Notes to Financial Statements

December 31, 2020 and 2019

Plan Description

The following description of the Axiom Plastics, LLC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Axiom Plastics, LLC (the "Company") who are age 21 and older and have completed a minimum of 250 hours of service during their first three months of employment or one year of service as defined in the Plan agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Effective December 1, 2017, the Plan provides for employee salary 401(k) contributions on a pretax and after-tax basis up to a maximum of 90 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. The Plan also provides for Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan also provides for discretionary non-elective contributions as determined on an annual basis by the Company. The Company made no such discretionary non-elective contributions in 2020 or 2019.

Contributions are subject to certain limitations. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Plan Description (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company discretionary non-elective contribution portions of their accounts plus earnings thereon is based on years of continuous service according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

CARES Act

On March 27, 2020, President Trump signed into law the "Coronavirus Aid, Relief, and Economic Security (CARES) Act." The CARES Act, among other things, included several relief provisions available to tax-qualified retirement plans and their participants. Plan management evaluated the relief provisions available to plan participants under the CARES Act and implemented the following provisions for 2020:

- Emergency coronavirus distributions up to \$100,000
- Suspension of Required Minimum Distributions for 2020

Payment of Benefits

Under the Plan, a participant receives the full value of his or her vested account balance upon retirement, termination of employment or disability. Beneficiaries are entitled to the participant's account upon the participant's death. The Plan also provides for employees to make in-service withdrawals from their account under certain "hardship" circumstances. The Plan also provides for in-service distributions of a participant's vested interest in his or her account for employees who reach age 59 ½ while still employed with the Company. Benefits are paid in a lump-sum.

Forfeited Accounts

At December 31, 2020 and 2019, there were no forfeited non-vested accounts. Forfeitures are first used to offset Plan administrative expenses and then allocated to participants in the year the forfeitures are incurred. No forfeitures were used to pay administrative expenses or were allocated to participants during 2020 or 2019.

Administrative Expenses

The Plan's administrative expenses are paid by the Plan to the extent not paid by forfeited non-vested accounts or by the Company, as provided by the Plan agreement.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Information Prepared and Certified by the Investment Custodians

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that was prepared and certified to as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) and Principal Life Insurance Company (Principal Life), on behalf of Principal Global Investors Trust Company (Principal Global), the custodians of the Plan, as of December 31:

Information Prepared and Certified by the Investment Custodians (continued)

The custodians also certified the completeness and accuracy of the following related to the aforementioned assets for the years ended December 31:

	2020	2019
Net appreciation in fair value of investments	\$ 177,534	\$ 140,144
Interest and dividend income	2,592	1,317

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
- Level 2 Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
- Level 3 Inputs are significant unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual Funds: Valued at the quoted market prices of shares held by the Plan at year-end.

*Pooled
Separate
Accounts:* Valued at the fair value of the underlying investments as reported to the Plan by the custodians.

*Collective
Investment
Trusts:* Valued at the fair value of the underlying investments as reported to the Plan by the custodians.

AXIUM PLASTICS, LLC 401(k) PLAN

Notes to Financial Statements

December 31, 2020 and 2019

Fair Value Measurements (continued)

*Stable
Value
Fund:*

Valued at the net asset value (NAV) provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31, 2020 and 2019. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 152,741	\$ -	\$ -	\$ 152,741

Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2019

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the participant's accounts will become fully vested.

Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable opinion letter from the IRS dated February 1, 2018.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds, pooled separate accounts and common collective trusts managed by the custodians of the Plan and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan amounted to \$14,105 and \$9,984 during 2020 and 2019, respectively.

AXIUM PLASTICS, LLC 401(k) PLAN

Notes to Financial Statements

December 31, 2020 and 2019

Prohibited Transactions

During 2018, the Company failed to remit participant contributions in a timely manner. The Company identified five instances for a total of \$20,277 in which participant contributions were not remitted within the period prescribed by Department of Labor (DOL) regulations. During 2020, additional participant contributions were not remitted in a timely manner. The Company identified twelve instances for a total of \$40,738. As of the date of the Independent Auditor's Report, a total of \$30,835 of delinquent contributions have been remitted into the plan and plan management is working on making the appropriate corrections for the remaining delinquent participant contributions.

Corrective Distributions Payable

The Plan is subject to certain non-discrimination rules under ERISA and the Internal Revenue Code. For the Plan years ended December 31, 2020 and 2019, the Plan failed certain non-discrimination tests. In order to meet the requirements of the non-discrimination rules, the Plan is required to refund a portion of the contributions made by highly compensated participants. The corrective distributions related to this totaled \$167,525 and \$149,114 for the years ended December 31, 2020 and 2019, respectively and are recorded as corrective distributions payable in the statements of net assets available for benefits and corrective distributions in the statements of changes in net assets available for benefits. The Plan refunded the 2019 excess contributions in March 2020. As the excess contributions for 2018 was not refunded prior to December 31, 2019, an additional qualified non-elective contribution (QNEC) was required from the plan sponsor in an amount equal to the excess contribution refunded to the affected participants. Total remaining participant balances requiring corrective distributions totaled \$56,881 as of December 31, 2019 which included \$7,356 in earnings on prior year correction totals that were recorded as corrective distributions in the statement of changes in net assets available for benefits during 2019. The corrective distribution amounts were distributed to the affected participants in 2020. However, the QNEC has not been made and totaled \$76,165 and \$56,881 as of December 31, 2020 and 2019, respectively. This QNEC receivable will be allocated to non-highly compensated employees based on their compensation and is included as other employer contributions receivable in the accompanying statements of net assets available for benefits. Earnings on the QNEC totaled \$19,284 and \$7,356 during 2020 and 2019, respectively, and are included within other employer contributions in the accompanying statements of changes in net assets available for benefits.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2020 statement of net assets available for benefits.

AXIUM PLASTICS, LLC 401(k) PLAN

Notes to Financial Statements

December 31, 2020 and 2019

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date on which the financial statements were available to be issued.

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023 which included SECURE Act 2.0. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2027. Since SECURE Act 2.0 provisions include both required and optional elements, the plan administrator will determine the optional provisions to elect and amend the Plan document accordingly. Most of the significant provisions will become effective in 2024 and thereafter. Accordingly, there is no material impact to the Plan's 2022 financial statements.

Effective January 1, 2021, the Plan adopted provisions to implement an employer safe harbor contribution. Under the safe harbor provisions, the Company will make a safe harbor matching contribution of 100% of employee contributions up to 4% of plan compensation.
