptions to this stipulation. Due to the size of the Fund and the specific percentage allowances negotiated by the Fund, it is highly unlikely that any event would occur that would limit the Fund's ability to transact at contract value with each issuer.

NOTES TO FINANCIAL STATEMENTS - Continued

NOTE I -- COMMON COLLECTIVE TRUST -- STABLE VALUE FUND - Continued

Participant directed withdrawals from the contracts are paid at the contract value. These events include transfers to other Plan investment options and payments because of retirement, termination of employment, disability and death and in-service withdrawals as permitted by the Plan.

Certain events may limit the ability of the Fund to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. Such events include the following: (a) participant withdrawals based on advice or direction from the plan sponsor, administrator or other agent of the foregoing, (b) changes to the Plan's prohibition on competing investments, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, complete or partial termination of the plan sponsor or merger of plans) that cause a significant withdrawal from the Plan, (d) any plan withdrawal other than a participant-directed withdrawal, (e) a failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (f) the establishment of a defined contribution plan that competes for employees contributions. Furthermore, certain events would allow the issuers to terminate the contracts with the Plan and settle at amounts different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation.
