INDEPENDENT AUDITOR'S REPORT

To the ESOP Committee of
Camarata Masonry Systems
Employee Stock Ownership Plan
Houston, Texas

Opinion

We have audited the financial statements of Camarata Masonry Systems Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets (deficit) available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

(Continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

(Continued)

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Camarata Masonry Systems Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document and trust agreement for complete information.

Camarata Masonry Holding, Inc. (the Company) established the Plan effective October 15, 2018, as a leveraged employee stock ownership plan (ESOP) designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration: The Plan is administered by an ESOP Committee that is appointed by the Company. An independent trustee has been appointed by the Company to hold and invest plan assets for the benefit of plan participants.

General: On October 26, 2018, the Plan purchased 1,000,000 shares of Company common stock with a note payable of $2,526,000 (see Note 5). The stock was purchased at a price of $2.526 per share, for an aggregate purchase price of $2,526,000. The Company common stock is held in a trust established under the Plan.

The note payable is collateralized by the unallocated shares of Company common stock and is guaranteed by the Company. The Company has no rights against shares once they are allocated to participants in accordance with terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with the rights in allocated Company common stock (allocated), and Company common stock not yet allocated to employees (unallocated).

Eligibility: Employees are eligible to participate in the Plan after attaining age 21 and completing one year of service with the Company. Qualifying employees enter the Plan on the first day of January or July coinciding with or next following the date they meet the eligibility requirements. Collective bargaining employees, nonresident aliens, leased employees, and independent contractors are not eligible to participate in the Plan.

Contributions: The Company is obligated to make contributions to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. Contributions may be paid in cash, Company common stock, or a combination of both. Employee contributions are not permitted.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with an allocation of shares of Company common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Payment of Benefits: Distributions on account of death, disability, or retirement are made in lump sum in the plan year following the event. Distributions for other separations from service in which the participant's vested account does not exceed $5,000 will be made in a lump sum after the close of the plan year in which the participant's employment terminates. If the vested account balance exceeds $1,000 but does not exceed $5,000, and the participant does not elect a method of payment for distribution, then the distribution will be paid in a direct rollover to an individual retirement plan. If the vested account balance exceeds $5,000, distributions will commence in the fifth plan year following the separation from service and are made in five annual installments.

The amount to be distributed is based upon the immediate preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of Company common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Vesting: If a participant's employment with the Company ends for any reason other than normal retirement, permanent disability, or death, they will vest in the balances in their account based on years of service with the Company. Participants vest according to a graded vesting scale, with participants being 20% vested after two years of service and 100% vested after six years of service.

Retirement, Death, and Disability: A participant is entitled to 100% of his or her account balance upon normal retirement, death, or disability.

Put Option: Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 and have participated in the Plan for at least 10 years may elect to diversify a portion of their account. The option is available to a participant during the plan year after the plan year in which they are qualified and is available to the participant for the five consecutive years after that. The option allows the participant to diversify up to 25% of their Company common stock. In the last, or sixth, year in which the diversification option is available, the participant may elect a diversification of a cumulative amount up to 50% of a participant's Company common stock.

Administrative Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net depreciation in fair value of investments.

Plan Termination: The Company has the right to terminate the Plan at any time. If the Plan is terminated, the accounts of all affected participants will become fully vested. After termination of the Plan, the trust will be maintained until the plan benefits of all participants have been distributed in accordance with the terms of the Plan. Plan benefits may be distributed as soon as administratively feasible following termination of the Plan or distributions may be made following a participant's separation from service with the Company, in accordance with the terms of the Plan.

(Continued)

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Voting Rights: Participants shall be entitled to direct the trustee as to the voting of any voting shares of Company common stock allocated to their account with respect to any vote required for the approval or disapproval of any corporate merger or consolidations, recapitalization, reclassification, liquidation, dissolution, sale of substantially all the assets of a trade or business, or other similar transactions. The trustee shall vote any unallocated shares held by the trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Forfeitures: The unvested portion of a terminated participant's account balance will be allocated as a forfeiture to participants. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures allocated to participants accounts as of December 31, 2022 and 2021 were $7,360 and $9,008, respectively.

Subsequent Events: The Plan has evaluated subsequent events through October 18, 2023, the date the financial statements were available to be issued.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the Unites States of America requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition: The shares of Company common stock are reported at fair value. Fair value is the price that would be received by the Plan for the sale of an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. See Note 4 for discussion of the fair value measurements.

Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The plan investments consist of the Company common stock, which is exposed to various risks, such as interest rate, market, credit, and risks related to global events, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with this investment in the Company common stock and to uncertainties inherent in the estimates and assumptions, it is at least reasonably possible that changes in the value of the Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

(Continued)

NOTE 2 – **SUMMARY OF ACCOUNTING POLICIES** (Continued)

The Plan may be subject to legal proceedings that arise in the ordinary course of operations. In the opinion of the Company, the aggregate liability, if any, with respect to these actions will not have a materially adverse effect on the plan's net assets available for benefits.

NOTE 3 – INVESTMENTS

The plan's investments are presented in the following table at December 31:

	2022		
	Allocated	Unallocated	Total
Number of shares	229,758	770,242	1,000,000
Cost	$ 588,180	$ 1,971,820	$ 2,560,000
Estimated fair value	$ 114,419	$ 383,581	$ 498,000

	2021		
	Allocated	Unallocated	Total
Number of shares	181,925	818,075	1,000,000
Cost	$ 465,728	$ 2,094,272	$ 2,560,000
Estimated fair value	$ 118,797	$ 534,203	$ 653,000

NOTE 4 – FAIR VALUE MEASUREMENTS

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant and observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2022			
	Level 1	Level 2	Level 3	Total
Investment in Camarata Masonry Holding, Inc. common stock	$ -	$ -	$ 498,000	$ 498,000
Investment assets at fair value	$ -	$ -	$ 498,000	$ 498,000

	2021			
	Level 1	Level 2	Level 3	Total
Investment in Camarata Masonry Holding, Inc. common stock	$ -	$ -	$ 653,000	$ 653,000
Investment assets at fair value	$ -	$ -	$ 653,000	$ 653,000

During the year ended December 31, 2022, the Plan's investments appreciated in value by $(155,000) and had no purchases, issuances, or transfers between levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Company Common Stock: The Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the income and market valuation techniques as illustrated in the following table:

Instrument	2022 Fair Value	2021 Fair Value	Principal Valuation Technique	Unobservable Inputs
Company common stock	$ 498,000	$ 653,000	Income	EBITDA, net income, weighted-average cost of capital, discount rate discount for lack of marketability
			Market	Public comparables, revenue multiple, EBITDA multiple, discount for lack of marketability

(Continued)

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The valuation process involves the selection of an appraiser under contract with the right to cancel such contract at any time. The Company accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – NOTE PAYABLE

In 2018, the Plan entered into a $2,526,000 ESOP loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 47,832 shares being released and allocated for the year ended December 31, 2022.

The loan agreement provides for the note payable to be repaid over 25 years. The note payable bears interest at a fixed rate of 3.02% annually.

The scheduled amortization of the note payable for the next five years and thereafter is as follows:

2023	$ 101,040
2024	101,040
2025	101,040
2026	101,040
2027	101,040
Thereafter	1,515,408
Total	$ 2,020,608

NOTE 6 – CONCENTRATION OF INVESTMENTS

Included in investments at December 31, 2022 and 2021, are shares of the Company common stock amounting to $498,000 and $653,000, respectively. These investment amounts represent 100% of total assets at December 31, 2022 and 2021.

(Continued)

NOTE 7 – PARTY IN INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. As described in Note 1, the Company pays substantially all Plan expenses. Such providers are parties in interest under ERISA.

NOTE 8 – TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 3, 2019, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, the Company believes that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.
