Independent Auditors' Report

To the Participants and Plan Administrator of
Stevens Institute of Technology Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements

We were engaged to perform an audit of the financial statements of Stevens Institute of Technology Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2022 Financial Statements

We do not express an opinion on the accompanying 2022 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2022 financial statements.

Basis for Disclaimer of Opinion on the 2022 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits as of December 31, 2022, certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditors' report. However, because of the matters described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter - 2022 Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Other Matter - Auditors' Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, the predecessor auditors were unable to apply auditing procedures sufficient to determine the extent to which the accompanying 2021 financial statements may have been affected by these conditions.

The Plan has excluded from the 2021 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2021 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2021 financial statements.

In their report dated October 13, 2022, the predecessor auditors indicated that because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the 2021 financial statements.

Stevens Institute of Technology Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of the Plan

The following description of the Stevens Institute of Technology Defined Contribution Retirement Plan (the Plan) is provided for general information. More complete information regarding the Plan's provisions may be found in the plan document.

General

The Plan is a defined contribution plan established by Stevens Institute of Technology (the Sponsor) under the provisions of Section 403(b) of the Internal Revenue Code (IRC). The Plan, which was established in 1919, covers most full-time employees of the Sponsor, excluding students, nonresident aliens, and employees excluded by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent amendments. Plan contributions are invested at the direction of the participants under the Plan.

Plan Administration

The Vice President of Human Resources of the Sponsor is the administrator of the Plan (Plan Administrator) and is responsible for enrolling participants, sending plan contributions for each participant to the Plan's custodians, TIAA and The Variable Annuity Life Insurance Company (VALIC). While VALIC still provides custodial services to the Plan, funds are no longer contributed to VALIC accounts.

Eligibility and Service Rules for Participants

Unless employees are excluded, employees of the Sponsor who are at least 20 years of age are eligible to participate in the Plan immediately upon hire. Employees must work at least 20 hours a week within their first year of service to participate in the plan and 1,000 hours in their first year to be vested.

Contributions

Upon employment, participants are eligible to make pre-tax contributions to the Plan of certain percentages of eligible compensation subject to their employee category and subject to certain Internal Revenue Service (IRS) limitations through regular payroll deductions. The maximum deferral contributions that a participant can contribute to the Plan are based on established IRS limits which were \$20,500 in both 2022 and 2021. Additionally, participants over 50 years of age as of the end of the Plan year qualify for catch up contributions. Catch up contributions permit additional pretax contributions of an additional \$6,500 per year for the years ended December 31, 2022 and 2021.

The Sponsor makes certain matching contributions as outlined below:

Plan Contributions as a Percentage of Base Compensation (as defined) for Faculty, Exempt Employees and Campus Police:

Age	By the Sponsor	By the Participant

Stevens Institute of Technology Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

Plan Contributions as a Percentage of Base Compensation (as defined) for Union Employees:

Elective Deferral Percentage	Matching Contribution
0%	2% of compensation
1%, 2% or 3%	3% of compensation
4% up to a maximum of 10%	Percentage of compensation equal to elective deferral percentage

Plan Contributions as a Percentage of Base Compensation (as defined) for Nonexempt Staff:

Elective Deferral Percentage	Matching Contribution
0%	2% of compensation
1% up to IRS Limit	3% of compensation

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Sponsor's contribution portion of their accounts is based on years of continuous service. Participants are 100% vested after one year of credited service.

Payment of Benefits

Upon termination of service, retirement, death or total permanent disability, a participant may elect to receive a distribution of his or her entire accumulated plan balance, subject to the terms of the funding vehicles. Distribution options include lump-sum payments, partial payments, fixed annuities, variable annuities or installments. In addition, participants may elect in-service withdrawals of their elective deferral account balances after reaching age 59-1/2 or for hardship purposes. Rollover account balances may be withdrawn at any time, provided the rollover contributions have been properly segregated. Required minimum distributions commence at age 72.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Sponsor's contributions, and an allocation of plan earnings, net of investment expenses. Participants are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures may be used to reduce Sponsor contributions or to reduce plan expenses. At December 31, 2022 and 2021, forfeited nonvested accounts amounted to \$641 and \$39,593, respectively. During 2022 and 2021, employer contributions were reduced by \$77,078 and \$85,818, respectively, from forfeited nonvested accounts.

Plan Loans

Loans are available to participants through TIAA and VALIC, subject to certain limitations. Participants may borrow funds from the Plan which are secured by the participants' plan accounts. Loans may be taken for any reason and repayment is made through ACH Agreement. The minimum amount of a loan is \$1,000 and the maximum is the lesser of 50% of the value of the participant's vested interest in the participant's account in the Plan or \$50,000 reduced by the highest outstanding loan balance in the 12 month period prior to the new loan. The interest rate is a variable rate and is subject to change after the first year and then annually thereafter. The minimum term for a loan is one year. The maximum term is five years unless the loan is for the purchase of a principal residence in which case the maximum term is 10 years.

Plan loans are issued directly from the funds owned by TIAA and VALIC and loan proceeds are not removed from a participant's account balance. A portion of a participant's account balance is reserved or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. For active loans, investments up to 110% of the outstanding loan amount serve as collateral for the loan. Investments underlying defaulted loan balances are reflected in the statements of net assets available for benefits until a distribution even occurs.

At December 31, 2022 and 2021, participants had outstanding plan loan balances due to TIAA of \$1,663,091 and \$2,385,577, respectively. These loans were collateralized by Traditional Annuity of \$1,829,401 and \$2,647,821 as of December 31, 2022 and 2021, respectively. During 2022 and 2021, accumulations totaling \$621,195 and \$535,185 respectively were used to satisfy loan defaults, which have been recorded as benefits paid to participants in the accompanying statements of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting.

The Plan was established in 1919 and was historically viewed as an amalgamation of individual annuity and custodial accounts and the Plan Administrator and its service providers did not maintain financial information at a plan level. Because historical records were not maintained or are not available at a plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity and custodial accounts and related activity, issued to current and former employees prior to January 1, 2009. In recognition of these recordkeeping matters, the Department of Labor (DOL) released Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (FAB 2009-02), as transitional relief, to address situations where a Plan's management is not able to obtain historical records. If FAB 2009-02 is implemented, the DOL has indicated that they will not reject Form 5500 where contracts are excluded as long as certain conditions were met. Further, FAB 2009-02 suggests that plan administrators make good faith efforts to include known contracts. While the Plan Administrator has, in good faith, included all known contracts, because of certain incomplete records, there is uncertainty that all contracts have been included. However, the Plan Administrator believes that excluded annuities or custodial accounts, if any, have met those conditions.

Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuity (SRA) and Group Supplemental Retirement Annuity (GSRA), are considered fully benefit-responsive investment contracts. Other TIAA Traditional Annuity contract types, including the Retirement Annuity (RA), are not considered fully benefit-responsive. The VALIC Fixed Account Plus and Short-Term Fixed Account are considered fully benefit-responsive contracts. See Notes 3 and 5 for additional information regarding these contracts.

Stevens Institute of Technology Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's ERISA Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance companies. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net (depreciation) appreciation in fair value of investments.

Notes to Financial Statements

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 19, 2023, the date the financial statements were available to be issued.

The Secure 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management is evaluating the impact of the adoption and implementation of this legislation on the Plan.

3. TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, RA, SRA and GSRA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating RA contracts, the crediting interest rate was 5.85% and 3.34% as of December 31, 2022 and 2021. For accumulating SRA and GSRA contracts, the crediting interest rate was 5.75 % and 3.02% as of December 31, 2022 and 2021, respectively. The crediting interest rate is calculated on a daily basis.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

4. Information Certified by Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA for 2022 and 2021. Accordingly, TIAA and VALIC, the custodians of the Plan, have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2022 and 2021 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022, and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2022 and 2021.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

- Registered investment companies and money market funds are based on each account's daily net asset value (NAV), which is considered by plan management to be the best approximation of fair value. Data for NAVs are available daily to plan administrators and client investors on TIAA's website, and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. The fair value is readily determinable, and inputs are considered to be Level 1 in the fair value hierarchy. NAVs for funds, other than TIAA funds, are determined by obtaining quoted prices on nationally recognized securities exchange.
- TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by the Plan Administrator to be the best approximation of fair value. The unit value of the fund is calculated daily and available to plan administrators and client investors on TIAA's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer or cash withdrawal requests. There are no unfunded commitments from participants in the Plan who invest in this account. The fair value is readily determinable, and inputs are considered to be Level 1 in the fair value hierarchy.

Stevens Institute of Technology Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022 and 2021

- TIAA Traditional Annuity contracts are reported at contract value or fair value based on whether the contract is fully benefit-responsive. The RA contract is not fully benefit-responsive and is reported at fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3 measurements). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Contract value is deemed to approximate fair value for RA contracts based on observation of recent participant investments at contract value and by comparison of historical and current yields of highly rated long-term corporate bonds to historical and current crediting interest rates of the contracts, taking into consideration the liquidity restrictions applicable to the contracts. SRA and GSRA contracts are fully benefit-responsive and are reported at contract value. TIAA plan loan default balances are invested in the TIAA Traditional Annuity.

See Note 3 for discussion of the TIAA Traditional Annuity.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments as of December 31, 2022:

6. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of the investment security such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2022 and 2021, the Plan had investments of \$126,931,735 and \$140,264,491, respectively, that were concentrated in two funds.

7. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances.

8. Related-Party and Party in Interest Transactions

Certain of the Plan's investments are managed by the custodians VALIC and TIAA, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net (depreciation) appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

9. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes the Plan is operating in accordance with the applicable requirements of Section 403(b) of the IRC and therefore believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
