INDEPENDENT AUDITOR'S REPORT

Pension Fund Trust and Investment Committee of Xylem Inc.
Xylem Standard Xchange Savings Plan for Hourly Employees
Rye Brook, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Xylem Standard Xchange Savings Plan for Hourly Employees (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section.

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Description of the Plan

The following description of the Xylem Standard Xchange Savings Plan for Hourly Employees (the "Plan") is provided for general information purposes only. Participants ("Participants" or "Members") should refer to the Plan document for more complete information.

General - The Plan is a defined contribution plan sponsored by Xylem Inc. (the "Company" and "Plan Sponsor") covering the hourly employees of Fluid Handing, LLC ("Employer") who are members of the bargaining unit represented by Local 897 of the United Steelworkers as described by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was established April 1, 1997, by ITT Corporation as the ITT Heat Transfer Savings Plan for Hourly Employees. Effective October 31, 2011, The Xylem Inc. Retirement Savings Master Trust (the "Master Trust") was created by the Company to serve this and other Company savings plans.

The Pension Fund Trust and Investment Committee (“PFTIC”) as appointed by the Board of Directors of the Company, controls and manages the operation and administration of the Plan, and directs the managers of the Plan's investments.

The Company entered into a trust agreement with Fidelity Management Trust Company ("Fidelity"), effective July 1, 2016, to act as the Plan trustee, custodian and record keeper ("Trustee").

Investments in the Master Trust at December 31, 2022, are shown on the Master Trust Schedule of Assets (Held at End of Year) under identification number 45-3304527.

The Plan was restated effective January 1, 2022 to perform administrative updates which had no material impact to the Plan.

Eligibility - Any regular full-time hourly person employed by the Employer who is a union member becomes eligible to participate in the Plan on the first day of the month immediately following one month of service with the Employer. Union members who are temporary or part-time employees are eligible once they reach the age of 21 and upon completion of either (a) at least 1,000 hours of service in a 12 month period, or (b) at least 500 hours of service during each of the three consecutive 12-month periods.

Contributions - Under the provisions of the Plan document, allowable contributions are outlined as follows:

Participant Contributions - A participant may generally elect to save 2% to 25% of base salary, as defined by the Plan document. A participant may designate savings as before-tax savings, after-tax savings, Roth savings or any combination of the three. A participant who is a highly compensated employee may be limited to less than 25% due to certain tests required under the Internal Revenue Code ("IRC").

Employer Contributions - The matching employer contribution for the Plan is 50% of the first 6% contributed by a participant. Participants have the option of investing the matching employer contributions in any available investment option. Additionally, the Company provided a core contribution of $125 per calendar quarter to Participants hired after October 17, 2016, who are not eligible to participate in Xylem Pension Plan for U.S. Hourly Employees. The employee must be actively employed and eligible for the Plan on the last day of the quarter to receive the core contribution.

Participant Accounts - Each participant's account is credited with the participant's contribution, the matching employer contribution, and an allocation of the Plan's investment earnings, forfeitures of matching employer contributions, and charged with the participant's withdrawals, loans, and an allocation of the Plan's investment losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants designate the Plan funds in which their contributions and the employer contributions are to be invested. All investments are participant-directed. Participant contributions can be invested in any or all of the various investment funds available in the Plan, except the Xylem Stock Fund or the brokerage account. Participants can elect to have all or a portion of their matching employer contributions invested in the Xylem Stock Fund held in the Master Trust, subject to limitations per the Plan document. Participants may elect to allocate contributions among these funds in multiples of one percent (1%).

Vesting - The participant's interest in their contributions is fully vested at all times. The Company contribution portion of the participant's account is vested based on their number of years of service. A year of service is a period during which the participant completes 1,000 hours of service, as defined by the Plan document. With less than one year of service, the employee is 0% vested. With one year of service, the employee is 20% vested. With two years of service, the employee is 40% vested. With three years of service, the employee is 60% vested. With four years of service, the employee is 80% vested. With five or more years of service, the employee is 100% vested.

Benefits to Participants - Participants, or their surviving beneficiary(ies), are entitled to the full vested value of their accounts following employment termination (including death, disability, or retirement) in a lump sum amount paid in cash or as a rollover to another qualified plan. In lieu of a lump sum payment, the participant can elect monthly, quarterly, semi-annual or annual installments, or partial distributions, as defined by the Plan document.

Participants are allowed to withdraw, at any time, any portion of after-tax participant contributions, and vested matching employer contributions, subject to Plan provisions. During the calendar year in which the Participant attains age 70 ½ (or age 72 if the Participant turned age 70 ½ after December 31, 2019), distribution from the Plan will commence in accordance with Section 401(a)(9) of the IRC.

Direct Rollover of Certain Distributions - With respect to an eligible rollover distribution, the participant may elect, at the time and in a manner as defined by the Plan document for such purpose, to have the Plan make a direct rollover of all or part of such withdrawal or distribution to an eligible retirement plan which accepts such rollover.

If a participant's account balance is greater than $1,000 but does not exceed $5,000 and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to another qualified plan within the election period, the account balance will be automatically rolled over to an Individual Retirement Account ("IRA") established in the participant's name.

If a participant's account balance is $1,000 or less and the participant fails to make an affirmative election to either receive the lump sum payment or have it directly rolled over to another qualified plan or an IRA within the election period, the account balance will be automatically paid out to the participant.

Forfeitures - Forfeitures result from termination of employment before full vesting has occurred. Forfeitures of matching employer contributions are used to offset future matching employer contributions or administrative expenses of the Plan. The remaining balances of forfeitures available to offset future matching contributions and administrative expenses as of December 31, 2022 and 2021 were $3,216 and $4,696, respectively. During the year ended December 31, 2022, no forfeitures were used to reduce matching Employer contributions; however, forfeitures were used to payment of eligible plan expenses.

Notes Receivable from Participants - Participants may borrow from their account balance (a "loan") in any whole dollar amount, which must be at a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of the participant's vested interest in their account, reduced by the highest outstanding loan balance, if any, during the prior 12-month period. A loan is deducted from the investments in a participant's account according to the hierarchy set by the Plan Administrator, per the Plan document. Participants are limited to one outstanding loan at a time. No new loans can be taken until current outstanding loans are paid off. There is a 30-day waiting period to request a new loan once the existing loans are paid off. General purpose loan terms range from 1 to 4.5 years. If the loan is used in the purchase of a primary residence, the loan term can be for a period of up to 14.5 years. The loans are secured by the balance in the participant's account and bear interest. The interest rate charged by the Plan is a reasonable rate of interest for loans commensurate with the interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances, as determined by the Plan document, and generally remains the same throughout the term of the loan. Principal and interest are paid ratably through payroll deductions. The interest rate is determined at the time the loan is processed, and shall remain in effect for the term of the loan.

Administrative and Investment Management Expenses - Expenses reasonably expected to be incurred to administer the Plan, including the Plan's recordkeeping and trustee services and loan origination fees associated with notes receivable from participants, are paid by the Employer.

The Plan Sponsor provides accounting and other administrative services to the Plan at no charge. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Investment management fees are charged to the Plan by the majority of the investment funds. These investment management fees are included in the net asset value ("NAV") of the fund calculated by the investment manager of the respective fund and are reflected by the Plan as a reduction of investment return for such investments.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties - The Plan holds an interest in various investments held within the Master Trust including common stock, collective trusts, guaranteed investment contracts and mutual funds (registered investment companies). Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the values of participants' account balances and the amounts reported in the financial statements.

The COVID-19 pandemic has created significant global volatility, uncertainty and economic disruption. The pandemic also has caused increased uncertainty in estimates and assumptions affecting the financial statements.

Investment Valuation and Income Recognition - The Plan's investments, other than fully benefit responsive contracts, are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). A more detailed description of the individual types of investments held in the Master Trust and their valuation methods can be found in Note 4, "Fair Value Measurements."

Contract value is the relevant measure for the Plan's fully benefit-responsive investment contracts, because contract value is the amount participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions Receivable - The Plan accrues contributions receivable based upon payroll deferrals during the Plan year but not yet deposited.

Benefits Paid to Participants - Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of participants who have elected to withdraw from the Plan but have not yet been paid as of December 31, 2022 and 2021. Additionally, for loans declared in default the principal and accrued interest are recorded as a distribution.

Notes Receivable from Participants - Notes receivable from participants are recorded at their unpaid principal balance, plus any accrued, but unpaid interest with no allowance for credit losses as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' accounts.

In the event that a participant fails to make repayment for three consecutive months, the loan is considered to be in default. In the event default is declared, the outstanding loan balance and any accrued interest may be treated as a withdrawal prior to termination of employment subject to the withdrawal provisions outlined in the Plan document and may be determined to be a fully taxable distribution from the Plan.

The financial statements include delinquent loan balances until specifically written off. The Form 5500 reflects the delinquent loans as distributions. See Note 11 for the reconciliation of the Plan's financial statements to Form 5500.

Note 3. Master Trust

All of the Plan investments consist of an interest in an investment account of the Master Trust established by the Company and administered by Fidelity as of December 31, 2022 and 2021, and for the year ended December 31, 2022. Use of the Master Trust permits the commingling of trust assets with the assets of certain other Company savings plans for investment and administrative purposes. Although assets of participating plans are commingled in the Master Trust, supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans are maintained. The net assets of the Master Trust are allocated based on individual participant account balances in the respective plans. The daily net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. There were no investment assets held outside the Master Trust at December 31, 2022 and 2021.

The following table presents the investments in the Master Trust and the Plan's interest in the Master Trust at December 31, 2022 and 2021:

	Master Trust Balances		Plan's Interest in Master Trust Balances	
	2022	2021	**2022**	2021
Member-directed investments at fair value:

The following table presents the depreciation in fair value for the year ended December 31, 2022, for the Master Trust's and the Plan's interest in the Master Trust, including gains and losses on investments bought and sold, as well as held during the year:

	Master Trust Activity	Plan's Interest in Master Trust Activity
	2022	**2022**
Realized loss on purchases and sales	**$ (47,851,279)**	**$ (215,889)**
Unrealized loss on investments held	**(137,945,407)**	**(1,355,081)**
Net depreciation in fair value of investments	**(185,796,686)**	**(1,570,970)**
Interest and Dividend income	**14,782,147**	**166,576**
Total investment loss of the Master Trust	**$ (171,014,539)**	**$ (1,404,394)**

Note 4. Fair Value Measurements

The Plan determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan uses a hierarchical structure to prioritize the inputs to valuation techniques used to measure fair value into three broad levels defined as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices (in non-active markets or in active markets for similar assets or liabilities), inputs other than quoted prices that are observable, and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 inputs are unobservable inputs for the assets or liabilities.

The Plan holds no Level 3 investments.

The fair value hierarchy is based on maximizing the use of observable inputs and minimizing the use of unobservable inputs when measuring fair value. Classification within the fair value hierarchy is based on the lowest level input that is significant to the fair value measurement.

NAV Practical Expedient is the measurement of fair value using the NAV per share (or its equivalent) as an alternative to the fair value hierarchy as discussed above.

The following are descriptions of the valuation methodologies and inputs used to measure fair value for major categories of investments.

- Employer Common Stock - Common stock is valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. Xylem Inc. stock is traded on the New York Stock Exchange ("NYSE") under the ticker symbol XYL and is valued at the Plan's year-end date. These securities are classified in Level 1 of the fair value hierarchy.

- Member-Directed Brokerage Accounts - Securities held in BrokerageLink are valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. These securities are classified in Level 1 of the fair value hierarchy.

- Mutual Funds - Mutual funds of registered investment companies are publicly traded in active markets and valued at the closing price reported on those major markets on the measurement date. Mutual funds are classified within Level 1 of the fair value hierarchy.

- Collective Trusts ("CTs") - CTs are valued at fair value at the Plan's year-end date using the NAV provided by the administrators of the CTs as a practical expedient. Investments in CTs can be redeemed on a daily basis and there are no unfunded commitments. CTs are not classified within the fair value hierarchy but are included in the tables below to assist in reconciling to the amount on the statements of net assets available for benefits.

While the Plan Administrator believes that the valuation methods are appropriate and consistent with how other participants in the market value these types of investments, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The following table sets forth by level within the fair value hierarchy a summary of the Master Trust investments measured at fair value at December 31, 2022.

	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	NAV Practical Expedient *	Total

Totals	**$** 588,032,370	$ -	$ -	$384,234,846	$ 972,267,216

* Investments measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value of the Plan.

Note 5. Guaranteed Investment Contract

The Master Trust holds fully benefit-responsive investment contracts (guaranteed investment contract or "GIC") with New York Life Insurance Company ("NY Life"), also referred to as the Stable Value Accounts that are reported at contract value. NY Life manages these investments and maintains the contributions in its pooled separate account (branded as the "Anchor Account"). The assets of the Anchor Account are owned by NY Life. The Anchor Account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has no maturity date, but contract years begin on January 1 of each year.

Under the terms of the contracts, interest will accrue daily, be credited monthly and the rate cannot be less than zero percent. The daily rate fluctuates based on the underlying investments. Realized gains and losses are amortized over the target duration.

Restrictions - Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. No direct transfers to competing investment options are permitted under the GIC. Any transfers out of the GIC must first go through a non-competing investment option and reside there for at least 90 days before transfer to a competing option, directed-brokerage account, or a mutual fund window. However, the GIC shall not be subject to a market value adjustment if the Plan provides at least 12 months advance written notice to NY Life. The following employer-initiated events may limit the ability of the Plan to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- Any communication given to Plan participants designed to influence a participant not to invest in the GIC or to transfer assets out of the GIC;
- The establishment of a defined contribution plan that competes with the Plan for employee contributions; and
- Complete or partial termination of the Plan or its merger with another plan.

Plan management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

Note 6. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at December 31, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity Management Trust Company.

Note 7. Exempt Party-In-Interest Transactions

ERISA section 406(a) prohibits various types of transactions between a plan and parties-in-interest. Parties-in-interest are defined by the Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. ERISA section 408(a) contains specific exemptions whereby plans may engage in certain transactions with parties-in-interest that are otherwise prohibited by law.

Fidelity is the Trustee and custodian for all of the Master Trust's investments. Fidelity or one of its affiliates manages BrokerageLink, as well as the Fidelity Government Money Market Fund.

There were administrative services fees paid to Fidelity or one of its affiliates during 2022.

Fidelity, the record keeper, received revenue from mutual fund service providers for services provided to the funds. This revenue was used to offset certain amounts owed to the record keeper for its administrative services to the Plan.

At December 31, 2022, the Master Trust held 244,727 shares of common stock of the Company with a cost basis of $9.4 million. At December 31, 2021, the Master Trust held 255,748 shares of common stock of the Company with a cost basis of $8.9 million. For the year ended December 31, 2022, the Master Trust recorded related net depreciation of $2.5 million and dividends of $0.3 million on Company stock.

Note Receivable from Participants also qualify as party-in-interest transactions and amounted to $155,065 and $166,501 at December 31, 2022 and 2021, respectively.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions set forth in ERISA. If the Plan is terminated for any reason, all accounts shall become fully vested and non-forfeitable.

Note 9. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Plan Administrator by a letter dated June 14, 2017, that the Plan is qualified and tax-exempt under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, as a result, the Plan's net investment income is exempt from taxation. Therefore, they believe the Plan was qualified and the related Master Trust was tax-exempt as of the financial statement date and no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 10. Subsequent Events

The Company has evaluated subsequent events for recognition and disclosure through October 16, 2023, which is the date the financial statements were available to be issued. No significant events were noted.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per the Form 5500 as of December 31, 2022 and 2021:

	2022	2021
Net assets available for benefits per the financial statements	**$ 9,309,400**	$ 10,563,832
