Independent Auditor's Report

October 20, 2023

To the Participants, Plan Administrator and Trustees of the
Moore's Tire Sales, Inc. 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Moore's Tire Sales, Inc. 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or Federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the years then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the ***Auditor's Responsibilities for the Audits of the Financial Statements*** section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the ***Auditor's Responsibilities for the Audits of the Financial Statements*** section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit*** section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material

misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MOORE'S TIRE SALES, INC. 401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of the Plan

The following description of the Moore's Tire Sales, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan under Section 401(a) of the Internal Revenue Code and has a Section 401(k) salary deferral arrangement, which has been adopted by Moore's Tire Sales, Inc. (the "Company"). All assets acquired under the Plan are the result of employer or participant contributions thereto, and all income and other additions thereto are administered, distributed, forfeited, or otherwise governed by the provisions of the Plan and the Employee Retirement Income Security Act of 1974 (ERISA).

Plan amendment and restatement - In January 2022, the Plan was amended and restated to comply with current required Internal Revenue Service rules and regulations.

Eligibility - The Plan covers all full-time employees of the Company. Eligible employees that are at least eighteen years old can begin participating in the Plan immediately after six months of service.

Contributions - Participants are allowed to make elective 401(k) salary deferrals up to the maximum amount allowed by the Internal Revenue Code. In addition, Participants who have attained age fifty before the end of the plan year are eligible to make catch-up contributions. Participants are allowed to make rollover contributions to the Plan.

The Company may make discretionary matching contributions equal to a percentage of the participant's deferrals determined annually by the Board of Directors. Discretionary matching contributions were \$43,517 and \$46,552 for the years ended December 31, 2022 and 2021, respectively.

Investment options - Upon enrollment in the Plan, a participant may direct contributions in any of the Plan's investment options offered by the Plan. Participants can access their account information via the third-party administrator's website where they have the ability to change their investment options.

Participant accounts - Each participant's account is credited with the participant's elective salary deferral contribution, the Company's discretionary matching contributions, plan earnings and administrative expenses. Allocation of participant elective deferrals, the Company's discretionary matching contributions and forfeitures are based on compensation. Allocation of plan earnings and administrative expenses are based on participant account balances, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting - Participants are fully vested in their 401(k) salary deferral contributions plus actual earnings thereon. Vesting in the remainder of their account is based on years of continuous service. A participant is 100% vested in any employer discretionary matching contributions after six years of service.

Forfeitures - Forfeitures may be used to reduce future employer contributions and/or pay certain administrative expenses. There were \$3,228 and \$2,075 of available forfeited, non-vested accounts as of December 31, 2022 and 2021, respectively. There were no forfeitures used for the years ended December 31, 2022 and 2021.

Payment of benefits - Benefits are paid according to the vested interest to which participants are entitled upon retirement, termination, death or disability. Upon termination, retirement, death, or disability, benefits are distributed to the participant or beneficiary in a lump sum payment at the request of the participant or beneficiary.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one note per participant can be outstanding at one time. The note will bear a reasonable rate of interest, similar to that which a bank or other professional lender would charge for making a similar note. Interest rates vary from 3.25% to 6.25% as of December 31, 2022. The note will be repaid through payroll deductions; however, in no instance may the terms of the repayment be greater than five years, unless the note is used to acquire a personal residence for which the period cannot exceed thirty years. The note is secured by the vested balance in the participant's account. According to requirements of the program, the plan administrator will consider a note in default if any scheduled payment remains unpaid beyond the last day of the calendar quarter following the calendar quarter in which the participant missed the scheduled payment. Any notes that are in default as defined by the plan document are reported as either deemed distributions or benefit payments.

Deemed distributions - Deemed distributions represent the amount of unpaid principal on notes receivable from participants who are actively participating in the Plan and have not continued to make payments on the outstanding notes as required by the plan document. There were \$1,981 and \$25,058 of deemed distributions for the years ended December 31, 2022 and 2021, respectively.

Plan termination - Although the Company has not expressed any intent to do so, it has the right under the plan agreement to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants will become 100% vested in their account balances.

Note 2 - Summary of significant accounting policies

Method of accounting - The Plan maintains its accounting records and financial statements on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the reporting period. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and overall market risk. Market risks include domestic and global events which could impact the value of investment securities, such as economic concerns, i.e., inflation and international conflicts, respectively. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Investment valuation and income recognition - Investments held by the Plan primarily consist of pooled separate accounts, which are stated at net asset value (NAV); see below, with the exception of the Nationwide Life Insurance Company ("Nationwide") Fixed Selection Option Account, which is considered fully benefit-responsive and therefore valued at contract value (see Note 3). All investment values have been determined and certified by Nationwide Trust Company, FSB and Nationwide Life Insurance Company, the Custodians of the Plan (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year and interest and dividends earned. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Pooled separate accounts invest primarily in equities, bonds and registered investment securities (i.e., mutual funds), which are mainly publicly traded securities. Pooled separate accounts are valued at NAV per share, which serves as a practical expedient to estimate its fair value as reported by the sponsor of the fund. This practical expedient would not be used if it were determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The NAV of each pooled separate account is not publicly quoted in the active markets. Each pooled separate account can be redeemed at NAV as of the measurement date and can be redeemed on a daily basis. There were no unfunded commitments or redemption restrictions on these investments as of December 31, 2022 and 2021. Investments measured at NAV per share used as a practical expedient are not required to be classified in the fair value hierarchy.

Economic dependency and concentration of credit risk - All of the Plan's investments are held and administered by Nationwide Trust Company, FSB and Nationwide Life Insurance Company. Accordingly, the Plan is dependent upon the financial condition of these companies.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Management individually reviews all notes receivable balances that exceed forty-five days from the date of the most recent payment and based on the assessment of credit worthiness, estimates the portion, if any, of the balance that

will not be collected. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible notes receivable from participants become material. If a participant defaults on a note receivable and full distribution from the participant account has been made during the plan year because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statements of changes in net assets available for benefits and deducted from the receivable balance.

Payment of benefits - Benefits are recorded when paid.

Excess contributions payable - Excess contributions payable represent excess employee salary deferral contributions owed to certain participants in order to satisfy the relevant nondiscrimination provisions of the Plan. The excess employee contributions (“corrective distributions”) are generally returned to the affected participants subsequent to year end, net of any investment earnings thereon (see Note 7). There were no excess contributions payable nor corrective distributions for the year ended December 31, 2022. There were \$1,835 of participant contributions and \$530 of employer match contributions for the year ended December 31, 2021, that were found to be ineligible by the third-party administrator, due to certain participants contributing not being fully eligible to enter the Plan. As such, the total of \$2,365 is included in the excess employee contributions payable on the statements of net assets available for benefits as of December 31, 2021. The participant contributions were refunded to the participants and the employer matching contributions were forfeited during 2022. Furthermore, these amounts reduced the participant and employer contributions, respectively, on the statements of changes in net assets available for benefits for the year ended December 31, 2021.

Administrative expenses - Administrative costs, including maintaining participant accounts, legal and auditing costs, are the obligation of the Plan; however, the plan sponsor may pay for such expenses or reimburse the Plan for any payment of these expenses. Costs of managing the investments are paid directly out of the plan assets (see Note 5).

Subsequent events - Management has evaluated subsequent events through October 20, 2023, the date that the financial statements were available for issue.

Note 3 - Fully benefit-responsive investment contract

The Plan holds an investment in Nationwide Life Insurance Company Fixed Selection Option Account, a fully benefit-responsive investment contract that is stated in accordance with the Financial Accounting Standards Board’s authoritative guidance regarding accounting for fully benefit-responsive investment contracts held by certain investment companies, which states that contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. Investments measured at contract value are not required to be classified in the fair value hierarchy.

The crediting interest rates of the contract are based on agreed upon formulas with the issuer, as defined in the contract agreements, but subject to a minimum rate described in the contract. Such interest rates are reviewed on a semi-annual basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into/out of the contract and the duration of the underlying investments backing the contract.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the sponsor or other sponsor event (e.g., divestures or spin offs of a subsidiary) that causes a significant withdrawal from the Plan; (iv) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA; or (v) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (i) an uncured violation of the Plan's investment guidelines; (ii) a breach of material obligation under the contract; (iii) a material misrepresentation; and (iv) a material amendment to the agreement without the consent of the issuer.

Note 4 - Information certified by the Plan's Custodians

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held as of December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Nationwide Trust Company, FSB and Nationwide Life Insurance Company, the Custodians of the Plan. Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to the information except to compare such information to the related information included in the financial statements and ERISA-required supplemental schedule.

Note 5 - Related party transactions

The Plan's investments are managed by Nationwide Trust Company, FSB and Nationwide Life Insurance Company, the Custodians of the Plan. Fees paid for these services qualify as party-in-interest transactions and are included in the net appreciation (depreciation) in investments in the accompanying statements of changes in net assets available for benefits.

The Plan pays for certain expenses related to plan operations and investment advisory to various service providers, which are party-in-interest transactions under ERISA and are included in administrative expenses on the accompanying statements of changes in net assets available for benefits, as follows: Nationwide and NFP Corporate Services (NY), LLC to provide recordkeeping and third-party administrative services and Kestra Advisory Services, LLC to provide investment advisory services. Fees paid for these services amounted to \$35,433 and \$44,150 for the years ended December 31, 2022 and 2021, respectively.

Note 6 - Reconciliation of the financial statements to Form 5500

Employer and participant contributions are reflected in the financial statements when receivable by the Plan using the accrual method of accounting, as explained in Note 2; however, the Form 5500 is prepared using the cash method of accounting to record contributions in the year received by the Plan. Corrective distributions, net of any investment earnings, are recorded in the financial statements in the plan year that the excess contributions are received, as explained in Note 2. Corrective distributions are recorded on Form 5500 in the plan year that they are paid. While completing the 2021 plan administration and recordkeeping in 2022, the third-party administrator found that there was a participant note receivable outstanding as of December 31, 2021, for \$15,962 for a participant who was terminated in July 2021, and therefore, should have been reported as a deemed distribution. Therefore, this amount was reported on the statements of changes in net assets available for benefits as a deemed distribution for the year ended December 31, 2021, but not on the Form 5500. Additionally, the amount of participant notes receivables outstanding were reduced by this amount on the statements of net assets available for benefits for the year ended December 31, 2021, but not on the Form 5500. The third-party administrator nor the Custodian have not yet corrected this deemed distribution for the year ended December 31, 2022, and have included the participant note receivable on the 2022 Form 5500; see reconciliation below.

There are reconciling items between amounts reported on the financial statements and Form 5500 for these items discussed above, as follows:

	December 31,	
	2022	2021
Net assets available for benefits per the financial statements	\$ 6,574,838	\$ 8,922,471
Less - Employer contributions receivable	(770)	(1,499)
Less - Participant contributions receivable	(3,087)	(3,414)
Add - Amount of deemed distribution, reported as outstanding loan on Form 5500	15,962	15,962
Add - Amounts allocated to excess employee contributions payable	-	5,157
Net assets available for benefits per Form 5500, Schedule H, Part I, Line 11	<u>\$ 6,586,943</u>	<u>\$ 8,938,677</u>

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to net income per the Form 5500:

	Year ended December 31,	
	2022	2021
Net increase (decrease) per the financial statements	\$ (2,347,633)	\$ 371,704
Change in employer contributions receivable	729	247
Change in participant contributions receivable	327	3,887
Unpaid corrective distributions to participants	-	2,792
Contributions to the Plan, refunded to participants and employer contributions forfeited during 2022	-	2,365
Amount of deemed distribution, reported as outstanding loan on Form 5500	-	15,962
Paid corrective distributions to participants Schedule H, Part II, Line 2f	(5,157)	(2,161)
Adjustment for under accrual of excess contributions payable	-	363
Net income per Form 5500, Schedule H, Part II, Line 2k	<u>\$ (2,351,734)</u>	<u>\$ 395,159</u>

Furthermore, the Form 5500 has certain investment balances, income and expense items that differ from amounts shown on the accompanying financial statements. These differences relate to classification and rounding only and have no effect on the net assets available for benefits as of December 31, 2022 and 2021, nor changes in net assets available for benefits for the years then ended.

Note 7 - Tax status of plan

The Plan has adopted NFP Corporate Services (NY), LLC's Adoption Agreement #005 Non-Standardized 401(k) Profit Sharing Plan. The Internal Revenue Service has determined and informed the plan sponsor that the Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the management of the Company and the plan administrator are not aware of any matters that would disqualify the Plan. Accordingly, the Plan has been accounted for as a tax-exempt plan.

The Plan has reviewed its operations for uncertain tax positions and believes there are no significant exposures. The Plan will include penalties and interest on income tax liabilities in administrative expenses if such amounts arise. The Plan did not incur any penalties and interest for the years ended December 31, 2022 and 2021. The Plan is no longer subject to regulatory examinations by tax authorities for the closed years before 2019.
