Independent Auditors' Report

To the Plan Administrator and Participants of the
Johnson C. Smith University Defined Contribution Retirement Plan
Charlotte, North Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Johnson C. Smith University Defined Contribution Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021 and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Johnson C. Smith University Defined Contribution Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Johnson C. Smith University Defined Contribution Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Johnson C. Smith University Defined Contribution Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Johnson C. Smith University Defined Contribution Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Johnson C. Smith University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2022

1. Plan Description

The following description of the Johnson C. Smith University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that operates under Section 403(b) of the Internal Revenue Code covering all employees of Johnson C. Smith University (the "College" or "Employer"), except for students. Employees are eligible to contribute to the Plan immediately upon hire. Employees will be eligible for Employer contributions after one year of service in which they have worked at least 1,000 hours provided that they have reached age 26. This service requirement is waived if the participant already has existing TIAA and CREF contracts on his/her date of employment. If the employee was employed by another non-profit entity immediately before his/her date of employment, his/her waiting period is reduced to six months. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan moved to a new platform at TIAA-CREF. Mutual funds are now available as investment options. The Plan also now allows Retirement Plan Loans from those mutual funds.

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains approximately 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Accordingly, there is no material impact to the Plan's 2022 financial statements.

Contributions

Each year, participants may contribute amounts up to the allowable deferral limit defined by the Internal Revenue Service ("IRS"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Eligible participants with at least 15 years of service may also be able to make special catch-up contributions. The Plan Sponsor match is discretionary and is determined by the College. In 2022 and 2021, the discretionary match was 100 percent up to 5 percent of eligible compensation. Contributions are subject to certain regulatory limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and (a) the College's discretionary matching contributions and (b) allocations of plan earnings and losses. Allocations of Plan earnings and losses are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions into selected investment options as made available and determined by the Plan Administrator. Participants have daily access to their investment balances. Changes are self-directed by the participants through the internet or by telephone transfers.

Johnson C. Smith University

Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2022

Payment of Benefits

A participant's vested account balance is distributed in a single life annuity, joint and survivor annuity, lump sum payment, fixed period annuity, or installment payments, based on his or her election under the Plan Document, upon retirement (age 65), death, disability or termination of employment. Participants may receive in-service withdrawals from their elective deferral account upon reaching 59 ½ years of age. Participants may also receive hardship distributions from their elective deferral account.

Vesting

Participants are immediately vested in their voluntary contributions and employer contributions plus actual earnings thereon.

Administrative Expense

Certain administrative expenses are paid by the Employer. Investment management fees paid by the Plan are included in net depreciation of the fair value of investments on the statement of changes in net assets available for benefits. The Variable Annuity Life Insurance Company ("VALIC") fees for certain participant requested services are paid by the VALIC account participants and are included in administrative expenses.

Notes Receivable from Participants

Participants may borrow from their mutual fund investment accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their mutual funds balances, limited to three outstanding loans. The loans are secured by the balance in the participant's mutual fund investments and bear interest at the rate of prime plus 1 percent, which is commensurate with prevailing rates as determined by the Plan Administrator. Current loans bear rates equal to 4.25 to 7.25 percent. Principal and interest is paid ratably through plan contributions made to the mutual fund investments directly by the participant to the Plan.

Plan Loans

Participants may borrow directly from TIAA and CREF or VALIC, the contract holders of the Plan. The collateral is held in the fixed annuity contracts. The minimum loan is \$1,000 and may be up to the lesser of \$50,000 or 50 percent of their account balance. The loan interest rate for these Plan loans may be fixed or variable and the initial rate is determined by the terms of the controlling contract as are the rate adjustment details and frequency. These amounts are not considered assets of the Plan. There were \$42,179 in Plan loans in default at December 31, 2022.

VALIC Loans-Adequate security is required, and a portion of the participant's account is reserved, or held in collateral, to cover 110 percent of the outstanding loan in case of default.

TIAA Loans-TIAA is no longer offering new plan or policy loans, however current loans issued before August 2021 will continue to be administered. These loans are limited to:

- 45 percent of the combined accumulations attributable to the funding vehicles under the plan, or
- 90 percent of the CREF and TIAA Real Estate accumulation attributable to participation under this Plan for retirement loans, or
- 90 percent of the TIAA Annuity accumulation attributable to participation under this Plan for a Group Supplemental Retirement Annuity (GSRA) loan.

2. Summary of Significant Accounting Policies Accounting Records

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2022. There were \$6,196 in loans deemed to be in default during the 2022 plan year.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value, other than the fully benefit responsive insurance contracts, which are reported at contract value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date (the exit price). The Plan's valuation policies are determined by utilizing information provided by VALIC and TIAA and CREF.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments are recorded when paid.

3. Unaudited Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 (c) and (d) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA, CREF, and The Variable Annuity Life Insurance Company have certified that the following data included in the accompanying financial statements is complete and accurate.

<i>December 31,</i>	2022	2021
Variable annuities-pooled separate account	\$ 1,627,572	\$ 1,459,743
Variable annuities-registered investments	\$ 21,293,851	\$ 28,329,537
Mutual funds	\$ 872,166	\$ 253,019
Non-fully benefit responsive fixed annuity contracts	\$ 9,061,778	\$ 9,214,691
Fully benefit responsive fixed annuity contracts	\$ 2,008,995	\$ 2,196,964
Notes receivable from participants	\$ 25,427	\$ 3,925

<i>Year Ended December 31,</i>	2022
Net depreciation in fair value of investments	\$ (5,312,205)
Interest on fixed annuity contracts	\$ 446,743
Dividend income	\$ 18,066

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to related information in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Johnson C. Smith University

Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2022

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2022 and 2021.

Mutual Funds: Mutual funds are registered investments that are valued at their net asset value ("NAV") of shares held by the Plan.

Variable Annuities-Registered Investments: These are variable annuity products that hold registered investments that invest principally in equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments and fund holdings are primarily valued using market quotations or prices obtained from independent pricing sources that employ various pricing methods to value the investments including matrix pricing. Money market account holdings are generally valued at amortized cost. On a daily basis, units in these investments are revalued to reflect performance of the underlying investments minus any fees and charges and are valued using NAV as readily determinable fair value.

Variable Annuities-Pooled Separate Account: This is a variable annuity product that holds a pooled separate account. The investment is stated at fair value as determined in accordance with the policies and procedures reviewed by the Investment Committee of TIAA. The value of the units held in the pooled separate account is calculated using the net asset value per share of the underlying investments as a practical expedient. The underlying real estate holdings are valued principally utilizing external appraisals and involve significant judgment. Appraisals can be subjective in certain respects and rely on a variety of assumptions and conditions at the respective property or in the market in which the property is located, which may change materially after the appraisal is conducted.

The TIAA pooled separate account provides participants with a liquidity guarantee enabling the account to have funds available to meet participant redemption, transfers, or cash withdrawals. TIAA guarantees that participants can redeem their accumulated unit value determined after their transfer or cash withdrawal request is received in good order.

Fixed Annuity Contract: Participants who have elected the traditional annuity contract have entered into contracts with TIAA and CREF, including those in the format of Retirement Annuities ("RA") and Group Supplemental Retirement Annuities ("GSRA"). TIAA and CREF maintain contributions in general accounts, and participant accounts are credited with a guaranteed minimum rate of interest on the underlying investments and charged with participant withdrawals and any administrative expenses. Contracts buy a contractual or guaranteed amount of future benefits. RA contract account balances may only be withdrawn in 10 annual installments and therefore are not considered to be fully benefit responsive while GSRA's are fully benefit responsive investment contracts because they are fully liquid and cashable upon a participant's termination from the Company. All traditional non-benefit responsive annuity contracts are included in the financial statements at fair value as reported by TIAA and CREF, which is consistent with management's determination of fair value using the income approach. Fully benefit responsive contracts are reported at contract value, and therefore not included within the fair value hierarchy.

Notes to Financial Statements December 31, 2022

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize significant assets as of December 31, 2022 and 2021, segregated by the level of the valuation inputs within the fair value hierarchy:

Investments at Fair Value as of December 31, 2022

Notes to Financial Statements December 31, 2022

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2022:

	Non Benefit Responsive Fixed Annuity Contracts
Balances , beginning of year	\$ 9,214,691
Interest income	374,571
Purchases	151,614
Sales	(635,667)
Net transfers	(43,431)
Balances , end of year	\$ 9,061,778

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Investment	2022 Fair Value	2021 Fair Value	Valuation Technique	Significant Inputs	Range
Non Benefit- Responsive Contracts	\$9,061,778	\$9,214,691	Discounted Cash Flow	Risk-Adjusted Discount Rate	3%-5%

5. Investments that Trade at NAV Per Share as a Practical Expedient

The following table sets forth additional disclosures of the investments whose fair value is estimated using net asset value per share or its equivalent as a practical expedient as of December 31, 2022 and 2021 for the Plan:

Fair Value Estimated Using Net Asset Value per Share December 31, 2022					
Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
Variable annuities-pooled separate account	\$ 1,627,572	\$ -	Daily	None	None

6. Investment Contracts with TIAA and CREF and VALIC

The Plan has fixed annuity investment contracts with TIAA and CREF and VALIC. TIAA and CREF and VALIC maintain the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the fixed annuity investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA and CREF and VALIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. TIAA and CREF and VALIC indicate that contract value approximates fair value for these investments at December 31, 2022 and 2021. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring. The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following table summarizes the contract value of fully benefit-responsive investment contracts held as of December 31, 2022 and 2021:

<i>December 31,</i>	2022	2021
VALIC Fixed Account Plus	\$ 99,053	\$ 114,296
VALIC Short Term Fixed Account	\$ 28,549	\$ 27,660
TIAA Traditional Accounts	\$ 1,881,393	\$ 2,055,008

7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, the amounts credited to the accounts of the participants shall be distributed to the participants or their beneficiaries under the terms of the Plan agreement.

8. Tax Status

The Plan Administrator and the Plan's management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code ("IRC") and therefore believe the Plan is qualified and the related trust is tax-exempt. In June 2020, the Plan was restated to the TIAA Simplified Volume Submitter Plan Document, and that document received an opinion letter from the IRS dated August 7, 2017 that the form of the plan document was acceptable under section 403(b) of the IRC. The restatement was effective as of January 1, 2010.

The Plan has filed through the IRS' Voluntary Compliance Program to correct an operational issue that was found related to matching contribution formulas. The amount of the correction is estimated at \$512,119, which includes lost earnings. This amount was included in the 2020 employer contributions receivable and was remitted to the Plan in July 2021.

9. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, and credit volatility. Market risks include U.S. and global events that could impact the value of Plan investments. Such events may include public health emergencies such as a pandemic, as well as international conflicts, cybersecurity attacks, supply chain disruptions, global monetary policy decisions, inflation, significant economic influences, and other adverse credit and market events and conditions. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Related Party and Party-in-Interest Transactions

The Plan has various investments in funds managed by TIAA and CREF and VALIC, the certifying entities. Transactions with these parties qualify as party-in-interest transactions. Fees incurred by the plan for certain member services with VALIC and TIAA are paid directly to the Plan. The College pays directly for certain other fees related to the plan's operations.

11. Subsequent Events

The Plan has evaluated subsequent events through October 31, 2023, the date the financial statements were available to be issued.
