Jupiter Aluminum Corporation 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Jupiter Aluminum Corporation 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge and belief.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

Note 1. Plan Description

The following description of Jupiter Aluminum Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan for the benefit of eligible employees of Jupiter Aluminum Corporation, Jupiter Coil Coating Division and Jupiter Oxygen Corporation (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Investment Committee is responsible for oversight of the Plan.

Eligibility: Employees who have attained 21 years of age and have completed one year of service (defined as 1,000 hours worked within a 12-month period) are eligible to participate in the Plan. Eligible participants may enter the Plan on the first day of the month coinciding with or the next following date that eligibility requirements are met. Those who defer compensation to contribute to the Plan are eligible to receive Company matching contributions immediately.

Contributions: Eligible participants are automatically enrolled in the Plan upon meeting the eligibility requirements if a formal election not to participate is not made by the employee. An automatic deferral of 2% is deferred from eligible compensation of all new employees that become eligible and do not provide a formal election to the Plan. Effective June 1, 2019, the deferral percentage automatically increases by 1% each year until it reaches the maximum of 12% of eligible compensation or the Internal Revenue Code (IRC) limit in accordance with Plan provisions, unless the participant elects to opt out of the automatic increase. A participant may elect to make before-tax contributions or Roth after-tax contributions up to 90% of eligible compensation, subject to limitations by the IRC limit. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are allowed rollover contributions from other qualified defined benefit or contribution plans.

The Company makes safe-harbor matching contributions equal to 100% of the participant's contribution up to 5% of the participant's eligible compensation. This contribution is calculated and remitted on a pay-period basis and a true-up contribution calculated at year-end, if any. The Company may also make separate discretionary matching and profit sharing contributions. Employer discretionary matching contributions are calculated based on the ratio of participant contributions to compensation for the plan year. There were no Company discretionary matching and profit sharing contributions during the plan year 2022. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions, Company safe-harbor matching contribution, Company discretionary matching contribution, if any, as well as allocations of the Company profit sharing contribution, if any, and plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings (losses), account balances, or specific transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Participants are immediately fully vested in participant and Company safe-harbor matching contributions, plus actual earnings thereon. Participants vest in the Company's discretionary matching and profit sharing contributions and earnings thereon based on years of continuous service. A participant vests 20% after one year of credited service and vests an additional 20% each year thereafter until the participant is fully vested after five years of credited service. In the event of death, disability or retirement at designated ages, participants become fully vested.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Forfeited accounts: At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$3,598 and \$1,860, respectively. These accounts may be used to pay plan expenses or reduce any Company contribution. For the year ended December 31, 2022, there was no usage of the forfeited nonvested accounts.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Other income: The Plan has a revenue agreement with ADP Retirement Services (ADP), whereby the Plan receives revenue sharing payments from ADP to pay administrative expenses that the Plan incurs. For the year ended December 31, 2022, the Plan earned \$48,049 from this revenue sharing agreement, all of which were used to pay administrative expenses. As of December 31, 2022 and 2021, the balance in the Plan Administrator account which holds these revenue-sharing payments totaled \$30 and \$25, respectively.

Payment of benefits: Benefits under the Plan are payable to participants or their beneficiaries upon death, retirement, disability, or termination of employment. A participant's vested accrued benefit shall be paid in the form of a lump sum or installment payments. In-service withdrawals are permitted by the Plan upon attainment of age 59½ or by determination that a financial hardship, as defined, has been incurred. The Plan provides that vested account balances less than \$5,000 are automatically distributed as a lump-sum payment without participant consent.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000, reduced by the greatest note balance outstanding during the prior 12 months, or 50% of their vested account balances. A participant may only have one note outstanding at any given time. The loan repayment period is not to exceed five years except for the purchase of a principal residence. The loans are collateralized by the balance in the participant's account and bear an interest rate of 1% over the prime rate published in *The Wall Street Journal* on the first business day of the month before the loan is originated. Principal and interest are paid through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Accounting estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Delinquent loans are treated as distributions based upon the terms of the plan document.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for discussion of fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of a receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation or depreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 19, 2023, the date the financial statements were available to be issued.

Note 3. Information Certified by Reliance Trust Company, the Trustee

The following is a summary of the Plan's asset and income information as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee as of December 31, 2022 and 2021, and for the year ended December 31, 2022, is, to the best of their knowledge and belief, complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental information related to the following assets and income:

	2022	2021
Shares of registered investment companies, at fair value	\$ 12,222,582	\$ 14,452,783
Units of common/collective trusts, at fair value	4,375,552	4,083,997
Notes receivable from participants	712,587	844,858
Net appreciation in fair value of investments	(3,529,398)	
Interest and dividends	595,000	
Interest income on notes receivable from participants	36,491	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Jupiter Aluminum Corporation 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Units of common/collective trusts: Valued based on the NAV of units of the common/collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2022 and 2021:

	2022			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 12,222,582			\$ 12,222,582
Total assets in the fair value hierarchy	\$ 12,222,582	\$ -	\$ -	12,222,582
Investments measured at NAV (a)				4,375,552
Total investments at fair value				\$ 16,598,134

Jupiter Aluminum Corporation 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

	2021			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 14,452,783			\$ 14,452,783
Total assets in the fair value hierarchy	\$ 14,452,783	\$ -	\$ -	14,452,783
Investments measured at NAV (a)				4,083,997
Total investments at fair value				\$ 18,536,780

(a) In accordance with Subtopic 820-10, certain investments measured at NAV per share (or its equivalent) are not classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per unit as of December 31, 2022 and 2021:

	Fair Value		Unfunded Commitment		Redemption Frequency	Redemption Notice Period
	2022	2021	2022	2021		
Invesco Stable Asset Fund— Class ADPZ	\$ 3,451,585	\$ 3,033,653	\$ -	\$ -	Monthly	12 months
Wilmington Pioneer Bond Fund TR R1	923,967	1,050,344	-	-	Daily	None
	\$ 4,375,552	\$ 4,083,997	\$ -	\$ -		

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers in or out of Level 3.

Note 5. Related-Party and Party-in-Interest Transactions

The Plan's investments are held by and invested by Reliance Trust Company, the trustee, as defined by the Plan. ADP Retirement Services is the recordkeeper. UBS Financial Services Inc. is the investment advisor. These transactions qualify as party-in-interest transactions. Total administrative expenses paid by the Plan to service providers totaled \$113,688 for the year ended December 31, 2022.

Certain administrative expenses are paid by the Company. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contribution.

Jupiter Aluminum Corporation 401(k) Plan

Notes to Financial Statements

Note 7. Tax Status

Effective July 11, 2022, the Plan adopted a non-standardized defined contribution pre-approved plan sponsored by ADP, LLC. The defined contribution pre-approved plan has received an opinion letter from the Internal Revenue Service as to the defined contribution pre-approved plan's qualified status. The defined contribution pre-approved plan opinion letter has been relied upon by the Plan. The Plan has been amended since the pre-approved plan received the opinion letter. The Company believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits at December 31, 2022 and 2021, per the financial statements to Form 5500:
